SAFETY NOTES

Safety Update *Safety and Construction Season*

Michigan is said to have just two seasons, “*winter and construction*”. Given that we are emerging from *winter*, the city's wanted to take this opportunity to remind you that we will be experiencing orange barrel fever once again. Please do your part to keep yourself, those around you and construction crews safe.

- **Stay Alert and Focused** - Pay close attention to road signs, signals and flaggers directing traffic. Avoid distracting driving by keeping your phone down and your eyes up.
- **Reduce Speed** - Slow down when approaching a construction area, even if workers are not present.
- **Follow Signage and Markings** – Obey all traffic signs and traffic control devices. These visual cues are critical for safely navigating around work zones.
- **Merge Early** – Anticipate lane closures and merge carefully. This helps maintain a smooth flow of traffic and reduces the likelihood of last-minute lane changes.
- **Be Patient and Courteous** – Construction may delay you, but getting frustrated or aggressive won't make them go faster. Please practice patience and show courtesy to fellow drivers and construction workers.
- **Plan Ahead** – Check for construction updates and road closures. You can visit the city's website to see [road and utility construction projects](#), or use your favorite navigation app, such as Waze, to find the most efficient route to your destination. Thank you for making **A2 safe!**
