## **SECTION I - GENERAL INFORMATION**

### **A. OBJECTIVE**

The City of Ann Arbor is seeking qualified firms to support and enhance the measurable climate impact of its A<sup>2</sup>ZERO Swap Program. These Swap events allow community members to donate items they no longer need and take items they want — all free of charge. These events help extend the useful life of goods, reduce landfill waste and pollution of our local waterways, and support a circular economy in Ann Arbor.

The selected firm will be responsible for delivering a robust schedule of swap events, with a strong focus on textile reuse, skill-building in repair and repurpose, impact storytelling, and community education and outreach. The overarching aim is to develop consistent, engaging programming that fosters community connections, encourages residents to swap instead of buy new, and promotes circular economy habits. All programming must be designed to be equitable and inclusive, serving Ann Arbor residents across diverse socioeconomic groups, neighborhoods, and other key demographics.

The selected firm will collaborate closely with the City's project manager to oversee planning, workflows, and program execution, ensuring strong A<sup>2</sup>ZERO representation at each event. The A<sup>2</sup>ZERO Swap Program will be co-developed by the selected vendor, the community (as appropriate), and the Office of Sustainability and Innovations.

## **SECTION II - SCOPE OF SERVICES**

### **1. Background**

In June 2020, the City of Ann Arbor adopted A<sup>2</sup>ZERO one of the nation's most ambitious climate action plans. A key strategy within A<sup>2</sup>ZERO is the transition to a circular economy—an approach that prioritizes reducing waste, reusing materials, and designing out pollution.

To support this vision, the Office of Sustainability and Innovations (OSI) regularly hosts public events such as swap days, electronics collections, food waste challenges, and more. These efforts aim to reduce environmental impact and inspire long-term behavior change.

A central part of this initiative is the A<sup>2</sup>ZERO Swap Program, which enables community members to donate and take items—free of charge. These swaps extend the life of goods, reduce landfill waste and local waterway pollution, promote reuse and repair culture and support measurable progress toward a local circular economy.

The City is now seeking qualified firms to help expand, measure, and enhance the climate and community impact of the Swap Program—particularly in areas such as textile waste reduction, climate and environmental impact measurement, and operationalizing meaningful behavior change.

### **2. Tasks**

Below are the required tasks that all bidders must be prepared to undertake.

#### **Task One: Swap Event Logistics and Labor**

**Deliverables:** Provide the onsite labor for 18-24 swaps events per year including one regular swap per month, one larger swap festival, five Ward Party Swaps during A<sup>2</sup>ZERO Week, and up to six smaller, pop-up swaps.

**Monthly Swaps:** Under the leadership of the City's Office of Sustainability and Innovations (OSI), this task is about executing monthly swap events (twelve (12) per year). Currently, monthly swap events are scheduled and managed by OSI, on a recurring basis (third Thursday of every month at the same time and same location). The selected contractor will work with the OSI to provide the labor to set up, facilitate, break down and cleanup each event. This task also includes recruiting and coordinating volunteers (if applicable), collecting data, coordinating pickup of remaining items at the end of the event, and receiving, assessing and sorting the items brought to the swap (some events may include pre-event drop off). Each swap event is estimated to last 3 hours, not including set-up and take down time.

Space to store supplies for swap events is limited but is currently sufficient to cover the scale of existing swaps. However, the selected contractor should be prepared to provide

and store supplies, on an as needed basis, to successfully execute each swap event, including but not limited to clothing racks, tables, mirrors, clip boards, and educational materials.

**Pop-up Swap Events:** Under the leadership of the City's Office of Sustainability and Innovations (OSI) this task focuses on an annual execution of one Swap Festival (to take place during Green Fair), five Ward Party Swaps during A<sup>2</sup>ZERO Week (generally the first full week of June), and up to six smaller, pop-up swaps. Pop-up swap events are intended to correspond with other events in Ann Arbor such as University of Michigan Athletics Home Games, the Ann Arbor Pride Festival, and Ann Arbor's Local Food Festival.

This task includes providing the labor to set up, facilitate, break down and cleanup each event. This task also includes recruiting and coordinating volunteers (if applicable), collecting data, coordinating pickup of remaining items at the end of the event, and receiving, assessing and sorting the items brought to the swap (some events may include pre-event drop off). Each swap event is estimated to last 3 hours, not including set-up and take-down time.

### **Task Two: Educational Programming— Circular Fashion, Sustainable Textile and Reuse Practices**

Establish circular fashion and sustainable textile education programming to support behavior change around textile consumption and reuse practices. The program is to be incorporated into each swap event. Establish a methodology for tracking program impact, including but not limited to participation, beliefs, behavior and behavior change. Interested bidders are welcome to suggest other educational opportunities they think the City should consider and include those in their bid.

Deliverables for this task include the design and implementation of educational elements at each swap as well as the collection of data showing the impact of the educational materials on swap participants.

