SECTION I - GENERAL INFORMATION

A. OBJECTIVE

The City of Ann Arbor is seeking proposals from suitably qualified Supervisory Control and Data Acquisition (SCADA) software manufacturers or their certified sales representatives (both now referred to as Software Vendor or Respondent) to be used in selection of the SCADA software solution for the Ann Arbor Water Treatment Plant (WTP). The software package selected will be used as the design basis in a progressive design build project (SCADA Modernization Project) that will replace the SCADA and Programmable Logic Controller (PLC) hardware and software at the Water Treatment Plant. The progressive design build project is anticipated to be let the first half of 2018. It is expected that the selected Software Vendor will become a subcontractor to the successful design build team. The software vendor will play a prominent role in the setup, testing, and commissioning of the SCADA software. All Software Vendors that meet the criteria described in this document and wish to put forth a proposal are invited to respond.

B. QUESTIONS ABOUT AND CLARIFICATIONS OF THE REQUEST FOR PROPOSAL

All questions regarding this Request for Proposal (RFP) shall be submitted via e-mail. Questions will be accepted and answered in accordance with the terms and conditions of this RFP.

All questions shall be submitted on or before May 25, 2017 at 10:00 a.m., and should be addressed as follows:

Scope of Work/Proposal Content questions shall be e-mailed to Ryan Justin, SCADA Network Administrator - RJustin@a2gov.org

RFP Process and Compliance questions shall be e-mailed to Colin Spencer, Buyer - CSpencer@a2gov.org

Should any prospective Software Vendor be in doubt as to the true meaning of any portion of this RFP, or should the Software Vendor find any ambiguity, inconsistency, or omission therein, the Software Vendor shall make a written request for an official interpretation or correction by the due date for questions above.

All interpretations, corrections, or additions to this RFP will be made only as an official addendum that will be posted to a2gov.org and MITN.info and it shall be the Software Vendor’s responsibility to ensure they have received all addenda before submitting a proposal. Any addendum issued by the City shall become part of the RFP, and must be incorporated in the proposal where applicable.
C. PRE-PROPOSAL MEETING

A pre-proposal meeting will be held:

WHEN: April 27, 2017 at 1:30 p.m.
WHERE: City of Ann Arbor Water Treatment Plant, 919 Sunset Road, Ann Arbor, Michigan 48103

Attendance at this meeting is highly recommended. The purpose of this meeting is to discuss the project with prospective proposers and to answer any questions concerning RFP #17-02. Any questions and answers furnished in the pre-proposal meeting will not be official until verified in writing through an addendum. At the completion of the meeting, the Respondents will have the opportunity to visit the plant to familiarize themselves with the site and the existing conditions.

D. PROPOSAL FORMAT

To be considered, each firm must submit a response to this RFP using the format provided in Section III. No other distribution of proposals is to be made by the Software Vendor. An official authorized to bind the Software Vendor to its provisions must sign the proposal in ink.

Proposals should be prepared simply and economically providing a straightforward, concise description of the Software Vendor’s ability to meet the requirements of the RFP. No erasures are permitted. Mistakes may be crossed out and corrected and must be initialed in ink by the person signing the proposal.

E. SELECTION CRITERIA

Responses to this RFP will be evaluated using a point system as shown in Section III. A selection committee comprised of staff members from the Water Treatment Services Unit (WTSU) will complete the evaluation.

The fee proposals will not be reviewed at the initial evaluation. After initial evaluation, the City will determine top Software Vendors, and open only those fee proposals. The City will then determine which, if any, firms will be interviewed. During the interviews, the selected firms will be given the opportunity to discuss in more detail their qualifications, past experience, proposed work plan, pricing, support, and demonstrate use of their software solution. The City further reserves the right to interview the key personnel assigned by the selected Software Vendor to this project. If the City chooses to interview any respondents, the interviews will be tentatively held between July 10, 2017 and July 20, 2017. Software Vendor must be available on these dates.

All proposals submitted may be subject to clarifications and further negotiation. All agreements resulting from negotiations that differ from what is represented within the
RFP or in the Software Vendor’s response shall be documented and included as part of the final contract.

F. SEALED PROPOSAL SUBMISSION

All proposals are due and must be delivered to the City Procurement Unit on, or before, June 8, 2017 at 2:00 p.m. (local time). Proposals submitted late or via oral, telephonic, telegraphic, electronic mail or facsimile will not be considered or accepted.

Each respondent must submit in a sealed envelope
- one (1) original proposal
- three (3) additional proposal copies
- one (1) digital copy of the proposal preferably on a flash drive as one file in PDF format

Each respondent must submit in a single separate sealed envelope marked Fee Proposal
- two (2) copies of the fee proposal

The fee proposal and all costs must be separate from the rest of the proposal.

