SECTION 2
PROJECT DESCRIPTION

A. BACKGROUND

The City of Ann Arbor was awarded a Federal Emergency Management Agency (FEMA) grant to purchase properties at 215 & 219 W. Kingsley St., Ann Arbor (one vacant and the other with a structure), demolish the structure, and stabilize the site. Separate from the FEMA Grant, a rain garden will be installed at the site to prevent/minimize flooding in the area by increasing the potential for stormwater infiltration. The site is located within a floodplain. This location will be maintained as open space in perpetuity. The City of Ann Arbor released RFP (#796) to select a firm for the design, installation, and management of the Rain Garden Project. As a result, Conservation Design Forum (CDF), of Ann Arbor, was selected in May and has been contracted for the project. CDF will be the lead designer for the Rain Garden Project and the artist must work collaboratively with the lead designer to plan, implement, and complete the public art for the site. The Rain Garden Project will feature designed landscaping and plantings. Other components of the rain garden are signage, a walking path and a bench.

B. GENERAL EXPECTATIONS

The public art will be integrated into the rain garden design. The artist will work with the lead designer of the Rain Garden Project and the two shall work together as a design team. The conceptual design of the public art will be reviewed by the Project Development Task Force and the Ann Arbor Public Art Commission. A technical review may be completed by the appropriate city staff. After acceptance of the concept, the artist will continue to develop the final design. The final design for the Rain Garden Project will incorporate the artwork. The artist will be expected to install the artwork in coordination with the installation of the rain garden. There may be overlapping project expenses that could be shared between the public art project and the rain garden project.

The public artwork is expected to:

- Integrate with the rain garden design, and
- Complement and enhance the rain garden’s design
- Use natural materials or earthworks art as the primary artistic medium is encouraged, though the materials, and the arrangement of them, must be lasting and durable

The public artwork shall:

- Contribute to the purpose of the rain garden

Other expectations:

- The public artwork cannot impede the infiltration of water or the flow of floodwater at the rain garden.
- The artwork should be visible from vehicle traffic; this location is adjacent to, and visible from, a ninety-degree turn on a two-lane one-way street.
- Art piece should complement the natural materials to be used in the rain garden.
C. SCOPE OF WORK

The purpose of this Request for Proposals is to contract an artist services to design and install public art at the Kingsley Street and First Street rain garden. Throughout this process the artist will work closely with the Project Development Task Force, the design team, the Ann Arbor Public Art Commission, and City staff to finalize the plans and to install the art.

The public art design must meet the General Expectations outlined above. The work can be a new feature that is not already planned for the Rain Garden Project, but it must be integrated into the rain garden’s design.

The artist will be responsible all work related to the design, construction, implementation, and installation of the public art. The public art must be lasting and durable enough for public spaces. Responsibilities include the items below, but not necessarily limited to them:

- Develop the conceptual design with the Lead Designer of the rain garden
- Achieve final approval of the design from the Project Development Task Force and the Ann Arbor Public Art Commission, incorporating revisions if necessary
- Develop a project work plan and schedule after a kickoff meeting between the artist and the lead designer
- Consultation with engineers and city approval of the structure may be required
- Address design issues with city staff, the Project Development Task Force and the Ann Arbor Public Art Commission
- Obtain all applicable permits for artwork installation and meet all necessary local and state codes
- Develop maintenance guidelines for use by city staff and an estimate of cost for regular and future maintenance

- Demonstrated understanding of the project’s goals (30 points)

The City reserves the right to not consider any proposal determined to be unresponsive and deficient in any of the information requested for evaluation. The City also reserves the right to waive the interview process and evaluate the artist based on their proposal alone. The City will determine whether the final scope of the project to be negotiated will be entirely as described in this Request for Proposals, a portion of the scope, or a revised scope. LIVING WAGE ORDINANCE
DECLARATION OF COMPLIANCE

The Ann Arbor Living Wage Ordinance (Section 1:811-1:821 of Chapter 23 of Title I of the Code) requires that employers providing services to the City or recipients of grants for financial assistance (in amounts greater than $10,000 in a twelve-month period of time) pay their employees who are working on the City project or grant, a minimum level of compensation known as the Living Wage. INSTRUCTIONS FOR CONTRACTORS
For Completing CONTRACT COMPLIANCE FORM

City Policy

The “non discrimination in contracts” provision of the City Code, (Chapter 112, Section 9:161) requires contractors/vendors/grantees doing business with the City not to discriminate on the basis of actual or perceived race, color, religion, national origin, sex, age, condition of pregnancy, marital status, physical or mental limitations, source of income, family responsibilities, educational association, sexual orientation, gender identity or HIV status against any of their employees, any City employee working with them, or any applicant for employment. It also requires that the contractors/vendors/grantees include a similar provision in all subcontracts that they execute for City work or programs.

This Ordinance further requires that each prospective contractor/vendor submit employment data to the City showing current total employee breakdown by occupation, race and gender. This allows the Human Rights Office to determine whether or not the contractor/vendor has a workforce that is reflective of the availability of women and under-represented minorities within the contractor’s labor recruitment area (the area where they can reasonably be expected to recruit employees). This data is provided to the City on the Human Rights Contract Compliance Forms (attached).
