Planning

Landscape Architecture

June 20, 1988

Mr. Martin Overhiser
City Planning Director
City Planning Department
City of Ann Arbor
P.O. Box 8647
Ann Arbor, Michigan 48107

Dear Martin:

We are very pleased to submit this final draft of The Land Use Plan for the North Main Street/Huron River Corridor. We were particularly pleased with the level and magnitude of citizen involvement, and the cooperative and timely inputs of both the North Main Task Force and the various city departments. This has been a challenging study. We are, however, very enthusiastic about the findings and recommendations documented herein.

The North Main Corridor offers some exiting possibilities and this plan offers feasible means to achieve a high quality entrance to the Downtown and river access for all ages and recreational interests. The proposed river park will become the catalyst for a renewed and enriched economic vitality along North Main Street. We have enjoyed working with you and Gerry Clark on this project. Your quickness in providing information was greatly appreciated. We are also thankful for the efforts of Joan Berger in responding to the many public inquiries.

Sincerely,

For the Deardorff Design Resources/inc. Team

Howard L. Deardorff
