2014/2015 Bridge Inspection Project

B. QUESTIONS ABOUT AND CLARIFICATIONS OF THE RFP

All questions regarding this RFP shall be submitted via email. Emailed questions and inquiries will be accepted from any and all prospective respondents in accordance with the terms and conditions of this RFP.

All questions shall be submitted on or before Wednesday, May 16, 2014 by 3:00 p.m. and should be addresses as follows:

Scope of Work/Proposal Content questions shall be e-mailed to Michael G. Nearing, P.E., Senior Project Manager at mnearing@a2gov.org

RFP Process and HR Compliance questions shall be e-mailed to Mark Berryman, Purchasing Manager, at mberryman@a2gov.org

Should any prospective proposer be in doubt as to the true meaning of any portion of this Request for Proposal, or should the proposer find any ambiguity, inconsistency, or omission therein, the Proposer shall make a written request for an official interpretation or correction. Such requests must be received by the Project Management Services Unit on or before Wednesday, May 16, 2014 at 3:00 p.m.

All interpretations, corrections, or additions to this RFP will be made only as an official addendum that will be posted to a2gov.org and MITN.info and it shall be the respondent’s responsibility to ensure they have received all addenda before submitting a Proposal. Any addendum issued by the City shall become part of the RFP and must be incorporated in the Proposal where applicable.

Each respondent must in its proposal, to avoid any miscommunications, acknowledge all addenda which it has received, but the failure of a respondent to receive or acknowledge receipt of any addenda shall not relieve the respondent of the responsibility for complying with the terms thereof.

The City will not be bound by oral responses to inquiries or written responses other than official written addenda.
C. PRE-PROPOSAL MEETING

No pre-proposal meeting will be held. Please e-mail Michael G. Nearing, P.E., at the above referenced phone numbers with questions regarding the RFP.

Certain drawings and reports relevant to this RFP are available at the Guy C. Larcom Municipal Building (Ann Arbor City Hall) Project Management Services Unit, Fifth Floor. These include past Bridge Inspection Reports, as well as copies of the currently filed Michigan Department of Transportation (MDOT) Structural Inventory and Appraisal (SIA) and Bridge Inspection Report (BIR) Forms. In addition, some as-built records, including plans, exist for review as well. These materials may be reviewed with a prior appointment and copied at a cost of $0.10 per page for letter-size copies, and $1.00 for each plan sheet.

D. PROPOSAL FORMAT

To be considered, each firm must submit a response to this RFP using the format provided in Section III. No other distribution of proposals is to be made by the respondent. The proposal must be signed in ink by an official authorized to bind the respondent to its provisions. Each proposal must remain valid for at least ninety days from the due date of this RFP.

Proposals should be prepared simply and economically providing a straightforward, concise description of the Respondent’s ability to meet the requirements of the RFP. Each total submittal should not be more than 30 sheets (60 sides), not including required attachments and resumes. No erasures are permitted. Mistakes may be crossed out and corrected and must be initialed in ink by the person signing the proposal.

E. SELECTION CRITERIA

Responses to this RFP will be evaluated using a point system as shown in Section III. The evaluation will be completed by a selection committee comprised of staff from the City of Ann Arbor.

At the initial evaluation, the fee proposals will not be reviewed. After initial evaluation the City will determine top respondents, and open only those fee proposals. The City will then determine which, if any, firms will be interviewed. During the interviews, the selected firms will be given the opportunity to discuss their proposal, qualifications, past experience, and their fee proposal in more detail. The City further reserves the right to interview the key personnel assigned by the selected consultant to this project. If the City chooses to interview any respondents, the interviews will be held June 2 through 6, 2014. Applicants must be available on these dates.

All Proposals submitted may be subject to clarifications and further negotiation. All agreements resulting from negotiations that differ from what is represented within the RFP or in the respondent’s response shall be documented and included as part of the final contract.
F. SEALED PROPOSAL SUBMISSION

All Proposals are due and must be delivered to the City Procurement Unit on, or before, **Wednesday, May 23, 2014 by 10:00 a.m.** (local time). Proposals submitted late or via oral, telephonic, telegraphic, electronic mail or facsimile will not be considered or accepted.