Proposals submitted must be clearly marked: “RFP #17-02 – WTP Supervisory Control and Data Acquisition (SCADA) Software” and list the Software Vendors name and address.

Proposals must be addressed and delivered to:
City of Ann Arbor

Hand delivered proposals must be date/time stamped by the Customer Service Department at the address above in order to be considered. Delivery hours are 9:00 a.m. to 3:00 p.m. Monday through Friday, excluding Holidays.

The City will not be liable to any Software Vendor for any unforeseen circumstances, delivery, or postal delays. Postmarking on the due date will not substitute for receipt of the proposal. Software Vendors are responsible for submission of their proposal. Additional time will not be granted to a single Software Vendor. However, additional time may be granted to all Software Vendors at the discretion of the City.
A proposal will be disqualified if:

1. The fee proposal is not contained within a separate sealed envelope.
2. The fee proposal is submitted as part of the digital copy. Provide fee proposal in hard copy only.
3. The forms provided as Attachment C - City of Ann Arbor Non-Discrimination Declaration of Compliance, Attachment D - City of Ann Arbor Living Wage Declaration of Compliance, Attachment E - Vendor Conflict of Interest Disclosure Form of the RFP Document must be included in submitted proposals.

The successful Software Vendor must comply with all applicable requirements and provide documentary proof of compliance when requested.

K. CONFLICT OF INTEREST DISCLOSURE

The City of Ann Arbor Purchasing Policy requires that the Software Vendor complete a Conflict of Interest Disclosure form. A contract may not be awarded to the selected Software Vendor unless and until the Procurement Unit and the City Administrator have reviewed the Disclosure form and determined that no conflict exists under applicable federal, state, or local law or administrative regulation. Not every relationship or situation disclosed on the Disclosure Form may be a disqualifying conflict. Depending on applicable law and regulations, some contracts may awarded on the recommendation of the City Administrator after full disclosure, where such action is allowed by law, if demonstrated competitive pricing exists and/or it is determined the award is in the best interest of the City. A copy of the Conflict of Interest Disclosure Form is attached.

8. The City reserves the right to disqualify proposals that fail to respond to any requirements outlined in the RFP, or failure to enclose copies of the required documents outlined within RFP.

R. NON-DISCLOSURE AGREEMENT

Portions of the information contained in “Section II – Scope of Services” of this RFP are considered confidential and have been removed from this public version of the RFP. A Non-Disclosure Agreement must be completed to gain access to this information that describes the current SCADA setup, operational details, and general requirements for the new system design. A valid Non-Disclosure agreement must be on file for the Software Vendors proposal to be valid and considered for award. Completed Non-Disclosure Agreement forms are to be emailed to Ryan Justin, SCADA Network Administrator at RJustin@a2gov.org. Once the Non-Disclosure agreement has been reviewed and approved the full text for “Section II - Scope of Services” will be sent to the Software Vendor. A fully executed copy of the Non-Disclosure Agreement will also be provided to the Software Vendor after all signatures are completed.
SECTION II - SCOPE OF SERVICES

1. Background

The City of Ann Arbor Water Treatment Services system includes a 50 MGD lime softening water treatment plant, four pumping stations, three water storage reservoirs, two elevated tanks, three wells, ten distribution system pressure monitoring sites, two distribution system control valves, two recreational dams, and two dams with hydroelectric generators. Plant processes are controlled via PLC-5 programmable logic controllers and associated I/O with some minor subsystems controlled using CompactLogix PLC systems.

2. Objective

The City of Ann Arbor is seeking a SCADA software solution that will be used as a design basis for the Water Treatment Plant SCADA Modernization Project. The SCADA Modernization Project will replace the existing Allen Bradley PLC-5 controllers and associated I/O in the WTP with equipment in the Allen Bradley Logix5000 family. These new PLC’s will be programmed to meet or exceed the current programming functions and will be integrated with the SCADA software solution selected as part of this RFP. The SCADA Modernization Project will replace the hardware (servers, etc.) associated with the new software selection. Communications to all remote facilities currently on the MOSCAD system will be assessed and new equipment and communications methods may be implemented where applicable. New graphical control screens, alarms, etc. will be created as part of the SCADA Modernization Project.

The installation of the fully integrated SCADA system shall be carried out by a single firm regularly engaged in the development of SCADA software systems.
The full content of this page will be released to the Software Vendor upon completion and submission of the Non-Disclosure Agreement located in Appendix A of this RFP. Failure to submit the Non-Disclosure agreement form and obtain the full RFP text will disqualify the Software Vendors proposal.
3. **Requirements**

The selected Software Vendor shall:

A. Provide the software for the SCADA system to provide monitoring and control functions for the Water Treatment Services system outlined in this RFP.

