SECTION I - GENERAL INFORMATION

A. OBJECTIVE

The City of Ann Arbor has set the goal of achieving community-wide carbon neutrality in a just and equitable manner by the year 2030 (known as A²ZERO). A key piece of achieving this goal is transitioning away from fossil gas toward decarbonized solutions for heating and cooling, powering appliances, operating vehicles, and more (e.g., beneficial electrification, geothermal). As the City looks at viable technologies and service models, it is also interested in identifying strategic areas of the city in which to make gas decarbonization investments – whether individually, with the investor-owned utility, or through a blended investment approach.

To advance this work, the City is seeking a qualified professional firm to work directly with the Ann Arbor Office of Sustainability and Innovations to:

1. Create a neighborhood-specific heating decarbonization plan for four-to-five micro-neighborhoods in Ann Arbor
2. Support implementation of the plan in three to five of the micro-neighborhoods
3. Support the City's intervention in a future DTE Gas Rate Case by serving as an expert witness on neighborhood decarbonization and non-pipeline alternatives
4. Actively collaborate via biweekly meetings with the Ann Arbor Office of Sustainability and Innovations on the project

Work under this RFP is funded through the Ann Arbor Office of Sustainability and Innovations, with potential support coming from the Michigan Department of Licensing and Regulatory Affairs' Utility Consumer Participation Board. The total amount of funding allocated for this work is \$125,000. Those unable to perform the tasks outlined below for this amount should indicate what they can reasonably accomplish with \$125,000 and what it would cost them to complete the full scope. All work under this RFP must be completed within 12-18 months of contracting.

B. QUESTIONS AND CLARIFICATIONS / DESIGNATED CITY CONTACTS

All questions regarding this Request for Proposal (RFP) shall be submitted via e-mail. Questions will be accepted and answered in accordance with the terms and conditions of this RFP.

All questions shall be submitted on or before October 8, 2026 at 10:00 a.m. (local time), and should be addressed as follows:

Scope of Work/Proposal Content questions shall be e-mailed to Missy Stults, Sustainability and Innovations Director in the Office of Sustainability and Innovations – mstults@a2gov.org

RFP Process and Compliance questions shall be e-mailed to Colin Spencer, Buyer
- CSpencer@a2gov.org

Should any prospective offeror be in doubt as to the true meaning of any portion of this RFP, or should the prospective offeror find any ambiguity, inconsistency, or omission therein, the prospective offeror shall make a written request for an official interpretation or correction by the due date for questions above.

All interpretations, corrections, or additions to this RFP will be made only as an official addendum that will be posted to a2gov.org and MITN.info and it shall be the prospective offeror's responsibility to ensure they have received all addenda before submitting a proposal. Any addendum issued by the City shall become part of the RFP, and must be incorporated in the proposal where applicable.

C. PRE-PROPOSAL MEETING

A pre-proposal meeting will be held:

WHEN: October 6, 2026 at 12:00 p.m.

WHERE: Virtually via: [This Microsoft Teams link](#)

The meeting is not mandatory; however, it is highly recommended that interested offerors attend the meeting. The purpose of this meeting is to discuss the project with prospective offerors and to answer any questions concerning RFP 26-49. Any questions and answers furnished in the pre-proposal meeting will not be official until verified in writing through an addendum.

D. PROPOSAL FORMAT

To be considered, each firm must submit a response to this RFP using the format provided in Section III. No other distribution of proposals is to be made by the prospective offeror. An official authorized to bind the offeror to its provisions must sign the proposal. Each proposal must remain valid for at least ninety days from the due date of this RFP.

Proposals should be prepared simply and economically providing a straightforward, concise description of the offeror's ability to meet the requirements of the RFP. No erasures are permitted. Mistakes may be crossed out and corrected and must be initialed in ink by the person signing the proposal.

E. SELECTION CRITERIA

Responses to this RFP will be evaluated using a point system as shown in Section III. A selection committee comprised of staff from the City will complete the evaluation.

The fee proposals will not be reviewed at the initial evaluation. After initial evaluation, the City will determine top proposals, and open only those fee proposals. The City will then determine which, if any, firms will be interviewed. During the interviews, the selected firms will be given the opportunity to discuss their proposal, qualifications, past experience, and their fee proposal in more detail. The City further reserves the right to interview the key personnel assigned by the selected offeror to this project. If the City chooses to interview any respondents, the interviews will be tentatively held the **week of November 9, 2026**. Offeror must be available on these dates.

