**RE: Phase I Environmental Site Assessment
404 N. Ashley
Ann Arbor, Washtenaw County, Michigan**

Dear Ms. Hall:

Environmental Consulting Solutions, LLC (ECS) has completed a Phase I Environmental Site Assessment (ESA) of the property located at 404 N. Ashley in Ann Arbor, Washtenaw County, Michigan. The results of the Phase I ESA are presented in the attached Report.

We are pleased to provide this service and hope that we can be of service in the future. Should you have any questions or require further information, please do not hesitate to call us at (248) 763-3639.

Respectfully submitted,
Environmental Consulting Solutions, LLC

EXECUTIVE SUMMARY

Environmental Consulting Solutions, LLC (ECS) was retained to perform a Phase I Environmental Site Assessment (ESA) of the subject property located at 404 N. Ashley in Ann Arbor, Washtenaw County, Michigan. The Phase I ESA was performed in general accordance with All Appropriate Inquiry (AAI) and the American Society for Testing Materials (ASTM) Designation E1527-21 guidelines for Phase I ESAs, except as noted under the Limitations and Exceptions.

The Report was prepared for use by Ann Arbor Housing Development Corporation, who may rely upon the findings of the Report.

Purpose:

The Phase I ESA was conducted to identify to the extent feasible pursuant to ASTM E 1527-21, Recognized Environmental Conditions (RECs) in connection with the subject property.

As defined in the ASTM Designation E 1527-21, the term Recognized Environmental Condition means: *(1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.*

ECS endeavored to perform All Appropriate Inquiries (40 CFR 312 and industry standards) in allowing a user to satisfy the requirements to qualify for one of the affirmative defenses to CERCLA liability, such as Third Party Defense, Innocent Landowner Defense, and Landowner Liability Protections (LLPs) (such as Bona Fide Prospective Purchaser or Contiguous Property Owner). Performance of this Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with the subject property.

Scope of Work:

The Phase I ESA is a compilation of information obtained from, but not limited to, User's responsibilities, physical setting resources, government records, historical records, site reconnaissance, and owner/operator/occupant and local governmental officials' interviews.

General Property Information:

The subject property for the purpose of this Phase I ESA is the parcel of commercial property located at 404 N. Ashley, one block west of Main Street, south of Kinglsey and north of Miller. The subject property is located in a mixed use, heavily developed area in Ann Arbor, Michigan.

The subject property location is presented in Figure 1. The subject property general features are presented in Figure 2, Aerial Site Map.

The subject property parcel details as obtained from Washtenaw County and City of Ann Arbor municipal records are summarized in the following table:

Parcel	Address	Details	Owner
09-09-29-139-032	404 N. Ashley	~0.38 Acres, Commercial Building	Ann Arbor Housing Development Corp.

At the time of site reconnaissance, the subject property was a commercial office building. The most recent use of the site appears to be commercial offices. The adjoining properties include mixed use with multi-family residential to the north, commercial (former residential) the east (fronting Main Street), single family residential to the west of N. Ashley, and a commercial parking lot to the south.

Historical documentation indicates the site was first developed sometime prior to 1888 for residential use. The property was redeveloped for commercial office use circa 1983. No other known uses were identified. The subject property was listed in the governmental database for historic small quantity generator hazardous waste generation status. No violations were identified. Limited information was available, but waste generation appears to be associated with historic use as a dental office.

Historic documentation and governmental databases were evaluated with respect to the potential for environmental concerns associated with the subject property and adjoining/nearby properties. No obvious environmental concerns were noted, with the exception of historic gas station sites with documented contamination to the south and southwest of the subject property. FOIA review of available public information from the Michigan Department of Environment, Great Lakes and Energy (EGLE) was conducted for each of the contaminated sites. Based on the location of the former source areas, contamination encountered and distance from the subject property, the potential for negative impact to the subject property appears minimal.

Conclusions:

In the professional opinion of ECS, appropriate inquiry has been made into the current and past uses of the subject property consistent with good commercial and customary practice in an effort to minimize liability.

ECS has performed a Phase I ESA in conformance with the scope and limitations of AAI and ASTM E 1527-21 of the subject property located at 404 N. Ashley in Ann Arbor, Washtenaw County, Michigan. Any exceptions to, or deletions from, this practice are described in Section 12 of this Report.

This assessment has revealed no evidence of RECs, Historic RECs, or Controlled RECs in connection with the subject property.

The following items were also identified that may warrant further discussion as a business risk:

- The elevator room was unable to be accessed at the time of the site visit. Visual observations of the electrical panel identified "sump pump in elevator pit". The types of liquids that may be present in the elevator mechanicals is unconfirmed. Integrity of the elevator system including assessment for any spills or leaks of liquids should be evaluated.
- ECS observed a de minimis area of staining along the north wall of the building near the exterior mechanicals area. The staining was observed on the landscaping rock, apparently discharging from a PVC vent from the basement area of the building. Based on review of historical plans of

the building, this appears to be blowdown from a former air-compressor used associated with the former dental office. Cleanup of this area is recommended to confirm de minimis nature.

No data failures as defined in ASTM E 1527-21 were encountered during the completion of the Phase I ESA and no significant limitations were noted during the site reconnaissance, with the exception of the following:

- First developed use of the subject property was residential. Documentation regarding historic heat source and the use of any backfill materials used following demolition are unconfirmed.
- Information pertaining to the historic small quantity generator hazardous waste generation at the subject property was limited in nature.

The data gaps, failures and/or limitations were not determined to be material in identifying RECs and/or they are not considered by ASTM standard to be significant based on additional information gathered and ability to draw a conclusion in regard to the prior use of the subject property from the sources reviewed.

1.0 INTRODUCTION

Environmental Consulting Solutions, LLC (ECS) was retained to perform a Phase I Environmental Site Assessment (ESA) of the subject property located at 404 N. Ashley in Ann Arbor, Washtenaw County, Michigan. The subject property location is presented in Figure 1.

1.1 Assessment Objectives

This Phase I ESA study was conducted in general accordance with the scope and limitations recommended by the American Society for Testing and Materials (ASTM) in their document E 1527-21, titled: "*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*". Any exceptions are noted under Limitations and Exceptions found in Section 1.5.

The Phase I ESA was performed in accordance with the United States Environmental Protection Agency's (USEPA) rule identifying federal standards and processes for conducting All Appropriate Inquiry (AAI) codified in Federal Regulation - *40 Code of Federal Regulations (CFR) Part 312 - Standards and Practices for All Appropriate Inquiries*.

The objective of the Phase I ESA is to identify, to the extent feasible in accordance with E1527-21, recognized environmental conditions in connection with the subject property.

According to Section 1.1 of the cited standard, "the purpose of this practice is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment of a parcel of real estate with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)... and petroleum products". As such, this practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability...; that is, the practices that constitute "all appropriate inquiry into the previous ownership and use of the property consistent with good commercial or customary standards and practices" as defined in 42 USC § 9601(35)(B)."

The Phase I ESA was conducted to provide information regarding the potential for environmental concerns.

1.2 Phase I ESA Scope Of Work

The Scope of Services for conducting a Phase I ESA outlined in ASTM practice E 1527-21 and EPA's standards for AAI outlined in *40 CFR Part 312* typically includes the following components: User's responsibilities, physical setting resources, government records, historical records, site reconnaissance, and owner/operator/occupant and local governmental officials' interviews.

In order to fulfill the objectives of this Phase I ESA and meet or exceed due diligence requirements, the following tasks were completed:

- A visual survey of the subject property to identify areas of potential environmental concern. Color photographs were taken to document conditions of the subject property at the time of the site reconnaissance.

- A visual observation of neighboring properties or facilities from the subject property or public access areas to assess whether surface conditions on these properties may have adverse environmental impact on the subject property.
- Collection and review of existing published information relating to general geology, hydrogeology, and topographical information for the subject property and area surrounding the subject property.
- Historical land use review of the subject property and adjoining properties and the surrounding area back to 1940 or the first developed use, whichever occurred earlier.
- A regulatory agency file search to identify federal and state listed sites of known or potential environmental concern located within the minimum search distances from the subject property as specified in ASTM E 1527-21 and EPA's All Appropriate Inquiry codified in federal regulation - *40 CFR, Part 312*.
- Interviews with the subject property owner, the owner's representative(s), representatives of the state, county, and local regulatory agencies, or other persons with knowledge of the subject property.
- Evaluation of compiled information and preparation of a report.

The scope of work does not fulfill the requirements for a regulatory compliance audit, nor does it guarantee a zero-risk level of environmental impairment liability.

This Phase I ESA does not purport to address safety concerns, if any, at the subject property. It also does not establish appropriate safety and health practices, or determine the applicability of health and safety regulatory limitations at the subject property.

1.3 Phase I ESA Significant Assumptions

ECS has used and incorporated information provided by private organizations and individuals, as well as municipal, state and federal agencies. However, the Phase I ESA scope of work does not include the independent verification or confirmation of the reliability of this information.

1.4 Reliance Statement

ECS realizes that the Report was prepared for use by the Ann Arbor Housing Development Corporation. The named parties may rely upon the findings of the Report.

1.5 Viability

The collection dates for each component comprising the Phase I ESA is provided as follows:

Viability of Phase I ESA	
Site Contact Interview	4-29-24
Environmental Lien Search	4-29-24
Regulatory Records Review	4-04-24
Site Reconnaissance	4-17-24
Declaration of Assessment	4-29-24

According to ASTM 1527-21, a Phase I ESA is considered valid if the required components were completed within 180 days prior to the date of acquisition (or date of the intended transaction). A Phase I ESA Update is required if the report is older than 180 days.

1.6 Limitations And Exceptions

This report was prepared for, and can be relied upon by, those authorized parties who have been specifically identified herein. Other use or reliance, implied or otherwise, by any other party is strictly prohibited unless authorized and acknowledged by ECS in writing.

Performance of this Phase I ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with the subject property. ECS has used and incorporated information provided by private organizations and individuals, as well as municipal, state and federal agencies. However, the Phase I ESA scope of work does not include the independent verification or confirmation of the reliability of this information.

This report is intended to serve only as an indicator of the potential for environmental impairment arising from readily discoverable, improper chemical, waste management and/or disposal activities conducted at the subject property or in the immediate vicinity of the subject property. Regardless of the findings stated in this report, ECS is not responsible for consequences or conditions arising from facts that were concealed, withheld, not fully disclosed, or not readily accessible at the time the assessment was conducted.

Given the availability of data, probable future adjustments in industry standards, the limited scope of due diligence investigations, the future inclusion of new contaminated sites to agency databases, and the further development of information resources, the resulting environmental liability disposition of the subject property is subject to change with time and this Phase I ESA does not guarantee a zero-risk level of environmental impairment liability.

The Executive Summary to the Phase I ESA is intended to be used as an overview of the complete Report findings. The Executive Summary is not intended to be used as a stand-alone document. Interpretation of the conclusions and recommendations should be based on the Report in its entirety. The Phase I ESA report does not represent a legal opinion. Legal opinions regarding potential environmental liability issues as they relate to the subject property and the Phase I ESA should be obtained from a qualified attorney.

2.0 SUBJECT PROPERTY DESCRIPTION

2.1 Subject Property Location And Legal Description

The subject property is one parcel of developed land located at 404 N. Ashley. The subject property is located in a mixed-use, heavily developed area in downtown Ann Arbor, Michigan.

The subject property location is presented in Figure 1. The subject property general features are presented in Figure 2, Aerial Site Map.

The subject property parcel details as obtained from Washtenaw County and City of Ann Arbor municipal records are summarized in the following table:

Parcel	Address	Details	Owner
09-09-29-139-032	404 N. Ashley	~0.38 Acres, Commercial Building	Ann Arbor Housing Development Corp.

The following legal description for the parcels was obtained from the Client Provided Title Documentation:

Parcel ID 09-09-29-139-032
<i>Lots 5 and 6, Original Plat of the Village (now City) of Ann Arbor, according to the plat thereof as recorded in Transcripts, Pages 152 and 153 of Plats, Washtenaw County Records.</i>

Refer to Figure 1 for a Site Location Map and Figure 2 for an Aerial Site Map depicting additional details regarding the location of the subject property.

2.2 Subject Property And Vicinity Characteristics

At the time of site reconnaissance, the subject property was a commercial office building. The most recent use of the site appears to be commercial offices. The adjoining properties include mixed use residential and commercial.

3.0 USER/CLIENT PROVIDED INFORMATION

Consistent with the requirement of AAI and ASTM E1527-21, ECS provided the user(s) of the Phase I ESA with a questionnaire regarding their specific knowledge of property environmental conditions. Ms. Jennifer Hall, representing the Ann Arbor Housing Development Corporation, provided a completed User/Client Questionnaire.

3.1 Environmental Liens Or Activity And Use Limitations

ECS was not provided any information pertaining to environmental liens associated with the subject property.

ECS reviewed a copy of the current EGLE *Remediation and Redevelopment Division Perfected Lien List*. There was no information regarding environmental liens encumbering the subject property (<https://www.michigan.gov/egle/about/organization/remediation-and-redevelopment/rrd-enforcement-perfected-lien-list>).

Evaluation of the EGLE Environmental Mapper on line database did not identify AULs associated with the subject property or adjoining properties. There is a Land Use Restriction in the Ann Arbor area due to groundwater contamination emanating from the Pall Life Sciences (PLS) (formerly known as Gelman Sciences Inc.) facility in Scio Township, Washtenaw County. The subject property is located in the "Prohibition Zone" related to the prohibition of groundwater use. A copy of the order prohibiting groundwater use is included as an attachment in **Appendix D**. (<https://www.mcgi.state.mi.us/environmentalmapper/#>)

3.2 Title Records

ECS was provided with a Title Search, prepared by ATA Absolute Title Agency, dated December 6, 2023. The last grantee of record was identified as the City of Ann Arbor, a Michigan municipal corporation. No easements/restrictions related to environmental concerns were noted. A copy of the client provided title documentation is included in **Appendix B**.

3.3 User Specialized Knowledge

ECS was not provided with any User specialized knowledge.

3.4 Commonly Known Or Reasonably Ascertainable Information

ECS was not provided with any commonly known or reasonable ascertainable information regarding the subject property.

3.5 Valuation Reduction For Environmental Issues

ECS was not provided with information pertaining to a valuation reduction of the subject property for environmental issues.

3.6 Reason For Performing The Phase I ESA

The Phase I ESA was conducted to provide a viable Phase I ESA associated with a recent property transaction.

3.7 Other User Information

No other information regarding possible environmental conditions at the subject property was provided by the User/Client.

4.0 PHYSICAL SETTING

4.1 Site Location

The Subject Property is situated on the east side of 404 N. Ashley, south of W. Kingsley and north of Miller in downtown Ann Arbor, Michigan. The subject property is located in Section 29, T2S R6E. See Figure 1 for the Site Location Map.

4.2 Topography

Based on the site reconnaissance and review of the USGS Topographic Maps, the topography of the area is sloped with a general topographic gradient to the north-northwest. The site elevation is approximately 808 feet above mean sea level. The slope of the subject property parcel is incorporated into site development. The commercial building is a two-story structure built into the topography having a walk-out basement and a sloping grade towards N. Ashley Street.

4.3 Geology

The Quaternary Geology obtained through EGLE GeoWebFace online resources indicated the surficial geology in the vicinity of the subject property consisted of end moraines of medium-textured till. The bedrock geology was identified as Coldwater Shale.

4.4 Drainage Patterns

Based on the USGS Topographic Maps, and the EDR Radius Map report Geocheck physical setting, the drainage in the area surrounding the subject property was primarily to the north-northwest. The Huron River is located approximately one-half mile to the north-northeast of the subject site.

4.5 Local Groundwater Flow

Generally, groundwater flow direction would be expected to be consistent with surface water flow and local topography and dependent upon seasonal variation in precipitation. Therefore, it is likely that the groundwater flow direction in the area of the subject property will be toward a nearby surface water or in the direction of flow of the nearby Huron River.

5.0 REGULATORY RECORDS

5.1 Standard Government Environmental Records

As part of the current study, readily available regulatory database information was reviewed to assess the possible risk for environmental liabilities from regulatory action, hazardous material spills, or documented hazardous waste disposal at the subject property or surrounding properties.

Environmental Data Resources Inc. (EDR) was retained to perform a regulatory agency database search to evaluate the possible presence of federal and state listed sites of known or potential environmental concern that may be located within the recommended minimum search distances from the subject property as specified in ASTM E 1527-21 and EPA's final rule for AAI.

A list of the federal and state databases researched by EDR for the current study, including a brief description of each database searched and their respective search distance radius is presented Appendix C, EDR Radius Map™ Report.

A total of 288 listings (some properties listed multiple times) were identified in the environmental records on the database report.

5.1.1 Site Summary

The subject property was identified in three governmental databases, listed as the U of M Community Dental Center located at 406 N. Ashley. The 406 N. Ashley address corresponds to the subject property.

The database listings included RCRA-VSQG, FINDS and ECHO. The RCRA listing confirms the dental office is listed as a very small quantity generator of hazardous waste. There were no violations noted. The FINDS and ECHO databases are administrative in nature. No other information was provided in the listing.

A FOIA request for available regulatory records was completed for the subject site (refer to Section 5.2).

5.1.2 Surrounding Property Summary

The EDR report identified forty-six (46) listings within 1/8 mile from the subject property. Using the EDR Lightbox online tools, ECS further evaluated the listings located within 300 feet of the subject property. The following listings were noted:

SITE NAME	ADDRESS	DATABASES	*DIST (ft)
110 Miller	110 Miller	Inventory, Part 201, BEA	180
NRT	202 Miller	UST, LUST, Inventory, Part 201, BEA	245
Beakes Street Service/Billy's Mobile	101 Beakes	LUST, UST, EDR Historic Auto, UST Finder, UST Finder Release	255
206-210 Miller & 307-309 N. Ashley	206-210 Miller & 307-309 N. Ashley	Inventory, Part 201, BEA	263

*Distance as listed in EDR Radius Map Report.

Each of the sites in the table have documented soil and/or groundwater contamination (i.e. Inventory, BEA). A FOIA request for records is warranted for these nearby addresses (refer to Section 5.2).

The remaining listings in the EDR Radius Report do not appear to present a concern to the subject property based on the distance from the subject property, the type of listing, inferred geology/hydrogeology, and/or the potential for engineered barriers between the sites routing subsurface contamination away from the subject property.

5.1.3 Orphan Sites

An orphan site is a property that has been identified by EDR as a site within a zip code that has insufficient address information available to accurately plot the site on their map. A review of the EDR Radius Map™ Report indicates that nine orphan sites were identified during their database search. Using the information provided in the orphan summary, ECS attempted to determine if any of the orphan sites present to the potential to negatively impact the subject property. Based on the information provided, most of the listings were confirmed to be at a distance that does not present potential for negative impact. A few of the listings did not have enough information to draw a conclusion or further investigate.

5.2 Regulatory Agency File And Records Review

In accordance with the Standard, if the subject property or any of the immediately adjoining properties are identified on one or more of the standard government environmental record resources, pertinent regulatory files and/or records associated with the listing should be reviewed. The purpose of the regulatory file review is to obtain sufficient information to assist the Environmental Professional in determining if a REC, HREC, CREC or de minimis condition exists at the subject property in connection with the listing.

Based on the findings summarized in Sections 5.1.1 and 5.1.2, regulatory agency records review was warranted for the subject property as well as adjoining and nearby properties. ECS submitted a FOIA request for records to the Michigan Department of Environment, Great Lakes and Energy (EGLE). The results are summarized in the following sections.

406 N. Ashley – Subject Property

EGLE responded in correspondence dated April 25, 2024 that public records do not exist for the subject property. ECS also evaluated the EGLE Waste Database System online resource. The 406 N. Ashley address is identified as a CESQG in 1999. The owner/operator was listed as City of Ann Arbor. No further information was available. A copy of the WDS listing is included as an attachment in Appendix D.