B. Ensure that the software is installed per manufacturer’s requirements and confirm that City-supplied hardware is compatible. The Software Vendor shall provide hardware requirements as part of their bid submittal package.

C. Be responsible for coordinating with the Owner to verify that the installation constitutes a complete working system (installation only). The successful progressive design build project team will be responsible for all networking, and supplying all the computer hardware.

D. Be responsible for installation of the software. This responsibility does not include any custom screen development or scripting (to be performed by the design build team/systems integrator), only to ensure the software is up and running on City provided servers.

E. Recommend spare parts and software solutions as appropriate.

F. Provide support to the design build programming team in software programming and screen development as required.

G. Work with progressive design build team in the development of design concepts during the planning, construction and commissioning of the SCADA Modernization Project to maximize the benefit in the final system design.

**Software Vendor’s Proposal**

To be considered, each Respondent must submit a response to this RFP using the format provided in Section III. No other distribution of proposals is to be made by the Software Vendor. Proposals submitted shall define an appropriate project schedule in accordance with the requirements of the proposed work plan. The final schedule will be negotiated based on the final scope of work and work plan agreed to by the City and the selected firm.

All proposals become the property of the City of Ann Arbor once reviewed, whether awarded or rejected.
SECTION III - MINIMUM INFORMATION REQUIRED

PROPOSAL FORMAT

Software Vendors should organize Proposals into the following Sections:

A. Professional Qualifications
B. Past Involvement with Similar Projects
C. Software Options
D. Cost of Software and Support
E. Demonstration License
F, Innovation of Value Added Suggestions
G. Authorized Negotiator
H. Attachments

The following describes the elements that should be included in each of the proposal sections and the weighted point system that will be used for evaluation of the proposals.

A. Professional Qualifications – 15 points

1. State the full name and address of your organization and, if applicable, the branch office or other subordinates that will perform, or assist in performing, the work hereunder. Indicate whether it operates as an individual, partnership, or corporation. If as a corporation, include the state in which it is incorporated. If appropriate, indicate whether it is licensed to operate in the State of Michigan.

2. Include the number of executive and professional personnel by skill and qualification that will be employed in the work. Show where these personnel will be physically located during the time they are engaged in the work. Indicate which of these individuals you consider key to the successful completion of the project. Identify only individuals who will do the work on this project by name and title. Resumes or qualifications are required for proposed project personnel who will be assigned to the project. Qualifications and capabilities of any sub-contractors must also be included.

3. State history of the firm, in terms of length of existence, types of services provided, etc. Identify the technical details which make the firm qualified for this work.

B. Past involvement with Similar Projects – 15 points

The written proposal must include a list of specific experience in the project area and indicate proven ability in developing detailed designs and implementing similar projects for the firm and the individuals to be involved in the project. The proposal must also indicate proven ability to have projects completed on time and within the budgeted amounts. A complete list of client references must be provided for
similar projects recently completed. The list shall include firm/agency’s name, contact name, project title, owner name, address, and phone number.

The proposal must include examples of projects designed by staff proposed to work on this project. Examples should include software deployment in water plants as a first consideration and software deployment in wastewater plants second, and software deployment in lift and booster stations third, in ranking of importance. A summary of related projects with the original deadline and cost estimate versus the actual design completion date and final cost of the design shall be included. A list of three (3) client references must be provided for similar projects recently completed. It shall include the firm/agency name, address, telephone number, project title, and contact person.

C. Software Options – 40 points

Complete a detailed submittal of available options as described in Attachment A “SCADA Software Features Checklist.” The form in Attachment A must be filled out in its entirety and included in the proposal. Proposals submitted without this completed form may be considered non-responsive.

Each feature will be carefully considered on three criteria:

- Standard Feature
- Available Feature – with and without added cost
- Not Available

Importance is placed on features that allow for centralized management of the SCADA software and provide a reliable system with limited downtime and ease of maintenance (e.g. thin client deployment, automatic server failover, application version control, etc.). The software should allow for easy modification of screens, tags, drivers, etc. to make adding information to the system a simple, seamless process with limited downtime or dependence on any 3rd party software or drivers. The ability to use the software to provide the operators with everything they need to efficiently perform their duties and access real-time and historical data is also of great importance.

Include any other available features, product literature, or information of note in this section as appropriate (keeping within proposal sizing limits given in Section 4.1).

