**Steve Powers
City Administrator**

Special Thanks to the
FY 2013
Budget Staff

for their hard work and dedication
in preparing the budget:

Tom Crawford
Karen Lancaster

Stephanie Julian
Kenneth Bogan

Also, special thanks to all of the service area budget representatives
who contributed to their service area and unit budgets – Great Job!

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Ann Arbor
Michigan**

For the Fiscal Year Beginning

July 1, 2011

Linda C. Danow Jeffrey P. Brown

President

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to City of Ann Arbor, Michigan for its annual budget for the fiscal year beginning July 1, 2011. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Office of City Administrator

June 25, 2012

To Mayor Hieftje and Members of City Council:

As the country continues to recover from the Great Recession, the City of Ann Arbor is starting to see economic improvements take traction in its local economy. The local area unemployment rate has declined to 5.4% as of February 2012, receipts from sales taxes are increasing modestly, and residential property values are increasing in some neighborhoods. In addition, the City has settled all of its labor contracts and is achieving significant reductions in the cost to provide services to the community. Retiree health care costs are substantially lower than previously planned, employees are contributing more towards their benefits, and wage levels, excluding step increases, have remained flat over the past several years. Despite these beneficial factors, the funding mechanisms in place to support local governments have not been addressed at the State level. As the City looks ahead, its costs are projected to increase at a modest 2%-3% per year but revenues are only projected to increase 1% per year. Until the system for funding local governments is fixed or the City experiences a more substantial economic rebound, the near-term budget stability remains uncertain. It is within this context the second year of this two-year fiscal plan was developed.

This budget seeks to respond to community concerns and link to City Council priorities. Fundamental to a fiscally responsible budget is balancing the amount of recurring revenues with recurring expenditures. This budget continues to meet this standard with a combination of reductions in recurring expenditures and the recognition of increased recurring revenues. FY2013 recurring expenses are projected to decrease by \$424k while recurring revenues are projected to increase \$1.2 mil. With a modest surplus expected in the short-term, this budget eliminated the proposed reductions in police and fire staffing and adds a police recruit program to supplement and address public safety questions in the downtown area. It also increases the frequency of maintenance in the parks system. In addition this budget includes a record amount of spending on the street maintenance program. These significant investments in city infrastructure and the organization are being done without compromising the City's financial policies. City Council provided the discipline to manage through a very difficult economic environment. The same fiscal discipline will serve the community well in FY2013.

FINANCIAL CONDITIONS

The City's General Fund relies heavily on property taxes to pay for services like Police, Fire, Courts and Parks & Recreation. Property tax receipts are expected to increase approximately 0.8% in FY2013. State law in Michigan limits the amount of property tax revenues which can be collected. Whenever the real estate market improves, State law limits the increase in property taxes a community can receive. As revenues fall communities need to make permanent reductions in how they spend their monies. As revenues increase, communities are limited to the lower of 5% or the rate of inflation.

The other major source of revenue in the City's General Fund is State shared revenues, which are based on the State's collection of sales taxes. The City's receipts of these revenues are expected to be the same in FY2013 as they were in FY2011. The State changed the method of allocation of these funds by creating an Economic Vitality Incentive Program (EVIP). This program requires the city to perform three groups of actions in order to obtain the previously available funds. The three areas include transparency, collaboration, and employee benefits. The FY2013 Budget assumes the City will qualify for all three components of EVIP.

The City's costs for retiree health care are projected to decline significantly reflecting extraordinary investment returns in the VEBA, lower healthcare claims, and increased employee healthcare contributions for future retirees. The VEBA is only 34% funded and has a \$9-\$12 million liability related to the city's settlement with the IRS which is increasing at 7% per year. This budget starts paying down the liability instead of just paying the interest on it. Paying down this liability will reduce future cost increases and may provide stability in the FY2014 & FY2015 budget.

Over the past decade every service area of the City has been restructured and re-organized. The goals of restructuring were to reduce costs and maintain services. Staffing levels (one of the largest expense items necessary for the City to deliver services) have been reduced from 1,005 in FY2001 to a proposed 686 FTEs in FY 2013. Employee wages and benefits were adjusted to help balance the budget. Core services were maintained.

The magnitude of the organizational restructuring changes leaves limited opportunities for future expense reductions without impacting services should another economic downturn arise. Consequently, non-recurring surpluses are recommended to increase in the General Fund. Increasing unassigned reserves to the 15-20% of expenditures range is recommended to give the organization and community some buffer if the economy weakens again.

FY2013

The FY2013 budget seeks to balance the budget through selected cost reductions and revenue increases. As the second year of the two-year plan, this budget includes the following changes versus what was planned for the General Fund:

Community Services

- Restore funding to non-profits that provide Human Services to the FY2012 level (-\$134k)
- Reduce staff expense for work now supported by Washtenaw Urban County (+\$18k)
- Reduce 1.0 FTE in Community Development (+\$86k)
- Revenue increases due to increased efficiency in rental housing inspections (+\$50k)
- One-time increase in funding to the Housing Commission for retiree healthcare costs (-\$78k)

Public Services

- Increased street lighting expense - rate increases and DTE streetlight audit (-\$335k)

Financial Services

- Revise tax revenue estimates (+\$557k)
- Revise State-shared revenue projection (+\$733k)
- Decrease bond user fee projections (-\$155k)

Safety Services

- Avoid planned reduction of 9 Police officers plus add 1 new officer (-\$1,038,167)
- Establish Police recruit program to supplement patrol (-\$150k)
- Contract with County for dispatch services – 911 revenue reduction (-\$612k)
- Contract with County for dispatch services – expenditure savings due to elimination of 19.0 dispatch FTEs (+\$1,238,297)
- AAPOA/COAM labor contract settlement savings (+\$477k)
- Avoid planned reduction of 5 firefighter FTEs (-\$584k)
- Increase Fire revenues (primarily inspections) to fund 5 FTEs and administrative assistant temp (+\$657)
- IAFF (Fire) contract settlement cost (-\$229k)
- Increase Fire excess comp time budget to reflect actual expenses (-\$66k)