110 Miller – Adjoining Property to the South

The 110 Miller Road address was determined to be the adjoining property to the south. A search of EGLE FOIA archives provided the BEA report prepared for the adjoining property dated December 2001. A review of the BEA indicated that a gas station/service station was formerly located at the site (fronting Miller Street). Soil borings were advanced to a maximum depth of 20' beneath the ground surface; no groundwater was encountered. Sampling conducted on the adjoining property indicated VOCs and PNAs were detected in soil samples collected, but were at concentrations less than their respective Generic Residential Cleanup Criteria. Arsenic was detected at a concentration greater than its Generic

Residential Cleanup Criteria for direct contact. Based on the findings summarized in the BEA, the potential for negative impact to the subject property from the adjoining BEA site appears minimal.

202 Miller – Nearby Property to the Southwest

A search of EGLE FOIA archives provided a BEA report and Due Care Plan prepared for the nearby property to the southwest dated June and August 2018. A review of the BEA indicated that a gas station/service station was formerly located at the site. Sampling conducted on the nearby property indicated petroleum indicator compounds, VOCs and PNAs, were detected in soil samples collected. The borings were advanced to a maximum depth of 12' beneath the ground surface; no groundwater was encountered. VOC and PNA concentrations in several soil samples were at concentrations greater than their respective Generic Residential Cleanup Criteria. The soil boring soil samples collected near the north and northeast portion of the property (closest to the subject property) had no detectable concentrations of VOCs and PNAs. Based on the findings summarized in the BEA, the potential for negative impact to the subject property from the adjoining BEA site appears minimal.

206 & 210 Miller/307 & 309 N. Ashley – Nearby Property to the Southwest

A search of EGLE FOIA archives provided a BEA report prepared for the nearby property to the southwest dated December 2017. A review of the BEA indicated that adjoining properties (202 Miller and 110 Miller) presented a Recognized Environmental Condition (REC) to the nearby site. Sampling conducted on the nearby property indicated petroleum indicator compounds VOCs and PNAs were detected in soil samples collected. The borings were advanced to a maximum depth of 16' beneath the ground surface; no groundwater was encountered. VOC and PNA concentrations in several soil samples were at concentrations greater than their respective Generic Residential Cleanup Criteria. The soil samples collected near the northeast portion of the property (closest to the subject property) had no detectable concentrations of VOCs and PNAs. Based on the findings summarized in the BEA, the potential for negative impact to the subject property from the adjoining BEA site appears minimal.

5.3 Local Environmental Records

Current and historic records for the subject property address of 404 N. Ashley were requested by ECS through a FOIA request submitted to the City of Ann Arbor. Records were requested from the Assessing Department, Fire Department and Building Department. A response was received from the City of Ann Arbor dated April 16, 2024. Limited information was provided, consisting of a one-page record card with limited current assessing information.

The City did provide internet addresses for additional public records. These online resources were also evaluated. The following items were noted:

- Building department records consisted mostly of plans/permits associated with renovations to the building interior and mechanicals.
- Plans dated 1971 identified proposed use as a day care.
- Plans dated 2017 summarize renovations to a dental clinic. An air compressor was identified in the mechanicals room.

A copy of the municipal records is included in Appendix D.

6.0 HISTORICAL RECORDS

Historical usage of the subject property and adjoining properties was referenced through reasonably ascertainable records which may have included, but were not necessarily limited to, aerial photographs, historic fire insurance maps (when available), city directories, interviews with persons knowledgeable of subject property conditions, and previous site assessments. See Section 13.0 for references for the records that were reviewed.

6.1 Aerial Photographs

Aerial photographs of the subject property and surrounding area were reviewed. The aerial photographs depicted the following:

Year	Subject Property Observations
1937-1940	The subject property appears developed with small structure(s) and trees.
1949-1969	The subject property appears developed with small structures that are indicative of residential dwellings and garages.
1973-1978	The subject property appears to be vacant land with some trees.
1983	The subject property is redeveloped with the existing commercial structure and parking area.
1987-2020	No significant changes are noted.

Year	Adjoining Property Observations
1937-1940	Adjoining properties appear developed with small structures and trees (scale limits observations).
1949-1955	Adjoining properties appear developed with small structures that are indicative of residential dwellings and garages.
1962-1969	No significant changes, with the exception of the parcel to the south appears to be used as a parking lot.
1973	The small structures adjoining to the east and west remain. The north adjoining parcel is vacant land with trees. The south adjoining parcel is a parking lot.
1978	No significant changes, with the exception of a small parking area and structure on the north adjoining parcel.
1983-2012	No significant changes are noted.
2012-2020	The north adjoining parcel is developed with what appear to be apartment buildings. The south adjoining parcel remains parking. East and west remain small structures.

Except as discussed above, the scale and resolution of the aerial photographs limited observation of special features, such as relief, areas of staining, soil disturbances or areas of outdoor storage.

The subject property was developed for what appears to be residential use sometime prior to 1937. The property was redeveloped for commercial use sometime between 1978 and 1983.

With respect to adjoining properties, due to the scale of the photographs, details regarding adjoining property use were limited. No obvious RECs were noted on immediately adjoining properties.

Copies of the aerial photographs are presented in Appendix E.

6.2 Historical Topographic Maps

Historical topographic maps of the subject property and surrounding area were reviewed. The topographic maps depicted the following:

Year	Subject Property Observations
1902-1908	The scale of the photograph limits observations. The property appears developed with small structure(s).
1965-1983	The subject property is shaded pink depicting urban land development (no buildings or structures depicted).
2014-2019	There are no buildings/structures depicted on these maps. The topography is depicted as sloping to the northwest.

Year	Adjoining Property Observations
1902-1908	The scale of the photograph limits observations. The adjoining properties appear developed with small structure(s).
1965-1983	The adjoining properties and surrounding area are shaded pink depicting urban land development (no buildings or structures).
2014-2019	There are no buildings/structures depicted on these maps. The topography is depicted as sloping to the northwest.

The subject property and surrounding area were developed prior to 1902.

Copies of the historical topographic maps in presented in Appendix F.

6.3 Sanborn Fire Insurance Maps

Historical Sanborn maps of the subject property and surrounding area were requested from EDR. A review of the Sanborn maps depicted the following:

Year	Subject Property Observations
1888	The subject property is developed for residential use with dwellings and outbuildings.
1892	One of the structures is no longer present, site use remains residential
1899-1908	The subject property is developed for residential use with dwellings and outbuildings.
1916-1948	The subject property is redeveloped (different layout) with three residential dwellings and outbuildings.
1972	The subject property is vacant land.

Year	Adjoining Property Observations
1888-1916	Adjoining properties are developed for residential use with dwellings and outbuildings.
1925-1948	Immediately adjoining properties remain residential dwellings. The rear of the adjoining parcel to the west of N. Ashley (403/405) has an upholstery shop/furniture repair.
1972	Dwellings remain adjoining to the north and east; some of dwellings are noted as office use. The adjoining parcel to the south is vacant land. Vacant land and a dwelling adjoin to the west of N. Ashley. The upholstery shop/furniture repair still remains west of the 403/405 dwelling.

The subject property and adjoining properties were developed prior to 1888 for residential use. No obvious RECs were noted on the subject property or immediately adjoining properties. The upholstery shop in the rear of the 403/405 N. Ashley parcel is situated approximately 135 feet to the west of the

subject property, in a down-gradient direction. The potential for negative impact to the subject property appears minimal.

Copies of the historical Sanborn maps in presented in Appendix G.

6.4 City Directories

Historical city address directories of the subject property and surrounding properties, provided by EDR, in roughly five year intervals from 1894 to 2020 were reviewed. ECS reviewed the Sanborn maps to confirm historic addresses that may correspond to the subject property. The following addresses were evaluated: 26/28 N. Ashley and 400/408 N. Ashley (even addresses).

The City Directory identified the following listings for the subject property and adjoining properties:

Year	Subject Property Listings
1894-1967	Residential
1972-1982	Not Listed
1987-1995	Community Dental Center
2000	Not Listed
2005	Occupant Unknown, University of Michigan
2010-2014	Occupant Unknown, Community Dental
2017-2020	Community Dental

With respect to adjoining properties, addresses to the north, west and south along N. Ashley were evaluated, as well as adjoining addresses fronting Main Street to the east. The following findings were noted:

- Adjoining addresses along N. Ashley were identified as primarily residential. Some mixed use with commercial were noted. No obvious environmental concerns such as gas stations or dry cleaners were identified. The upholstery business previously discussed in the Sanborn maps was also identified in the city directory resource.
- Adjoining addresses along N. Main Street were identified as primarily residential, converting to commercial businesses over time. No obvious environmental concerns such as gas stations, dry cleaners were identified. The Ann Arbor Window Cleaning Co. was listed in 1960-64 (401 N. Main Street). However, based on a review of Sanborn maps and type of service, the potential for negative impact to the subject property appears minimal.

A copy of the City Directories is provided in Appendix H.

6.5 Previous Environmental Documentation

ECS was not provided with previous environmental documentation.

6.6 Historical Use Summary

Historical documentation indicates the site was first developed sometime prior to 1888 for residential use. The property was redeveloped for commercial office use circa 1983. Known commercial use included dental offices. No other known uses were identified.

7.0 SITE AND AREA RECONNAISSANCE

The site reconnaissance was performed on April 17, 2024 by Ms. Julie Pratt of ECS. See Appendix A for the Site Photographs obtained during the visual reconnaissance and Figure 2 for the Aerial Site Map.

7.1 Methodology And Limiting Conditions

The subject property and adjoining properties were visually observed for visible evidence of ASTM RECs in an effort to determine if a release of petroleum or other hazardous materials has occurred to the site surface, soil, surface water or groundwater. Indications of RECs may include, but are not limited to, evidence of buried or discarded drums or containers, stained, discolored or disturbed soils, stressed vegetation, evidence of pipes or other objects protruding from the ground, and evidence of aboveground and underground storage tanks.

The site reconnaissance was conducted in a manner that allowed for visual observations and identification of subject property features, including structures, open areas, property boundaries, and adjoining properties.

7.2 Current Use(s) of the Subject property

The subject property is currently a commercial office building with associated parking.

7.3 Past Use(s) of the Subject property

Visual observations of the subject property confirmed former uses as a medical office. Observations of the electrical panel circuit listings were consistent with former medical office use (i.e. exam room, operating room, sterile room, lab).

7.4 Current Use(s) of the Adjoining Properties

A limited visual reconnaissance of the adjoining and nearby properties was performed. The reconnaissance was limited to observation of areas visible from the subject property or areas of public access. A summary of current uses of adjoining properties relative to the subject property is listed below:

	Adjoining Properties
North	Multi-family residential apartments
South	Parking Lot
East	Residential dwellings operated as commercial offices.
West	N. Ashley, followed by residential dwellings (possibly mixed use).

ECS observed the adjacent properties from the subject property or public access areas, as accessible. Based upon observations made at the time of ECS's site reconnaissance, the current uses of adjoining properties do not appear to be an environmental concern in relation to the subject property.

7.5 Past Use(s) of the Adjoining properties

Visual observations of the adjoining properties did not identify any obvious past uses that present an environmental concern.

7.6 Current or Past Use(s) of the Surrounding Area

The surrounding area is mostly urban land development in an established mixed-use neighborhood. Visual observations of the surrounding area did not identify any obvious past uses that present an environmental concern.

7.7 Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

Physical setting observations and information were previously described in Section 4.0.

Visual observations did not indicate any obvious evidence that there likely is or was a release of hazardous substances or petroleum products at a nearby property that may migrate to the subject property.

7.8 Structures and Other Improvements on the Subject Property

There is a one two-story commercial office building that encompasses the north portion of the subject property. The building is approximately 5,200 square feet with offices located on the first and second floors of the building.

Driveway access from N. Ashley Street provides access to the adjoining asphalt parking area across the south portion of the parcel. Some areas of greenspace and landscaping adjoin the building.

7.9 Roads

There are no public roads currently present on the subject property. The property is accessible by driveway access from N. Ashley Street.

7.10 Utilities, Wells And Septic Systems

No obvious visual indications of drinking water wells or septic systems were noted at the subject property. Utilities available at the subject property include municipal water and sewer service, natural gas and electric service.

7.11 Chemical Use And Storage

There was no obvious evidence of any hazardous substances or petroleum products noted on the subject property in connection with use of the subject property. Limited small quantity containers of paints and building materials were noted in the first floor mechanicals room; they were properly stored and consistent with commercial office space maintenance.

7.12 Storage Tank Systems

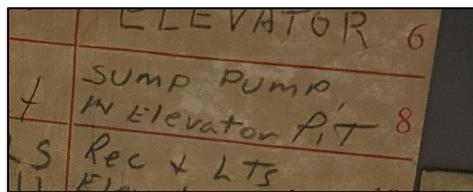

The subject property was visually observed for signs of current or former underground storage tanks (USTs) and aboveground storage tanks (ASTs). Typical indicators of USTs include pump islands, fill or vent piping, excavations, man hole covers, etc. There were no obvious indicators of current ASTs or USTs at the subject property.

7.13 Odors

There were no strong, pungent or noxious odors observed on the subject property.

7.14 Surface Water, Pools, Sumps

No standing surface water, pools or sumps containing liquids likely to be hazardous substances or petroleum products was observed on the subject property. The elevator room was unable to be accessed at the time of the site visit. Visual observations of the electrical panel identified "sump pump in elevator pit".

7.15 Suspected Polychlorinated Biphenyl-Containing Equipment

The subject property was observed for suspected polychlorinated biphenyl (PCB) containing equipment, such as electrical transformers and capacitors. No obvious evidence of PCB containing equipment was noted. A pad-mounted transformer unit was noted near the northeast corner of the building. No staining or leaks were noted; no labeling regarding contents was noted. As noted in the previous section, the elevator room was unable to be accessed. The type of liquids that may be present in the elevator mechanicals is unconfirmed.

7.16 Stains or Corrosion on Floors, Walls or Ceilings

There was no obvious evidence of unexplained stains or corrosion on floors, walls and/or ceilings.

7.17 Drains and Sumps

Sumps were not observed on the subject site. Floor drains were noted interior to the structure in the mechanical/utility area, as well as exterior to the building. No evidence of staining was noted in proximity to the drains.

7.18 Stained Soil or Pavement

ECS did not observe stained soil or stained pavement on the subject property, with the exception of a de minimis area of staining along the north wall of the building near the exterior mechanicals area. The staining was observed on the landscaping rock, apparently discharging from a PVC vent from the

basement area of the building. Based on review of historical plans of the building, this appears to be associated with blowdown from a former air-compressor used associated with the former dental office.

7.19 Vegetation

The exterior portion of the subject property includes paved parking areas as well as some landscaping. No obvious evidence of stressed vegetation due to environmental concerns was noted.

7.20 Solid Waste Disposal

No obvious mounds or depressions suggesting trash or other solid waste disposal was observed.

7.21 Waste/Wastewater

No obvious wastewater or other liquid is discharged from or to the subject property.

7.22 Wells

No evidence or indication of any dry wells, irrigation wells, injection wells, monitoring wells, abandoned wells or other wells were noted on the subject property.

8.0 OWNER/OCCUPANT INTERVIEWS

An owner/occupant questionnaire was completed by Jennifer Hall representing Ann Arbor Housing Development Corp.

8.1 Interview With Site Owner

Ann Arbor Housing Development Corp. has owned the property for less than one year. Prior ownership was the City of Ann Arbor from 1968 through 2024. The property was leased to the UM Dental Clinic. Each of the questions on the questionnaire were answered with a "No" or "Unknown". No knowledge of any previous environmental concerns was noted.

8.2 Interview With Site Operator/Occupant

Occupants were not interviewed.

8.3 Interview With Site Manager/Other

No other interviews were conducted.

8.4 Interviews With State Local And Government Officials

As previously discussed in Sections 5.2 through 5.4, Ann Arbor and Washtenaw County had limited records pertaining to the subject property. No other interviews with state or local governmental officials were conducted.

9.0 ASSESSMENT OF POTENTIAL VAPOR ENCROACHMENT CONDITIONS (VECs)

ECS completed a Tier I and non-invasive Tier II Vapor Encroachment Screen (VES) of the subject property. The Tier I and non-invasive Tier II VES was conducted in general accordance with the guidelines established by the American Society for Testing and Materials (ASTM) in the Standard Practice for Assessment of Vapor Intrusion into Structures on Property Involved in Real Estate Transactions Designation E 2600-10 (ASTM Standard Practice E 2600-10).

The purpose of the VES was to determine if potential Vapor Encroachment Concerns (pVECs) or Vapor Encroachment Concerns (VECs) exist in association with the subject property. ASTM's Standard Practice E 2600-10 defines the term VEC as the presence or likely presence of any contaminant of concern (COC) in the indoor air environment of existing or planned structures on a property caused by the release of vapor from contaminated soil or groundwater either on the property or within close proximity to the property, at a concentration that presents or may present an unacceptable health risk to occupants. A VEC can be further defined as any COC within 100 feet for soil impacts or ground water impacts of an existing/planned structure or to the target property boundary if there are no planned structures.

The scope of this Tier I VES included a review of the geologic, hydrologic, hydrogeologic, topographic maps, aerial photography, city directories and a review of regulatory databases and other pertinent data obtained during the preparation of the Phase I.

The Tier II component of this VES included the use of professional judgment for additional nearby properties outside of the scope of a typical Phase I records review. No subsurface investigation of the property was undertaken as part of this Tier I and non-invasive Tier II VES.

Based on the governmental database findings, there were three known contaminated sites located near the subject property (one adjoining to the south and two nearby to the southwest). Data was available for these properties through EGLE regulatory documents (summarized in Section 5.2). Based on the type of contaminants and concentrations, distances from the subject property, and man-made features (such as utility corridors and other structures with basements), the nearby contaminated sites do not appear to present a VEC to the subject property.

10.0 NON-SCOPE CONSIDERATIONS

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, lead based paint, radon, water infiltration, mold and/or wetlands. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, they are considered non-scope issues.

11.0 FINDINGS AND OPINIONS

In the professional opinion of ECS, appropriate inquiry has been made into the current and past uses of the subject property consistent with good commercial and customary practice in an effort to minimize liability.

The subject property for the purpose of this Phase I ESA is the parcel of commercial property located at 404 N. Ashley. The subject property is located in a mixed use heavily developed area in downtown Ann Arbor.

At the time of site reconnaissance, the subject property was a commercial office building. The most recent use of the site appears to be commercial offices. The adjoining properties include mixed use with multi-family residential to the north, commercial (former residential) the east (fronting Main Street), single family residential to the west of N. Ashley, and a commercial parking lot to the south.

Historical documentation indicates the site was first developed sometime prior to 1888 for residential use. The property was redeveloped for commercial office use circa 1983. No other known uses were identified. The subject property was listed in the governmental database for historic small quantity generator hazardous waste generation status. No violations were identified. Limited information was available, but waste generation appears to be associated with historic use as a dental office.

Historic documentation and governmental databases were evaluated with respect to the potential for environmental concerns associated with the subject property and adjoining/nearby properties. No obvious environmental concerns were noted, with the exception of historic gas station sites with documented contamination to the south and southwest of the subject property. FOIA review of available public information from the Michigan Department of Environment, Great Lakes and Energy (EGLE) was conducted for each of the contaminated sites. Based on the location of the former source areas, contamination encountered and distance from the subject property, the potential for negative impact to the subject property appears minimal.

12.0 CONCLUSIONS AND RECOMMENDATIONS

12.1 CONCLUSIONS

ECS has performed a Phase I ESA in conformance with the scope and limitations of AAI and ASTM E 1527-21 of the subject property located at 404 N. Ashley in Ann Arbor, Washtenaw County, Michigan. Any exceptions to, or deletions from, this practice are described in Section 12.2 of this Report.

This assessment has revealed no evidence of RECs, Historic RECs, or Controlled RECs in connection with the subject property.

The following items were also identified that may warrant further discussion as a business risk:

- The elevator room was unable to be accessed at the time of the site visit. Visual observations of the electrical panel identified "sump pump in elevator pit". The types of liquids that may be present in the elevator mechanicals is unconfirmed. Integrity of the elevator system including assessment for any spills or leaks of liquids should be evaluated.

