

**CITY OF ANN ARBOR
PUBLIC SERVICES AREA RULES AND REGULATIONS**

Number: SC-2 and WC-2
Effective Date: July 1, 2019
Sewer Tap Fees, Water Service Connection Fees and Miscellaneous Fees

A. Sewer Service Connection.

Sewer taps shall be made by Public Works upon the approval of the Public Services Area and upon payment of the required sewer tap fee.

The owner or party requesting the sewer tap shall provide all excavation in compliance with all current Construction Safety Standards, Federal, State and local.

The sewer tap fees for sanitary sewer and storm sewer shall be in the amount of \$674.00 each, payable to the Customer Service Department.

Note: Sewer taps made via construction of a new manhole shall be reviewed and inspected by Engineering after payment of all applicable fees.

B. Sewer Service Disconnection Fee

The sewer disconnection fee shall be in the amount of \$7,260.00 each, payable at the time of application for a sewer disconnection from Public Works. The sewer disconnection fee shall be in the amount of \$130.00 when a qualified contractor excavates, caps the sewer service, and restores the surface. Such work shall be inspected by Public Works prior to backfill by the contractor.

C. Water Service Connection

Public Works will furnish and install a service connection of sizes 2" and smaller, and at such locations as the applicant requests, provided such requests are reasonable. The service connection will be installed from its water distribution main to a point in the lawn extension between the curb and sidewalk (normally 7 feet from the property line) in a street, or approximately 5 feet from the main where the main lies in an easement or is a private main.

<u>Size of Service Connection</u>	<u>Charge-Utility Dug</u>	<u>Charge-Contractor Dug</u>
1"	\$6,868	\$845
1-1/2" Figure 4	\$8,162	\$1,861
1-1/2"	\$7,409	\$1,328
2"	\$7,205	\$1,631
2" Figure 4	\$8,819	\$2,162

For service connections larger than 2 inches, the applicant will deposit with the application the estimated cost and will be billed for the actual cost of the installation.

The balance of the cost of the installation will be billed, and is due and payable before the meter is set or in 30 days, whichever is sooner.

D. Copper Water Service Disconnection Fee

A water disconnection fee shall be in the amount of \$2,974.00 each, payable at the time of application for a water disconnection performed by Public Works. This fee applies to water service leads of 2" in size or smaller. The water disconnection fee shall be in the amount of \$151.00 when a qualified contractor excavates, caps the water service, and restores the surface. Such work shall be inspected by Public Works prior to backfill.

E. Normal Business Hours

Normal Business Hours are Monday through Friday, 8:00 AM to 5:00 PM, except holidays.

F. After Hours Service

A callout fee in the amount of \$292.00 shall be charged for service calls after/before normal business hours, except in cases of an emergency as determined by the Public Services Area. Applicable fee(s) for work performed will be charged in addition to afterhours call out fee.

G. On/Off Charge – Normal Business Hours

A fee of \$57.00 will be charged for a physical turn on/off during normal business hours. This fee is payable at the time service is rendered or may be applied to the customer's account upon their request.

H. On/Off Charge – After Normal Business Hours

A fee of \$57.00 will be charged for a physical turn on/off after business hours in addition to the \$292.00 afterhours fee. This fee is payable at the time service is rendered or may be applied to the customer's account upon their request.

I. Hydrant Meters

A fee of \$1,000.00, payable at the time the work is requested. A flat fee of \$244.00 will be charged to install and remove a meter on a hydrant.

A fee of \$31.00, payable at the time of quarterly billing, will be charged for each month or part of a month for a hydrant meter rental fee.

Water use will be charged at the current water only rate of \$9.25 per ccf.

J. Collection for Non-Payment at Time of Shut-Off

A fee of \$45.00 will be charged if a customer makes payment of delinquent utilities billings to the Customer Service Serviceperson at the time of shut-off. This fee is payable at the time the delinquent payment is received or may be applied to the customer's account upon their request.

K. Site Visit Charge

A fee of \$53.00 will be charged to customers who miss a scheduled appointment, without adequate notice to the Customer Service Department, and wish to re-schedule their missed appointment. Adequate notice is 24 hours prior to the appointment time, or an emergency situation that made it impossible for the customer to provide advance notice. A fee of \$131.00 will be charged to customer where there is suspected MTU tampering.

L. MTU Replacement

A fee of \$179.00 will be charged to replace a damaged MTU. This fee will be charged when units are replaced for reasons other than normal wear and tear or an act of God a MTU Radio Unit has been damaged and is irreparable.

M. Meter Horn Charge

A fee of \$84.00 will be assessed when customers must replace a lost or damaged small meter horn. A fee of \$130.00 will be assessed when customers must replace a lost or damaged large meter horn.

N. Flange Replacement

A fee of \$39.00 will be assessed when customers must replace a lost or damaged 1.5" flange. A fee of \$44.00 will be assessed when customers must replace a lost or damaged 2" flange.

O. Backflow Prevention Inspection Fee

A fee of \$118.00 will be assessed to Commercial customers for inspection of their backflow prevention device. When a location has multiple backflow prevention devices a fee of \$ 128.00 per hour or any part thereof will be assessed.

P. Meter Change-Out Fees

The following fees will apply when a customer requests an upgrade to a larger meter or wishes to downsize to a smaller meter. The following fees will also apply when there is a need to install a new meter when the old meter has frozen. Meter pricing does not include radio unit (MTU) replacement. This fee does not apply to meter changes that the Department deems necessary for maintenance or performance. The fee is payable prior to the set of the meter.

Q. Consumer Deposit Administration

A fee of \$24.00 will be charged when a property owner request for the City of Ann Arbor to charge a Consumer Deposit for each new account. This fee will be collected at the time the signed and notarized affidavit is received.

R. Outside City Agreements

A fee of \$40.00 will be charged to record each water and sewer outside City Service agreement.

S. Installation of Bypass Lockout

A fee of \$ 210.00 will be charged when a serviceperson installs a small ball valve bypass lockout. The fee shall be \$ 259.00 if it is a large ball valve bypass lockout. These costs include a padlock and tag.

T. Winterization

There will be a charge of\$ 57.00 assessed when a service person finds a water meter out of line when doing a water turn on. This will cover the cost of the reinstallation of the meter.

U. On/Off for Inspection

A fee of \$ 91.00 shall be charged to turn water on and off for an inspection multiple times.

V. Hourly Charge for Serviceperson

A fee of \$ 96.00 per hour shall be charged for serviceperson assistance when not included with other appropriate fees or charges.

W. Non-Sufficient Funds (NSF) Checks

A fee of \$25.00 will be charged to customers who present an NSF check to pay their outstanding utilities bill. The fee covers the cost to the Public Services Area of collecting the outstanding debt. Failure to pay within seven (7) days from the date of our original notice will result in an additional fee of \$10. If the dwelling must be tagged for non-payment an additional fee of \$44.00 will be charged. If the outstanding debt is not paid water service will be turned off, and a \$57.00 fee to turn the service back on will apply.

X. Battery Replacement

A fee of \$ 106.00 will be charged to replace the battery for a mag due to excessive wear or use.

Y. Pressure Reducing Valves

This fee will be charged when the customer requests that the City install a pressure reducing valve at a location where the PSI is within an acceptable range.

¾" PRV = \$ 214 (does not include tandem resetter) \$441 (includes tandem resetter), 1" PRV = \$ 235.00, 1.25" PRV = \$ 385.00, 1.5" PRV = \$ 538.00, 2" PRV = \$629.00

All fees effective through June 30, 2020