City Attorney

- Increase revenue from the Water Fund recognizing cost of legal services (+\$32k)
- Miscellaneous expense adjustments (-\$32k)

District Court

- Reduce 1.0 FTE (transfer authorization but not funding to IT) (+\$66k)
- Additional temp costs and personnel adjustments (-\$66k)
- Increase FTEs by one for a Senior Secretary position (-\$76k)

The extraordinary work of City employees, the management leadership team, and City Council over the past decade has built a solid financial foundation. This foundation has been essential to the City providing the services expected by Ann Arbor's residents, education & non-profit organizations, and businesses. Ann Arbor has continued to be an award-winning organization and community during a weak and volatile economy. While Ann Arbor's financial foundation is solid, economic and legislative conditions may worsen in FY2014 and FY2015. Continued spending restraint and prudent use of reserves is recommended in FY2013.

I thank all the members of the staff and City Council for their hard work in preparation and consideration of this budget.

Respectfully yours,

A handwritten signature in black ink, appearing to read "Steven D. Powers". The signature is written in a cursive style with a long, sweeping underline that extends to the right.

Steven D. Powers

RESOLUTION TO ADOPT ANN ARBOR CITY BUDGET
AND RELATED PROPERTY TAX MILLAGE RATES
FOR FISCAL YEAR 2013

Whereas, City Council has reviewed the City Administrator's proposed budget for FY 2013 for the City of Ann Arbor; and

Whereas, A public hearing and various public meetings have been held to obtain citizen input on the proposed budget; and

Whereas, City Council, with the adoption of the FY2009 budget, Council directed staff to implement a five-year plan that provides supplemental funding from the General Fund fund balance to subsidize the golf courses in Fund 0047 while significant operational and capital investments are made to improve operations;

Whereas, Housing Commission has requested additional funding for FY 2012 and 2013 in the amount of \$154,000 for hiring additional staff to develop and implement a property maintenance program;

Whereas, The High Speed Intercity Rail project (in funds 00CP and 00MG) anticipates receipt of up to \$307,781 by June 30, 2012 but may conclude the fiscal year with a fund deficit if the funds are not received, and the City has included sufficient funding in the FY2013 budget to remedy the deficit should it materialize;

RESOLVED, That if the High Speed Intercity Rail project ends fiscal year 2012 with a deficit, the City's approved deficit elimination plan (under MCL 141.921) would be the transfer of up to \$307,781 from the General Fund as provided for in the FY2013 budget;

RESOLVED, That Council adopts the General Fund Allocations as listed in the FY 2013 Consolidated Plan, to be funded out of the Community Development Budget;

RESOLVED, That the unexpended grant entitlement for the Community Development Block Grant and the HOME Funds be re-appropriated at the end of the fiscal year until such time as all grant funds have been expended;

RESOLVED, That any Community Development Program Income be appropriated upon receipt of the funds for the purpose of Community Development Project Activities;

RESOLVED, That any contributions to the Special Assistance Fund and the Housing Trust fund in excess of the budgeted amount, shall be appropriated at the time of receipt and for the purpose of the Ann Arbor Assistance Fund and the Housing Trust Fund, respectively;

RESOLVED, That the proposed list of Capital Improvement projects in the amount of \$347,033,962 are approved; and that \$103,797,909 be appropriated in FY 2013 for these or similar projects, within the respective funds, as determined by the Service Area, and may be carried forward without regard to fiscal year;

RESOLVED, That Art in Public Places Fund budget be appropriated without regard to fiscal year;

RESOLVED, That the Technology Improvement projects in the amount of \$870,000 be appropriated without regard to fiscal year;

RESOLVED, That a total 686 full-time equivalent positions be adopted in the FY 2013 budget;

RESOLVED, That the City Administrator be authorized to transfer funds between service units within the designated service areas within the same fund;

RESOLVED, That any funds contributed to the Parks Memorials and Contributions fund in excess of the budgeted amount shall be appropriated at the time of receipt for the purpose of that fund without regard to fiscal year;

RESOLVED, That the City Council approve the proposed FY 2013 Ann Arbor-Ypsilanti SmartZone LDFA budget, as a component unit of the City of Ann Arbor in Fiscal Year 2013 in a dedicated Fund containing \$1,658,749 in revenues and \$1,658,749 in expenditures;

RESOLVED, That the City Council continue one more year of providing a General fund subsidy to the Golf Courses in FY2013 to fulfill the original five year commitment discussed in 2009;

RESOLVED, That the City Council include the additional Housing Commission funding in the amount of \$154,000 for FY2013 with the expectation that the Housing Commission will procure separate funding by FY2014;

RESOLVED, That the following appropriations constitute the General Fund budget for FY 2013;

Approved Amendments by City Council on May 21, 2012

Amendment 1 –

Increase the General Fund Expenditure Budget for District Court Personnel

Whereas, the FY2013 plan approved last year for the Fifteenth District Court included three Senior Secretary-Courts positions; and

Whereas, the FY2013 recommended budget was reduced by one Senior Secretary-Court position, corresponding to the vacant judge positions that wasn't sure to be filled; and

Whereas, the third judge position was recently filled and the judge will require a Senior Secretary-Courts position;

RESOLVED, the City increase the General Fund Fifteenth District Court FTEs by one, and funding for the position totaling \$76,193 be added to the adopted budget, funded by a reduction in the FY2013 planned General Fund surplus.

