SECTION I - GENERAL INFORMATION

A. OBJECTIVE

The City of Ann Arbor is seeking qualified firms to undertake six specific sustainability and energy-related services in private homes and rentals in the Bryant Neighborhood of Ann Arbor. Each firm interested in bidding must be able to provide services in at least one of the following areas: weatherization services; mechanical contractor (HVAC) services; electrical contractor services; solar and battery energy storage contractor services; drainage, water, and sewer contractor services; appliance replacement, install and recycling services. The City anticipates awarding multiple contracts under this Request for Proposal) (RFP).

The work to be undertaken as part of this RFP is part of a larger project to make the Bryant Neighborhood the first existing neighborhood in America to become carbon neutral. This goal was set in coordination with the residents of the Bryant Neighborhood and requires work to improve the energy efficiency, resilience, onsite generation, and health and safety of nearly every one of the 262 homes that make up the Bryant Neighborhood. To support this work, the City of Ann Arbor's Office of Sustainability and Innovations (OSI) and Community Action Network (CAN) have secured multiple state and federal grants. To implement the approved scope of work under these grants, the City is now looking to select qualified firms to implement the six areas of work identified in the above paragraph.

All selected firms will be contractors of the City and will be required to work directly with the City's project manager to manage workloads, workflow, resident engagement, and all other elements related to project implementation. Work to be done under these contracts is generally described through the detailed specifications provided in the scope of services and must be completed in full accordance with the contract documents.

Those selected to conduct work under this RFP will be compensated on a per unit basis, with the unit depending on the service being provided. For example, work could be compensated on a per unit of work, per amount of insulation, per appliance installation completion, or per hour. For each service being solicited through this RFP, a set price list will be established for the services required, informed based on RFP responses. As such, all interested bidders must complete the relevant attached addendum indicating what their proposed price per unit of activity is (see the Scope of Services and Attachments for more details).

All firms interested in bidding under this RFP must hold a Builders License or Mechanical License. **Please include a copy of your license(s) with submission of responses to this RFP.** Moreover, all insurance requirements outlined in this RFP must be met at time of contract signing.

The City anticipates making multiple awards under this contract. All awards shall be good for a period of two (2) years. All pricing provided by this RFP shall be firm for two (2) years.

B. QUESTIONS AND CLARIFICATIONS / DESIGNATED CITY CONTACTS

All questions regarding this RFP shall be submitted via e-mail. Questions will be accepted and answered in accordance with the terms and conditions of this RFP.

The City will then determine which, if any, firms will be interviewed. During the interviews, each selected firm will be given the opportunity to discuss their proposal, qualifications, past experience, and fee proposal in more detail. The City further reserves the right to interview the key personnel assigned by the selected offeror to this project. If the City chooses to interview any respondents, the interviews will be tentatively held the **week of June 8, 2025**. Offeror must be available on these dates.

SECTION II - SCOPE OF SERVICES

1. Background

In June of 2020, Ann Arbor adopted one of the nation's most aggressive climate plans – A²ZERO. One of the core tenants of the A²ZERO plan is finding ways to equitably address the climate crisis. Given the importance of equity, the Ann Arbor Office of Sustainability and Innovations, the creator and caretaker for the A²ZERO plan, reached out to colleagues at Community Action Network (CAN) to initiate discussions about what it would look like to center climate activities with and in deep coordination with traditionally underrepresented residents. CAN recommended reaching out to residents of the Bryant Neighborhood (Bryant) to explore what their needs, desires, and opportunities were as it related to equitable climate action.

Fast forward four years and the City, CAN, and the residents of Bryant are working collaboratively to design and implement solutions that will allow Bryant to become the nation's first carbon neutral existing neighborhood. This work is supported by numerous grants, including one recently secured from the Michigan Public Service Commission (MPSC) to support energy efficiency, health and safety improvements, beneficial electrification, and renewable energy adoption in Bryant. Work under this RFP is being funded through this MPSC grant.

Specifically, the MPSC grant supports activities that will lower barriers to access for low-income households looking to embrace clean energy, beneficial electrification, and energy waste reduction solutions. It also works with labor and local businesses to grow the green job industry and recruit more underrepresented constituents into the local green industry workforce. And the entire project, from conception through implementation and evaluation, is done in tandem with residents, giving them power, voice, and decision-making authority of what to do and when, to make the Bryant Neighborhood in Ann Arbor, the nation's first carbon neutral existing neighborhood.