- ECS observed a de minimis area of staining along the north wall of the building near the exterior mechanicals area. The staining was observed on the landscaping rock, apparently discharging from a PVC vent from the basement area of the building. Based on review of historical plans of the building, this appears to be blowdown from a former air-compressor used associated with the former dental office. Cleanup of this area is recommended to confirm de minimis nature.

12.2 Data Gaps

No data failures as defined in ASTM E 1527-21 were encountered during the completion of the Phase I ESA and no significant limitations were noted during the site reconnaissance, with the exception of the following:

- First developed use of the subject property was residential. Documentation regarding historic heat source and the use of any backfill materials used following demolition are unconfirmed.
- Information pertaining to the historic small quantity generator hazardous waste generation at the subject property was limited in nature.

The data gaps, failures and/or limitations were not determined to be material in identifying RECs and/or they are not considered by ASTM standard to be significant based on additional information gathered and ability to draw a conclusion in regard to the prior use of the subject property from the sources reviewed

12.3 Limiting Conditions/Deviations

No deviations to the stated scope of work, Section 1.2, were identified during the completion of the Phase I ESA. The elevator was unable to be accessed at the time of the site visit, limiting visual observations.

12.4 Additional Investigation

No additional investigation was conducted beyond the Phase I ESA scope of work.

12.5 Recommendations

Based on the absence of REC's, no further assessment is recommended.

Based on business risks identified, additional assessment can be considered to provide additional information.

14.0 QUALIFICATIONS AND ENVIRONMENTAL PROFESSIONAL STATEMENT

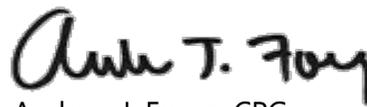

We declare that, to the best of our knowledge and belief, we meet the definition of Environmental Professional as defined in 312.10 of 40 CFR 312 and we have the specific qualifications based on education, training and experience to assess a property of the nature, history and setting of the subject property. We have developed and performed the all appropriate inquires in conformance with the standards and practices set forth in 40 CFR Part 312.

The Phase I ESA site reconnaissance was performed by Ms. Pratt and this Phase I ESA was written by Ms. Julie Pratt. Mr. Andrew Foerg, provided oversight and report review. Ms. Pratt has over 25 years of experience performing Phase I ESAs. Mr. Foerg has over 35 years of experience performing Phase I ESAs. All work associated with the research and development of this report was performed by qualified personnel and was performed in general accordance with ASTM E 1527-21 and EPA's standards for AAI described in *40 CFR Part 312*.

All of which is respectfully submitted,

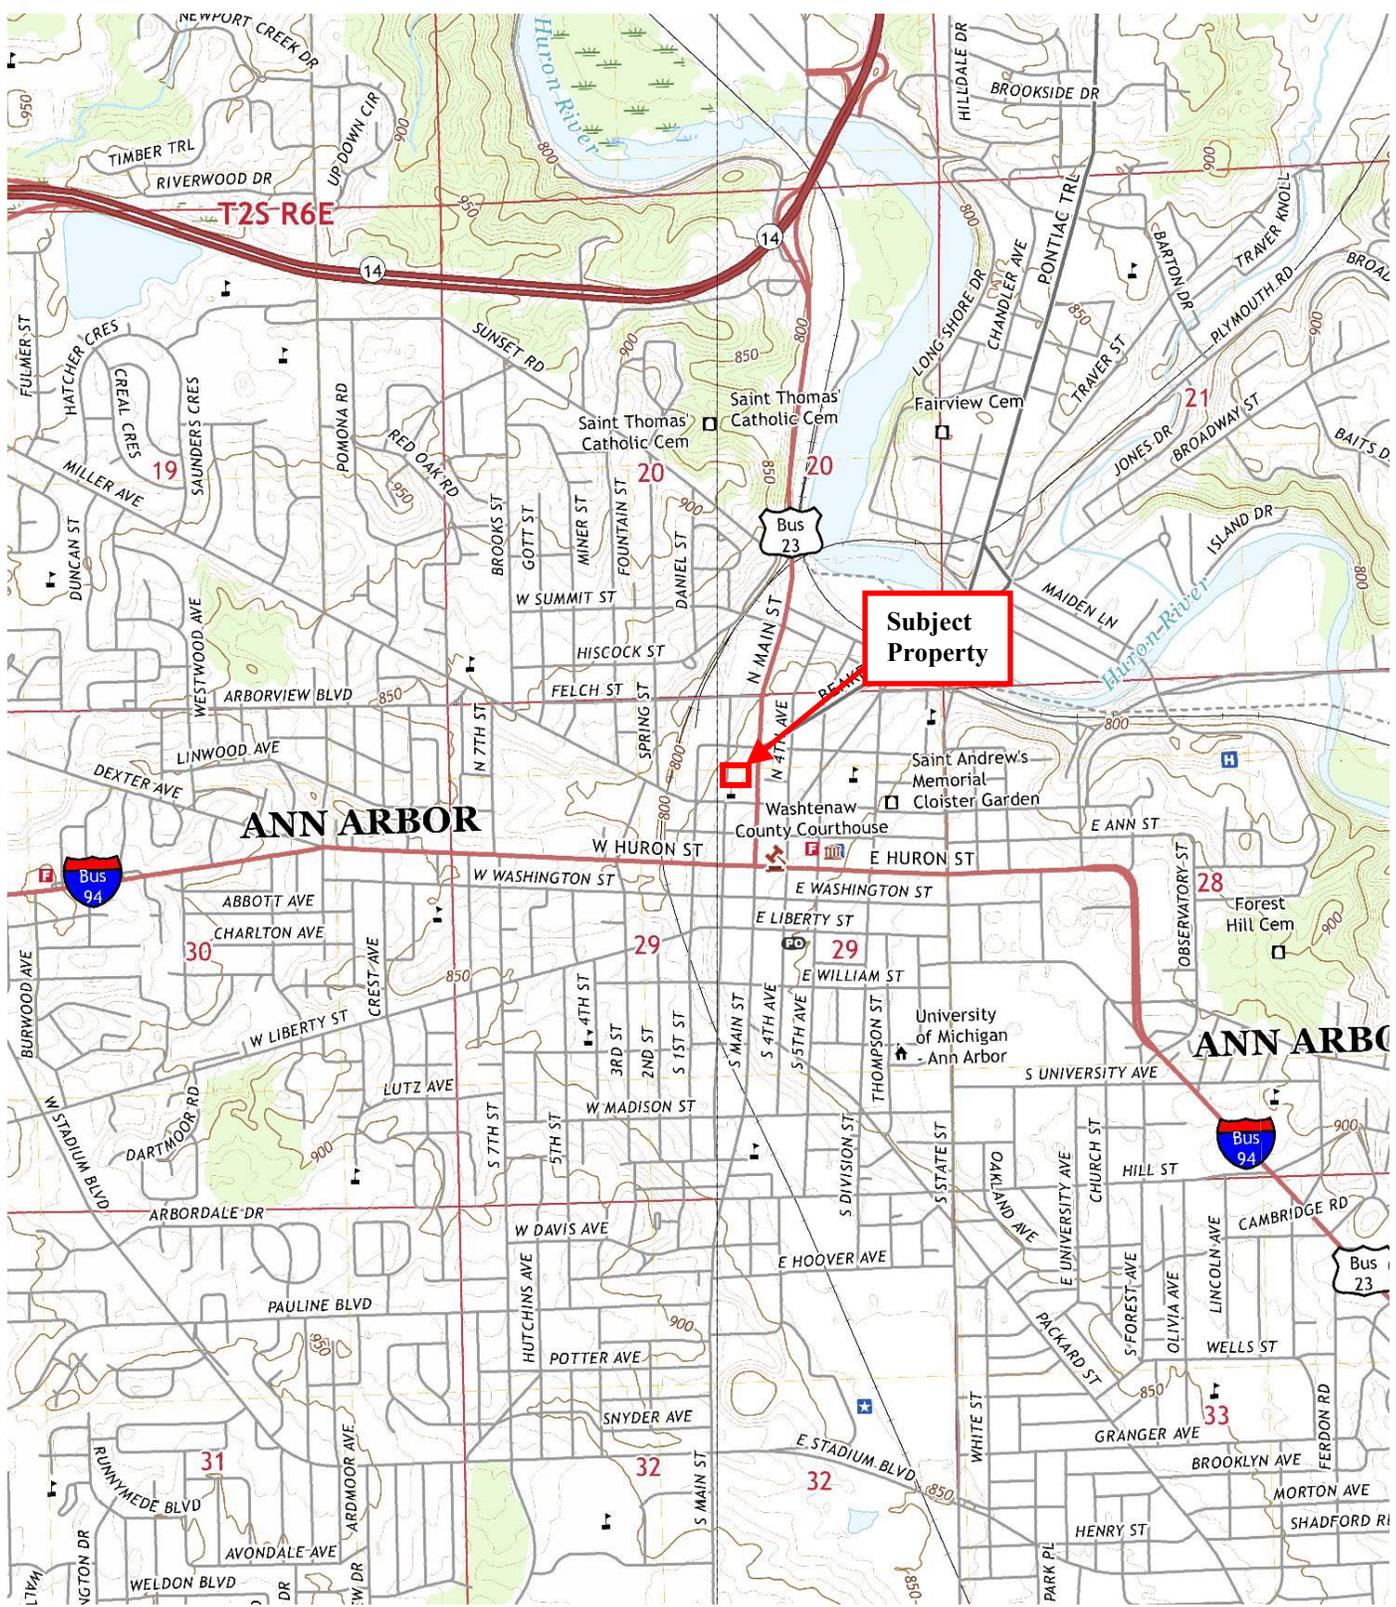

Julie Anna Pratt
Senior Project Professional

Andrew J. Foerg, CPG
President

Client Provided Documentation

USER/CLIENT QUESTIONNAIRE
Phase I Environmental Site Assessment

Project Name: 404 N Ashley Date: 4/29/2024
 Contact Name: Jennifer Hall Phone: 734 474-9695
 Company: Ann Arbor Housing Development Corporation Fax: 734 996-3018
 Relationship to Site: Owner Email: jhall@a2gov.org

This questionnaire outlines personal knowledge of the interviewee. The questionnaire is to be answered to the best of the interviewee's knowledge, and is considered a true and accurate account of that personal knowledge. The questionnaire refers to current and historical information regarding the property, and will be included within the Phase I ESA report.

General Site Information

Type of Property: Industrial Commercial Residential Other
 Size of Property: less than 1 acre Size of building(s): 4,468 SF
 Site Address: 404 N Ashley Ann Arbor MI 48103

Occupied by: Interfaith Hospitality Network Admin offices and Shelter Association of Washtenaw County admin offices
 Owned by: Ann Arbor Housing Development Corporation
 Current Operations/Site Use: Offices

Proposed Operations/Site Use: Will be demolished and developed as affordable housing

Current/Former Site Contacts (which may have knowledge of Site History):

Name	Title	Years at Site/ With Company	Phone No.
Derek Delacourt	Community Services Admin	10 yrs at City	313 407-3552

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “Brownfields Amendments”), the user must conduct the following inquiries required by 40 C.F.R. §§ 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The user should provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that “all appropriate inquiries” is not complete.

1. Environmental liens that are filed or recorded against the subject property

Did a search of land title records identify any environmental liens filed or recorded against the subject property under federal, tribal, state, or local law?

Yes No

If yes, explain: _____

2. Activity and use limitations that are in place on the subject property or that have been filed or recorded against the subject property

Are you aware of any activity and/or use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded against the subject property under federal, tribal, state or local law?

Yes No

If yes, explain: _____

3. Specialized Knowledge or Experience of Subject Property

Do you have any specialized knowledge or experience related to the *subject property*? For example, are you involved in the same line of business as the current or former *occupants* of the *subject property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes No

If yes, explain: formerly dental office

4. Specialized Knowledge or Experience of Adjoining Properties

Do you have any specialized knowledge or experience related to *the adjoining properties*? For example, are you involved in the same line of business as the current or former occupants of the *adjoining properties* so that you would have specialized knowledge or the chemicals and processes used by this type of business?

Yes No

If yes, explain: _____

5. Relationship of the purchase price to the fair market value of the subject property if it were not contaminated

Does the purchase price being paid for this Site reasonably reflect the fair market value of the Site.

Yes No

If you conclude there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the Site?

Yes No

If yes, explain: purchased for \$1 from the city of Ann Arbor to develop as affordable housing

6. Commonly Known/Reasonably Ascertainable Information about the subject property

Are you aware of commonly known or reasonably ascertainable information about the *Subject Property* that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:

Do you know the past uses of the Site? Yes No

If yes, explain: it has been a dental clinic since it was built in 1968 or therabouts

Do you know of specific chemicals that are present or once were present at the Site? Yes No

If yes, explain: _____

Do you know of spills or other chemical releases that have taken place at the Site? Yes No

If yes, explain: _____

Do you know of any environmental cleanups that have taken place at the Site? ___Yes X No

If yes, explain: _____

7. The degree of obviousness of the presence or likely presence of contamination at the subject property, and the ability to detect the contamination by appropriate investigation

Based on your knowledge and experience related to the Site, are there any obvious indicators that point to the presence or likely presence of releases at the Site?

___Yes X No

If yes, explain: _____

WARRANTY DEED

KNOW ALL MEN BY THESE PRESENTS: That CLAUDE F. BREWER and ANNA L. BREWER, his wife, whose address is 400 N. Ashley Street, Ann Arbor, Michigan; GERALD W. BREWER and RUTHMARY F. BREWER, his wife, whose address is 3460 Dexter Road, Ann Arbor, Michigan; and RUSSELL E. BREWER and HELEN M. BREWER, his wife, whose address is 2464 Dorchester, Ann Arbor, Michigan, Convey and Warrant to THE CITY OF ANN ARBOR, a Michigan Municipal Corporation, whose street number and post office address is 100 N. Fifth Avenue, Ann Arbor, Michigan, the following described premises situated in the City of Ann Arbor, County of Washtenaw and State of Michigan, to-wit:

Lot Number Five, excepting therefrom eight feet in width by the entire length off from the North side of said lot, Block three north of Huron Street, Range Three East, according to the recorded plat of the Village (now City) of Ann Arbor, Washtenaw County, Michigan, as recorded in Transcript 152 in the Office of the Register of Deeds of Washtenaw County, Michigan.

Expressly reserving, however, unto Claude F. Brewer and Anna L. Brewer, and each in their own right, the exclusive right to possession of the said premises from and after the date hereof and until not later than March 31, 1969. Provided, that if Claude F. Brewer and Anna L. Brewer vacate the said premises prior to March 31, 1969, the right to possession thereof shall thereupon immediately vest exclusively in The City of Ann Arbor.

Subject to easements and restrictions of record.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, for the sum of Nineteen Thousand and no/100 (\$19,000) Dollars and other valuable considerations.

Dated this 8th day of March 1968.

OWNER/OCCUPANT QUESTIONNAIRE
Phase I Environmental Site Assessment

Site Name	404 N Ashley	Project #	
Contact Name	Jennifer Hall	Date	4/29/2024
Company	Ann Arbor Housing Development Corp	Phone	734 474-9695
Relationship to Site	Owner	Email	jhall@a2gov.org

Instructions

This questionnaire outlines personal knowledge of the owner and/or occupant(s) (interviewee) of the subject property. The questionnaire is to be answered to the best of the interviewee’s knowledge, and is considered a true and accurate account of that personal knowledge. The questionnaire refers to current and historical information regarding the property, and may be included within the Phase I ESA report.

Answer all questions and fill in all blanks or circle the answers as indicated. Any additional information that may not be covered in this questionnaire may be included on additional pages and attached.

Questions should be asked of the following persons:

- current owner of the property;
- any non-residential occupant of the property;
- any other occupant likely to be using, treating, generating, storing or disposing of hazardous substances or petroleum products on or from the subject property.

GENERAL INFORMATION

Please complete the following tables with historical owners and occupants (from current to past).

Ownership History:

Owner	Year(s) of Ownership
Ann Arbor Housing Development Corporation	less than 1 year
city of Ann Arbor	1968-2024
Claude and Anna Brewer	unknown

Occupant History:

Name	Type of Business	Year(s) of Occupancy
AAHDC	nonprofit housing	less than 1 year
city of Ann Arbor	Government	leased to UM Dental Clinic 1968-2023
Brewer	unknown	Unknown

	Question	Owner	Occupant	Comments
1	Is the <i>property</i> currently used for an industrial use?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Unknown <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Unknown <input type="checkbox"/>	
2	Is any <i>adjoining property</i> currently used for an industrial use?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Unknown <input type="checkbox"/>	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Unknown <input type="checkbox"/>	
3	Was the <i>property</i> previously used for an industrial use in the past?	Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/>	
4	Was any <i>adjoining property</i> previously used for an industrial use in the past?	Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/>	
5	Is the <i>property</i> currently used or formerly used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility?	Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/>

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL..... National Priority List
Proposed NPL..... Proposed National Priority List Sites
NPL LIENS..... Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL..... National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY..... Federal Facility Site Information listing
SEMS..... Superfund Enterprise Management System

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE..... Superfund Enterprise Management System Archive

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS..... Corrective Action Report

Lists of Federal RCRA TSD facilities

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

Lists of Federal RCRA generators

RCRA-LQG..... RCRA - Large Quantity Generators

Federal institutional controls / engineering controls registries

LUCIS..... Land Use Control Information System
US ENG CONTROLS..... Engineering Controls Sites List
US INST CONTROLS..... Institutional Controls Sites List

Federal ERNS list

ERNS..... Emergency Response Notification System

EXECUTIVE SUMMARY

Lists of state- and tribal hazardous waste facilities

MI SHWS..... This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.

Lists of state and tribal landfills and solid waste disposal facilities

MI SWF/LF..... Solid Waste Facilities Database

Lists of state and tribal leaking storage tanks

INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land

Lists of state and tribal registered storage tanks

FEMA UST..... Underground Storage Tank Listing
INDIAN UST..... Underground Storage Tanks on Indian Land

Lists of state and tribal voluntary cleanup sites

INDIAN VCP..... Voluntary Cleanup Priority Listing

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Landfill / Solid Waste Disposal Sites

MI SWRCY..... Recycling Facilities
MI HIST LF..... Inactive Solid Waste Facilities
INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands
DEBRIS REGION 9..... Torres Martinez Reservation Illegal Dump Site Locations
ODI..... Open Dump Inventory
IHS OPEN DUMPS..... Open Dumps on Indian Land

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL..... Delisted National Clandestine Laboratory Register
MI CDL..... Clandestine Drug Lab Listing
US CDL..... National Clandestine Laboratory Register

Local Land Records

MI LIENS..... Lien List
LIENS 2..... CERCLA Lien Information

Records of Emergency Release Reports

HMIRS..... Hazardous Materials Information Reporting System
MI SPILLS..... Pollution Emergency Alerting System

Other Ascertainable Records

DOD..... Department of Defense Sites
SCRD DRYCLEANERS..... State Coalition for Remediation of Drycleaners Listing

EXECUTIVE SUMMARY

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/04/2023 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 12/04/2023 has revealed that there are 9 RCRA-VSQG sites within approximately 0.25 miles of the target property.

Lists of state and tribal leaking storage tanks

MI LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Quality's Leaking Underground Storage Tank (LUST) Database.

A review of the MI LUST list, as provided by EDR, and dated 11/07/2023 has revealed that there are 29 MI LUST sites within approximately 0.5 miles of the target property.

