After April 30, the applicant for an annual permit shall provide written notice addressed to "Business Owner or Manager" at the address directly adjacent to the sidewalk area to be occupied, at least 72 hours before a permit can be issued to occupy any area between the edge of the vehicle use area of the street and the right-of-way or property line. - (5) All permits shall specify the name of the person to whom it is issued and the dates street or sidewalk occupancy is permitted. The permits shall be valid only for the period specified and for occupancy by the person to whom it is issued. An applicant may submit an application for a daily permit no sooner than 30 days in advance of the period during which a permit is desired.

- (6) Any group or association applying for such a permit in connection with the sale of goods or services shall supply with its permit application all rules by which members of the group are permitted to participate in the activities involving the street occupancy. No permit shall be issued if such rules violate any provisions of this Code.
- (7) Any street or sidewalk occupancy permit may be revoked by the Administrator upon a finding that the occupancy does not meet the standards of this Section, any other provisions of this Code or other applicable law or that the space is needed for other street purposes or as provided for the revocation of permits under Chapter 76. Upon a revocation because the space is needed for other street purposes, only, the fee paid for any period after termination of the street occupancy shall be refunded.

The decision of the Administrator may be appealed to the City Council. Requests for a hearing or an appeal must be made within 5 days of the questioned decision.
- (10) Before any street or sidewalk occupancy permit is issued to an applicant proposing to sell or solicit for sale any food or produce for human consumption, certification must be received from the County Health Officer. For purposes of this subsection only, a non-motorized vendor cart or other similar non-motorized apparatus used for the sale or solicitation for sale of any food or produce for human consumption may be located on the sidewalk notwithstanding any other provision of the Ann Arbor City Code to the contrary.
- (11) The Administrator is authorized to adopt regulations subject to the approval of the City Council to interpret and implement the provisions of this section, except that the City Council may determine by resolution that on certain dates congestion in the city or a part of the city will be too great to permit street or sidewalk occupancy and that permits shall not be issued for those dates and locations.
- (12) Prior to issuance of a street or sidewalk occupancy permit, the applicant shall provide evidence of liability insurance as prescribed in section 4:3
- (13) In addition to any other provisions of this Code, no person shall violate any of the following provisions:
 - (a) *Showing of permit.* All persons who are issued a permit under this section shall display their permit in a prominent manner so that it is visible to the public while conducting activities permitted by this chapter.