Each Respondent must submit in a sealed envelope one (1) original Proposal, three (3) additional Proposal copies, and two (2) copies of the Fee Proposal in a separate sealed envelope marked Fee Proposal. Proposals submitted must be clearly marked:

RFP No. 902 – 2014/2015 Bridge Inspection Project - and list the Respondent’s name and address.

Proposals must be addressed and delivered to:

City of Ann Arbor  
c/o Customer Service  
301 East Huron Street  
P.O. Box 8647  
Ann Arbor, MI 48107

All Proposals received on, or before, the Due Date will be publicly opened and recorded immediately. No immediate decisions are rendered.

Hand delivered Proposals must be date/time stamped by the Customer Service Department at the address above in order to be considered. Delivery hours are 9:00 a.m. to 3:00 p.m. Monday through Friday, excluding Holidays.

The City will not be liable to any Respondent for any unforeseen circumstances, delivery, or postal delays. Postmarking on the Due Date will not substitute for receipt of the Proposal. Each Respondent is responsible for submission of their Proposal. Additional time will not be granted to a single Respondent; however, additional time may be granted to all Respondents when the City determines that circumstances warrant it.

A Proposal will be disqualified if:

1. If the Fee Proposal is not contained within a separate, sealed, envelope.
2. If the Fee Proposal is submitted as part of the digital copy. Provide Fee Proposal in hardcopy only.

G. DISCLOSURES

Under the Freedom of Information Act (Public Act 442), the City is obligated to permit review of its files, if requested by others. All information in a respondent’s proposal is subject to disclosure under this provision. This act also provides for a complete disclosure of contracts and attachments thereto.
H. TYPE OF CONTRACT

A sample of the standard Professional Services Agreement (PSA) is included in Section IV. Those who wish to submit a proposal to the City are required to carefully review the Professional Services Agreement. Respondents should specifically note that the insurance requirements under a City contract are listed in Exhibit C of the sample Professional Services Agreement. **The City will not entertain changes to terms and conditions of the standard Professional Services Agreement.**

The City reserves the right to award the total proposal, to reject any and all proposals in whole or in part, and to waive any informality or technical defects if, in the City’s sole judgment, the best interests of the City will be so served.

I. NONDISCRIMINATION AND LIVING WAGE REQUIREMENTS

The City’s standard Professional Services Agreement outlines the requirements for fair employment practices under City of Ann Arbor contracts. To establish compliance with this requirement, the respondent should complete and return with its proposal completed copies of the Human Rights Division Contract Compliance forms.

All respondents proposing to do business with the City of Ann Arbor, except those specifically exempted by regulations by the Administrator and approved by City Council, agree to comply with the living wage provisions of Chapter 23 of the Ann Arbor City Code and, if a “covered employer” as defined therein, to pay those employees providing services to the City under this agreement a “living wage” as defined in Chapter 23 of the Ann Arbor City Code; and, if requested by the City, provide documentation to verify compliance. Living Wage forms should be submitted with the proposal.

The following forms are attached:
- Contract compliance form to report employment data (Attachment C).
- Living wage declaration form (Attachment B)
- Copy of the current living wage poster (Attachment B).

Attachment B and C are to be submitted with the proposal.

J. COST LIABILITY

The City of Ann Arbor assumes no responsibility or liability for costs incurred by the consultant prior to the execution of a Professional Services Agreement. The liability of the City is limited to the terms and conditions outlined in the Agreement. By submitting a Proposal, Respondent agrees to bear all costs incurred or related to the preparation, submission and selection process for the Proposal.
K. PROPOSAL PROTEST

All Proposal protests must be in writing and filed with the Purchasing Agent within five (5) business days of the award action. The respondent must clearly state the reasons for the protest. If a respondent contacts a City Service Area/Unit and indicates a desire to protest an award, the Service Area/Unit shall refer the respondent to the Purchasing Agent. The Purchasing Agent will provide the respondent with the appropriate instructions for filing the protest. The protest shall be reviewed by the City Administrator or designee whose decision shall be final.

