RE: Barton Drive, M14 to Pontiac Water Main Replacement and Resurfacing Project
Sidewalks
City File No.: 2019-005

Dear Residents and Property Owners,

At the City of Ann Arbor's public meeting on Thursday, September 19, 2019, we heard mixed opinions about installing a sidewalk on the north side of Barton from M14 to 221 Barton with the 2020 Barton Drive Water Main Replacement and Resurfacing Project. We would like to invite you to a field meeting in front of your properties on October 14, 2019 at 5:30pm. User experience and desires will be discussed at this meeting, while we view driver behavior and the topography of the area. We will meet at 151 Barton Drive.

Filling sidewalk gaps would involve special assessments to adjacent property owners, so your opinion matters very much to the city.

Please contact me with any questions or concerns at jallen2@a2gov.org or 734.794.6410 ext. 43678. You can also find more information about the proposed project at www.a2gov.org/bartondrive.

Very truly yours,
Engineering

Jane Allen, P.E.
Project Manager