Sponsored by: Councilmember Taylor

Amendment 2 –

Increase the General Fund Expenditure Budget for Fire Personnel

Whereas, the FY2012 adopted budget reduced the budgeted number of Fire Services FTEs (six firefighter fighters and one management assistant) from 89 to 82; and

Whereas, the FY2013 plan approved with the FY2012 budget further reduced the budgeted number of Fire Services FTEs from 82 to 77; and

Whereas, the FY2013 recommended budget reinstated the number of FTEs to the FY2012 level of 82; and

Whereas, the City is pursuing additional Fire Protection funding from the State as well as grants for funding Firefighters and anticipates some of this revenue will come to fruition during FY2013; and

Whereas, the City Council wishes to restore the budgeted sworn Fire Services personnel FTEs to 88 when recurring funding is available;

RESOLVED, that Council directs the City Administrator to monitor the receipt of additional funding from grants and from the State's Fire Protection funds; and

RESOLVED, that if additional funding is received during FY2013 that the City Administrator immediately present Council with a mid-year budget amendment appropriating the funds to hire additional firefighters up to 88FTEs.

Sponsored by: Councilmembers Teall, Taylor, Lumm and Mayor Hieftje

Amendment 3 – (Defeated)

Amendment 4 – (Defeated)

Amendment 5 –

Amendment to Increase FY13 Human Services Funding to FY12 Budget Levels

Whereas, The City of Ann Arbor, the Ann Arbor Area Community Foundation Board of Directors, the United Way of Washtenaw County Board of Directors, the Washtenaw County Board of Commissioners, and the Washtenaw Urban County Executive Committee approved a Coordinated Funding process in the fall of 2010 for FY 2012 and FY 2013 human services funding;

Whereas, The City of Ann Arbor, the United Way of Washtenaw County, Washtenaw County, and the Washtenaw Urban County released a joint Request for Qualifications in December 2010 to determine applicants' financial and organizational capacity;

Whereas, The City of Ann Arbor, the United Way of Washtenaw County, Washtenaw County, and the Washtenaw Urban County released a joint Request for Proposals in January 2011 to eligible agencies for human services program operations applications;

Whereas, A Coordinated Funding Review Committee has reviewed all eligible applications and in April 2011 recommended the allocation of \$1,244,629 in City General Funds, \$1,677,000 in United Way Funds, \$1,015,000 in Washtenaw County General Funds, and \$348,460 in Washtenaw Urban County CDBG & Washtenaw County General Funds to local nonprofit human services agencies as a part of this RFP process for FY12;

Whereas, The City of Ann Arbor, the Ann Arbor Area Community Foundation Board of Directors, the United Way of Washtenaw County Board of Directors, the Washtenaw County Board of Commissioners, and the Washtenaw Urban County Executive Committee approved the recommended human services funding allocations to 40 agencies for the delivery of 65 programs between April and June 2011;

Whereas, The City of Ann Arbor, the Ann Arbor Area Community Foundation Board of Directors, the United Way of Washtenaw County Board of Directors, the Washtenaw

County Board of Commissioners, and the Washtenaw Urban County Executive Committee retain the authority to approve their own allocations;

Whereas, The City of Ann Arbor, the Ann Arbor Area Community Foundation Board of Directors, the United Way of Washtenaw County Board of Directors, the Washtenaw County Board of Commissioners, and the Washtenaw Urban County Executive Committee have committed to approving allocations in partnership with each other;

Whereas, The City of Ann Arbor approved general fund allocations to nonprofit entities for FY 12 in R-11-205, and increased the total dollar amount included in the human services budget for FY12 by \$85,600 in R-11-209 to a total of \$1,244,629;

Whereas, the proposed FY13 budget includes a \$46,899 decrease in funding available for human services nonprofit entities;

Whereas, the Ann Arbor Area Community Foundation Board of Directors, the United Way of Washtenaw County Board of Directors, the Washtenaw County Board of Commissioners, and the Washtenaw Urban County Executive Committee have committed to awarding human services allocations in FY 13 based upon the approved allocations in FY 12;

Whereas, The City of Ann Arbor has awarded funding to human service nonprofits on a two-year cycle since FY08 and has ensured level-funding in year two of each cycle since then;

RESOLVED, the FY13 General Fund Community and Economic Development budget be increased by \$46,899 for human services funding through the General Fund fund balance.

Sponsored by: Councilmembers Lumm and Smith

**Amendment 6 –
Supplemental Funding for Housing Commission for the Change in Methodology
of Allocating Retiree Healthcare Expenditures**

Whereas, the City Administrator's recommended budget revises the city's method of allocating retiree healthcare costs in such a way that the cost of retiree healthcare is allocated to the organizations where the liability is created; and

Whereas, the Housing Commission's expenditure for retiree healthcare is increasing by \$78,000 in FY2013 as a result of this change in methodology; and

Whereas, the Housing Commission is seeking to find an offset for this cost in FY2014 but has not identified an offset for FY2013; and

Whereas, without an offset in FY2013, the Housing Commission will be unable to hire critical staff for its operations.

RESOLVED, that General Fund Non-departmental expenditure budget be increased by \$78,000 for a one-time transfer of funds from the General Fund fund balance to the Housing Commission in order to allow the commission a year to find an offsetting efficiency in future budgets.

Sponsored by: Councilmembers Teall and Smith

**Amendment 7 –
Eliminate the Recycle Bank Program**

Whereas, Recycle Bank program has not produced the desired outcome of significantly increasing participation in recycling; and

Whereas, the cost of eliminating the Recycle Bank program is \$107,200, which includes \$90,000 in an equipment purchase settlement per the contract and \$17,200 for 60 days of contractual notice; and

Whereas, the Solid Waste Fund expenditure budget includes \$103,500 for the Recycle Bank contract;

RESOLVED, the Recycle Bank program be discontinued effective July 1, 2012 with no change to the Solid Waste Fund FY13 expenditure budget.