To fulfill this vision, the City's OSI is seeking proposals to undertake six specific sustainability and energy-related services that will be performed in the Bryant Neighborhood of Ann Arbor. Each firm interested in proposing must be able to provide services in at least one of the following areas: weatherization services; mechanical contractor (HVAC) services; electrical contractor services; solar and battery energy storage contractor services; drainage, water, and sewer contractor services; appliance replacement, install, and recycling services.

Firms wishing to perform work for this RFP must provide their own equipment, tools, and materials to successfully complete the work of their trade. The City is not responsible for any costs associated with the proposer's personal equipment needed to perform work under this RFP.

2. Objective

The City of Ann Arbor's Office of Sustainability and Innovations is seeking proposals for qualified firms to undertake work in the at least one of the following six areas as part of the City's efforts to decarbonize the Bryant neighborhood: weatherization services; mechanical contractor (HVAC) services; electrical contractor services; solar and battery energy storage contractor services; drainage, water, and sewer contractor services; appliance replacement, install, and recycling services.

All work awarded under this RFP must be completed within 2 years of contract signing, at the latest.

3. Work Flow

The following represents the workflow that successful proposers will be expected to undertake:

- Following receipt of a project work order the Contractor shall contact the resident to schedule a site visit. This must be completed within 5 days of work assignment.
- At the job site the Contractor shall evaluate the work to be completed and discuss the work with the resident and with the City's project manager prior to proceeding with work. If resident refuses any work, **do not** move forward with any work to the home prior to speaking with the City's designated project manager.
- Mechanical Contractors shall evaluate the mechanical appliances for safe operation.
- The Contractor is responsible for taking any measurements as needed and compiling any requisite documentation.
- The Contractor shall complete the work called for in the work order, notifying the City's designated project manager upon completion. Any work that cannot be completed needs to be discussed and approved by the project manager prior to moving forward with the job.
- The Contractor shall pull permits as necessary with the appropriate jurisdiction.
- The Contractor shall provide submission of invoices and related necessary documentation.
- At a minimum, the Contractor shall meet weekly with the City's project manager to review project progress, challenges, and any necessary modifications.
- The Contractor will provide, at a minimum, quarterly written status reports.
- Throughout this process, the Contractor will regularly submit all payroll verification reports, as required.

4. Designation of Work

The amount of work assigned to any one contractor will be determined through negotiations between the City and the successful Bidder. The amount of work assigned will be partly determined by the Bidder's ability to produce quality work in a timely manner. The City intends to issue contracts only to those Bidders willing and able to perform the services as outlined above. All things being equal the City will assign project assignments to approved Bidders in a rotating fashion in a manner designed to equally distribute the work under this contract.

Non-price criteria for consideration in job award process may include any or all of the following:

A. Work Capacity

- a. The Contractor must be able to complete the work within the time specified. For single unit jobs, the Contractor will have **30 calendar days*** from the time of the preliminary award notice to complete the work so that it is ready for final inspection and approval.

*Note: There may be extenuating circumstances that result in job completion delay. If this is the case, the Contractor must have written permission from the City's project manager to exceed the 30-day time frame.

B. Financial Capacity

- a. The City will monitor the dollar amount of work outstanding at any given time with each Contractor. The City will not issue a Contractor additional work beyond its financial capacity, until some work currently outstanding is completed, inspected, and paid.

C. Inspection Passage Rate

- a. The City will track each Contractor's rate of passing final inspections of jobs completed over the preceding 2-month period.
- b. If the Contractor has an inspection rate passage below 90% for jobs completed over the preceding 2-month period, the City may award more jobs to contractors that are over the 90% passage rate.

D. Job Completion Timeliness

- a. The City tracks each Contractor's record of completing jobs over the preceding 2 months within the timeline specified at the time of the award.
- b. If the Contractor has not completed at least 90% of jobs awarded within the previous 2 months within the timeline specified, the City may award the job to another contractor.

E. Refusal of Work

- a. When a Contractor is preliminarily awarded a job, they have the right to refuse the work. However, the City assumes that the reason for refusal is

that the Contractor does not have the capacity to complete the work within the required timeframe.

- b. If a Contractor refuses one job, the City may assume that the Contractor does not have the capacity and may choose not to offer the next job to that Contractor.