SECTION II

BACKGROUND

The work that is being requested here, and which is to be included in the professional services agreement, is for the inspection and evaluation of eighteen (18) City bridges over the course of the next two years (vicinity maps, identifying the location of each of these structures, are included in Section IV as Attachments "F" for your convenience). The bridges are to be inspected in accordance with the schedule outlined in Attachment “G”. The bridges include:

2014 Bridge Inspections

1. Island Drive over Traver Creek
2. Maiden Lane over Huron River
3. Fuller Road (Westbound) over Huron River
4. Fuller Road (Eastbound) over Huron River
5. Huron Parkway over Huron River and Geddes Road
6. Treatment Plant Drive over Huron River

2015 Bridge Inspections

1. Broadway over Depot Street and Norfolk Southern Railroad*
2. Broadway over Huron River*
3. Fuller Road over Norfolk Southern Railroad
4. East Medical Center Drive over Norfolk Southern Railroad
5. 5th Avenue Parking Structure (only the portion under 5th Avenue that constitutes a bridge)
6. E. Stadium Boulevard over the Ann Arbor Railroad*
7. E. Stadium Boulevard over S. State Street*
8. Eisenhower Parkway over Ann Arbor Railroad*
9. University of Michigan Tunnel under Huron Parkway

*Denotes a bridge that is located on the National Highway System. Additional inspection and reporting requirements apply to these structures.

The bridges are to be inspected and evaluated in order to complete and update their respective Michigan Department of Transportation (MDOT) Structure Inventory and Appraisal (SIA) and Bridge Inspection Reports (BIR) forms. The most current version of the forms are contained within MiBRIDGE. Copies of these forms, previous inspection reports, and other information, for the City’s bridges may be obtained from the City of Ann Arbor Public Services Area - Project Management Services Unit.

The University of Michigan Tunnel under Huron Parkway (formerly known as the Pfizer Tunnel) is privately owned by the University of Michigan and is located within the City right-of-way in Huron Parkway south of Plymouth Road. The Consultant shall work with appropriate University Staff to coordinate the inspection of the tunnel and so that access can be gained. The Consultant shall provide a minimum of seven (7) working days prior to the anticipated date of the inspection in order to gain entrance to the facility for the purpose of inspecting the tunnel.
The University maintains a secure site and the Consultant will be required to check-in upon arrival and may be required to wear a visitor identification badge. At no time shall the Consultant be able to gain entrance to the facility at a time that has not been pre-arranged and coordinated with the University of Michigan.

The 5th Avenue Parking Structure is a recently constructed, underground, parking deck, partially located under the 5th Avenue right-of-way. The parking structure is comprised of cast-in-place, post-tensioned concrete, and other load-resisting systems. The Consultant shall be responsible for evaluating and reporting on the portion of the structure that is located under 5th Avenue. An initial inspection of the “bridge” portion of the parking structure was conducted in 2012 and a formal inspection conducted 2013. SIA and BIR forms were completed for this structure shortly after the inspection. Load rating calculations for this structure were performed at that time as well.

The Consultant shall also be aware that several City-owned bridges are located on the National Highway System and additional inspection and reporting requirements exist for these structures. These structures require element-level inspection and reporting based on the current MDOT and FHWA Standards. The work plan proposed by the Consultant shall contain the necessary resources to meet all relevant inspection and reporting standards.

Upon completion of the investigation, the Consultant shall prepare and submit to the City updated SIA and BIR forms for each bridge, tunnel, or parking structure. Also, separate and independent inspection reports, which summarize, in detail, the consultants findings and recommendations for each “bridge” shall be submitted as well. The SIA and BIR forms, as well as the information gathered for the inspection reports, must be submitted to the City using the internet-based Michigan Bridge Management and Inspection System (MiBRIDGE) provided by MDOT. This program is an application developed by MDOT for the collection and retrieval of National Bridge Inspection System (NBIS) inventory data. The website can be configured to allow the selected Consultant to enter the information for each bridge and complete the required forms. The website can be found at [http://www.michigan.gov/mdot/0,1607,7-151-9625_24768_59528--,00.html](http://www.michigan.gov/mdot/0,1607,7-151-9625_24768_59528--,00.html). The Consultant will be required to register the individual(s) that will perform the inspection and associate themselves with the City. At that time, the City will approve bridges on which the Consultant may work. At no time shall the Consultant submit the bridge information to MDOT without prior authorization by the City.
SCOPE OF WORK

Task 1 - Provide Updated MDOT SIA and BIR Forms

A. The Consultant shall attend a project "kick-off" meeting to discuss specific details relative to the project. The Consultant shall bring to this meeting a time-line schedule outlining the major and/or critical elements of the proposed work. The Consultant shall also provide an agenda for the City’s review and comment prior to the meeting.