Sponsored by: Councilmembers Briere, Higgins, Hohnke, Kunselman and Lumm

Amendment 8 – (Defeated)

Amendment 9 – (Defeated)

Amendment 10 – (Defeated)

Amendment 11 - Recognition of Parks Fairness Resolution with Budget Amendments

Whereas, on October 3, 2006, Council passed a resolution that, upon approval of the November 2006 Parks Millage ballot initiative, the General Fund portion of the overall budget supporting the City's Park System Budget would not be reduced more than the average of other General Fund operations of the City in the next 6 years of the millage;

Whereas, the budget amendments adopted by Council for the FY13 budget increase the General Fund expenditure budget by \$619,506;

Whereas, the Parks budget should be increased \$49,379 to ensure compliance with the 2006 resolution;

Whereas, the General Fund supports the Parks System budget with a transfer to the Golf Course fund annually;

Whereas, the Golf Course transfer has not previously been included in the calculation of support;

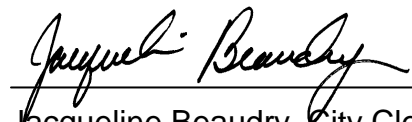

Whereas, the transfer budgeted for FY13 is \$272,220 in the General Fund Non-Departmental budget;

RESOLVED, the transfer to the golf course be recognized as providing additional assistance to Parks satisfying the additional funding requirement.

