May 31, 2018

Dear Granger Avenue Residents,

In July 2017, the City of Ann Arbor received requests from Granger Avenue residents between Packard and State for traffic calming measures to address the observed speeding issues. Based on the existing criteria, Granger Avenue does not qualify for the City's Traffic Calming program.

City staff explored alternative calming efforts involving on-street parking to achieve the speed reduction requests. As a result, Granger Avenue parking was converted to alternate, block by block, parking to narrow the available lane width in an effort to encourage drivers to operate at lower speeds.

Now that alternating parking has been in place since November 2017, we would like to receive your feedback. Please fill out the enclosed postage-paid comment card. It must be completed and postmarked by June 15, 2018. If you would rather email us your preferences, please do so at [engineering@a2gov.org](mailto:engineering@a2gov.org) with "Granger Ave Parking" in the subject line and your name and address in the body. Please answer the following question:

Has the parking change provided a benefit to Granger Avenue?

1. Yes
2. No

The City of Ann Arbor encourages you to attend a public meeting on July 25, 2018 in the Ann Arbor Senior Center gallery room from 6:00-7:30 p.m. where Staff will discuss the received responses and outline any additional steps that may need to be taken.

We appreciate your time and attention in this matter.

Very truly yours,

Cynthia Redinger, P.E.,  
City of Ann Arbor Traffic Engineer

# GRANGER STREET PARKING PREFERENCE

Please complete and return this card to the City of Ann Arbor by **August 25, 2017**

Select the option below which closely represents your preference towards on-street parking regulations on Granger Avenue between Packard Street and State Street (check only ONE):

- Do nothing; Speeds are not a concern on Granger Avenue.**
- Staggered parking on alternating sides of Granger Avenue, block by block.**