B. The Consultant shall review prior Bridge Inspection Reports, available as-built records, load rating calculations, evaluations, and currently filed MDOT SIA and BIR forms for each bridge. Some of this information may not be available for each bridge.

C. The Consultant shall request and obtain any permits of entry required to inspect the bridges. Any and all permit fees required shall be paid for by the Consultant.

D. The Consultant shall, at all times during the work, provide traffic control in accordance with the current edition of the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and the City of Ann Arbor Public Services Area Standard Specifications, which are incorporated by reference. When lane closure permits are required to complete the work, they shall be obtained by the Consultant.

E. The Consultant shall perform a structural inventory and appraisal (bridge inspection) for each bridge. This work shall be performed in accordance with the schedule included in Section IV, Attachment "G". The Consultant shall complete a MDOT BIR form and update the current SIA forms on file with the State. Information gathered for these forms must be entered into the MiBRIDGE program for our review and subsequent submission to the State. Paper copies of all forms are to be sealed and certified by the Michigan Licensed Professional Engineer (MPE) in charge of the inspection prior to submission to the City. The Consultant/MPE shall be available to explain their findings and answer questions, if raised by City and MDOT officials, concerning the SIA forms, BIR forms, and the project, at no additional cost to the City. The Consultant’s investigation shall include, but not be limited to, the following:

1. Identifying the structure's type, age, and load resisting system.

2. Detailing the present condition of the structure by reviewing and evaluating construction details; structural connections and appurtenances; and, checking for possible alignment, settlement, expansion and contraction problems. Identifying, defining, and classifying the nature and extent of any observed defects. Noting any safety hazards found on the bridges and completing the BIR forms and reporting the results, in writing, to the City immediately. Preparing sketches, if necessary, to define all observable damage, deterioration, and defects. Taking color digital photographs, as necessary, to document all such defects.

3. Reviewing structural system components:
Steel Structures

a. Assess the adequacy of structural members for the given application, and if necessary, determine the size of members by using non-destructive testing by such methods as ultrasonic thickness gauges, micrometers, or other approved devices.

b. Determine/verify span lengths.

Concrete Structures

a. Assess the adequacy of structural members; and the type, size, and spacing of steel reinforcing for the given application.

b. Determine/verify span lengths.

F. City-owned bridges located on National Highway System (NHS) routes shall have all pertinent National Bridge Element (NBE) and MDOT Agency Developed Element (ADE) data collected, condition states determined, and applicable quantities measured and reported following MDOT and FHWA standards. This information shall be detailed in the bridge inspection report as well.

G. The Consultant shall review the Average Daily Traffic (ADT) data collected by the City of Ann Arbor Public Services Area - Project Management Services Unit and incorporate any necessary revisions to the SIA and BIR forms.

H. The Consultant shall review the existing Level One and/or Two Scour Evaluations on file for each bridge. Also, the prepared Scour Action Plans shall also be reviewed. Any scour evaluation or Scour Action Plan that is found to be deficient, substandard, or does not exist shall be revised/created and submitted in accordance with the Task 3 requirements for Bridge Inspection Reports.

I. The Consultant shall chain drag 100% percent of each concrete bridge deck and hand-sound the face of all substructure units to provide an estimate of the total concrete-surface delamination for each structure. All deck delaminations/cracking shall be mapped and submitted to the City in an AutoCad (Version 2010 or later) format at the completion of the project. An appropriate drawing, sealed by an MPE, shall be required for each bridge.

Task 2 - Bridge Inspection Reports

A. The Consultant shall perform a detailed investigation of the bridges to determine their relative condition and the extent and limits, if any, for each component therein, which may require repair or be considered deficient or substandard, based on currently accepted standards. The reports shall be created and submitted to the City in a Microsoft Word format. Each report shall be certified by the MPE that
was in charge of the inspection. The reports shall discuss, in detail, all aspects of the bridge investigation program and shall propose alternative measures to correct any deficiencies found. In addition, in the reports, the Consultant shall:

1. Evaluate the adequacy of the bridge system, including all components and appurtenances for compliance with the American Association of State Highway and Transportation Officials (AASHTO) Standard Specifications for Highway Bridges (current edition), the AASHTO Roadside Design Guide (current edition), and MDOT’s Detail Bridge Inspection Frequency Guidelines, for the given service loading and use.