5. Time Period for Scheduling Work

- General Contractor Scheduling
 - The Contractor shall contact the resident and try to schedule a site visit within **5** days of receipt of job assignment. The work shall be completed within **40** days of job assignment. Resident or other factors which delay job completion shall be brought to the City's attention. Any additional or corrective work needs to be completed within **5** days of notification
- Mechanical Contractor Scheduling
 - The Contractor shall contact the resident and try to schedule a site visit within **5** days of receipt of job assignment. In the cases of a **no heat** situation, the City may request a **same day** visit if the Contractor's schedule allows.
- All Other Scheduling
 - The Contractor shall contact the resident and try to schedule a site visit within **5** days of receipt of job assignment. The work shall be completed within **30** days of job assignment. Resident or other factors which delay job completion shall be brought to the City's attention. Any additional or corrective work needs to be completed within **5** days of notification

6. Compensation

Successful bidders to this RFP will be compensated on a per unit basis. The unit depends on the service being provided. For example, work could be compensated per unit of work, per amount of insulation, or per appliance installation completion.

For each service being solicited through this RFP a set price list will be established for the services required.

The pricing provided for this RFP shall be firm for two (2) years. Any Proposal which does not conform fully to these instructions, or the detailed specifications may be rejected. In extenuating circumstances, the City may be open to renegotiating pricing, but this will be at the City's sole discretion.

7. Requirements

- Bidders wishing to perform work under this RFP must hold a Builders License or Mechanical License. **Proposers must include a copy of their license(s) with submission of responses to this RFP.**
- All insurance requirements outlined in this RFP must be met at time of contract signing.

- Successful bidders for the mechanical contracting work must have EPA Section 608 Certification for Refrigerant Handling (Type I and Type II). <https://ww2.epatest.com/epa-section-608/>

8. Terms of Award

The City anticipates making multiple awards under this RFP. All awards shall be good for a period of two (2) years. All pricing provided by this RFP shall be firm for two (2) years.

The City reserves the right to reject any proposal that it determines to be unresponsive and deficient in any of the information requested for evaluation. A proposal with all the requested information does not guarantee the proposing firm to be a candidate for an interview. The committee may contact references to verify material submitted by the offerors.
2. The committee then will schedule interviews with the selected firms if necessary. The selected firms will be given the opportunity to discuss in more detail their qualifications, past experience, and fee proposal.
3. The interview must include the project team members expected to complete a majority of work on the project, but no more than six members total. The interview shall consist of a presentation of up to thirty minutes (or the length provided by the committee) by the offeror, including the person who will be the project manager on this contract, followed by approximately thirty minutes of questions and answers. Audiovisual aids may be used during the oral interviews. The committee may record the oral interviews.
4. The firms interviewed will then be re-evaluated by the above criteria (A through D), and adjustments to scoring will be made as appropriate. After evaluation of the proposals, further negotiation with the selected firms may be pursued leading to the award of a contract by City Council, if suitable proposals are received.

The City reserves the right to waive the interview process and evaluate the offerors based on their proposals and fee schedules alone and open fee schedules before or prior to interviews.

The City will determine whether the final scope of the project to be negotiated will be entirely as described in this RFP, a portion of the scope, or a revised scope.

Work to be done under this contract is generally described through the detailed specifications and must be completed fully in accordance with the contract documents.

Any proposal that does not conform fully to these instructions may be rejected.

ADDENDA

If it becomes necessary to revise any part of the RFP, notice of the addendum will be posted to Michigan Inter-governmental Trade Network (MITN) www.mitn.info and/or the City of Ann Arbor website www.A2gov.org for all parties to download.

Each offeror must acknowledge in its proposal all addenda it has received. No waiver by either party shall subsequently affect the waiving party's right to require strict performance of this Agreement.

APPENDIX B: FEDERAL PROVISIONS ADDENDUM

Federal Provisions Addendum

This addendum applies to purchases that will be paid for in whole or in part with funds obtained from the federal government. The provisions below are required and the language is not negotiable. If any provision below conflicts with the State's terms and conditions, including any attachments, schedules, or exhibits to the State's Contract, the provisions below take priority to the extent a provision is required by federal law; otherwise, the order of precedence set forth in the Contract applies. Hyperlinks are provided for convenience only; broken hyperlinks will not relieve Contractor from compliance with the law.

1. Equal Employment Opportunity

If this Contract is a “**federally assisted construction contract**” as defined in [41 CFR Part 60-1.3](#), and except as otherwise may be provided under [41 CFR Part 60](#), then during performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

(4) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The Contractor will comply with all provisions of [Executive Order 11246](#) of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The Contractor will furnish all information and reports required by [Executive Order 11246](#) of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this Contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in [Executive Order 11246](#) of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in [Executive Order 11246](#) of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of [Executive Order 11246](#) of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.
