Prospect Road connects them to destinations, and bicyclists through neighborhoods, as motorists.

The shared use symbol, or sharrows, indicates to both motorists and cyclists that cars and bikes should share the roadway.

Bicyclists should maintain a speed where they can stop within 15 feet of any object in their path (M.V.C. 257.657).

Use Hand Signals

When changing lanes, turn to the left or right, and signal your intention before you move.

Use Lights at Night

Switch on your headlight from 300 feet, red rear reflector or light visible from 100 feet. (M.V.C. 257.666)

Riding on Sidewalks

You are an invited guest in the pedestrian space. Slow down, announce yourself when passing, and always yield to pedestrians. (M.V.C. 257.666c)

Check for a dashed white line and “shares the road” sign at end of bike lane.

When on sidewalks, walk bikes in one hand and watch for cars entering or exiting driveways and parking lots.

When left side is open, or would, or do by using reflective strips or clothing.

Bike Lanes are one way. Travel in the direction of traffic.

Don’t skip a sign at the start of a line.

Instead, ride in a continuous line.

When sharing with motorists, be visible.

Wear light-colored or reflective clothing, especially at night.

SHARE THE ROAD

Obey Traffic Laws, Signs and Signals

You should have the same rights and responsibilities as motorists. (M.V.C. 257.657)

SIGNAL TURNS

LEFT

RIGHT

WEAR A HELMET

Wear a helmet over the forehead, above the eyebrows, not tilted back. It should not move around while riding.

BE VISIBLE

Wear light-colored or reflective clothing, especially at night.