D. Demonstration License – 5 points

A fully functional demonstration license of the software for testing and reviewing the proposed software package is requested. This license will be required to function for 180 days from day of activation with the manufacturer. The City will
reach out to the Software Vendors to discuss software delivery and licensing methods after submission of the written proposals.

E. Innovation or Value-Added Suggestions – 5 points

Identify innovation ideas or value-added suggestions that could improve the delivery of the project. Topics for consideration may include, but are not limited to:

1. Cost savings recommendations.
2. Critical success factors.
3. Streamline programming and implementation.
4. Functionality improvements.
5. System optimization of plant operations.
6. Integration with Laboratory LIMS Software (Labworks)
7. Integration with CMMS System Software (Mainsaver)
8. Recommended spare parts
9. Network Monitoring & Cyber Security

F. Cost of Software and Support – 20 points

As part of the selection criteria, all Respondents must be prepared to provide information on software options and costs. All respondents shall provide a Unit Price and Total Price for all items specified. Quantities included in the tables in Attachment A represent estimated quantities for different work items. The Respondent would be compensated for the actual number of items completed using the unit prices provided. Items that are not specifically mentioned but are required to complete the scope of work shall be considered incidental.

The total cost of the software package including support fees will be taken into consideration. Pricing should be valid for 18 months from RFP due date.

The City is tax exempt from all taxes. The Respondent, if awarded a contract for this work, shall be responsible for all “sales taxes” and “use taxes” as applicable to this work.

G. Authorized Negotiator

Include the name, phone number, and e-mail address of persons(s) in your organization authorized to negotiate the agreement with the City.

H. Attachments

Legal Status of Software Vendor, Conflict of Interest Form, Living Wage Compliance Form, and the Non-Discrimination Form must be completed and returned with the proposal. These elements should be included as attachments to the proposal submission.
Proposals shall also identify any and all assumptions that could impact the end product and/or proposed pricing of the software. Any additional work necessary to meet the intent of the proposed scope of work should be included in the Proposal. Alternate solutions or methods to items presented in this document are encouraged and will be considered.

**PROPOSAL EVALUATION**

1. The selection committee will evaluate each proposal by the above-described criteria and point system (A through E) to select a short-list of firms for further consideration. The City reserves the right to reject any proposal that it determines to be unresponsive and deficient in any of the information requested for evaluation. A proposal with all the requested information does not guarantee the proposing firm to be a candidate for an interview. The committee may contact references to verify material submitted by the Software Vendors.

2. The committee then will schedule interviews with the selected firms if necessary. The selected firms will be given the opportunity to discuss in more detail their qualifications, past experience, proposed work plan and fee proposal.

3. The interview must include the project team members expected to complete a majority of work on the project, but no more than six members total. The interview shall consist of a presentation of up to thirty minutes (or the length provided by the committee) by the Software Vendor, including the person who will be the project manager on this contract, followed by approximately thirty minutes of questions and answers. Audiovisual aids may be used during the oral interviews. The committee may record the oral interviews.

4. The firms interviewed will then be re-evaluated by the above criteria (A through F), and adjustments to scoring will be made as appropriate. After evaluation of the proposals, further negotiation with the selected firm may be pursued leading to the award of a contract by City Council, if suitable proposals are received.

The City reserves the right to waive the interview process and evaluate the Software Vendors based on their proposals and fee schedules alone and open fee schedules before or prior to interviews.

The City will determine whether the final scope of the project to be negotiated will be entirely as described in this RFP, a portion of the scope, or a revised scope.

Work to be done under this contract is generally described through the detailed specifications and must be completed fully in accordance with the contract documents.

Any proposal that does not conform fully to these instructions may be rejected.
PREPARATION OF PROPOSALS

Proposals should have no plastic bindings but will not be rejected as non-responsive for being bound. Staples or binder clips are acceptable. Proposals should be printed double sided on recycled paper. Proposals should not be more than 20 sheets (40 sides), not including required attachments and resumes.

Each person signing the proposal certifies that he or she is the person in the Software Vendor’s firm/organization responsible for the decision as to the fees being offered in the Proposal and has not and will not participate in any action contrary to the terms of this provision.

ADDENDA

If it becomes necessary to revise any part of the RFP, notice of the addendum will be posted to Michigan Inter-governmental Trade Network (MITN) www.mitn.info and/or the City of Ann Arbor web site www.A2gov.org for all parties to download.

Each Software Vendor must acknowledge in its proposal all addenda it has received. The failure of a Software Vendor to receive or acknowledge receipt of any addenda shall not relieve the Software Vendor of the responsibility for complying with the terms thereof. The City will not be bound by oral responses to inquiries or written responses other than official written addenda.