All proposals submitted may be subject to clarifications and further negotiation. All agreements resulting from negotiations that differ from what is represented within the RFP or in the proposal response shall be documented and included as part of the final contract.

F. SEALED PROPOSAL SUBMISSION

All proposals are due and must be delivered to the City on or before, October 21, 2026 at 2:00 p.m. (local time). Proposals submitted late or via oral, telephonic, telegraphic, electronic mail or facsimile **will not** be considered or accepted.

Each respondent must submit in a sealed envelope

- **one (1) digital copy of the proposal preferably on a USB/flash drive as one file in PDF format**

Each respondent should submit in a single separate sealed envelope marked Fee Proposal

- **one (1) copy of the fee proposal**

The fee proposal and all costs should be separate from the rest of the proposal.

Proposals submitted should be clearly marked: **“RFP# 26-49 – Neighborhood Heating Decarbonization Plan”** and list the offeror’s name and address.

Proposals must be addressed and delivered to:

City of Ann Arbor
c/o Customer Service

prospective offeror for any unforeseen circumstances, delivery, or postal delays. Postmarking on the due date will not substitute for receipt of the proposal. Offerors are responsible for submission of their proposal. Additional time will not be granted to a single prospective offeror. However, additional time may be granted to all prospective offerors at the discretion of the City.

A proposal may be disqualified if the following required forms are not included with the proposal:

J. WAGE REQUIREMENTS

The Attachments provided herein outline the requirements for payment of prevailing wages or of a "living wage" to employees providing service to the City under this contract. The successful offeror must comply with all applicable requirements and provide documentary proof of compliance when requested.

K. CONFLICT OF INTEREST DISCLOSURE

The City of Ann Arbor Purchasing Policy requires that the consultant complete a Conflict of Interest Disclosure form. A contract may not be awarded to the selected offeror unless and until the Procurement Unit and the City Administrator have reviewed the Disclosure form and determined that no conflict exists under applicable federal, state, or local law or administrative regulation. Not every relationship or situation disclosed on the Disclosure Form may be a disqualifying conflict. Depending on applicable law and regulations, some contracts may awarded on the recommendation of the City Administrator after full disclosure, where such action is allowed by law, if demonstrated competitive pricing exists and/or it is determined the award is in the best interest of the City. SECTION II - SCOPE OF SERVICES

1. Background

In June of 2020, Ann Arbor adopted one of the nation's most aggressive climate plans – A²ZERO, which calls for a just and equitable transition to community-wide carbon neutrality by 2030. One of the core strategies in A²ZERO is transitioning away from fossil gas towards decarbonized solutions to heat and cool our buildings and to power our appliances, our vehicles, and our lives overall. Staff in the Office of Sustainability and Innovations (OSI) are the caretakers of the A²ZERO plan, working to find solutions to achieve the goals unanimously adopted by the Ann Arbor City Council.

Recently, the OSI started to intervene in utility gas cases before the Michigan Public Service Commission (MPSC) to challenge investments that seek to prolong the use of fossil gas within the city and region, and ways to limit costs for ratepayers if fewer customers want gas in the future than current utility models assume. One area of interest to the City is identifying and implementing solutions that help move households and businesses off of the gas system in an economically viable way. Specifically, the City is interested in understanding which neighborhoods are well primed for a transition from fossil gas toward sustainable heating solutions, assistance in supporting those neighborhoods with the transition, the capturing of data regarding the impact of the transition, and the integration of lessons learned into the City's future gas rate interventions. Overall, the goal is to both meet the City's ambitious climate goals, but also, to establish a model for heating decarbonization that can scale across Michigan.

To advance these goals, the City is seeking assistance from a qualified professional firm to help identifying four to five specific micro-neighborhoods well positioned to start the gas transition process, identifying the ideal transition technologies, and then to assist the City with implementing the strategy in three to five of the identified micro-neighborhoods. Implementation assistance will be technical in nature, as the City will undertake all outreach and engagement activities. However, the identified professional firm must have the technical skillset to help the City identify key areas for which implementation of the decarbonization solutions will lead to cost savings and other co-benefits for the individual participants, general ratepayers, the utility, or a combination of all stakeholders.

2. CONTEXT

As more local and state governments establish climate-related goals, there is growing pressure to identify how to decarbonize market segments traditionally powered by fossil gas. States such as New York, California, Colorado, and Massachusetts have commissioned “future of gas” studies and formal Future of Gas Proceedings, often resulting in new policy mandates that require utilities to develop long-term decarbonization strategies and implement solutions that are holistic and in the best interest of ratepayers and the public overall. Unfortunately, many of these proceedings have not yet led to tangible decarbonization solutions in neighborhoods.

