

## Historical Curbside Recycling Performance

### Definitions

---

Households with Carts	Households at which Recyclebank Has Placed a Cart with a Valid RFID (Not Necessarily Activated)
Participating Households (≥1x/month)	Total Number of Households with Carts That Have Put their Cart Out At Least Once During a Given Month
Participation Rate (≥1x/month)	Participating Households Divided by Households with Carts
Registered Households	Households with Carts That Have Agreed to Recyclebank's Terms of Service
Registration Rate	Registered Households Divided by Households with Carts
Non-Registered Households	Households with Carts - Registered Households
Average Setout Weight	The Total Pounds Credited for Curbside Recycling Divided Among the Total Number of Pickups Within the Indicated Set of Dates
Total Pounds Credited	Sum of Automated Pounds Recycled and Pounds Manually Credited within the indicated set of dates
Manual Pounds Credited	Weight assumed to be recycled when there is a 15% or greater deviation in a given collection route's Set-out Rate / Weight as compared to its rolling-quarterly historical average
% Pounds Manually Credited	Manual Pounds Credited Divided by Total Pounds Credited
Automated Pounds Recycled	Weight calculated by either on-board scales in Individual weight-based (IWB) programs, or by dividing the net-weight of the truck's load of recyclables by the number of households that had RFID-record verified collection in Community-Weight based (CWB) Programs
Average Monthly Weight per Household	Total pounds credited monthly Divided by Households with Carts
Points Earned	All Reward Points Earned by Households For Curbside Recycling Within the Indicated Set of Dates
Points Spent	All Reward Points Spent by Households Within the Indicated Set of Dates
Total Rewards Ordered	Number of Rewards Ordered by Households Within the Indicated Set of Dates
