

Defining Center of the City Activation Methods for City Council

July 7, 2021: Council of the Commons Working Session
Facilitated by Heather Seyfarth and Camilla Lizundia

Heather and Camilla gathered the following activation methods from the Center of the City Taskforce Report (2/28/20) and Council of the Commons Member Vision Statements (6/3/21). During the July 7 working session, Council of the Commons members will rank-choice their Top 10 activation methods to recommend to City Council using the Zoom polling feature. After Top 10 activations are calculated, the group will identify systems already in place that can support desired activations and/or identify where gaps exist and how the city might fill these gaps.
