

Ann Arbor's Compost Carts sold in 35, 64, and 96-gallon sizes

Ann Arbor residents with seasonal curbside compost collection have the option to purchase special compost carts in three sizes for a one-time charge of \$50 each, for any size.

- **Carts may be purchased by contacting the city's Customer Service Center, 220 E. Huron during business hours in person or by phone at (734) 994-2807 and paying by credit card, check, or cash.**
- **Pre-paid compost carts must be picked up from the city's Wheeler Service Center, 4251 Stone School Road near East Ellsworth Road, during normal weekday business hours.**

Starting July, 2008 the compost collection program will not accept resident-supplied compost cans. The city will collect yard waste in city-provided 35, 64, and 96-gallon semi-automated carts as well as continue to accept materials in large paper yard waste bags or twigs tied with natural twine into bundles. Bundled branches may be up to six-inches in diameter, four feet in length, with the overall bundle measuring up to 18-inches in diameter and up to 50 pounds. The compost program accepts yard trimmings, such as leaves, plants, and twigs. *Plastic bags, trash, stones, dirt, sod, animal waste, or food waste are not accepted in the compost program. # # #*
