This standard pertains to granular activated carbon (GAC) used in the treatment of municipal drinking water supplies.

PART 1: General Information

Part 1.1 Definitions

The following definitions shall apply in this standard:

*Manufacturer:* Any party that produces GAC as covered by this standard.

*Purchaser:* Any party that enters into a contract, either written or verbal, to purchase GAC in accordance with the provisions of this standard.

*Vendor:* Any party that enters into a contract, either written or verbal, to supply GAC for purchase in accordance with this standard.

*Activated Carbon:* A member of the family of carbonaceous substances manufactured by processes that develop internal porosity, thereby creating adsorptive properties.

*GAC:* Granular Activated Carbon

*Adsorption:* A process by which fluid molecules are concentrated on a surface by chemical and/or physical forces.

*Effective Size:* That size opening that will just pass 10 percent of a representative sample of filter material.

*Uniformity Coefficient:* A ratio of the size opening that will just pass 60 percent of a representative sample of the filter material divided by that opening that will just pass 10 percent of the same sample.

Part 1.2 Affidavit of Compliance

The purchaser requires an affidavit from the manufacturer that the GAC furnished under the purchaser's orders meets or exceeds the specifications of this standard.

Part 1.3 Rejection
Notice of Nonconformance. If the GAC does not meet the requirements of this standard, a notice of nonconformance shall be provided by the purchaser to the vendor within 10 working days of receipt of the shipment at its point of destination. The results of the purchaser's test shall prevail unless the vendor notifies the purchaser within five working days of receipt of the notice of nonconformance that a retest is desired. On receipt of the request for a retest, the purchaser shall forward to the vendor one of the sealed samples taken in accordance to section 3.2 of this standard. In the event that the retest results do not agree with the test results of the purchaser, the other sealed sample shall be forwarded to a referee laboratory agreed upon by both parties for analysis. The results of the referee laboratory's analysis shall be considered final. If the shipment is found to be in compliance with this standard, then the cost of the referee laboratory shall be assumed by the purchaser. If the shipment is found not to meet the specifications of this standard, the cost of the referee laboratory shall be assumed by the vendor.

If the material delivered is found to not meet the requirements of this standard, the responsibility of removal from the point of destination shall fall wholly on the vendor. An exception to this point may be made if a price adjustment is made between the vendor and the purchaser.

PART 2: Specifications

Part 2.1 Physical Requirements

The moisture content of GAC shall not exceed 2 percent, by weight of the reported bulk shipment quantities.

The particle density (wetted in water) of the GAC shall be not less than 1.3 g/cc. Specific gravity shall be 2.3 g/cc real density. The apparent density shall be at least 0.48 g/cc.

Effective size must be 0.8 to 1.0 mm. The GAC supplied shall have a uniformity coefficient not greater than 2.1 after backwashing and draining of the filter. Particle size (US Sieve) shall be such that not more than 15% is larger than #8 and not more than 4% is smaller than #30.

The abrasion number shall not be less than 78.

The surface area of the GAC supplied shall not be less than 900 m²/g (Nitrogen BET method). The pore volume shall not be less than 0.75 cc/g.

Water soluble ash content shall not exceed 1.0 percent by weight as determined according to Sec 4.10, AWWA B604-90.

The granular activated carbon shall not contain specific impurities in excess of the limits listed in the *Water Chemicals Codex*.

This standard applies to GAC that is prepared by conventional and accepted methods of production. If other methods or raw goods are used in its production, impurities may be present, and this would be inconsistent with good water treatment practices. Additional testing by the manufacturer or vendor will be required by the purchaser to insure that the GAC meets the requirements of this standard and is suitable for water treatment. The additional tests shall be in accordance with product evaluation analysis methods listed for the product available from the manufacturer.

SECTION 5: PRICING

Supplier may revise the price semi-annually using the formula below, using the Producers Price Index (PPI) published by the U.S. Bureau of Labor Statistics (“BLS”). The choice of specific BLS Producers Price index or indices and the weighting given to a choice of multiple indices will be mutually agreed upon by the City and the Provider. Seasonally unadjusted indices will be used. The adjusted price will be in effect for six months only, at which time it will be adjusted again or revert to the bid price (base selling price).

- The Supplier should include in their bid an appropriate index or indices and the weighting to be applied to each. The Supplier should include the Series ID number with their bid and include their proposed revision formula.
- The Supplier will adjust the price semiannually, on January 20 and July 20 (if the renewal extensions are exercised or the contract is multiyear). The bid price (base selling price) must be in effect for at least 6 months before the first price adjustment.
- The Base Selling Price will be the amount bid by the Supplier.
- The Base Period Factor, denoted with a subscripted zero (in the example: \(E_0\) and \(D_0\)), shall consist of an average of the most recent finalized indices for a period of one year, immediately preceding the date of the approved City Council resolution for the product being purchased, for that particular representative index. For monthly published indices this will be the arithmetic average of the twelve most recently published finalized indices. For quarterly published indices this will be the arithmetic average of the four most recently published finalized indices.
- The Adjustment Factor, denoted with no subscript (in the example: \(E\) and \(D\)), shall be based upon an average of the six most recently published monthly indices, (or three most recently published quarterly indices) at the time of the revision, for that particular index. For timeliness, if any monthly or quarterly index is still preliminary (designated with a P in the published numbers) at the time of the revision, it will be used in its preliminary state.
- Should the index referenced cease to be published or is published in an alternate form (different Series Number, Base Date, or Period), a mutually agreed upon and similar index will be used for future adjustments.
- When Base Dates are revised by the BLS, rebasing shall be done as needed based upon the old and new reference base period.
- The US Bureau of Labor Statistics Producers Price indices can be found at www.bls.gov/ppi
- The Revision Formula is: \[P = P_0[r/100(X/X_0) + s/100(Y/Y_0) + t/100(Z/Z_0) + \ldots] \]
  Where
  - \(P_0\) = Base Selling Price or original bid price as per the Bid Documents.
  - \(P\) = Revised product price for the new future six month period.
  - \(X_0\) = Base Period Factor for a selected index.
  - \(X\) = Adjustment Factor for the same index.
Following is an example of a revision formula. The parameters are defined below.

\[ P = P_0 \times [0.70 \left( \frac{E}{E_0} \right) + 0.30 \left( \frac{D}{D_0} \right)] \]

**Product Price**

\( P_0 \) = Base Selling Price or original bid price as per the Bid Documents

\( P \) = Revised product price for the new future six month period.

**Electric Power**

\( E_0 \) = Base Period Factor for Electric Power Distribution – East North Central

\( E \) = Adjustment Factor for Electric Power Distribution – East North Central

PPI Monthly Index - Series ID: PCU22112221122433, Not Seasonally Adjusted, Base Date: 9012

**Diesel**

\( D_0 \) = Base Period Factor for #2 Diesel Fuel

\( D \) = Adjustment Factor for #2 Diesel Fuel PPI Monthly Index - Series ID: WPU057303, Not Seasonally Adjusted, Base Date: 8200