The City of Ann Arbor would like to change that narrative. That is why the City is seeking

a qualified professional firm to work directly with the Ann Arbor Office of Sustainability and Innovations to:

1. Create a neighborhood-specific heating decarbonization plan for four-to-five micro-neighborhoods in Ann Arbor
2. Support implementation of the plan in three to five of the micro-neighborhoods
3. Support the City's intervention in a future DTE Gas Rate Case by serving as an expert witness on neighborhood decarbonization and non-pipeline alternatives
4. Actively collaborate via biweekly meetings with the Ann Arbor Office of Sustainability and Innovations on the project

Work under this RFP is funded through the Ann Arbor Office of Sustainability and Innovations, with potential support coming from the Michigan Department of Licensing and Regulatory Affairs' Utility Consumer Participation Board. The total amount of funding allocated for this work is \$125,000. Those unable to perform the tasks outlined below for this amount should indicate what they can reasonably accomplish with \$125,000 and what it would cost them to complete the full scope. In addition to these funds, the City plans to allocate its own resources (e.g., staff time, possible rebates, etc.) to assist residents with implementing identified solutions. Those resources will be supplemental to the \$125,000 budget for professional services under this RFP.

3. TASKS

Under this Request for Proposals, the City is seeking a vendor to:

Task 1: Create a Neighborhood Specific Heating Decarbonization Plan for Four-to-Five Micro-Neighborhoods in Ann Arbor

Working closely with the City, the selected firm will undertake a technical and economic analysis to identify four to five neighborhoods in Ann Arbor that are strong candidates for heating decarbonization. The analysis done to select these neighborhoods must include things such as:

- An analysis of the existing fossil gas infrastructure to identify “stubs” or areas that are expensive to service and would be strong contenders for transitioning to a decarbonized heating solution such as geothermal or cold climate air source heat pumps. This action must include an economic analysis showing how rates would be impacted by making the identified transitions and the overall impact to households in the neighborhood.
- An assessment of avoided gas/electric infrastructure costs associated with implementing the heating decarbonization solutions, with estimates on how the infrastructure cost savings could have downstream cost savings across the rate base.
- An analysis of the electric grid infrastructure and capacity, thereby identifying areas where there is sufficient capacity for neighborhood heating decarbonization solutions to be implemented or areas where implementing a given decarbonization solution might provide relief to the grid either directly or through programs such as a virtual power plant. This includes a general load analysis as well as a look at peak load impacts.

- An economic analysis of the bill impacts associated with heating decarbonization in each of the identified neighborhoods. The economic analysis should also include consideration of how a more cost-effective solution could have downstream impacts on energy rates more broadly.
- A value proposition analysis for why the residents would want to make this transition, inclusive of economic, health, social, and other relevant considerations.

In completing this task, the selected firm must explore multiple different heating decarbonization solutions so that the City gains experience working across large-scale implementation of things such as cold climate air source heat pumps, individual geothermal systems, and networked geothermal in a confined geography.

Key deliverables from this task include a set of clear decision criteria that can be used to determine which type of heating decarbonization solutions are most viable in other parts of the city, a strategy for heating decarbonization in four to five specific neighborhoods in Ann Arbor with associated economic analysis, and a sample transition workplan and timeline for those micro-neighborhoods. This task must build on a preliminary geothermal analysis conducted by Stantec, informed by work undertaken in the Bryant neighborhood, and shaped by information about DTE's gas and electric systems.

Task 2: Support Implementation of the Decarbonization Plan in the Three to Five Micro-Neighborhoods

The City will work directly with residents to support the implementation of the decarbonization solution in the identified three to five micro-neighborhoods (e.g., 4-10 households). However, the selected firm will need to budget roughly 4 hours a week to support the City and the selected neighborhoods. This support could take a variety of forms, including:

- Refined modeling of economic variables related to implementing the decarbonization solution
- Resident specific utility bill analysis
- Researching work in other communities and identifying promising practices the City could integrate into this work stream
- An analysis of municipal programs/practices that exist but which could be refined to better meet neighborhood decarbonization goals
- An analysis of municipal programs/practices that do not exist but would be beneficial to meet neighborhood decarbonization goals
- Identification of any program, policy, regulatory or other changes that are outside the City's control but which would be needed or beneficial to advance the neighborhood decarbonization work

Task 3: Support the City's intervention in a Future DTE Gas Rate Case by Serving as an Expert Witness on Neighborhood Decarbonization and Non-Pipeline Alternatives

The results from Tasks 1 and 2 will be used to inform the City's future intervention in a yet to be filed DTE Gas Rate Case. As part of that case, the selected firm will be expected to submit expert testimony about the findings from this project, how the utilities should use these findings to shape future investments, and any other relevant recommendations. The City's legal team and the OSI office will assist with drafting and submitting testimony, but the selected firm is expected to serve as a formal, expert witness.

