Notice of Temporary Traffic Control Plan
WEST STADIUM AT PAULINE IMPROVEMENT PROJECT
Construction April 20 to August 2009

Location and Limits of Affected Area:

West Stadium Blvd from the Pauline intersection to Suffolk Street.

Description of Construction:

The road will be reconstructed with the addition of bike lanes on both sides. The water main replaced and the storm sewer will be upsized to provide detention and water quality improvements. New street lights will be added.

Temporary Construction Traffic Control Plan for Stage 2:

Beginning April 27, Pauline Blvd will be closed to eastbound traffic at the intersection. The resulting detour will be Maple to Liberty to Seventh OR Maple to Scio Church to Seventh. Westbound Pauline traffic will be maintained. West Stadium Blvd traffic will be restricted to two lanes between Pauline and Alhambra.

When construction is on the west side of the road, pedestrian traffic will be detoured via Pauline and Alhambra.

During this construction the traffic may experience brief delays within the areas influenced by this work. Detour signs will be posted for this construction; however the motorists are advised to seek alternate routes. To maintain the safety of all, please reduce speeds and drive cautiously through work zones. We thank you in advance for your patience as these necessary public infrastructure improvements are completed.