2. List all repair and maintenance needs for each bridge either by structural member or component.

3. Develop cost estimates and recommendations for repair and restoration strategies, and for the total replacement of each bridge, if warranted within the next ten years. Alternatives to correct deficiencies shall be outlined and detailed in each report. Engineering fees related to recommended construction cost estimates are to be included in the report. This information may be incorporated into the City’s Capital Improvements Plan (C.I.P.) and Bridge Management/Maintenance Plan. The cost estimates shall be created and submitted to the City in an Excel spreadsheet format. Proposed estimates for work items shall follow the numerical conventions in the City’s established Bridge Management/Maintenance Plan.

4. Provide a weighting system which classifies restoration needs according to each bridge's age, condition, function, uniqueness, or degree of external constraint.

5. Provide sketches, if necessary, to define all observable damage, deterioration, and defects. Digital color photographs shall be taken to document all such defects and shall be included in each report. A CD containing the digital photographs shall be submitted to the City at the completion of the project.

6. Review the structural analysis and/or load rating for each bridge, using the AASHTO load factor or Load Resistance Factor Rating (LRFR) method (as appropriate) and update its inventory and operating ratings to meet current requirements of the Michigan Structural Inventory and Appraisal Coding Guide. Recommendations for the posting of weight and speed restrictions, if required, and any emergency repairs shall be listed.

7. Provide copies of the updated MDOT SIA and BIR forms, sealed by the MPE in charge of the inspection.

8. Measure the bridge deck joint widths for each bridge (as applicable).
B. Prior to submitting the final Bridge Inspection Report for each bridge, the Consultant shall submit a copy of the “preliminary” reports for the City’s review in accordance with the schedule in Section IV, Attachment “G”. After review by the City, a meeting will be held to discuss incorporation of warranted comments into the final inspection reports.

C. Attend a final review meeting with the City to discuss, in further detail, the final bridge inspection reports and the project in general.
SECTION III
MINIMUM INFORMATION REQUIRED

Respondents should organize Proposals into the following Sections:

A. Professional Qualifications
B. Past Involvement with Similar Projects
C. Proposed Work Plan
D. Fee Proposal (include in a separate sealed envelope clearly marked “Fee Proposal”)
E. Authorized Negotiator
F. Attachments

The following describes the elements that should be included in each of the proposal sections and the weighted point system that will be used for evaluation of the proposals.

A. Professional Qualifications – 15 points

1. State the full name and address of your organization and, if applicable, the branch office or other subordinate element that will perform, or assist in performing, the work hereunder. Indicate whether it operates as an individual, partnership, or corporation. If as a corporation, include whether it is licensed to operate in the State of Michigan.

2. Include the name of executive and professional personnel by skill and qualification that will be employed in the work. Show where these personnel will be physically located during the time they are engaged in the work. Indicate which of these individuals you consider key to the successful completion of the project. Identify only individuals who will do the work on this project by name and title. Resumes and qualifications are required for all proposed project personnel, including all subconsultants. Qualifications and capabilities of any subconsultants must also be included.

3. State history of the firm, in terms of length of existence, types of services provided, etc. Identify the technical details which make the firm uniquely qualified for this work.

B. Past involvement with Similar Projects – 25 points

The written proposal must include a list of specific experience in the project area and indicate proven ability in developing detailed designs and implementing similar projects for the firm and the individuals to be involved in the project. The proposal should also indicate the ability to have projects completed within the budgeted amounts. A summary of related projects with the original deadline and cost estimate versus the actual design completion date and final cost of the design is required with this section. A complete list
of client references must be provided for similar projects recently completed. It shall including the firm/agency name, address, telephone number, project title, and contact person is required.

C. Proposed Work Plan – 30 points

A detailed work plan is to be presented which lists all tasks determined to be necessary to accomplish the work of this project. The work plan shall define resources needed for each task (title and individual person-hours) and the firm’s staff person completing the project task. In addition, the work plan shall include a timeline schedule depicting the sequence and duration of tasks showing how the work will be organized and executed.

1. The work plan shall be sufficiently detailed and clear to identify the progress milestones (i.e., when project elements, measures, and deliverables are to be completed) and the extent and timing of the City personnel involvement. Additional project elements suggested by the Proposer are to be included in the work plan and identified as Proposer suggested elements.