Local Lists of Hazardous waste / Contaminated Sites

MI INVENTORY: The Inventory of Facilities has three data sources: Facilities under Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA) identified through state funded or private party response activities (Projects); Facilities under Part 213, Leaking Underground Storage Tanks of the NREPA; and Facilities identified through submittals of Baseline Environmental Assessments (BEA) submitted pursuant to Part 201 or Part 213 of the NREPA. The Part 201 Projects Inventory does not include all of the facilities that are subject to regulation under Part 201 because owners are not required to inform the Department of Environmental Quality (DEQ) about the facilities and can pursue cleanup independently. Facilities that are not known to DEQ are not on the Inventory, nor are locations with releases that resulted in low environmental impact. Part 213 facilities listed here may have more than one release; a list of releases for which corrective actions have been completed and list of releases for which corrective action has not been completed is located on the Leaking Underground Storage Tanks Site Search webpage. The DEQ may or may not have reviewed and concurred with the conclusion that the corrective actions described in a closure report meets criteria. A BEA is a document that new or prospective property owners/operations disclose to the DEQ identifying the property as a facility pursuant to Part 201 and Part 213. The Inventory of BEA Facilities overlaps in part with the Part 201 Projects facilities and Part 213 facilities. There may be more than one BEA for each facility.

A review of the MI INVENTORY list, as provided by EDR, and dated 10/16/2023 has revealed that there are 37 MI INVENTORY sites within approximately 0.5 miles of the target property.

MI PART 201: A Part 201 Listed site is a location that has been evaluated and scored by the DEQ using the Part 201 scoring model. The location is or includes a "facility" as defined by Part 201, where there has been a release of a hazardous substance(s) in excess of the Part 201 residential criteria, and/or where corrective actions have not been completed under Part 201 to meet the applicable cleanup criteria for unrestricted residential use. The Part 201 List does not include all of the sites of contamination that are subject to regulation under Part 201 because owners are not required to inform the DEQ about the sites and can pursue cleanup independently. Sites of environmental contamination that are not known to DEQ are not on the list, nor are sites with releases that resulted in low environmental impact.

A review of the MI PART 201 list, as provided by EDR, and dated 02/09/2024 has revealed that there are 59 MI PART 201 sites within approximately 1 mile of the target property.

MI DEL PART 201: A deleted site has been removed from the Part 201 List because information known to the DEQ at the time of the evaluation does not support inclusion on the Part 201 List. This designation is often applied to sites where changes in cleanup criteria resulted in a determination that the site no longer exceeds any applicable cleanup criterion. A delisted site has been removed from the Part 201 List because response actions have reduced the levels of contaminants to concentrations which meet or are below the criteria for unrestricted residential use.

A review of the MI DEL PART 201 list, as provided by EDR, and dated 08/01/2013 has revealed that there is 1 MI DEL PART 201 site within approximately 1 mile of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/04/2023 has revealed that there are 11 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there are 11 UST FINDER sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 28 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EXECUTIVE SUMMARY

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there are 2 EDR MGP sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
CITY GAS WORKS	BEAKES STREET	ENE 1/4 - 1/2 (0.381 mi.)	Z141	316
THE ANN ARBOR GAS CO	BROADWAY STREET	NE 1/4 - 1/2 (0.491 mi.)	159	374

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

 Latitude: 42.287669999999999
 Longitude: -83.748892999999995
 Highlights: Since the late 1920s, the site has been occupied by: the City of Ann Arbor s municipal garage, DPW yard, and departments of fleet services and street maintenance. The City plans to redevelop the site into a public use area. Former Use: In the early 1900s, the site was vacant land with a section of Allen Creek, a tributary to the Huron River, flowing through the site from southwest to northeast. In the late 1920s, Allen Creek was enclosed and the site was first developed for use by the City. Since the late 1920s, the site has been occupied by: the City s municipal garage, DPW yard, and departments of fleet services and street maintenance.

 Comments: RECORD MANAGER Category A1 (Associated ID #s like ITS and Site ID go here.) REVIEW CONCLUSION: BEA is entirely of previously identified concerns, and concerns have already been dealt with appropriately. Closed UST site, the only contamination found at the property consisted of PNAs in a few spots, not significantly above criteria. FURTHER ASSESSMENT, NOTIFICATION, AND/OR MITIGATION ACTION TO BE TAKEN: (any other information is entered here) Notification provided to:

BLANK SLATE CREAMERY (Continued)

1016456591

Longitude: -83.751305000000002
Highlights: Site is a former gasoline fueling station. Developer is looking to remodel into a creamery with potential residential units. Former Use: The subject property has been developed since at least 1888 with the subject building (utilized for wool storage), and a residential dwelling on the southern portion of the subject property. The residential dwelling was converted into a furniture storage building and an annex was constructed between the two buildings. By 1925, the annex and furniture storage building had been demolished, leaving the Subject Building. The site was converted into a gasoline filling station and auto service garage and existed as such, until approximately 1968, when Ann Arbor Implement utilized the subject property as storage. In 1972, a grocery store was opened on the subject property utilizing the subject building, until 1994 when the subject property was vacated.

By 1925, the annex and furniture storage building had been demolished, leaving the Subject Building. The site was converted into a gasoline filling station and auto service garage and existed as such, until approximately 1968, when Ann Arbor Implement utilized the subject property as storage. In 1972, a grocery store was opened on the subject property utilizing the subject building, until 1994 when the subject property was vacated.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 02/29/2024	Source: EPA
Date Data Arrived at EDR: 03/01/2024	Telephone: N/A
Date Made Active in Reports: 03/27/2024	Last EDR Contact: 04/02/2024
Number of Days to Update: 26	Next Scheduled EDR Contact: 07/08/2024
	Data Release Frequency: Quarterly

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date Data Arrived at EDR: 03/01/2024	Telephone: N/A
Date Made Active in Reports: 03/27/2024	Last EDR Contact: 04/02/2024
Number of Days to Update: 26	Next Scheduled EDR Contact: 07/08/2024
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 12/20/2023

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 01/29/2024

Next Scheduled EDR Contact: 04/22/2024
Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 01/29/2024	Source: EPA
Date Data Arrived at EDR: 02/01/2024	Telephone: 800-424-9346
Date Made Active in Reports: 02/22/2024	Last EDR Contact: 04/02/2024

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/04/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/06/2023	Telephone: 312-886-6186
Date Made Active in Reports: 12/12/2023	Last EDR Contact: 03/19/2024
Number of Days to Update: 6	Next Scheduled EDR Contact: 07/01/2024

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/04/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/06/2023	Telephone: 312-886-6186
Date Made Active in Reports: 12/12/2023	Last EDR Contact: 03/19/2024

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/04/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/06/2023	Telephone: 312-886-6186

Number of Days to Update: 6	Next Scheduled EDR Contact: 07/01/2024
	Data Release Frequency: Quarterly

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/04/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/06/2023	Telephone: 312-886-6186

Federal institutional controls / engineering controls registries

LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 08/03/2023	Source: Department of the Navy
Date Data Arrived at EDR: 08/07/2023	Telephone: 843-820-7326
Date Made Active in Reports: 10/10/2023	Last EDR Contact: 02/02/2024
Number of Days to Update: 64	Next Scheduled EDR Contact: 05/20/2024
	Data Release Frequency: Varies

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 10/26/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/17/2023	Telephone: 703-603-0695
Date Made Active in Reports: 02/13/2024	Last EDR Contact: 02/21/2024
Number of Days to Update: 88	Next Scheduled EDR Contact: 06/03/2024
	Data Release Frequency: Varies

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 10/26/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/17/2023	Telephone: 703-603-0695

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

PART 201: Part 201 Site List

A Part 201 Listed site is a location that has been evaluated and scored by the DEQ using the Part 201 scoring model. The location is or includes a "facility" as defined by Part 201, where there has been a release of a hazardous substance(s) in excess of the Part 201 residential criteria, and/or where corrective actions have not been completed under Part 201 to meet the applicable cleanup criteria for unrestricted residential use. The Part 201 List does not include all of the sites of contamination that are subject to regulation under Part 201 because owners are not required to inform the DEQ about the sites and can pursue cleanup independently. Sites of environmental contamination that are not known to DEQ are not on the list, nor are sites with releases that resulted in low environmental impact.

Date of Government Version: 02/09/2024
Date Data Arrived at EDR: 03/06/2024

Data Release Frequency: No Update Planned

INVENTORY: Inventory of Facilities

The Inventory of Facilities has three data sources: Facilities under Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA) identified through state funded or private party response activities (Projects); Facilities under Part 213, Leaking Underground Storage Tanks of the NREPA; and Facilities identified through submittals of Baseline Environmental Assessments (BEA) submitted pursuant to Part 201 or Part 213 of the NREPA. The Part 201 Projects Inventory does not include all of the facilities that are subject to regulation under Part 201 because owners are not required to inform the Department of Environmental Quality (DEQ) about the facilities and can pursue cleanup independently. Facilities that are not known to DEQ are not on the Inventory, nor are locations with releases that resulted in low environmental impact. Part 213 facilities listed here may have more than one release; a list of releases for which corrective actions have been completed and list of releases for which corrective action has not been completed is located on the Leaking Underground Storage Tanks Site Search webpage. The DEQ may or may not have reviewed and concurred with the conclusion that the corrective actions described in a closure report meets criteria. A BEA is a document that new or prospective property owners/operations disclose to the DEQ identifying the property as a facility pursuant to Part 201 and Part 213. The Inventory of BEA Facilities overlaps in part with the Part 201 Projects facilities and Part 213 facilities. There may be more than one BEA for each facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DEL PART 201: Delisted List of Contaminated Sites

A deleted site has been removed from the Part 201 List because information known to the DEQ at the time of the evaluation does not support inclusion on the Part 201 List. This designation is often applied to sites where changes in cleanup criteria resulted in a determination that the site no longer exceeds any applicable cleanup criterion.

A delisted site has been removed from the Part 201 List because response actions have reduced the levels of contaminants to concentrations which meet or are below the criteria for unrestricted residential use.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset, as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Northwest Map: 14468121 ANN ARBOR WEST, MI
Version Date: 2019

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

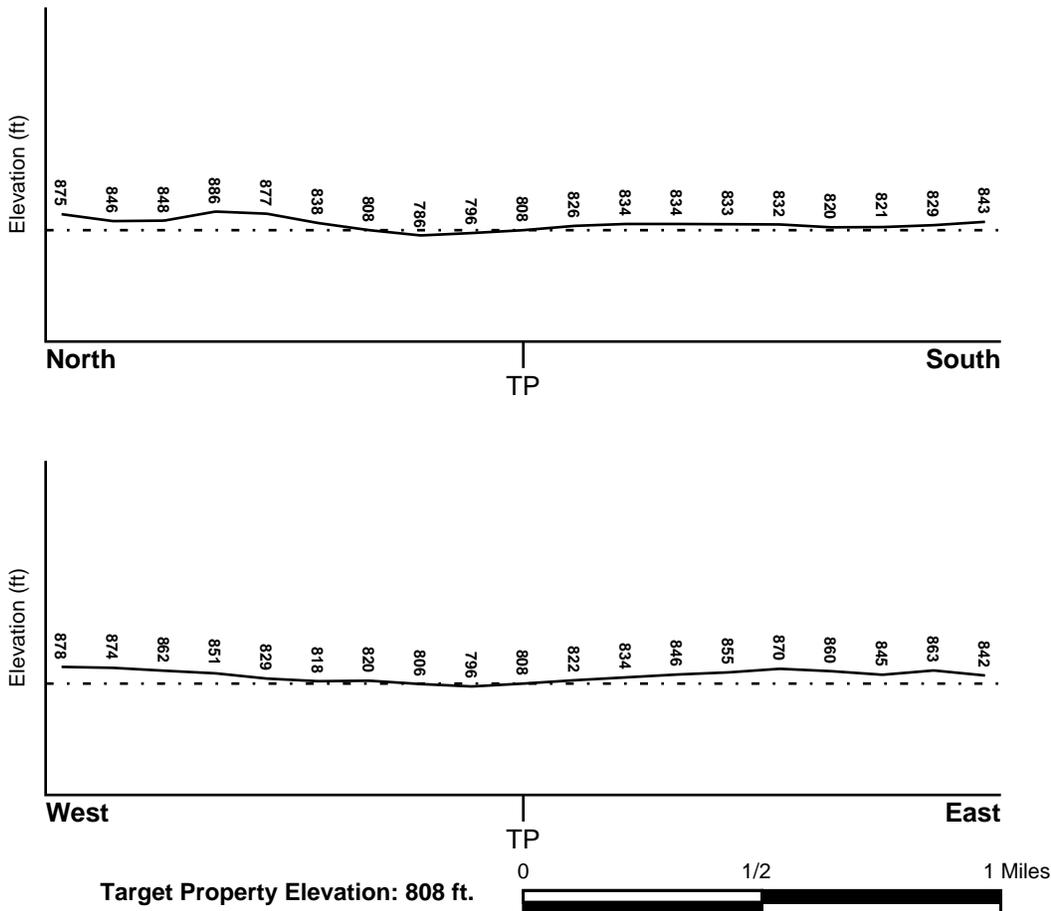

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
ANN ARBOR EAST	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Paleozoic
System: Mississippian
Series: Osagean and Kinderhookian Series
Code: M1 (*decoded above as Era, System & Series*)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: BOYER

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: LOW

Depth to Bedrock Min: > 60 inches

Depth to Bedrock Max: > 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 7.30 Min: 5.60
2	7 inches	18 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 7.30 Min: 5.60
3	18 inches	34 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 6.00 Min: 2.00	Max: 7.80 Min: 5.60
4	34 inches	60 inches	gravelly - sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand.	Max: 20.00 Min: 20.00	Max: 8.40 Min: 7.40

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loamy sand
muck
loam

Surficial Soil Types: loamy sand
muck
loam

Shallow Soil Types: silty clay loam
sandy loam
clay loam

Deeper Soil Types: sand
sand and gravel
stratified
clay loam
loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

coarse sand
muck

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

Source: Department of Natural Resources

Telephone: 517-241-2254

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Data

Source: Department of Environmental Quality

Telephone: 517-335-9218

The data in this file was obtained from Wellogis, the Michigan Department of Environmental Quality Statewide Groundwater Database (SGWD). Wellogis contains approximately 425,000 water well records found within the State of Michigan, and although it represents the best available data, it cannot be considered a complete database of all the wells or well records in existence. Locations of verified municipal and private water well sites compiled from Michigan Department of Public Health, Water Well and Pump Records. Available in the following MI counties: Calhoun, Eaton, Genesee, Ingham, Jackson, Kalamazoo, Kent, Midland, Muskegon, Oakland, Ottawa, Saginaw, St. Clair, Washtenaw.

OTHER STATE DATABASE INFORMATION

Michigan Oil and Gas Wells

Source: Department of Environmental Quality

Telephone: 517-241-1528

Locations of oil and gas wells are compiled from permit records on file at the Geological Survey Division (GSD), Michigan Department of Natural Resources.

RADON

State Database: MI Radon

Source: Department of Environmental Quality

Telephone: 517-335-9551

Radon Test Results

Michigan Radon Test Results

Source: Department of Environmental Quality

Telephone: 517-335-8037

These results are from test kits distributed by the local health departments and used by Michigan residents. There is no way of knowing whether the devices were used properly, whether there are duplicates (or repeat verification) test (i.e., more than one sample per home), etc.

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

Subject: Freedom of Information Act Request received April 09, 2024
2542 Pratt

Dear Julie Pratt:

I am responding to your attached request under the Michigan Freedom of Information Act received on April 09, 2024. Your request is granted in part and denied in part. Your request is denied to the extent that some records do not exist. If all or a portion of the requested public records are publicly available on a City internet site, the City is required to inform you and, where practicable, include a specific internet address. For this request, the following public records can be found at the following City internet address(es):

https://stream.a2gov.org/EnerGov_Prod/selfservice/AnnArborMIProd#/home - Stream

<http://etrakit.a2gov.org/etrakit3/Search/permit.aspx> - Building permits

<http://etrakit.a2gov.org/etrakit3/Search/parcel.aspx> - Building plans

Please note: The City of Ann Arbor does not typically have information on storage tanks or chemical storage. Much of this information is located at the MDEQ office in Jackson and/or on websites maintained by the state of Michigan for Leaking Underground Storage Tanks, Part 201 sites of contamination, and other state regulated facilities. Washtenaw County would have information on well or septic systems on the property. The state MDEQ Jackson office also keeps all information on regulated storage tanks and releases to the environment within Ann Arbor.

If public records you requested are available on a City internet site, but you still would like the City to send you a printed or electronic copy of the records, the labor and material costs for duplication or publication of those records will be added to the fee for the request in accordance with the City's FOIA Procedures and Guidelines. The fringe

benefit multiplier for these costs is permitted to exceed 50% of the hourly wage, reflecting actual costs.

If you receive written notice that all or a portion of your request has been denied, then under Sec. 10 of the Freedom of Information Act (FOIA) and Sec. 16 of the City's FOIA Procedures and Guidelines you may, at your option, either 1) submit to the City Administrator, within 180 days of the date of this response, a written appeal that specifically states the word "appeal" and identifies the reason(s) for reversal of the denial; or 2) commence a civil action in the Washtenaw County Circuit Court to compel the City's disclosure of the record. If, after judicial review, the circuit court determines that the City has not complied with the Act and orders disclosure of all or a portion of a public record, you may be awarded reasonable attorney's fees and damages as specified under the FOIA.

The City's FOIA Procedures and Guidelines and Written Public Summary are available online at www.a2gov.org/FOIA.

If you have any questions concerning this response, please contact the Ann Arbor City Clerk's Office at 734-794-6140.

Sincerely,

A handwritten signature in black ink that reads "Jacqueline Beaudry". The signature is written in a cursive, flowing style.

Jacqueline Beaudry
City Clerk

FOIA Request - 2542 - Pratt

Available Assessing Department records (record cards/assessments), Building Department records (plans, permits, violations) and Fire Department records (specific to environmental concerns such as spills, leaks, dumping, haz materials storage) for the property at 404 N. Ashley, Ann Arbor, MI

CORRECTION LIST

Plans & Specifications

Date 9.9.71

Job Name DAY CARE CENTER Address 400 N. ASHLEY
Architect _____ Type of Occ. _____
Checked by _____ Department _____

Corrections & Code Reference

OK. J. R. Williams, Fire Marshal - 9/9/71

Department of Public Works: The proposed 4" sanitary building lead is adequate for this use. A street excavation and tap permit will be required from this department. This building will have to be removed if and when Ashley and First is extended to Main Street. Approved: Howard Russell 9/9/71

Utilities Dept. - No problem. Normal tap permit and meter set order will need to be applied for at time of construction.
D. Otto

HEALTH Dept - skirts to be 2 ft depth in ground to rat proof
Food service - if more than refug, storage space & sink for cookies & juice using single-serve utensils; will need more detail on kitchen design - if meals are served
refuse disposal - how, when & where
Will need isolation room separate from general area
What will enrollment be? - Is this 1/2 day or full day center
so number of toilet facilities
Playground - where, how large, will it be fenced off from traffic?

Community Dental Clinic First Floor Renovation
Plan Review Number
A3C Project Number 16046

Response to Phone Call clarification dated April 11, 2017

Dear Mr. Pickel:

This letter is in response to your April 11, 2017 phone call to clarify the number of incapacitated oral surgery patients being served by the clinic at one time.

For your record and information, per the University of Michigan School of Dentistry, there will be less than 4 incapacitated patients at one time. All Oral Surgery procedures will take place on the clinics 1st floor with egress access at grade.

With the above response, we believe that the item discussed in our phone conversation has been satisfactorily addressed. Should you have any additional questions regarding this response for this project, please contact me directly for clarification.

Sincerely,

A3C – Collaborative Architecture

ENERGY EFFICIENCY for ALTERATIONS to COMMERCIAL BUILDINGS

The following key energy code provisions apply to alterations to existing commercial buildings. These provisions do not include all of the code requirements for energy code compliance, but are meant to summarize the most critical items.

1. Provide an **energy code analysis**, prepared by a registered design professional, indicating the selected path(s) of compliance as outlined in ASHRAE/IESNA standard 90.1 section 4.2 (Michigan Uniform Energy Code 103.2 and 501.1) and the provisions included for compliance relative to the exterior envelope and interior systems.