Sponsored by: Councilmember Hohnke

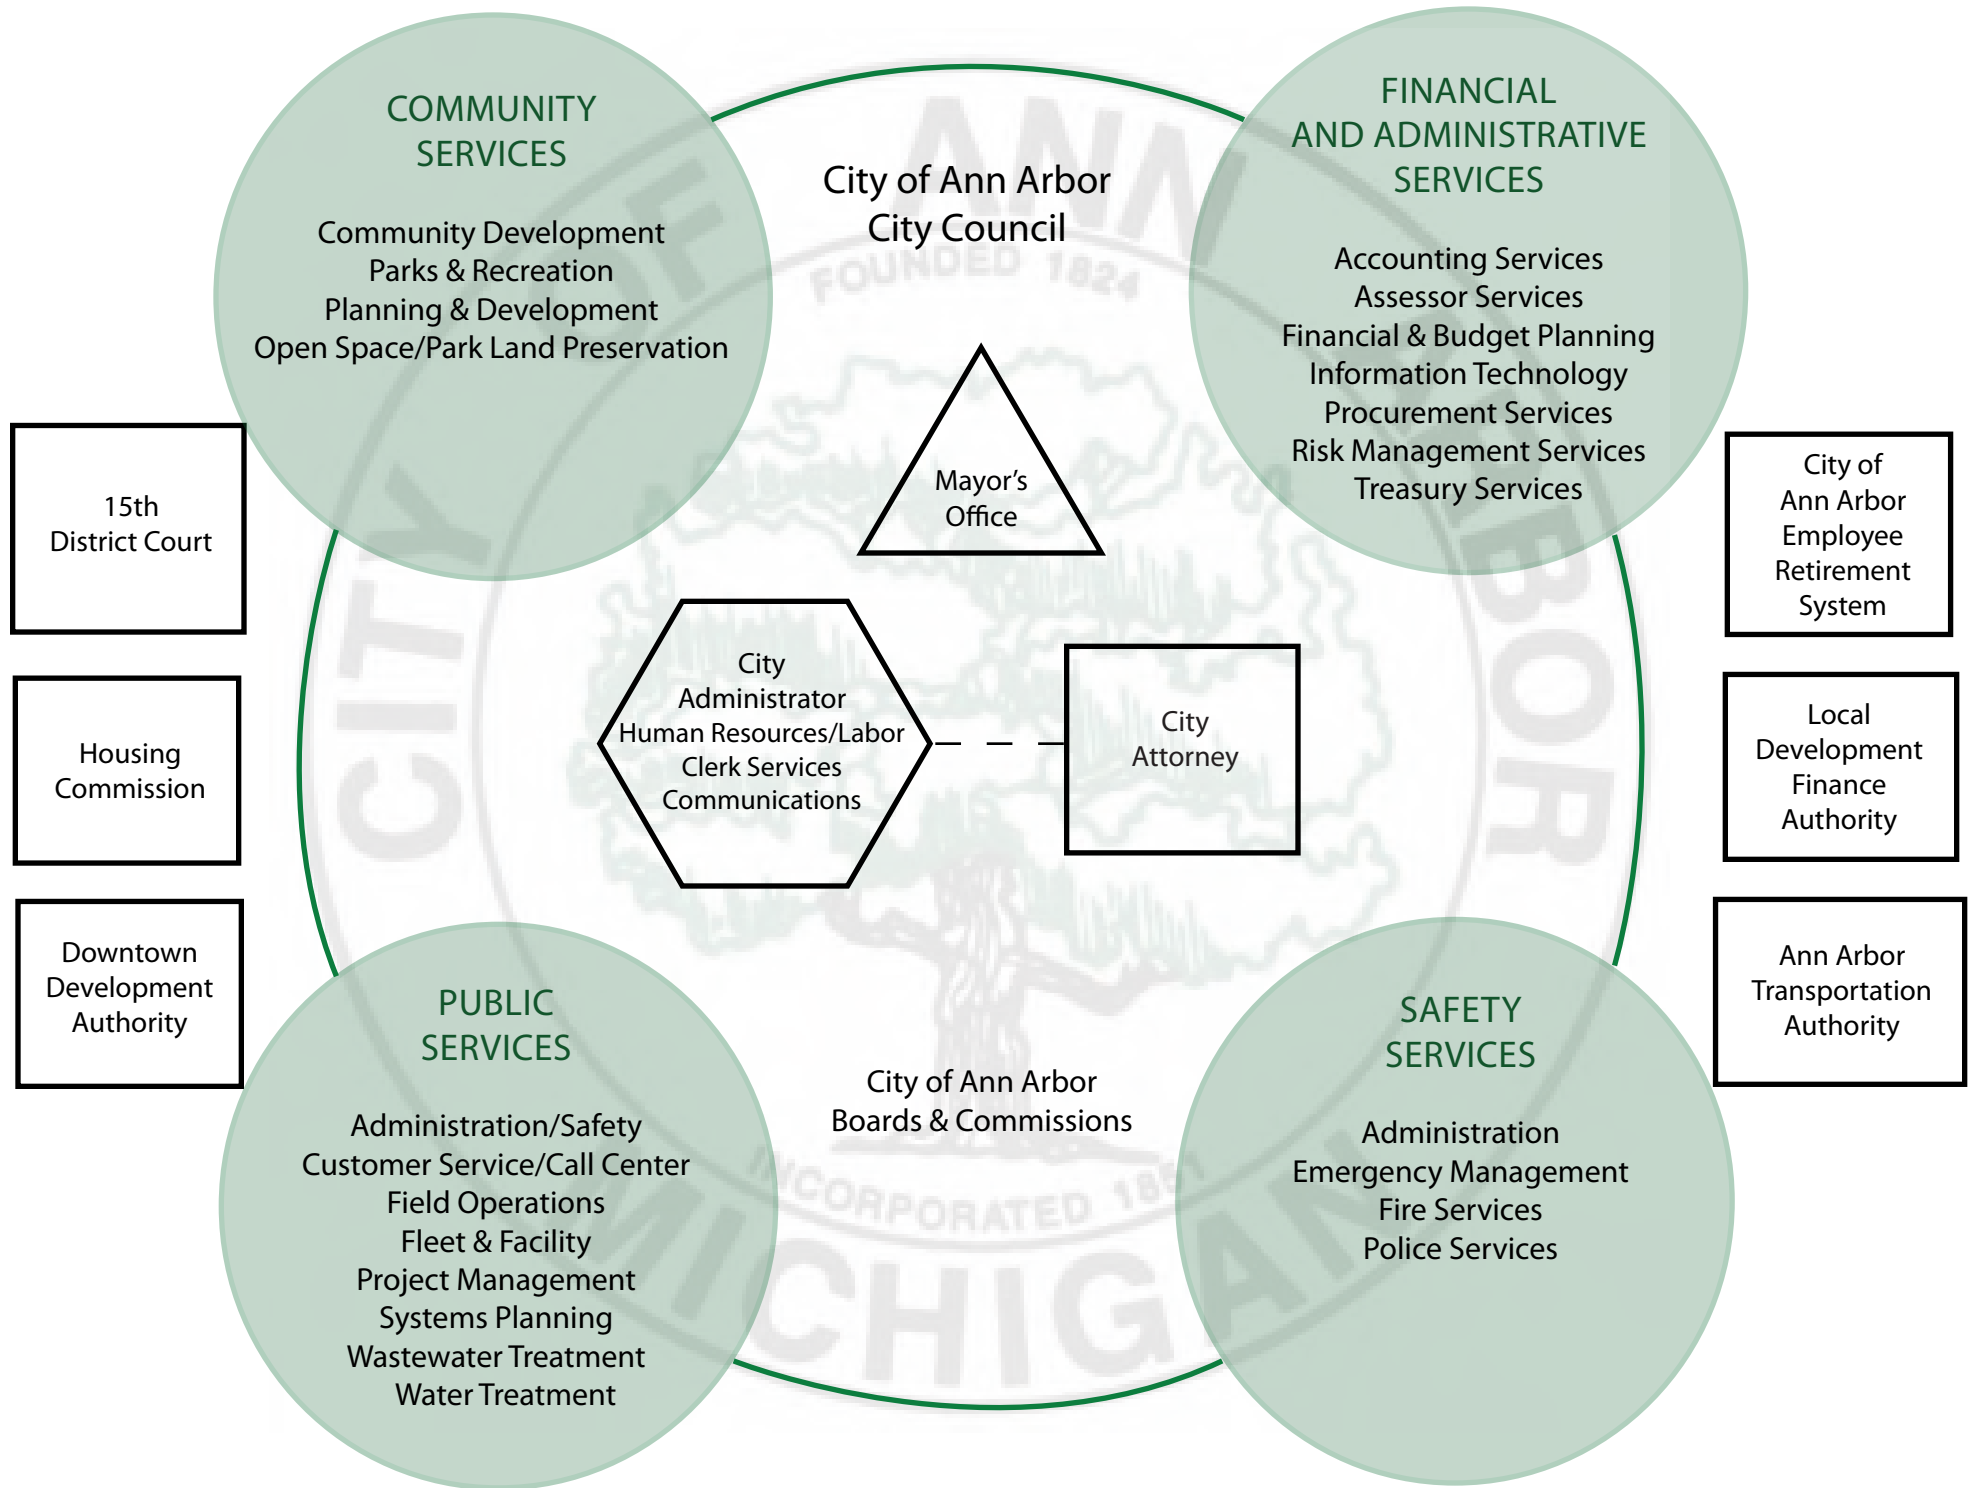

As Amended by City Council on May 21, 2012

I hereby certify that the foregoing resolution was adopted by the Council of the City of Ann Arbor, Michigan, at its regular session on May 21, 2012.

Jacqueline Beaudry, City Clerk

CITY OF ANN ARBOR ORGANIZATIONAL CHART

Information Pages: The Budget Process

The Annual Operating Budget is the City's plan for providing services to the community during the fiscal year. The budget process involves determining the nature and level of services provided to the public according to the priorities established by the City Council and City Administrator.

The actual budget process begins in late fall with the City Administrator formulating a series of goals in cooperation with the City Council that are to be accomplished in the next budget year. These goals are then used to guide the individual service areas in preparing their budgets. The City Council also establishes citywide goals and objectives that identify areas in need of service improvement(s) or other areas of special concentration by the service unit.