Task 4: Actively Collaborate via Biweekly Meetings with the Ann Arbor Office of Sustainability and Innovations on the Project

The selected contractor should budget for 30-minute biweekly (twice monthly) meetings with staff in the Office of Sustainability and Innovations during the duration of work. Other City staff may also be invited to join based on the work progress and agenda. Clear agendas and notes need to be prepared in advance of meetings. Key staffing personnel are expected to attend relevant meetings, with the firm's project manager attending all check-ins.

4. TERMS OF THE AWARD

Work under this RFP is funded through the Ann Arbor Office of Sustainability and Innovations, with potential support coming from the Michigan Department of Licensing and Regulatory Affairs' Utility Consumer Participation Board. The total amount of funding allocated for this work is \$125,000. Those unable to perform the tasks outlined below for this amount should indicate what they can reasonably accomplish with \$125,000 and what it would cost them to complete the full scope. All work under this RFP must be completed within 12-18 months of contracting.

SECTION III - MINIMUM INFORMATION REQUIRED

F. Attachments

Legal Status of Offeror, Conflict of Interest Form, Living Wage Compliance Form, and the Non-Discrimination Form should be returned with the proposal. These elements should be included as attachments to the proposal submission.

PROPOSAL EVALUATION

1. The selection committee will evaluate each proposal by the above-described criteria and point system (A through C) to select a short-list of firms for further consideration. The City reserves the right to reject any proposal that it determines to be unresponsive and deficient in any of the information requested for evaluation. A proposal with all the requested information does not guarantee the proposing firm to be a candidate for

an interview. The committee may contact references to verify material submitted by the offerors.

2. The committee then will schedule interviews with the selected firms if necessary. The selected firms will be given the opportunity to discuss in more detail their qualifications, past experience, proposed work plan and fee proposal.
3. The interview must include the project team members expected to complete a majority of work on the project, but no more than six members total. The interview shall consist of a presentation of up to thirty minutes (or the length provided by the committee) by the offeror, including the person who will be the project manager on this contract, followed by approximately thirty minutes of questions and answers. Audiovisual aids may be used during the oral interviews. The committee may record the oral interviews.
4. The firms interviewed will then be re-evaluated by the above criteria (A through D), and adjustments to scoring will be made as appropriate. After evaluation of the proposals, further negotiation with the selected firm may be pursued leading to the award of a contract by City Council, if suitable proposals are received.

The City reserves the right to waive the interview process and evaluate the offerors based on their proposals and fee schedules alone and open fee schedules before or prior to interviews.

The City will determine whether the final scope of the project to be negotiated will be entirely as described in this RFP, a portion of the scope, or a revised scope.

Work to be done under this contract is generally described through the detailed specifications and must be completed fully in accordance with the contract documents.

Any proposal that does not conform fully to these instructions may be rejected.

PREPARATION OF PROPOSALS

Proposals should have no plastic bindings but will not be rejected as non-responsive for being bound. Staples or binder clips are acceptable. Proposals should be printed double sided on recycled paper. Proposals should not be more than 20 sheets (30 sides), not including required attachments and resumes.

Each person signing the proposal certifies that they are a person in the offeror's firm/organization responsible for the decisions regarding the fees being offered in the Proposal and has not and will not participate in any action contrary to the terms of this provision.

ADDENDA

If it becomes necessary to revise any part of the RFP, notice of the addendum will be posted to Michigan Inter-governmental Trade Network (MITN) www.mitn.info and/or the City of Ann Arbor web site www.A2gov.org for all parties to download.

Each offeror must acknowledge in its proposal all addenda it has received. The failure of an offeror to receive or acknowledge receipt of any addenda shall not relieve the offeror of the responsibility for complying with the terms thereof. The City will not be bound by oral responses to inquiries or written responses other than official written addenda.