Exception: Level 2 or Level 3 alterations to existing buildings are permitted without requiring the entire building or structure to comply with the energy requirements of the Michigan Uniform Energy Code, parts 10 and 10a, provided the alterations shall conform to the energy requirements as they related to new construction only (MI Rehabilitation Code for Existing Buildings 811.1 & 908.1).

2. Provide an **enclosed vestibule** at building entrances that separate conditioned spaces from the exterior. Additions must comply with the vestibule requirement if the addition contains the building entrance.

Exception: Level 2 or Level 3 alterations to existing buildings are permitted without requiring the entire building or structure to comply with the energy requirements of the Michigan Uniform Energy Code, parts 10 and 10a, provided the alterations shall conform to the energy requirements as they related to new construction only (MI Rehabilitation Code for Existing Buildings 811.1 & 908.1).

Exception: Service and delivery entrances

Exception: Buildings and spaces less than 1000 sq. ft. in area

Exception: Replacement of existing doors that separate conditioned space from the exterior shall not require the installation of a vestibule, provided, however, that an existing vestibule that separates a conditioned space from the exterior shall not be removed (MUEC 101.4.3 Exception 6).

Michigan Uniform Energy Code (ASHRAE 90.1 -5.4.3.4)

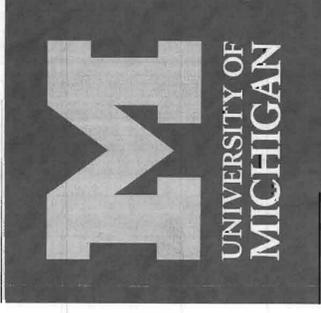

3. **HVAC systems** altered or provided shall comply with either the simplified approach, (section 6.3); the mandatory provisions and prescriptive path, (sections 6.4 & 6.5), or

the mandatory provisions with the energy cost budget method, (section 6.4 & 11). Michigan Uniform Energy Code (ASHRAE 90.1 – 6.2.1).

4. **Service water heating** equipment altered or provided shall comply with 7.4, (mandatory), and 7.5, (prescriptive path) or 7.4, (mandatory), and Section 11, (energy cost budget). Michigan Uniform Energy Code (ASHRAE 90.1 – 7.2.1 & .2)
5. **Power distribution** feeder conductors altered or provided shall have a maximum voltage drop of 2% at full connected load. Michigan Uniform Energy Code (ASHRAE 90.1 – 8.4.1.1)
6. **Power distribution** branch circuit conductors altered or provided shall have a maximum voltage drop of 3% at full connected load. Michigan Uniform Energy Code (ASHRAE – 90.1 – 8.4.1.2)
7. **Lighting systems** and equipment altered or provided shall comply with 9.4, (mandatory provisions), and 9.5, Building area method), or 9.6, (space-by-space method). Michigan Uniform Energy Code (ASHRAE 90.1 – 9.2.1)

When 2 or more **fluorescent lights** serve the same space, the lamps greater than 30 W shall use two lamp tandem wired ballasts unless exempted. Michigan Uniform Energy Code (ASHRAE 90.1 – 9.4.2)

8. **Exterior lighting** altered or provided and operating at more than 100 watts shall have lamps with an efficacy of 60 lm/W unless they are controlled by a motion sensor or meets the exceptions in 9.1.1 or 9.4.5. Michigan Uniform Energy Code (ASHRAE 90.1 – 9.4.4)

1 DRAWING INDEX

- ALL DIMENSIONS ARE FROM FINISH FACE OF MATERIAL, UNO.
- ALL ANGLES ARE 90 DEGREES, UNO.
- SITE CONDITIONS: THE CONTRACTOR BY COMMENCING THE WORK, ACCEPTS THE CONDITIONS OF THE SITE AND THE COMPLETION OF THE CONTRACT DOCUMENTS. ANY DISCREPANCIES BETWEEN DRAWINGS AND ACTUAL CONDITIONS SHOULD BE BROUGHT TO THE ATTENTION OF THE ARCHITECT PRIOR TO BEGINNING THE WORK. NO EXTRAS SHALL BE ALLOWED FOR DISCREPANCIES AFTER THE WORK HAS BEGUN.
- DRAWINGS: ALL CONTRACTORS SHALL REVIEW ALL DRAWINGS AND SPECIFICATIONS. CONTRACTORS ARE RESPONSIBLE FOR COMPLETE REVIEW. ITEMS AFFECTING ALL TRADES ARE PLACED THROUGHOUT THE SET OF DRAWINGS. NO "EXTRAS" FOR MISSED ITEMS IN OTHER SECTIONS WILL BE PERMITTED. THE CONTRACTORS SHALL PROMPTLY NOTIFY THE ARCHITECT OF ANY AMBIGUITY, INCONSISTENCY OR ERROR WHICH THEY DISCOVER UPON EXAMINATION OF THE CONTRACT DOCUMENTS, THE SITE, OR LOCAL CONDITIONS. GENERAL CONTRACTORS SHALL DISTRIBUTE COMPLETE SETS OF DRAWINGS TO ALL SUBCONTRACTORS. DO NOT SEPARATE DRAWINGS BY DISCIPLINE. DO NOT SCALE DRAWINGS.
- COMPLETENESS: ANY MATERIAL NOT SHOWN ON THE DRAWINGS, NOR SPECIFIED, BUT WHICH IS OBVIOUSLY NECESSARY TO COMPLETE THE WORK OF A SIMILAR NATURE SHALL BE FURNISHED WITHOUT ADDITIONAL COST TO THE OWNER OR ARCHITECT. IN THE CASE OF CONFLICTING QUANTITIES/VALUES, THE GREATER AMOUNT OR THE ONE OF GREATER VALUE SHALL PREVAIL AND BE PROVIDED BY THE CONTRACTOR AS A PART OF HIS BASE CONTRACT AND SHALL NOT BECOME A BASIS FOR CHANGE ORDERS OR CLAIMS FOR ADDITIONAL COMPENSATION.
- IN THE CASE OF CONFLICTING OR INCONSISTENT INFORMATION, THE MOST STRINGENT REQUIREMENTS SHALL PREVAIL AND BE PROVIDED BY THE CONTRACTOR AS A PART OF HIS BASE CONTRACT AND SHALL NOT BECOME A BASIS FOR CHANGE ORDERS OR CLAIMS FOR ADDITIONAL COMPENSATION.
- PROTECTION: GENERAL CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR TAKING ALL STEPS NECESSARY TO PROTECT THE PUBLIC AND THE OWNER'S PERSONNEL FROM INJURY, AND ADJACENT PROPERTY FROM DAMAGES DURING CONSTRUCTION AS REQUIRED BY LOCAL CODES. THE GENERAL CONTRACTOR SHALL ALSO BE RESPONSIBLE FOR PROJECT SECURITY FROM THE START OF THE WORK UNTIL THE OWNER ACCEPTS THE PROJECT AS SUBSTANTIALLY COMPLETE AND/OR OCCUPABLE.
- GRAPHIC SCALES ARE PROVIDED FOR REFERENCE ONLY. IN CASE OF A DIMENSIONAL QUESTION OR DISCREPANCY, SUBMIT A REQUEST FOR INFORMATION (RFI) TO THE CONSTRUCTION COORDINATOR.

SHEET TITLE
**Demolition Plan - First
Floor**

- GENERAL DEMOLITION PLAN NOTES:**
- GENERAL DEMOLITION NOTES AND KEYED DEMOLITION NOTES APPLY TO ALL ARCHITECTURAL DEMOLITION PLANS INCLUDED WITHIN THIS DOCUMENT SET.
 - COORDINATE ALL DEMOLITION WORK WITH MECHANICAL AND ELECTRICAL DEMOLITION PLANS, WITH OWNER, AND WITH SALVAGED ITEMS AND COMPONENTS TO BE USED ON NEW WORK AS INDICATED ON DRAWINGS AND WITHIN SPECIFICATIONS.
 - THESE DEMOLITION NOTES AND PLAN DO NOT FULLY REPRESENT ALL DEMOLITION WORK REQUIRED TO INSTALL NEW WORK IN ACCORDANCE WITH CONTRACT DOCUMENTS, BUT ARE INTENDED TO SERVE AS GENERAL DEMOLITION GUIDELINES. REFER TO ARCHITECTURAL, MECHANICAL, AND ELECTRICAL DRAWINGS FOR LOCATIONS OF INCIDENTAL DEMOLITION WORK NOT INDICATED ON THIS PLAN.
 - ALL WORK INDICATED WITH SOLID LINES IS EXISTING TO REMAIN, UNO.
 - REFER TO DRAWINGS FOR EXISTING BUILDING COMPONENTS TO BE REMOVED, SALVAGED, AND REUSED IN NEW WORK. THE CONTRACTOR IS RESPONSIBLE FOR ALL ITEMS TO BE SALVAGED AND RELOCATED THROUGHOUT THE CONSTRUCTION PERIOD, INCLUDING SAFE STORAGE OF SAME. UPON DEMOLITION, THE OWNER SHALL RETAIN THOSE ITEMS DEEMED SALVAGEABLE. ITEMS NOT RETAINED SHALL BECOME THE PROPERTY OF THE CONTRACTOR, WHO SHALL LEGALLY DISPOSE OF SAME.
 - REFER TO DEMOLITION PLANS FOR INCIDENTAL DEMOLITION WORK OR TEMPORARY WORK REQUIRED TO ACCOMMODATE SEQUENCING OF CONSTRUCTION OPERATIONS DURING CONSTRUCTION PERIOD.
 - WHERE ITEMS ARE REMOVED, PATCH SURFACES TO MATCH ADJACENT SURFACES OR TO RECEIVE NEW FINISHES WHERE SCHEDULED. PATCHING OF NEW OR EXISTING FINISHES SHALL EXTEND TO NEAREST NATURAL BREAK OR TERMINATION FOR A CLEAN, UNBLENDED APPEARANCE AT THE END OF CONSTRUCTION.
 - COORDINATE WITH OWNER EXTENT OF EXISTING CASEWORK AND SHELVING TO REMAIN.
 - SEE PLUMBING, MECHANICAL AND ELECTRICAL DRAWINGS FOR EXTENT OF FIXTURE AND EQUIPMENT DEMOLITION.

3 GENERAL DEMOLITION NOTES

- DEMOLITION PLAN KEYED NOTES:**
- REMOVE EXISTING FLOOR FINISHES, WALL BASE, PARTITIONS, DOOR AND FRAMES, AS INDICATED ON THE PLAN.
 - REMOVE EXISTING LAY-IN ACOUSTICAL CEILING SYSTEM, LIGHT FIXTURES, SUPPLY AIR DIFFUSERS, RETURN AIR GRILLES AND OTHER CEILING MOUNTED COMPONENTS IN AREA OF WORK. COORDINATE EXTENT OF DEMOLITION WITH MECHANICAL AND ELECTRICAL.
 - REMOVE EXISTING STOREFRONT DOOR AND GLAZING SYSTEM COMPLETE.
 - EXTERIOR WALL AND FURRING TO REMAIN. DEMO WHERE REQUIRED FOR INSTALLATION OF NEW ELECTRIC ITEMS.
 - EXISTING DOOR AND FRAME TO REMAIN. PROTECT DURING CONSTRUCTION.
 - REMOVE EXISTING WINDOW COMPLETE.
 - REMOVE PORTION OF EXISTING EXTERIOR WALL CONSTRUCTION FOR THE INSTALLATION OF A NEW WINDOW.
 - REMOVE EXISTING PLUMBING FIXTURE COMPLETE.
 - REMOVE EXISTING STAIR AND LANDING COMPLETE.
 - REMOVE EXISTING DOOR LATCH HARDWARE AND CLOSER.
 - REMOVE EXISTING DOOR AND FRAME COMPLETE.
 - REMOVE PORTION OF EXISTING PARTITION AS REQUIRED FOR NEW WORK, SEE SHEET A2.02 FOR ADDITIONAL INFORMATION.
 - REMOVE EXISTING CASEWORK COMPLETE.
 - REMOVE PORTION OF EXISTING CASEWORK AS REQUIRED FOR NEW WORK, SEE SHEET A2.02 FOR ADDITIONAL INFORMATION.
 - REMOVE EXISTING (2)X12 WOOD FLOOR JOIST, SHORE FLOOR STRUCTURE ABOVE BEFORE REMOVAL.
 - SAWCUT EXISTING SCAB ON GRADE. NEW WORK PLAN ON SHEET A2.01 FOR ADDITIONAL INFORMATION.
 - BEARING WALL, PROVIDE SUPPLEMENTAL SUPPORT FOR FLOOR ABOVE DURING DEMOLITION.
 - REMOVE STEEL COLUMN, PROVIDE SUPPLEMENTAL SUPPORT FOR FLOOR STRUCTURE ABOVE.
 - REMOVE EXISTING FLOORING COMPLETE.
 - REMOVE AND ABATE HAZARDOUS DUCT SHIELDING.
 - REMOVE AND ABATE HAZARDOUS SINK UNDERCOATING.
 - REMOVE AND ABATE HAZARDOUS FLOORING.
 - REMOVE EXISTING CONCRETE FLOOR COMPLETE, FOR 16"X16" CONCRETE FOOTING.
 - PROTECT AND STORE EXISTING REFRIGERATOR IN MECHANICAL ROOM DURING CONSTRUCTION FOR REUSE IN NEW STAFF LOUNGE. COORDINATE WITH OWNER.
 - REMOVE PORTION OF EXISTING GYPSUM BOARD AND STUD FLOORING WALL. COORDINATE WITH NEW WORK PLAN ON SHEET A2.01 FOR ADDITIONAL INFORMATION.

New Work Plan - First Floor

GENERAL FLOOR PLAN NOTES:

- A. GENERAL FLOOR PLAN / PARTITION NOTES AND PARTITION TYPES APPLY TO ALL FLOOR PLANS AND ENLARGED FLOOR PLANS INCLUDED WITHIN THIS DOCUMENT SET.
- B. SEE SHEET A2.01 FOR PARTITION TYPES LEGEND.
- C. ALL NEW PARTITIONS SHALL BE PARTITION TYPE MS1, UNO.
- D. COORDINATE THE SEQUENCING OF NEW CONSTRUCTION WITH MECHANICAL AND ELECTRICAL DRAWINGS AND SPECIFICATIONS AND WITH CONSTRUCTION SEQUENCE AS INCLUDED WITHIN DRAWING SET.
- E. ALL INTERIOR PARTITION DIMENSIONS ARE TO FINISH FACE, UNO.
- F. MAINTAIN INTEGRITY OF ALL NEW OR EXISTING FIRE RATED PARTITIONS. REFER TO REFLECTED CEILING PLANS FOR FIRE RATED PARTITION LOCATIONS.
- G. WHERE EXISTING SUBSTRATES ARE LOCATED WITHIN NEW FINISHED AREAS, OR PATCHING OF EXISTING SUBSTRATES WITHIN EXISTING ROOMS IS REQUIRED DUE TO WALL INFILL OR DEVICE REMOVAL, NEW FINISHES SHALL EXTEND TO NEAREST NATURAL BREAK OR TERMINATION FOR A CLEAN, UNBLENDED APPEARANCE AT THE END OF CONSTRUCTION. REFER TO ARCHITECTURAL, MECHANICAL AND ELECTRICAL DRAWINGS FOR LOCATIONS OF INCIDENTAL ADDITIONAL FINISH WORK ASSOCIATED WITH RESTORATION OF EXISTING FINISHES WHERE ALTERED BY ARCHITECTURAL, MECHANICAL AND ELECTRICAL WORK.
- H. SEE FLOOR PLANS AND WALL REINFORCEMENT DETAIL FOR WALL REINFORCEMENT TO BE PROVIDED AT DOWNER/INTERMEDIATE SUPPLIED AND INSTALLED DENTAL EQUIPMENT AND MILLWORK. IN ADDITION, THE CONTRACTOR SHALL FURNISH AND INSTALL WALL REINFORCING FOR INSTALLATION OF EQUIPMENT, DOOR HARDWARE, CASEWORK, TOILET ACCESSORIES, HANDRAILS, ETC.
- I. PROVIDE ACOUSTICAL GASKETS AT FLOOR THICKS OF ALL NEW PARTITIONS. ACOUSTICALLY ATTENUATE ALL BOXES, REGISTERS, AND OTHER PENETRATIONS, ETC. LOCATED WITHIN OR THROUGH NEW PARTITIONS TO MAINTAIN WALL SOUND RATINGS.
- J. SEE SHEET A2.21 FOR DOOR SCHEDULE AND RELATED DETAILS.
- K. SEE SHEET A2.31 FOR INTERIOR FINISH SCHEDULE AND KEY.
- L. THE CONTRACTOR SHALL FIELD VERIFY ALL DIMENSIONS AND EXISTING CONDITIONS PRIOR TO BEGINNING WORK OR SUPPLYING MATERIALS OR COMPONENTS. LAYOUT ALL WALLS PRIOR TO COMMENCEMENT OF FRAMING AND NOTIFY ARCHITECT FOR DISPOSITION OF MAJOR DIMENSIONAL CONFLICTS.

4 GENERAL NEW WORK NOTES

NEW WORK PLAN KEYED NOTES:

1. ADA CLEARANCE
2. RECEPTION DESK FURNITURE
3. KEY DEAD BOLT EXTERIOR DOOR, LEAVE IN PLACE.
4. (1) 1.1/2" x 1/4" LVL BEAM WITH MINIMUM 4" BEARING EACH END. PROVIDE 1/2" PLYWOOD ON (2) 2x4 12'L FASTENED TO BOTTOM OF LVLs AT COLUMN.
5. CONCRETE SLAB INFILL, SEE DETAIL 7 ON SHEET A8.01.
6. RELOCATED COLUMN
7. COAT HOOKS
8. CRASH CART
9. WAYFINDING SIGNAGE THIS ENTRANCE
10. WINDOW TREATMENTS
11. WINDOW FILM
12. GYPSUM BOARD ON 1X WOOD FURRING MECHANICALLY FASTENED TO BRICK FACE ABOVE.
13. PLASTIC LAMINATE ACCESSIBLE COUNTERTOP, SEE ELEVATION 9C ON SHEET A5.01.
14. SALVAGED PLASTIC LAMINATE COUNTERTOP ON NEW ADJUSTABLE HEIGHT DESK LEGS.
15. CONDUIT AND RECESSED RECEPTACLE WITH BLANK COVER PLATE ABOVE DOOR FOR FUTURE ELEVATOR WORK.

3 NEW WORK KEYED NOTES

	EXISTING WALL	NAME [NO.]	EXISTING ROOM TAG		CORNER GUARD
	NEW STUD WALL	NAME [NO.]	ROOM TAG		END CAP
	EXISTING DOOR	NAME [NO.]	DOOR TAG		PARTITION TAG
	NEW DOOR	NAME [NO.]	PARTITION TAG		KEYED NOTE

2 FLOOR PLAN LEGEND

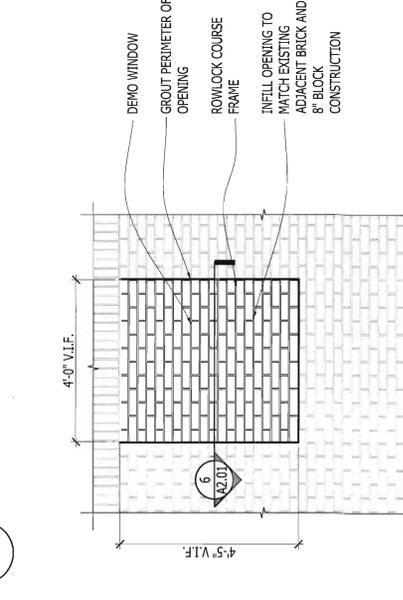

PARTITION TYPES SCHEDULE

- MS-1 TYPICAL INTERIOR PARTITION:**
FRAMING: 3-5/8" x 22 GA. METAL STUDS @ 16" O.C. TO 6" ABOVE CEILING, EVERY THIRD STUD TO UNDERSIDE OF STRUCTURE ABOVE.
CLADDING: 5/8" GYPSUM BOARD TO 6" ABOVE CEILING BOTH SIDES
INSULATION: 3 1/2" SOUND BATT FRICTION FIT TO 6" ABOVE CEILING
NOTE: ALL WALLS TO BE MS-1 U.N.O.
- MS-2 INFILL PARTITIONS:**
FRAMING: 22 GA. METAL STUDS @ 16" O.C. TO 6" ABOVE CEILING, EVERY THIRD STUD TO UNDERSIDE OF STRUCTURE ABOVE. MATCH WIDTH OF EXISTING ADJACENT STUDS.
CLADDING: 5/8" GYPSUM BOARD TO 6" ABOVE CEILING BOTH SIDES
INSULATION: MATCH EXISTING ADJACENT.
- MS-3 GYPSUM ONE SIDE:**
FRAMING: 3-5/8" x 22 GA. METAL STUDS @ 16" O.C. TO UNDERSIDE OF CEILING/STRUCTURE ABOVE.
CLADDING: 5/8" GYPSUM BOARD TO 6" ABOVE CEILING EXPOSED SIDE
INSULATION: 3 1/2" SOUND BATT FRICTION FIT TO 6" ABOVE CEILING
- MS-4 FURRING WALL:**
FRAMING: 1X WOOD STUDS FLAT @ 24" O.C. PLAINED TO REQUIRED THICKNESS TO MATCH EXISTING ADJACENT FINISH
CLADDING: 5/8" GYPSUM BOARD TO 6" ABOVE CEILING EXPOSED SIDE

SHEET TITLE
**PLUMBING NEW
 WORK LOWER LEVEL**

SHEET NO.
M1.0

SHEET FILE NO.