Individual service units begin the budget process essentially the same way the City Administrator does – by formulating service unit goals and objectives that support those of the City Administrator. Once the goals and objectives have been developed, the service units prepare the financial budget requests, which are submitted in late January.

In recent years, the City has used the “Target Based” budgeting technique because of limited revenue growth. This technique has proven to be successful for the short-term resolution of challenges created by the structural deficit. Under this system, the City Council decides which services will receive the highest priority. The City Administrator then determines funding levels for each service unit by working with the service area administrators to match funding needs with available revenue. Budget targets are established based on anticipated revenues and growth in expenditures while incorporating the strategic goals and objectives identified earlier in the budget process. The goals and objectives assist in determining where more resources are needed.

The “Target Based” process provides for budgeting of the same activities to occur in the projections. The following is an example of the formula applied in the process:

$$\text{New Budget} = \text{Prior Budget} \times (1 + \text{Economic Assumptions}) - \text{Fixed \%}$$

The fixed percentage is applied equally to all service units' budgets in determining the target levels, after economic assumptions are applied.

After the budget has been adopted, the service units then determine the best way to allocate funds among expenses to remain within the target while meeting the assigned goals. By allowing the service units to determine how funds are spent within the unit, the operating units have a greater ownership in how they provide services.

In accordance with the City Charter, the City Administrator's Recommended Budget is submitted to City Council on or before April 15th. The City Council, with at least seven affirmative votes, must adopt the budget no later than the end of its second meeting in May. According to the City Charter, should the City Council not adopt an amended Budget, the City Administrator's Recommended Budget will automatically take effect as submitted.

