PROJECT LOCATIONS

GENERAL PROVISIONS

The location of all public utilities shown on these plans is taken from the best available data. The City of Ann Arbor will not be responsible for any error or omissions or inaccuracies in the location shown. It is not the City's intention to guarantee the accuracy or completeness of the information in these plans. The City will be responsible to be working in accordance with the plans, but not to the responsibility of the City of Ann Arbor. All locations shown are subject to the City's review and judgment.

PREPARED UNDER THE SUPERVISION OF:

[Signature]  [Name]

[Stamp]  [City Seal]
CONSTRUCTION NOTES

1. The contractor shall ensure that the materials used in the construction and installation of the electrical system and the mechanical equipment shall be of the latest type and shall conform to the specifications set forth in the drawings and specifications.
2. The contractor shall be responsible for the installation of all electrical equipment and the mechanical equipment, including the electrical conduits, the electrical raceways, and the mechanical piping and plumbing.
3. The contractor shall ensure that all electrical equipment shall be installed in accordance with the National Electrical Code and all applicable local codes.
4. The contractor shall ensure that all mechanical equipment shall be installed in accordance with the International Mechanical Code and all applicable local codes.
5. The contractor shall ensure that all electrical and mechanical equipment shall be tested and approved by the appropriate authorities.
6. The contractor shall ensure that all electrical and mechanical equipment shall be installed in a safe and workmanlike manner.
7. The contractor shall ensure that all electrical and mechanical equipment shall be installed in accordance with the plans and specifications.
8. The contractor shall ensure that all electrical and mechanical equipment shall be installed in compliance with the Occupational Safety and Health Administration (OSHA) regulations.
9. The contractor shall ensure that all electrical and mechanical equipment shall be installed in compliance with the National Fire Protection Association (NFPA) codes.
10. The contractor shall ensure that all electrical and mechanical equipment shall be installed in compliance with the American National Standards Institute (ANSI) standards.

CENTRAL ELECTRICAL NOTES

1. The central electrical system shall be designed in accordance with the American National Standards Institute (ANSI) standards.
2. The central electrical system shall be designed in accordance with the National Electrical Code.
3. The central electrical system shall be designed in accordance with the International Mechanical Code.
4. The central electrical system shall be designed in accordance with the Occupational Safety and Health Administration (OSHA) regulations.
5. The central electrical system shall be designed in accordance with the National Fire Protection Association (NFPA) codes.
6. The central electrical system shall be designed in accordance with the American National Standards Institute (ANSI) standards.

SOIL EROSION CONTROL NOTES

1. All construction activities shall be conducted in accordance with the procedures set forth in the soil erosion control plan.
2. All construction activities shall be conducted in accordance with the soil erosion control plan.
3. All construction activities shall be conducted in accordance with the soil erosion control plan.
4. All construction activities shall be conducted in accordance with the soil erosion control plan.
5. All construction activities shall be conducted in accordance with the soil erosion control plan.

MAINTENANCE OF TRAFFIC

1. The contractor shall ensure that all construction activities shall be conducted in accordance with the traffic control plan.
2. The contractor shall ensure that all construction activities shall be conducted in accordance with the traffic control plan.
3. The contractor shall ensure that all construction activities shall be conducted in accordance with the traffic control plan.
4. The contractor shall ensure that all construction activities shall be conducted in accordance with the traffic control plan.
5. The contractor shall ensure that all construction activities shall be conducted in accordance with the traffic control plan.