GENERAL NOTES:

- CONTRACTOR SHALL PROTECT AND MAKE FINAL CONNECTIONS TO ALL DENTAL EQUIPMENT PROVIDED BY OWNER.
- SPACE IS VERY CONGESTED. COORDINATE ALL WORK WITH OTHER TRADES. PROVIDE OFFSETS INTO JUST TRUSS SPACES AS REQUIRED TO FACILITATE NEW INSTALLATION.
- SEE PIPING DIAGRAMS FOR ADDITIONAL REQUIREMENTS.
- MAINTAIN SERVICE CLEARANCES IN FRONT OF ALL EQUIPMENT AND ELECTRICAL PANELS.

KEY NOTES:

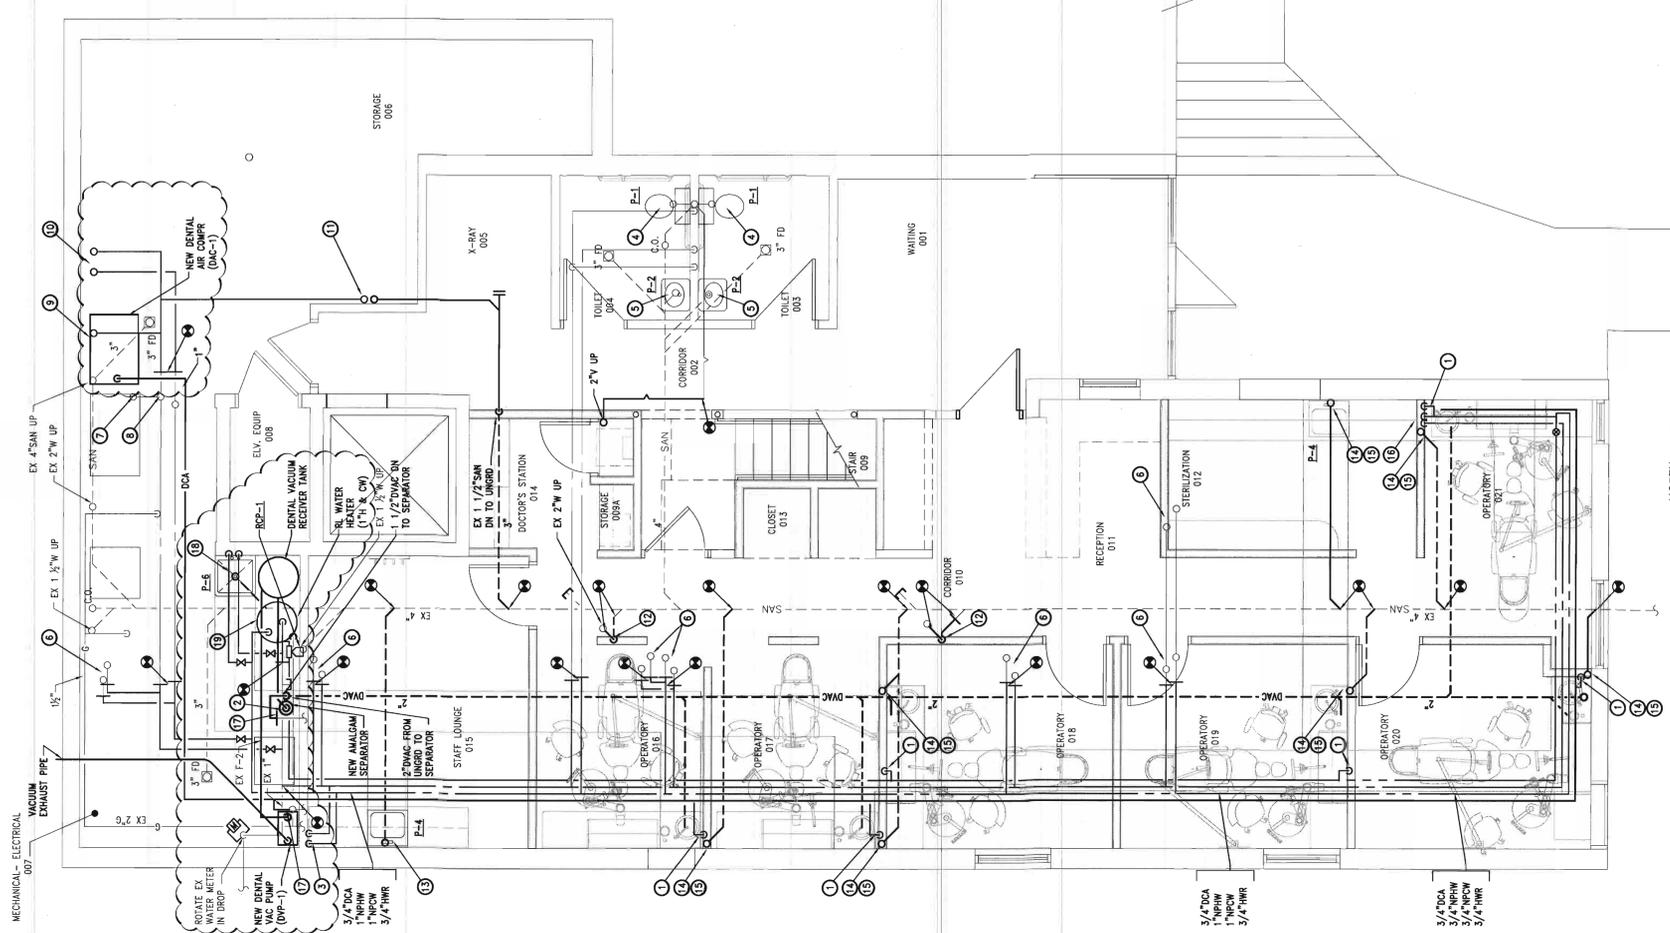

- ROOF 1/2" HOT WATER, 1/2" COLD WATER AND 1/2" DENTAL COMPRESSED AIR DOWN IN WALL DROP 3/4" DENTAL VACUUM DOWN THRU FLOOR TO UNDERGROUND DENTAL VACUUM LINE. RIN UTILITIES IN DENTAL CABINET TO BE MAINTAINED. SEE DENTAL EQUIPMENT DRAWING FOR FINAL EQUIPMENT. SEE DENTAL EQUIPMENT UTILITY RESPONSIBILITY MATRIX THIS SHEET. COORDINATE WITH DENTAL EQUIPMENT SUPPLIER PRIOR TO INSTALLATION.
- CONNECT 2" DENTAL VACUUM FROM UNDER FLOOR AND 1/2" DENTAL VACUUM FROM UNDERGROUND DENTAL VACUUM LINE TO MAKE NEW DENTAL VACUUM SEPARATOR. REFER TO DENTAL VACUUM PUMP DIAGRAM ON SHEET M5.1
- EXTEND 1/2" HOT WATER AND 1/2" COLD WATER DOWN TO SINK.
- NEW WATER CLOSET. EXTEND 1/2" COLD WATER TO EXISTING LINE FROM REMODELISHED FIXTURE AND MAKE NEW CONNECTION.
- NEW LAVATORY. EXTEND 1/2" HOT AND COLD WATER TO EXISTING LINES FROM REMODELISHED FIXTURE AND MAKE NEW CONNECTIONS.
- EXISTING 1/2" HOT AND COLD WATER UP TO EXISTING SINK.
- EXISTING 1/2" COLD WATER UP TO EXISTING WATER CLOSET.
- EXISTING 1/2" HOT AND COLD WATER UP TO EXISTING LAVATORY.
- NEW 1/2" COLD WATER UP TO NEW WATER CLOSET.
- NEW 1/2" HOT AND COLD WATER UP TO NEW LAVATORY.
- NEW 1/2" COLD WATER UP TO NEW ELECTRIC WATER COOLER.
- CONNECT NEW 2" SANITARY TO EXISTING 2" WASTE UP TO (2) EXISTING SINKS. OFFSET INTO NEW WALL AND DROP TO UNDERGROUND.
- 1 1/2" WASTE DOWN, 1 1/2" VENT DOWN AND UP TO AIR ADMITTANCE BELOW COUNTER. PIPE IN ACCORDANCE WITH MICHIGAN PLUMBING CODES.
- 1 1/2" WASTE DOWN, 1 1/2" VENT DOWN AND UP TO AIR ADMITTANCE VALVE WITH PAINTABLE ACCESS BOX WITH HINGED DOOR AS HIGH AS POSSIBLE BELOW CEILING. PIPE IN ACCORDANCE WITH MICHIGAN PLUMBING CODES.
- PLUMBING CONTRACTOR TO MAKE FINAL SANITARY CONNECTION TO DENTAL EQUIPMENT. COORDINATE WITH DENTAL EQUIPMENT BIDDING PARTICIPATE AND SUPPLIER.
- 1/2" HOT WATER, 1/2" COLD WATER AND 1/2" DENTAL COMPRESSED AIR TO DENTAL SINK. SEE NOTE 1.
- EXTEND NEW 1" DENTAL VACUUM AND 3/4" DENTAL COMPRESSED AIR TO EXISTING UPPER LEVEL SYSTEMS AND MAKE NEW CONNECTIONS.
- NEW SERVICE SINK, 3/4" HOT AND COLD WATER, 3" WASTE AND RELOCATED WATER HEATER. EXTEND NEW HOT WATER, COLD WATER, GAS AND FLUE VENT TO EXISTING AND MAKE NEW CONNECTIONS.

DENTAL EQUIPMENT UTILITY RESPONSIBILITY MATRIX

OPERATORIES	DCA	HW	HW	SAN/VENT	DVAC	DEM - FINAL CONNECTION BY DENTAL EQUIPMENT MANUFACTURER
SINK	DEM 1	CONT 2	CONT 2	CONT 3	----	----
DENTAL UNIT	DEM 1	----	----	----	DEM 4	CONT - FINAL CONNECTION BY CONTRACTOR
STERILIZATION	DEM 1	----	----	----	DEM 4	----
SINK	DEM 1	CONT 2	CONT 2	CONT 3	----	----

MATRIX NOTES:

- PROVIDE 1/2" x 3/8" STOP VALVE.
- PROVIDE 1/2" x 3/8" STOP VALVE. PROVIDE BRAIDED FLEX CONNECTION TO DEM INSTALLED FAUCET.
- INSTALL STRAINER PROVIDED BY DEM. PROVIDE TAILLESS TRAP AND CONNECT TO SANITARY SYSTEM. PROVIDE AIR ADMITTANCE VALVE IN ACCORDANCE WITH MFC.
- PROVIDE 3/4" x 1/2" COPPER CONNECTION FOR DEM TO MAKE FINAL CONNECTION.

3 PHOTO 2 - MECH / ELEC 007 - ELECTRICAL SERVICE

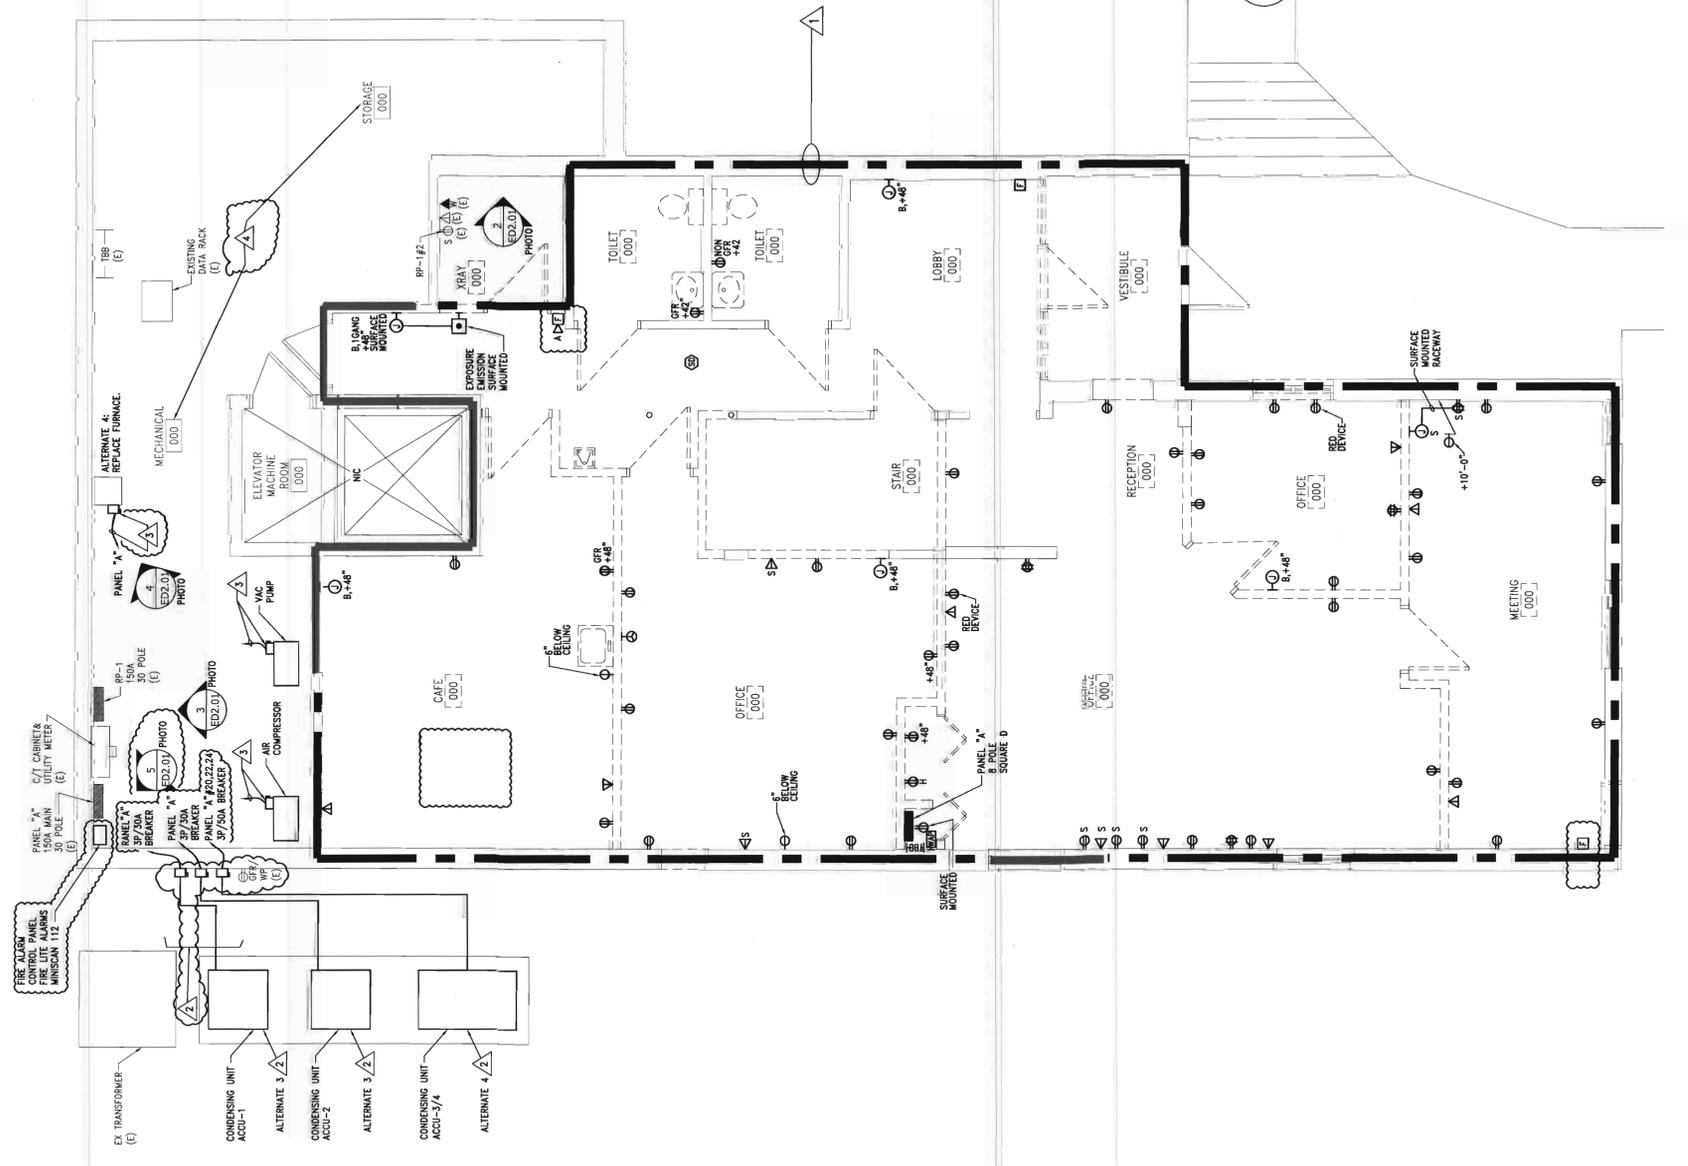

2 PHOTO 1 - XRAY 000 SOUTH WALL

4 PHOTO 3 - MECH / ELEC 007 - FURNACE DISCONNECT

FED FROM PANEL "A". TRACE AND DOCUMENT EXISTING BRANCH CIRCUIT. DISCONNECT AND REMOVE.

NEW WORK KEY NOTES :

- ① CIRCUIT EMERGENCY BATTERY BALLASTS, EMERGENCY UNIT EQUIPMENT AND EXIT LIGHTS TO CIRCUIT SENSING GENERAL LIGHTING IN SAME AREA AHEAD OF ANY MANUAL AND AUTOMATIC CONTROLS. PROVIDE UNSWITCHED NORMAL SENSING CIRCUIT WIRING TO EMERGENCY BATTERY BALLASTS IN SWITCHED FIXTURES.
- ② REFER TO SPECIFICATIONS FOR ADDITIONAL REQUIREMENTS INCLUDING SPECIFIC LAMPS AND BALLASTS. PROVIDE 5000K LEDS IN OPERATORIES AND IN STERILIZATION. PROVIDE 3500K LEDS IN OTHER AREAS.
- ③ CONNECT TO EXISTING LIGHTING CIRCUIT SALVAGED FROM DEMOLITION.