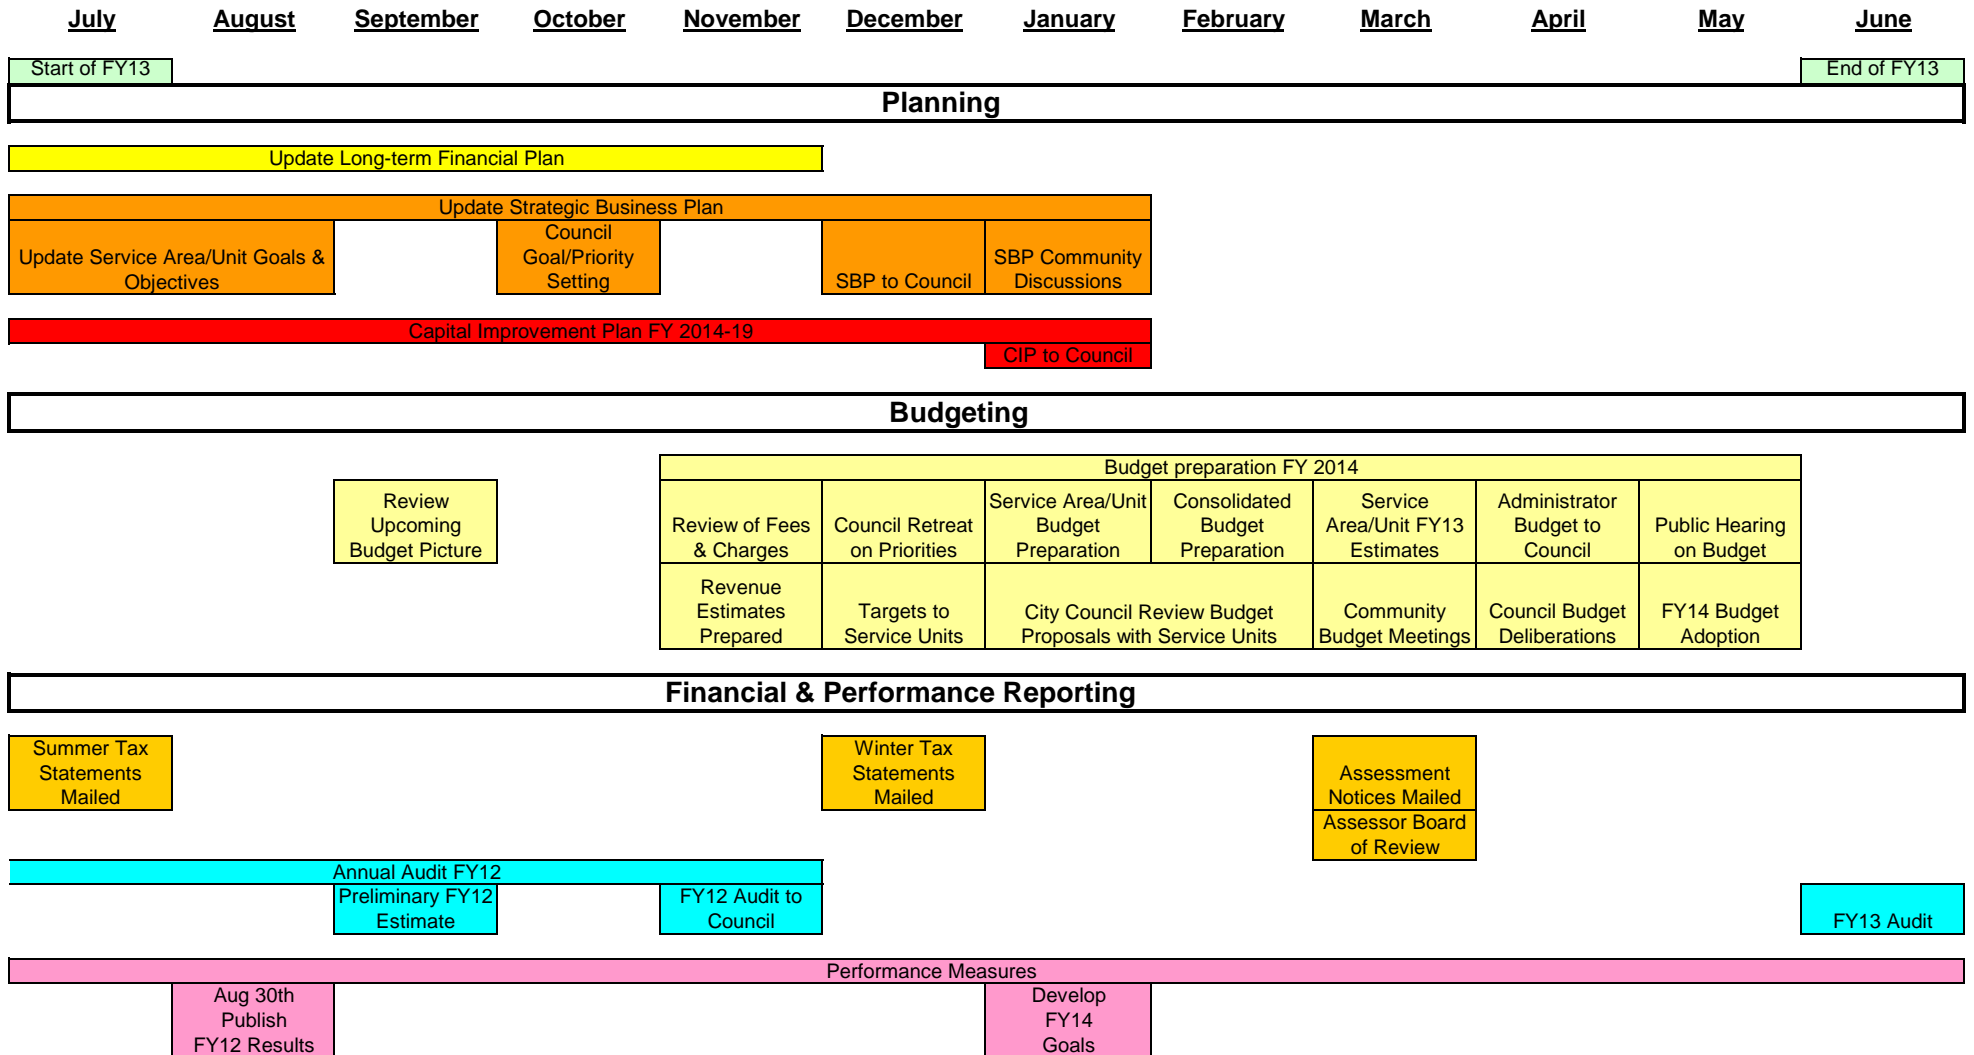

Information Pages: The Budget Process

After the budget has been adopted, City Council may amend the budget by a concurring vote of not fewer than eight members of City Council.

For FY 2012 the Council adopted a two-year fiscal plan. The first year was adopted as the budget and the second year as a projection. For the FY 2013 budget year, the second year of the two-year fiscal plan, the projection was modified for key assumption changes and adopted as the budget. The two-year plan requires only minor changes for the second year and provides the organization time to examine strategic planning in greater detail.

Information Pages: The Budget Process - Financial Calendar

Fiscal Year 2013

Information Pages: Financial Goals

Mission

The City of Ann Arbor is committed to providing excellent municipal services that enhance the quality of life for all through the intelligent use of our resources while valuing an open environment that fosters fair, sensitive and respectful treatment of all employees and the community we serve.

Introduction

A summary of the financial goals is included in the sections below. These activities will guide the City's fiscal activities over the course of the 2013 fiscal year and beyond. This financial planning provides a process for continuing discussion, analysis, policy change and re-analysis with a focus on the City's long-term financial stability.

General Observations and Assessment of Current Conditions

- Statutory state-shared revenue has decreased in nine of the last ten years and remains an unpredictable source of revenue. Recently the State of Michigan established the Economic Vitality Incentive Program (EVIP), which requires the City to meet certain goals in order to receive this funding. The City plans to pursue receipt of these funds in FY2013.
- The City is increasing its contributions to the VEBA Trust to pay for future retiree health care expenditures. The City amended the plan to be an "access-only" plan for new hires.
- Past years' declines in the financial markets had a major impact on the City's required contributions for employee pension costs. While the fund's value has begun the rebound from June 2009 levels, the retirement system's plan will require higher contributions from the City. The financial markets affect the city's pension funding level. Swings in market values are amortized over 5 years, so the City will be digesting the market declines from the last recession through FY2014. These market declines result in an increased pension expense in the City's operating funds.
- The City's retirement system is funded at 88.0% as of June 30, 2011, which is generally considered healthy.
- The General Fund unassigned fund balance on June 30, 2011 was at 13% of total General Fund expenditures.
- In this economic downturn, the City has experienced a larger number of tax appeals, which will impact the City as the appeals are resolved.

Conclusions

As the country continues to recover from the Great Recession, the City of Ann Arbor is starting to see economic improvements take traction in its local economy. The local area unemployment rate has declined to 5.4% as of February 2012, receipts from sales taxes are increasing modestly, and residential property values are increasing in some neighborhoods. In addition, the City has settled all of its labor contracts and is achieving significant reductions in the cost to provide services to the community.

Information Pages: Financial Goals

Retiree health care costs are substantially lower than previously planned, employees are contributing more towards their benefits, and wage levels, excluding union step increases, have remained flat over the past several years.

Despite these beneficial factors, the funding mechanisms in place to support local governments have not been addressed at the State level. As the City looks ahead, its costs are projected to increase at a modest 2%-3% per year but revenues are only projected to increase 1% per year. Until the system for funding local governments is fixed or the City experiences a more substantial economic rebound, the near-term budget stability remains uncertain.

