

# GIVE 365 and Adopt-a-Park Volunteering

## COVID 19 Precautions

June 2021

The health, safety and comfort of our volunteers, staff, and park patrons is always our top priority. If you are interested in volunteering with us or have a volunteer event already scheduled, please note the updates to the previous COVID guidelines which are no longer in place in response to the most recent [Michigan Department of Health and Human Services Order](#).

The City of Ann Arbor no longer requires employees or volunteers to wear face coverings outdoors regardless of vaccination status. Regardless of the Order and recommendations, we recognize varying levels of comfort with this. It is our commitment to be respectful of each person's decision to wear or not wear a face covering outdoors when gathering and we as staff will do our best to accommodate what will make our volunteers most comfortable.

We continue to ask volunteers to perform a self-screening prior to volunteering with GIVE 365 and stay home if you are not feeling well.

What to bring to your volunteer event

- Please bring your own water and snacks.
- We encourage you to bring your own work or gardening gloves but gloves will be provided during the workday and are washed between each user.

If you have additional questions or would like to customize your volunteer event to your group's preferences, email us at [volunteer@a2gov.org](mailto:volunteer@a2gov.org)