LIGHTING FIXTURE SCHEDULE : ① ②

- "A" 2'x4' LED DIRECT/INDIRECT RECESSED FIXTURE, COLD-ROLLED STEEL HOUSING, 3500K LUMEN LEDS, LITHONIA #ZALLCCTRF SERIES OR APPROVED EQUAL.
- "A1" SAME AS TYPE "A" EXCEPT 2'x2', 2000 LUMEN LEDS, LITHONIA #ZALLCCTRF SERIES OR APPROVED EQUAL.
- "A2" SAME AS TYPE "A1" EXCEPT WITH 28W, 3500 LUMEN LEDS, LITHONIA #ZALLCCTRF SERIES OR APPROVED EQUAL.
- "B" FLUORESCENT WALL BRACKET FIXTURE, 2' LONG, SOLID SLOPED TOP, 2 LAMP DOWN, 2-FITTS LAMP, ACRYLIC LENS, WHITE WHITE FINISH, MOUNTING HOOKS, 4' ON CENTER, COORDINATE WITH ARCHITECT FOR THE EXACT MOUNTING HEIGHT, METALUX #BA SERIES OR APPROVED EQUAL.
- "C" LOW PROFILE WRAPAROUND FIXTURE, 2'-32W T8 LAMP, LITHONIA #J3 SERIES OR APPROVED EQUAL.
- "D" LED DECORATIVE WALL SCONCE, ALUMINUM HOUSING, ETCHED ACRYLIC DIFFUSER, WITH 12W, 560 LUMEN LEDS, SEAGULL LIGHTING #5250 LED SERIES OR APPROVED EQUAL.
- "E" 6" LED DOWNLIGHT, 2600 LUMENS, STANDARD DISTRIBUTION WITH CLEAR SEMI SECULAR REFLECTOR, GOHAN# EVO 40/20 6AR SERIES OR APPROVED EQUAL.
- "EM" EMERGENCY WALL MOUNTED LIGHTING UNIT, 54W-12V WITH (2)-20W T2V SEALED BEAM HALOGEN LAMP, SIDE MOUNTED, WHITE FINISH, SELF LUMINOUS, LITHONIA QUANTUM EM1254 SERIES OR APPROVED EQUAL.
- "U" LOW PROFILE UNDERCABINET LIGHTING FIXTURE, SHATTER-RESISTANT, WHITE DIFFUSER, GLOSS-WHITE ENAMEL FINISH, 48" LENGTH, 1'-32W T8 LAMP, CIRCUIT FIXTURE TO T20V INDICATED. CONTROL OPERATED BY LIGHT SENSING PHOTOCELL (S) AS GENERAL LIGHTING IN SPACE IN ADDITION TO LOCAL SWITCH. PROVIDE ADDITIONAL RELAY PACKS AS REQUIRED FOR CONTROL OF DIFFERENT VOLTAGES, LITHONIA #ZUC OR APPROVED EQUAL.
- "U1" SAME AS TYPE "U" EXCEPT 24" LENGTH AND 1'-17W T8 LAMP, LITHONIA #ZUC OR APPROVED EQUAL.
- "W" WALL MOUNTED EXTERIOR LENSED TRAPEZOIDAL WEDGE-SHAPED SECONDARY-CAJON ALUMINUM HOUSING, TYPE DISTRIBUTION, 34W BEAM, GASKETED DOOR, FULL CUTOFF PERFORMANCE, INTEGRAL GLOSS LENS, GASKETED DOOR, FULL CUTOFF PERFORMANCE, INTEGRAL PHOTOCELL AND COLD TEMPERATURE EMERGENCY BATTERY BACKUP, SELF DIAGNOSTICS.
- "X" LED EXIT SIGN WITH ARROWS AS INDICATED, SINGLE OR DOUBLE FACE AS INDICATED ON PLANS, BY NI-CAD EMERGENCY BATTERY BACKUP WITH SELF DIAGNOSTICS AND NI-CAD BATTERY, UNIVERSAL MOUNT, RED LETTERS ON WHITE THERMOPLASTIC HOUSING, INWOLT, LITHONIA QUANTUM LOW SERIES OR APPROVED EQUAL. COORDINATE QUANTITY AND LOCATION WITH LIFE SAFETY PLAN.

**Lower Level
 Power Plans -
 New Work**

- NEW WORK KEY NOTES :**
- CIRCUIT TO EXISTING BRANCH CIRCUIT SALVAGED FROM DEMOLITION.
 - PROVIDE THE NEW LEAD SYSTEM COVERAGE FOR ENTIRE BUILDING. SEE MAIN LEVEL FLOOR PLAN ON SHEET E2.02.
 - COORDINATE ALL OUTLETS EXACT LOCATION WITH ARCHITECT ELEVATION AND DENTAL EQUIPMENT SUPPLIER.
 - REFER TO RACEWAYS PLAN THIS SHEET FOR ADDITIONAL REQUIREMENTS.
 - REFER TO POWER PLAN THIS SHEET FOR ADDITIONAL REQUIREMENTS.
 - RELOCATE PIPING ABOVE NEW PANEL AS REQUIRED BY NEC ARTICLE 110.
 - STANDALONE NURSE CALL SYSTEM WITH LIGHT AND TONE DOME.
 - DENTAL CONSOLE BY A-DEC CONTAINS INTERNAL GFCI PROTECTION. NO GFCI CIRCUIT BREAKER IS REQUIRED.
 - PROVIDE HEALTHCARE LISTED MC CABLE FOR CONNECTION TO OPERATORY EXAM LIGHT. NOTE THAT THERE IS ONLY APPROXIMATELY 3/4" WALL SPACE AVAILABLE FOR CONDUIT IN OPERATORY WALL.
 - PROVIDE ??? RECEPTACLE ON OR UNDER CONSOLE.
 - COORDINATE LOCATION WITH ARCHITECT AND A-DEC EQUIPMENT INSTALLATION DETAILS PRIOR TO INSTALLATION.
 - COORDINATE STUB-UP LOCATION WITH A-DEC (EQUIPMENT SUPPLIER).
 - PROVIDE LARGE RADIUS SWEEPS IN 2" LOW VOLTAGE CONDUIT FOR A-DEC EQUIPMENT AND TERMINATE FLUSH WITH FLOOR.

OPERATORY EXAM LIGHT OPERATION

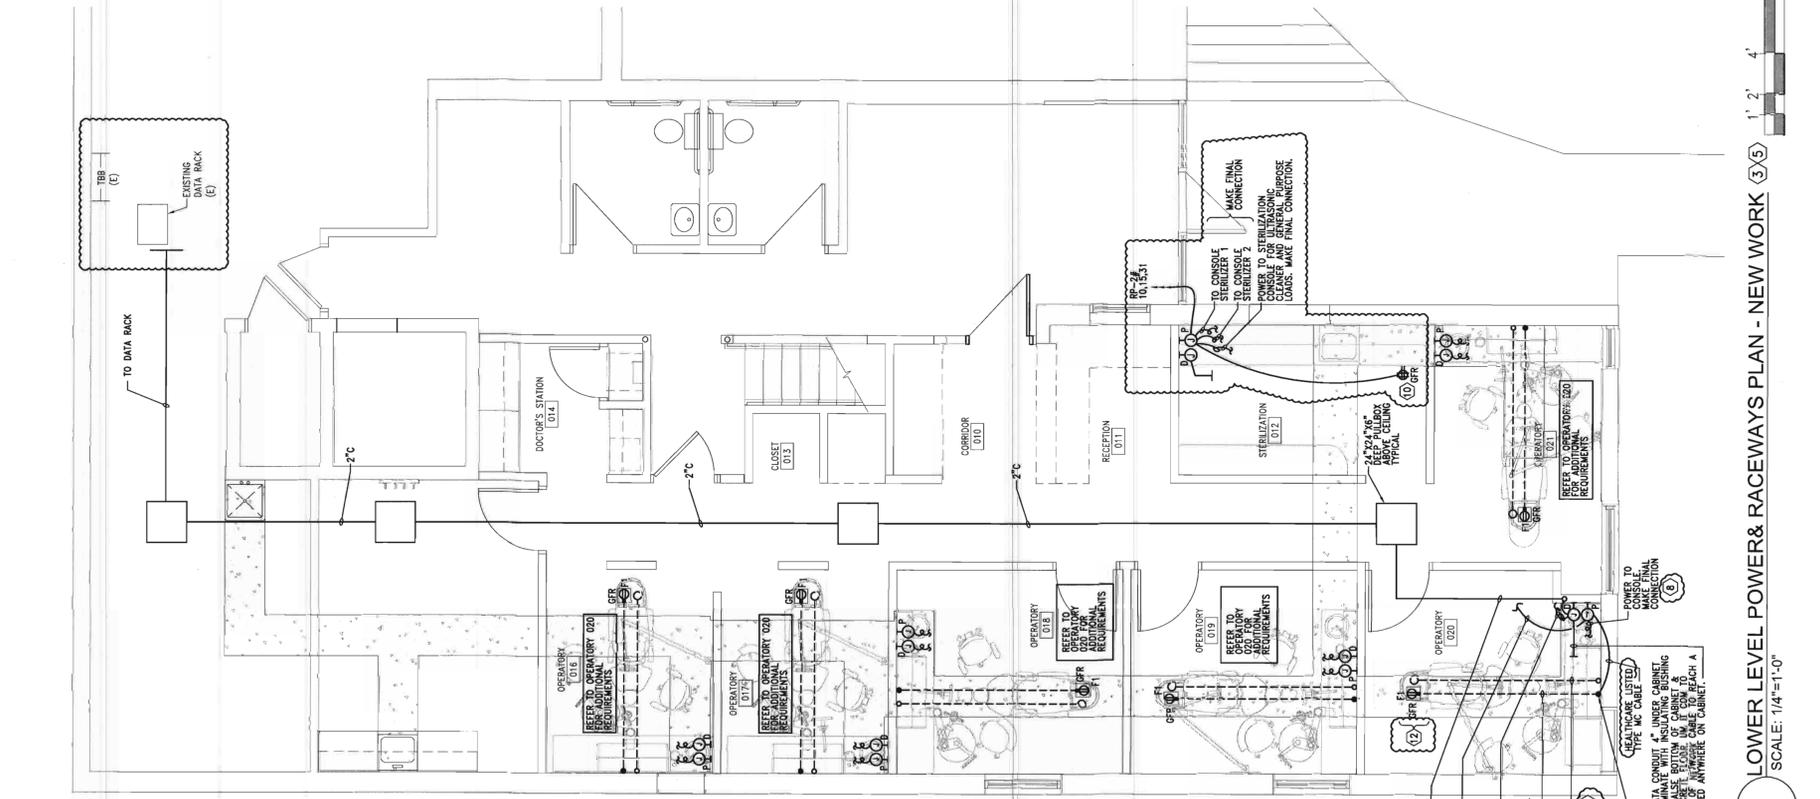

WALL MOUNTED DENTAL LIGHT CONTROL FUNCTION TO WALL CONSOLE IS NOT USED DUE TO ADDITIONAL DATA CABLING AND RACEWAY. CONTROLS ARE MANUAL ON LIGHT.

ACCESS CONTROL

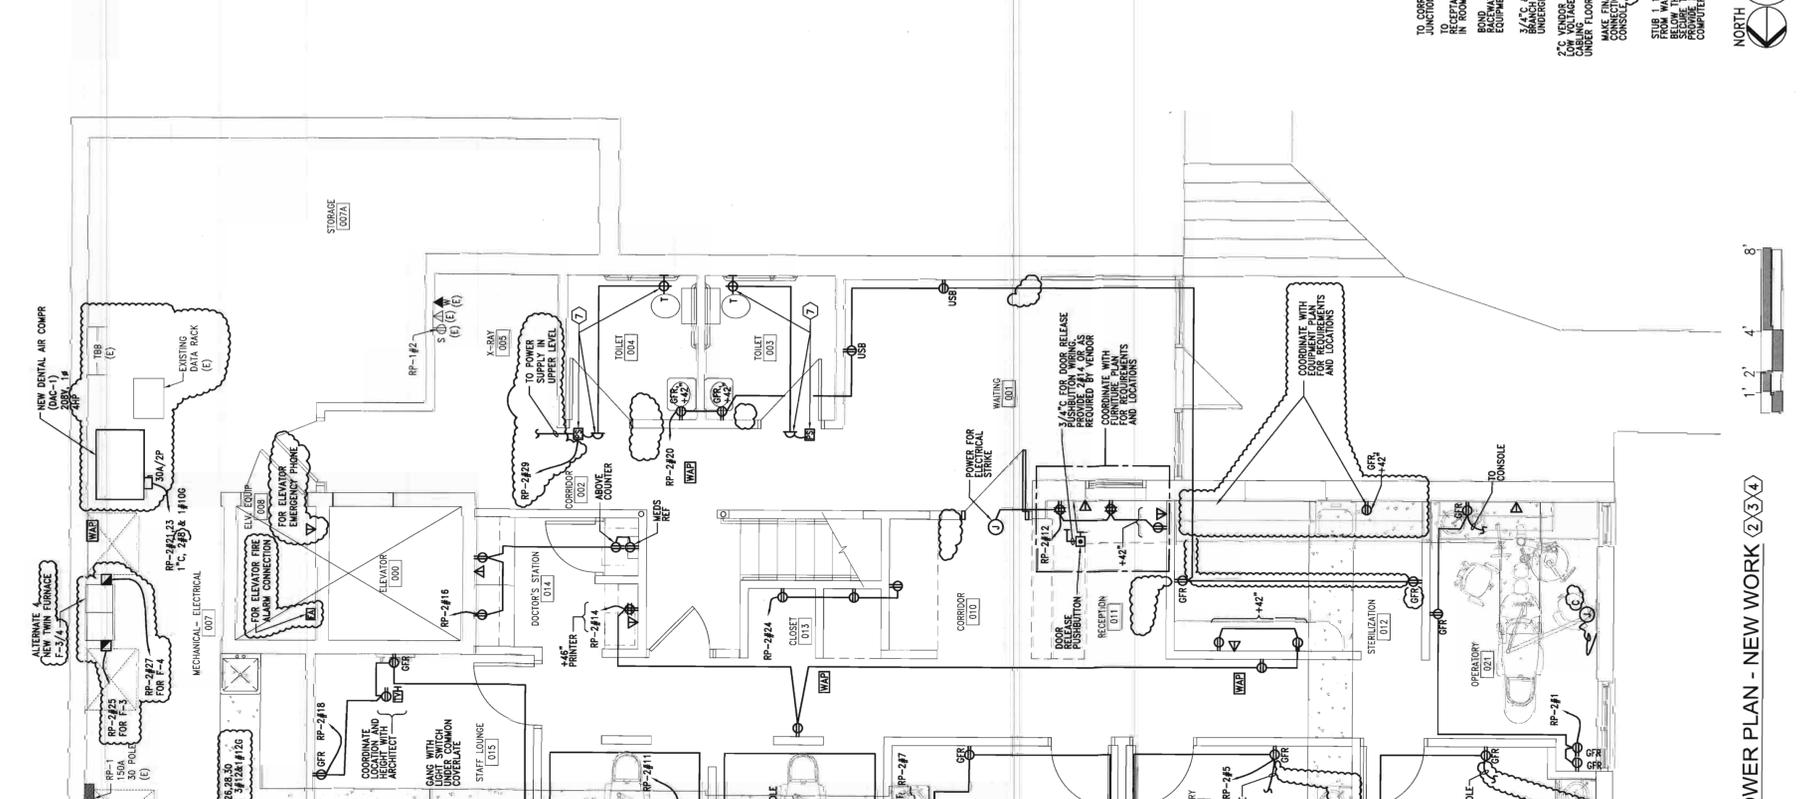

INCLUDE PRICE IN BID OF \$1200.00 FOR ELECTRICAL WORK RELATED TO ACCESS CONTROL. FINAL SCOPE TO BE DETERMINED BY ARCHITECT. ELECTRICAL WORK INCLUDES POWER TO DOORS AND EMPTY RACEWAYS ONLY.

ELEVATOR

NO SCOPE IS INCLUDED FOR ELECTRICAL POWER TO ELEVATOR

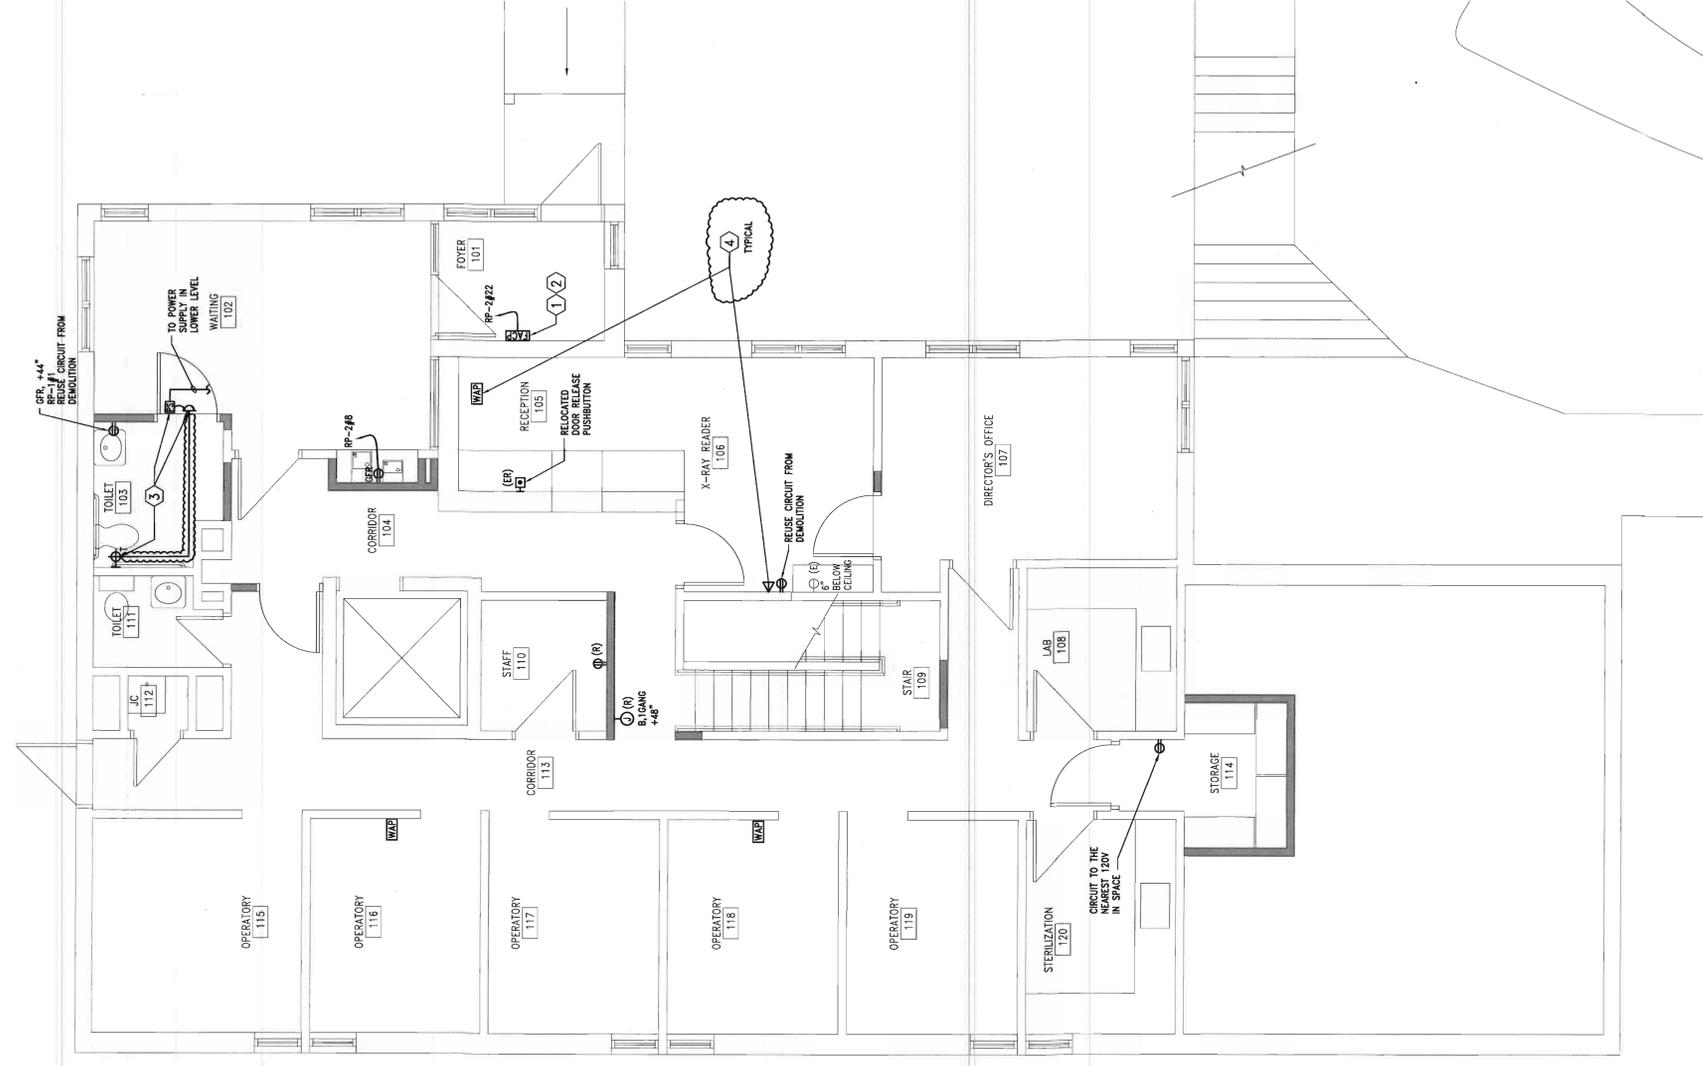

2 LOWER LEVEL POWER & RACEWAYS PLAN - NEW WORK
 SCALE: 1/4"=1'-0"

1 LOWER LEVEL POWER PLAN - NEW WORK
 SCALE: 1/4"=1'-0"

NEW WORK KEY NOTES :

- 1 PROVIDE FIRE ALARM SYSTEM COVERAGE FOR ENTIRE BUILDING AREAS. ALL FLOORS AS SPECIFIED. DEVICES ARE NOT SHOWN ON PLAN. NOTIFICATION APPLIANCES ARE NOT REQUIRED IN OPERATORY ROOMS. BUILDING IS NOT FULLY SPRINKLERED. PROVIDE SMOKE DETECTOR COVERAGE AS REQUIRED BY CODE. COORDINATE WITH ARCHITECT FOR PANEL MOUNTING (FLUSH OR SURFACE) AND COUNCIL APPROVAL.
- 2 PROVIDE TWO DEDICATED PHONE LINES TO FACP FOR REMOTE MONITORING.
- 3 STANDBY NURSE CALL SYSTEM WITH LIGHT AND TONE DOME LIGHT. SEE DETAIL IN SHEET E02.
- 4 FOR DATA OUTLETS AND WIRELESS ACCESS POINTS ON THIS LEVEL. ROUTE CONDUIT TO CORRIDOR DATA OUTLET BOX ON LOWER LEVEL.

