Notice of Temporary Traffic Control Plan
MICHIGAN DEPARTMENT OF TRANSPORTATION/CITY OF ANN ARBOR
GEDDES ROAD/US-23 INTERCHANGE & GEDDES ROAD/EARHART ROAD INTERSECTION
IMPROVEMENT PROJECT
April 5 – October 29, 2010

Location and Limits of Affected Area:

Geddes Rd between Earhart Rd and Dixboro Rd, and northbound and southbound US-23 in the vicinity of the Geddes Rd Interchange.

Description of Work:

Road construction related to the improvements at the Geddes Rd/US-23 interchange and the Geddes Rd/Earhart Rd intersection. The Michigan Department of Transportation (MDOT) is overseeing the reconstruction of all entrance and exit ramps at the interchange, the construction of a new pedestrian bridge over US-23 and the construction of three (3) new roundabouts on Geddes Road.

Temporary Construction Traffic Control Plan:

Beginning April 5, 2010 the project contractor will be closing the following roads and ramps in conjunction with work required for the above project.

Westbound Geddes Rd will be closed from the US-23 northbound entrance ramp to the US-23 southbound exit ramp with eastbound traffic being maintained. This condition will remain in place through October, 2010 and westbound traffic will be detoured. Traffic desiring to continue westerly on Geddes Rd from Dixboro Rd into the City of Ann Arbor will be detoured onto northbound US-23 to westbound Plymouth Rd to southbound US-23 and back to Geddes Rd. Northbound US-23 traffic desiring to exit at Geddes Rd and proceed westerly will be directed to continue on northbound US-23 to westbound Plymouth Rd to southbound US-23 back to Geddes Rd. Geddes Rd from the southbound US-23 exit ramp to all points westerly will be maintained for two-way traffic during the project.

The northbound US-23 entrance ramp will be closed to eastbound Geddes Rd traffic (no left turns from eastbound Geddes Rd to northbound US-23) until early July. Eastbound Geddes Rd traffic desiring to enter onto northbound US-23 will be detoured to northbound Dixboro Rd to westbound Plymouth Rd to northbound US-23.

The existing southbound US-23 **entrance ramp** will be permanently closed with traffic detoured for the duration of the project or until such time that the new ramp is open to traffic. Traffic approaching the interchange from east of Dixboro Rd desiring to travel on southbound US-23 will be detoured to southbound Dixboro Rd to westbound Huron River Dr to southbound Hogback Rd to westbound Washtenaw Ave (M-17) to southbound US-23. Traffic approaching from west of Earhart Rd will be directed to westbound Geddes Rd to southbound Huron Pkwy to eastbound Washtenaw Ave (M-17) to southbound US-23.