### **Task Three: Skill Building Workshops**

In collaboration with OSI, identify and/or coordinate professionals to lead skill building workshop opportunities to integrate repair, repurposing, furoshiki, sashiko, and other relevant aspects of the circular economy into swap events. For this task, bidders should pair skill building workshops into each of the monthly (12) swaps.

### **Task Four: Outreach and Marketing**

Identify relevant neighborhood groups and other potential pathways to reach and recruit participants for swapping events. In collaboration with OSI, create marketing materials, conduct outreach efforts, manage RSVPs, and support content creation for the OSI's social media and website. The deliverables for this task are: 1) a roster of contacts to invite to swaps; 2) outreach materials; and 3) metrics tracking including details around the number of people engaged with outreach.

### **Task Five: Measuring Impact and Quantifying Key Climate Benefits**

Establish a strategy for measuring impact and collecting data at each event. This task also includes translating collected data into key climate benefits (greenhouse gas emission reduction, water conservation, energy savings, textile waste reduction, circular fashion / economy promotion). Deliverables for this task include: 1) collecting data at each event and translating it into key climate benefits; 2) sharing impact data through social media posts; 3) monthly reporting summarizing program activities and impact; and 4) an annual report summarizing impacts.

Communication and file sharing must be done using channels compatible with the City. This includes storing files in SharePoint. The selected vendor will be given access to a subfolder within the City's SharePoint system, where all documents should be stored and organized into meeting notes, reporting, invoicing, communications.

### **Task Six: 20 Hours of Flexible Program Support**

As the work with A<sup>2</sup>ZERO Swap Days advances and evolves, there will likely be new needs and tasks that emerge. As such, OSI is requesting that interested bidders include 20 hours of flexible time in their bid that can be used to respond to emerging ideas.

### **Task Seven: Bi-Weekly Check-Ins**

Facilitate bi-weekly check-ins to ensure that work under this contract is coordinated and on track. These check-ins are estimated to be 30 to 45 minutes. The bidder will be responsible for establishing and distributing the agenda and recording meeting minutes. All work awarded under this RFP must be completed within 2 years of contract signing.

#### **3. Location Requirements**

All interested bidders must be able to conduct in-person work within the City of Ann Arbor. Bidders must be on-site for each Swap Day event and any necessary setup or take down activities. Bidders must have access to their own transportation to complete the proposed scope of work.

#### **4. Terms of Award**

The City anticipates making a two-year award under this contract.

## **SECTION III - MINIMUM INFORMATION REQUIRED**

All of these forms must be returned with the proposal. These elements should be included as attachments to the proposal submission.

## **PROPOSAL EVALUATION**

1. The selection committee will evaluate each proposal by the above-described criteria and point system (A through C) to select a short-list of firms for further consideration. The City reserves the right to reject any proposal that it determines to be unresponsive and deficient in any of the information requested for evaluation. A proposal with all the requested information does not guarantee the proposing firm to be a candidate for an interview. The committee may contact references to verify material submitted by the offerors.
2. The committee then will schedule interviews with the selected firms if necessary. The selected firms will be given the opportunity to discuss in more detail their qualifications, past experience, and fee proposal.
3. The interview must include the project team members expected to complete a majority of work on the project, but no more than six members total. The interview shall consist of a presentation of up to thirty minutes (or the length provided by the committee) by the offeror, including the person who will be the project manager on this contract, followed by approximately thirty minutes of questions and answers. Audiovisual aids may be used during the oral interviews. The committee may record the oral interviews.

4. The firms interviewed will then be re-evaluated by the above criteria (A through D), and adjustments to scoring will be made as appropriate. After evaluation of the proposals, further negotiation with the selected firms may be pursued leading to the award of a contract by City Council, if suitable proposals are received.

The City reserves the right to waive the interview process and evaluate the offerors based on their proposals and fee schedules alone and open fee schedules before or prior to interviews.

The City will determine whether the final scope of the project to be negotiated will be entirely as described in this RFP, a portion of the scope, or a revised scope.

Work to be done under this contract is generally described through the detailed specifications and must be completed fully in accordance with the contract documents.

Any proposal that does not conform fully to these instructions may be rejected.

Proposals should have no plastic bindings but will not be rejected as non-responsive for being bound. Staples or binder clips are acceptable. Proposals should be printed double sided on recycled paper. Proposals should not be more than 20 sheets (40 sides), not including required attachments and resumes.

Each person signing the proposal certifies that they are a person in the offeror's firm/organization responsible for the decisions regarding the fees being offered in the Proposal and has not and will not participate in any action contrary to the terms of this provision.

## **ADDENDA**

If it becomes necessary to revise any part of the RFP, notice of the addendum will be posted to Michigan Inter-governmental Trade Network (MITN) [www.mitn.info](http://www.mitn.info) and/or the City of Ann Arbor website [www.A2gov.org](http://www.A2gov.org) for all parties to download.

Each offeror must acknowledge in its proposal all addenda it has received. The failure of an offeror to receive or acknowledge receipt of any addenda shall not relieve the offeror of the responsibility for complying with the terms thereof.
