Re: Traffic Calming on Traver Road between Barton Drive and John A. Woods Drive

Dear Traver Road Residents and Owners:

Meeting #2 is scheduled for **Thursday, May 30 from 6:00 p.m. to 7:30 p.m.** using a format to respect physical distancing and Traffic Calming Program requirements. This includes an electronic meeting held on Zoom, an internet-based computer communication tool. The meeting will include a staff presentation, question/answer, and digital audience polling. You can access the virtual meeting on Thursday, May 30, from the project website: a2gov.org/TCTraverJB. It is important for residents to attend and stay through the end of the meeting to provide input on all potential devices for final polling. Staff will review feedback from Meeting #2 and prepare the Final Plan for polling.

This plan was developed with feedback from Meeting #1 that was held April 4 and a field meeting with an Ann Arbor Transportation Engineer on May 10. Please familiarize yourself with the Preliminary Plan by walking the street before the electronic meeting. Staff will mark the locations of the devices in spray-paint on the street at least two weeks prior to the meeting, weather permitting. Device images and descriptions are enclosed to support your self-guided tour. This information will also be displayed on temporary signage near each device.

If you have questions or are unable to attend this meeting and would like to provide feedback, please call 313-831-7606 and leave a voicemail with your Name, Address, Phone Number, and feedback, which will be incorporated into the meeting discussion. If there are questions, your phone call will be returned within two (2) business days.

To receive electronic communications regarding this Traffic Calming project area, please email kthullen@wadetrim.com and request to be added to the email distribution list.

We appreciate your time, interest, and effort with this project. If you have any questions, please contact Kristy Thullen at 313-831-7606 or by email.

Thank you,
Your Traffic Calming Team

C: Andrea Wright, Raymond Hess, Luke Liu, Chris Wall, Lori Pawlik, Kristy Thullen, JD Danner

Hello! I am Device #1. I am a **Speed Hump**.

I am used to slow drivers down by giving them something to drive over. I have been proven to decrease speeds (20-25% average). Some people do not like driving over me and may choose to avoid this street (18% traffic volume reduction on average).

EXPERIENCE ME: To experience a location like me visit Forest Avenue between Wells Street and Granger Avenue.

OR

Take a virtual drive of this intersection through Google Maps.

FEEDBACK OPPORTUNITY: Do you support Device #1 Speed Hump at 1621 Traver Road? Community polling will be part of the virtual meeting on May 30. If you have questions in advance or are unable to attend the upcoming virtual meeting, please call 313-831-7606 and leave a voicemail with your question and/or feedback. Please include your Name, Address, and Phone Number. Staff will follow-up with questions within 2 business days, as appropriate. Feedback received in advance and at the meeting will help shape the Final Plan (Traffic Calming Program Step 5).
