DESCRIPTION OF PROPOSED WORK AND REASON FOR VARIANCE:

---

---

---

**The City of Ann Arbor Zoning Board of Appeals has the powers granted by State law and City Code Chapter 55, Section 5:29. A variance may be granted by the Zoning Board of Appeals only in cases involving practical difficulties or unnecessary hardships when all of the following statements are found to be true. Please provide a complete response to each of the statements below.**

The alleged hardships or practical difficulties, or both, are exceptional and peculiar to the property of the person requesting the variance, and result from conditions which do not exist generally throughout the city.

---

---

---

The alleged hardships are practical difficulties, or both, which will result from a failure to grant the variance, include substantially more than mere inconvenience, inability to attain a higher financial return, or both.

---

---

---

Allowing the variance will result in substantial justice being done, considering the public benefits intended to be secured by this chapter, the individual hardships that will be suffered by a failure of the board to grant a variance, and the rights of others whose property would be affected by the allowance of the variance.

---

---

---

The conditions and circumstances on which the variance request is based shall not be a self-imposed hardship or practical difficulty.

---

---

---

A variance approved shall be the minimum variance that will make possible a reasonable use of the land or structure.