FIRE SUPPRESSION & ALARM APPLICATION

Please provide payment information to process the application using the payment cover sheet.
 Any application received without payment information included cannot be processed.

I. JOB LOCATION				
Name of Owner/Agent University of Michigan - Community Dental Clinic				
Street Address & Job Location (Street No. & Name) 406 Ashley Street		Suite/Apt No.	City Ann Arbor	Zip Code
Has a building permit been obtained for this project? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required				
II. CONTRACTOR				
Name Laibe Electric Company		State License No. 6103407	Exp. Date 12/31/18	
Address (Street No. and Name) 404 N. Byrne Road			Telephone Number (419) 724-8200	
City Toledo	State Ohio	Zip Code 43607	Email jimdeaton@laibe.com	
Federal Employer ID Number (or reason for exemption) 34-0894882		MESC Employer Number (or reason for exemption) 2045151000		
Workers Compensation Insurance Carrier (or reason for exemption) Westfield Insurance Company				
III. TYPE OF JOB				
Maximum 1 permit per application <input type="checkbox"/> MECHANICAL (SPRINKLER SYSYTEM) <input checked="" type="checkbox"/> ELECTRICAL (ALARM)				
<input type="checkbox"/> Single Family	<input type="checkbox"/> New	<input type="checkbox"/> Tenant Finish	<input type="checkbox"/> Addition	Rental Property? <input type="checkbox"/> Yes <input type="checkbox"/> No
<input type="checkbox"/> Commercial	<input type="checkbox"/> Existing	<input type="checkbox"/> Special Inspection	<input checked="" type="checkbox"/> Alteration	# of Units _____
DESCRIPTION OF WORK <u>Renovation of existing Community Dental Clinic including new fire alarm system.</u>				
IV. APPLICANT SIGNATURE				
Section 23a of the State Construction Code Act of 1972, 1972 PA 230, MCL 125.1523A, prohibits a person from conspiring to circumvent the licensing requirements of this state relating to persons who are to perform work on a residential building or a residential structure. Violators of section 23a are subject to civil fines.				
Signature of Licensee			Date 04/20/2017	
Print Name Jim Deaton				
PLEASE SUBMIT THREE (3) SEALED AND SIGNED COPIES OF THE PROJECT DRAWINGS				

*** A **MINIMUM** OF 24 HOURS IS REQUIRED FOR REVIEW AND PROCESSING ***
 (MULTIPLE APPLICATIONS ON A PROPERTY MAY REQUIRE ADDITIONAL PROCESSING TIME)

404 N. Ashley

MESA 17-0062

VI. PERMIT REQUIREMENTS

GENERAL: Work shall not be started until the application for permit has been filed with Planning & Development Services. All installations shall be in conformance with the applicable State Code. No work shall be concealed until it has been inspected. The telephone number for inspections will be provided on the permit form. When ready for inspection, call 734-994-8460 providing as much advance notice as possible. The contractor will need the job location and permit number to schedule an inspection.

EXPIRATION OF PERMIT: A permit remains valid as long as work is progressing and inspections are requested and conducted. A permit shall become invalid if the authorized work is not commenced within six months after issuance of the permit or if the authorized work is suspended or abandoned for a period of six months after the time of commencing the work. **A PERMIT WILL BE CANCELLED WHEN NO INSPECTIONS ARE REQUESTED AND CONDUCTED WITHIN SIX MONTHS OF THE DATE OF ISSUANCE OR THE DATE OF A PREVIOUS INSPECTION.**

Expired Permit Reactivation Fee \$35

Revised 8/6/2012

SIMPLEXGRINNELL REQUIREMENTS

1. Contractor is expected to pull and terminate all conductors and install all devices for a complete and operating system.
2. Where fan shutdown or special auxiliary functions are required, contractor shall verify wiring requirements with the SimplexGrinnell Project Manager or factory-trained technician assigned to the project (in many cases, special wiring will not be shown on the drawings).
3. The contractor shall label all wiring.
4. Smoke detectors are not to be mounted within three (3) feet of air outlets.
5. In cases where a smoke/heat detector is installed in a room or closet, the detector should be mounted as close as possible to the center of the room.
6. Wall mounted smoke detectors shall be installed so that the top of the detector is between four (4) inches and twelve (12) inches down from the ceiling.
7. Smoke detectors to be installed on either side of a set of fire doors should be mounted no more five (5) feet and no less than two (2) feet from the wall section above the door.
8. Visuals should not be obscured by support beams or protrusions on wall-mounted lights.
9. Contractor should not install smoke detector heads in the bases or duct housings until final checkout time to ensure that dirt or dust does not contaminate the detectors causing false alarm.
10. Do not power up system until SimplexGrinnell factory technician is present.
11. A separate ground (isolated from conduit ground) must be pulled to all cabinets.
12. Loads greater than 10 amps (for auxiliary functions) are not allowed in the same conduit as fire alarm.
13. The operable part of the manual stations shall be installed not less than three and a half (3-1/2) feet and not more than four and a half (4-1/2) feet above floor level and not more than five (5) feet from any exit.
14. CONTRACTOR IS REQUIRED TO NOTIFY SIMPLEXGRINNELL AT LEAST TEN (10) BUSINESS DAYS BEFORE FINAL CHECKOUT.
15. Contractor to ensure that all wiring is free of shorts, grounds and opens.
 - a. Metallic continuity must be maintained throughout the entire length of the cable run.
 - b. The cable shields must be isolated from ground and terminated only in the associated control panel at the terminal indicated on the control panel drawing. The remote end of the shield (at last device) must be taped and isolated from ground.
18. Duct smoke detectors are tested and rated as approved by UL for operation between 32-degree and 100-degree F. For this reason, duct detectors must not be mounted on the exterior of the building.

SPECIAL INSTRUCTIONS

1. SimplexGrinnell will provide wiring instructions for installation of SimplexGrinnell equipment.
2. SimplexGrinnell will provide assistance to review the operation of the system and the correct method by which the proposed equipment should be wired and connected.
3. SimplexGrinnell will provide a factory trained technician for testing for the following:
 - a. Operation and functions of the control panels
 - b. Alarm test of all SimplexGrinnell peripheral devices (smoke detector, manual station, etc.)
 - c. Supervisory test of all initiating, signaling and control circuits
4. SimplexGrinnell will provide instruction, at final test of the system to the following:
 - a. Owner representative
 - b. Fire Marshal and Electrical Inspector
 - c. Architect and Engineer
5. Upon completion of final test, SimplexGrinnell will provide the following:
 - a. Test report
 - b. Certification
 - c. Warranty required by contract documents

POTENTIAL PROBLEMS CAN BE AVOIDED BY ADHERING TO THE FOLLOWING:

1. DO NOT initially start up the system except in the presence of a SimplexGrinnell technician. SimplexGrinnell assumes no liability for damaged equipment and warranty may be voided if this procedure is not followed.
2. DO NOT install smoke detector heads, unless it is protected by the plastic housing the unit is packaged in or a plastic bag (must be removed prior to testing) until final construction clean up has occurred. This is to prevent damage caused by dust, dirt and debris. Detectors installed prior to clean-up may require disassembly, cleaning or replacement which is not covered by warranty.
3. Care must be taken to protect equipment during the installation and warranty period. Failure due to external causes (lightning surges, construction dust, water damage, etc.) will be repaired by SimplexGrinnell only upon receipt of a valid written purchase order. SimplexGrinnell will provide one complete system test, which is coordinated by the installer. To avoid additional charges, installer should schedule this test so that all appropriate parties are present.
5. All wiring shall be free of shorts, opens and grounds.
6. 4100-6072/6073/6074/6075 Fiber Optic Modems Important installing information
All fiber backbone components must at a minimum meet EIA/TIA 568-C.3 for maximum power losses. ST connectors with long-strain relief boots are to be used with fiber optic cable. No more than three splices should be used in a given link in addition to the connectors on the modems themselves.
Single-Mode Fiber:
Maximum total attenuation: 15 dB
Maximum total distance: 20 miles
Compatible Fiber: Nominal 9/125 μm
Example 1: fiber attenuation of 0.34 dB/km over 35,000 feet = 3.6 dB, connectors totaling 6 dB, safety margin remaining of 5 dB
Example 2: fiber attenuation of 0.6 dB/km over 25,000 feet = 4.6 dB, connectors totaling 5 dB, safety margin remaining of 5 dB
These examples provide a safety margin of 5 dB or greater; a 3 dB safety margin is generally acceptable.
Multi-Mode Fiber:
Maximum total attenuation: 6 dB
Maximum total distance: 5,000 feet
Compatible Fiber: 50/125 μm or 62.5/125 μm graded index

7. 4190-3011/3012 Fiber Optic Audio Repeaters Important Installing Information
When using the fiber communication path, the maximum distance between nodes is dependent upon the fiber's multimode index. ST connectors with long-strain relief boots are to be used with fiber optic cable. The maximum-allowed loss is 10 dB.
62.5/125 fiber distance is typically 10,000 feet
50/125 fiber distance is typically 6,500 feet
8. All base line fiber readings should be documented and forwarded to SimplexGrinnell at start of the project. If existing fiber is used, a proper testing of that fiber should be done prior to installing SimplexGrinnell equipment and forwarded to SimplexGrinnell at start of the project. Fiber Optic Cable shall be installed by a qualified fiber optic technician/installer. When using fiber optic transmission lines, an initial acceptance test of the fiber shall be performed as stated in NEPA 72. NEPA 72 states the fiber optic transmission lines shall be tested in accordance with manufacturer's published instructions by the use of an Optical Power Meter or by an Optical Time Domain Reflectometer (OTDR) to measure the relative power loss of the line. Prior to connecting the fiber optic cable to the Fire Alarm panels, SimplexGrinnell will require OTDR test reports indicating all fiber spans meet the following requirements.
a. For Fiber Optic Modem installations each fiber link shall be tested by the use of an OTDR using the proper launch and receive cables. All singlemode fibers shall be tested at 1310nm and 1550nm. All multimode fiber shall be tested at 850nm and 1300nm.
b. The Fiber Infrastructure shall be accepted for use only after it has determined that it meets or exceeds EIA/TIA 568-C.3 performance standards.
c. Test data should be documented and should include the following:
 - OTDR traces for all fiber links
 - The type of fiber used including the size
 - Where and what type of splices (if any) were used including losses
 - Where and what type of connectors were used including losses
 - What type of cable was used including manufacturers' specifications
 - All routing information including pathways, installed spares, alternate routing, mechanical protection used (splice trays, inner duct, etc.), conduit fill ratios, etc.

9. The following summarizes EIA/TIA-568-C.3 standards for maximum allowed loss. For comparison, typical loss values are shown and generally meet or exceed the industry standards. (See Below)
 - Maximum and Typical Insertion Loss per Mated Pair of Connectors
 - o Multimode Maximum (50 & 62.5μm): .75 dB
 - o Multimode Typical (Epoxy): .30 dB
 - o Multimode Typical (Pre-Polished): .50 dB
 - o Singlemode Maximum: .75 dB
 - o Singlemode Typical (Epoxy): .20 dB
 - o Singlemode Typical (Pre-Polished): .50 dB
 - Maximum and Typical Loss per Fusion or Mechanical Splice (Multimode or Singlemode)
 - o Maximum Loss: .30 dB
 - o Typical (Fusion): .05 dB
 - Typical Optical Return Loss (Back Reflection)
 - o Multimode Reflectance ≥ -20 dB in the negative direction
 - o Singlemode Reflectance ≥ -26 dB in the negative direction
 - o Flat Finish—Typical Reflectance -20dB to -25dB High return losses
 - o Flat Finish—Typical Reflectance -30dB to -40dB Moderate return losses
 - o UPC Finish—Typical Reflectance -40dB to -45dB Superior return losses
 - o APC Finish—Typical Reflectance -50dB to -55dB Superior return losses
 - o APC Finish—Typical Reflectance -60dB and lower Best low loss option

STATE OF MICHIGAN

IN THE CIRCUIT COURT FOR THE COUNTY OF WASHTENAW

JENNIFER M. GRANHOLM, Attorney
General for the State of Michigan, *ex rel*,
MICHIGAN DEPARTMENT OF
ENVIRONMENTAL QUALITY,

Plaintiffs,

File No. 88-34734-CE

v

Honorable Donald E. Shelton

GELMAN SCIENCES, INC.,
a Michigan corporation,

Defendant.

ORDER PROHIBITING GROUNDWATER USE

At a session of said Court held in the City of Ann Arbor, County of
Washtenaw, Michigan, on the 17th day of May,
2005.

PRESENT: HONORABLE DONALD E. SHELTON
Circuit Court Judge

On December 17, 2004, this Court issued its Opinion and Order Regarding Remediation of the Contamination of the "Unit E" Aquifer. That Opinion and Order resolved a dispute between the Parties regarding the September 1, 2004 Decision Document issued by the Michigan Department of Environmental Quality (MDEQ) regarding remediation of the "Unit E" groundwater contamination emanating from the Pall Life Sciences (PLS) (formerly known as Gelman Sciences, Inc.) facility in Scio Township, Washtenaw County.

Among other things, this Court determined that in order to satisfy the requirements of MCL 324.20118(6)(d) and MCL 324.20120b(5) for institutional controls preventing

unacceptable exposure to 1,4-dioxane in the groundwater, it is necessary and appropriate to supplement the Washtenaw County Rules and Regulations for the Protection of Groundwater adopted February 4, 2004, with a legally enforceable order of this Court prohibiting certain groundwater uses in specifically defined areas and addressing the relevant conditions identified in the MDEQ's September 1, 2004 Decision Document.

ACCORDINGLY, pursuant to the December 17, 2004 Opinion and Order, based upon further information provided by the Parties, for the reasons stated by the Court in its May 4, 2005 ruling on Plaintiffs' Motion to Enter Order Prohibiting Groundwater Use, and in the exercise of this Court's statutory and inherent authority to enforce its orders and judgments,

IT IS HEREBY ORDERED:

1. The prohibitions imposed by this Order apply to the zone identified in the map attached hereto as Figure 1 (Prohibition Zone).
2. The installation by any person of a new water supply well in the Prohibition Zone for drinking, irrigation, commercial, or industrial use is prohibited.
3. The Washtenaw County Health Officer or any other entity authorized to issue well construction permits shall not issue a well construction permit for any well in the Prohibition Zone.
4. The consumption or use by any person of groundwater from the Prohibition Zone is prohibited.
5. The prohibitions listed in paragraphs 2, 3, and 4 do not apply to the installation and use of:

(a) groundwater extraction and monitoring wells as part of response activities approved by MDEQ or otherwise authorized under Parts 201 or 213 of NREPA, or other legal authority.

(b) dewatering wells for lawful construction or maintenance activities, provided that appropriate measures are taken to prevent unacceptable human or environmental exposures to hazardous substances and comply with MCL 324.20107a.

(c) wells supplying heat pump systems that either operate in a closed loop system, or if not, are demonstrated to operate in a manner sufficient to prevent unacceptable human or environmental exposures to hazardous substances and comply with MCL 324.20107a.

(d) emergency measures necessary to protect public health, safety, welfare or the environment.

(e) any existing water supply well that has been demonstrated, on a case-by-case basis and with the written approval of the MDEQ, to draw water from a formation that is not likely to become contaminated with 1,4-dioxane emanating from the PLS facility. Such wells shall be monitored for 1,4-dioxane by PLS at a frequency determined by the MDEQ.

6. PLS shall provide, at its expense, connection to the City of Ann Arbor municipal water supply to replace any existing private drinking water wells within the Prohibition Zone. Within thirty (30) days after entry of this Order, PLS shall submit to MDEQ for review and approval a work plan for identifying, or verifying the absence of, any private wells within the Prohibition Zone, for the abandonment of any such private wells and for replacement of private drinking water wells with connection to the municipal water supply. Well abandonment and replacement shall be performed in accordance with all applicable regulations and procedures at the expense of PLS. PLS shall implement the work plan and schedule approved by MDEQ.

7. This Order shall be published and maintained in the same manner as a zoning ordinance.

8. This Order shall remain in effect in this form until such time as it is amended or rescinded by further order of this Court, with a minimum of thirty (30) days prior notice to all Parties.

9. Either Party may move to amend the boundaries of the Prohibition Zone to reflect material changes in the boundaries or fate of the groundwater contamination plume as described by future hydrogeological investigation or MDEQ approved monitoring of the fate of the groundwater contamination.

10. In the event the boundary of the Prohibition Zone is expanded, PLS shall, within thirty (30) days after entry of such an Order, submit to the MDEQ for review and approval, a work plan for identifying, or verifying the absence of any private wells within the modified Prohibition Zone, for the abandonment of any such private wells, and for the connection to the municipal water supply to replace any drinking water wells within the modified Prohibition Zone.

11. Either Party or a local unit of government having jurisdiction within the Prohibition Zone may seek enforcement of this Order by the Court.

12. This Order shall not affect the rights, liabilities, or defenses of any party in any other legal or administrative proceeding, nor shall it constitute evidence of either the presence or absence of 1,4-dioxane at any location inside or outside the Prohibition Zone in any such proceeding.

/s/DONALD E. SHELTON

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.
