

City of Ann Arbor Rental Property Food Scrap Composting Options

City Curbside Compost Bins

If your property has 8 units or less, you may be eligible for city curbside service. Request a cart by contacting city customer service at 734.794.6320 or by emailing customerservice@a2gov.org.

More info: a2gov.org/compost

Commercial Compost Service

Subscribe to a commercial compost collection service that offers pickup directly from your buildings. This option is recommended only for properties that are ineligible for city curbside bins.

More info: a2gov.org/commercial-compost

Food Scrap Drop-Off Bins (Coming Soon!)

The City is developing food scrap drop-off bins for multi-family tenants to utilize. Once available, property managers are encouraged to share drop-off bin information with tenants at move-in and/or annually. Stay updated on this project through the link below.

More info: engage.a2gov.org/foodscraps.

On-Site / Backyard Composting

Set up and manage your own composting system on the property. Compost tumblers and 3-bin systems work best for homes and small communities with outdoor space and engaged residents. For those with limited outdoor space, worm composting is a great alternative.
