1. Design Guidelines - Review of complete draft document

Staff relayed the comments from the A2D2 Steering Committee meeting on April 23<sup>rd</sup>. Once the comments of the A2D2 Historic Advisory Committee are incorporated the draft guidelines will be posted on the city's website by May 4. The first public comment meeting will be May 10 at 8:30 PM, and the second on May 23 at 7:30 PM. Staff will make a presentation at each meeting and then there will be time for everyone to provide comments on the guidelines.

The guidelines will then go to City Council on June 11 and June 18 to request approval and permission to send to the State Historic Preservation Office. Once the State approves the guidelines the Historic District Commission will need to adopt them.

The Committee then reviewed the remainder of the guidelines and provided staff their comments, which included some language changes and requests for additional graphics.

2. Next meetings

Thursday, May 10 at 5 PM in the 6<sup>th</sup> floor City Hall conference room to review the downtown building survey.