2. The work plan must identify information the Proposer will need from City staff in order to complete the project. Include estimated time and resource commitment from City staff.

3. The work plan shall include any other information that the Proposer believes to be pertinent but not specifically asked for elsewhere.

4. Also include in the work plan all proposed steps, if any, to expedite completion of the project. This will be given due consideration during evaluation of proposals.

In the scoring for this section, consultants shall be evaluated on the clarity, thoroughness, and content of their responses to the above items.

D. Fee Proposal - 30 points

1. Fee quotations shall be submitted in a separate, sealed, envelope as part of the proposal. Fee quotations are to include the names, title, hourly rates, overhead factors, and any other details, including hours of effort for each team member by task, and sub-task, by which the overall and project element costs have been derived. The fee quotation is to relate in detail to each item of the proposed work plan. Consultants shall be capable of justifying the details of the fee proposal relative to personnel costs, overhead, how the overhead rate is derived, material and time.

2. The fee proposed must include the total estimated cost for the project when it is 100% complete. This total may be adjusted after negotiations with the City and prior to signing a formal contract, if justified. A sample of the required City/Consultant agreement form is included as Attachment A in Section IV of this RFP.
E. **Authorized Negotiator**

Include the name, phone number, and e-mail address of persons(s) in your organization authorized to negotiate the Scope of Work with the City.

F. **Attachments**

*Legal Status of Proposer, Living Wage Compliance Form and the Contract Compliance Form must be completed and returned with the proposal.* These elements should be included as attachments to the proposal submission.

G. **Proposal Evaluation**

1. The Selection Committee will evaluate each proposal by the above described criteria and point system (A through C, based on 70 points) to select a short-list of firms for further consideration. The City reserves the right to not consider any proposal which it determines to be unresponsive and deficient in any of the information requested for evaluation. A proposal with all the requested information does not guarantee the proposing firm to be a candidate for an interview. The Committee may contact references to verify material submitted by the Proposers.

2. The Committee then will schedule the interviews with the selected firms if necessary. The selected firms will be given the opportunity to discuss in more detail their qualifications, past experience, proposed work plan and fee proposal. The interview must include the project team members expected to complete a majority of work on the project, but no more than 6 members total. The interview shall consist of a presentation of up to forty-five (35) minutes by the Proposer, including the person who will be the project manager on this Contract, followed by approximately forty-five (40) minutes of questions and answers. Audiovisual aids may be used during the oral interviews. The oral interviews may be recorded on tape by the Evaluation Team.

3. The firms interviewed will then be re-evaluated by the above criteria (A through D), and adjustments to scoring will be made as appropriate. After evaluation of the proposals, further negotiation with the selected firm may be pursued leading to the award of a contract by City Council, if suitable proposals are received.

The City reserves the right to not consider any proposal which is determined to be unresponsive and deficient in any of the information requested for evaluation. The City also reserves the right to waive the interview process and evaluate the consultants based on their proposals and fee schedules alone.

The City will determine whether the final scope of the project to be negotiated will be entirely as described in this Request for Proposal, a portion of the scope, or a revised scope.

INSTRUCTIONS FOR CONTRACTORS
FOR COMPLETING CONTRACT COMPLIANCE FORM

City Policy

The “non discrimination in contracts” provision of the City Code, (Chapter 112, Section 9:161) requires contractors/vendors/grantees doing business with the City not to discriminate on the basis of actual or perceived race, color, religion, national origin, sex, age, condition of pregnancy, marital status, physical or mental limitations, source of income, family responsibilities, educational association, sexual orientation, gender identity or HIV status against any of their employees, any City employee working with them, or any applicant for employment. It also requires that the contractors/vendors/grantees include a similar provision in all subcontracts that they execute for City work or programs.

This Ordinance further requires that each prospective contractor/vendor submit employment data to the City showing current total employee breakdown by occupation, race and gender. This allows the Procurement Office to determine whether or not the contractor/vendor has a workforce that is reflective of the availability of women and under-represented minorities within the contractor’s labor recruitment area (the area where they can reasonably be expected to recruit employees). This data is provided to the City on the Human Rights Contract Compliance Forms (attached).

To complete the form:

1) If a company has more than one location, then that company must complete 2 versions of the form.

   - Form #2 should contain the employment data for those employees:
     - who will be working on-site;
     - in the office responsible for completing the contract; or,