Financial Management Short-term Goals

1. **Continuously improve service delivery efficiency** through consolidation of services, investment in technologies and challenging existing ways of delivering services.
2. **Develop meaningful performance measures** to achieve critical objectives and encourage individual accountability within the organization.
3. **Improve cost efficiency** on an annual basis. FTE vacancies are monitored to determine if the position is needed for the remainder of the fiscal year. All non-personnel expenses are evaluated for necessity.
4. **Support economic development actions** and coordinate activities and incentives with other institutions for maximum benefit.
5. **Revise the City's 2-year fiscal plan and related goals, objectives, activities, and performance measures** based on the Council annual goal setting meeting.
6. **Balance recurring revenues and recurring expenditures to avoid deficit spending.** Decisions concerning the provision of services should always be within this framework of maintaining this balance.
7. **In the General Fund, there shall be a minimum balance (assigned and unassigned fund balance) of 8% to 12%;** provided that when necessary use of these funds occurs, subsequent budgets will be planned for additions to fund balance to maintain this standard over a rolling five-year average. In consideration of the existing economic climate, Council's present goal is 15% - 20%.
8. **Continue the development of a long-term capital financial plan.** The financial plan will integrate the Capital Improvements Program (CIP). Capital improvements were integrated with the FY 2013 annual budget.

Information Pages: Financial Goals

Long-term Goals

1. Maintain strategies for Voluntary Employee Beneficiary Association (VEBA) funding according to the adopted policy.
2. Maintain strategies for pension funding according to the adopted policy.
3. Monitor volatility and diversification of revenue sources.
4. Reserve a consistent level for capital outlay. Sustain adequate net revenues to maintain infrastructure, and provide for sufficient debt service coverage ratios.
5. Maintain strong tax collections and monitor tax delinquency.

Information Pages: Debt Policy

The following debt management policy should be used to provide the general framework for planning and reviewing debt proposals. City Council recognizes there are no absolute rules or easy formulas that can substitute for a thorough review of all information affecting the City's debt position. Debt decisions should be the result of deliberative consideration of all factors involved.

1. **General Debt Policy**

- 1.1 The City shall seek to maintain and, if possible, to improve its current AA2/AA+ bond rating so borrowing costs are minimized and access to credit is preserved. It is imperative that the City demonstrates to rating agencies, investment bankers, creditors, and taxpayers that City officials are following a prescribed financial plan. The City will follow a policy of full disclosure by communicating with bond rating agencies to inform them of the City's financial condition.
- 1.2 Every future bond issue proposal will be accompanied by an analysis provided by the proposing service area, demonstrating conformity to the debt policies adopted by City Council. The Financial Services Area Administrator will review and comment on each bond issue proposal regarding conformance with existing debt and financial policies, and specific aspects of the proposed financing package and its impact on the City's creditworthiness.
- 1.3 The City recognizes that it is of the utmost importance that elected and appointed City officials, and all others associated with the issuance of City debt, not only avoid the reality of a conflict of interest, but the appearance thereof as well. City officials must conduct themselves in a manner consistent with the best interests of the City and taxpayers. Elected and appointed City officials should avoid even the appearance of linkages between politics and public finance that can erode the confidence of taxpayers, ratepayers, and voters. This includes avoiding gratuities, and political contributions of more than nominal value from service providers and the disclosure of all possible conflicts of interest shall be provided in writing and filed with the City Clerk.
- 1.4 Bonds will be sold on a competitive basis unless it is in the best interest of the City to conduct a negotiated sale. Competitive sales will be the preferred method. Negotiated sales may occur when selling bonds for a defeasance of existing debt, for current or advanced refunding of debt, or for other appropriate reasons.

2. **Taxpayer Equity**

- 2.1 Ann Arbor's property taxpayers and citizens who benefit from projects financed by bonds should be the source of the related debt service funding. This principle of taxpayer equity should be a primary consideration in determining the type of projects selected for financing through bonds. Furthermore, the principle of

Information Pages: Debt Policy

taxpayer equity shall be applied for setting rates in determining net revenues for bond coverage ratios.

3. **Uses**

- 3.1 Bond proceeds should be limited to financing the costs of planning, design, land acquisition, buildings, permanent structures, attached fixtures or equipment, and movable pieces of equipment, such as fire engines, or other costs as permitted by law. Utility revenue bond proceeds may be used to establish a debt service reserve as allowed by State law. Acceptable uses of bond proceeds can be viewed as items, which can be capitalized. Non-capital furnishings and supplies will not be financed from bond proceeds. Refunding bond issues designed to restructure currently outstanding debt are an acceptable use of bonds proceeds.
- 3.2 The City will not use short-term borrowing to finance operating needs except in the case of an extreme financial emergency, which is beyond its control or reasonable ability to forecast. Recognizing that bond issuance costs add to the total interest costs of financing, the City shall perform due diligence to ensure that installment agreement or other legally appropriate debt is considered whenever applicable.

4. **Decision Analysis**

- 4.1 Whenever the City is contemplating a possible bond issue, information will be developed concerning the following four categories commonly used by rating agencies assessing the City's creditworthiness. The subcategories are representative of the types of items to be considered. The Chief Financial Officer will present this information to the Budget Committee for its review and recommendation to the City Administrator.
- 4.1.a Debt Analysis
- Debt capacity analysis
 - Purpose for which debt is issued
 - Debt structure
 - Debt burden
 - Debt history and trends
 - Adequacy of debt and capital planning
 - Obsolescence of capital plant
- 4.1.b Financial Analysis
- Stability, diversity, and growth rates of tax or other revenue sources
 - Trend in assessed valuation and collections
 - Current budget trends
 - Appraisal of past revenue and expenditure trends
 - History and long-term trends of revenues and expenditures
 - Evidences of financial planning
 - Adherence to generally accepted accounting principles

Information Pages: Debt Policy

- Audit results
 - Fund balance status and trends in operating and debt funds
 - Financial monitoring systems and capabilities
 - Cash flow projections
- 4.1.c Governmental and Administrative Analysis
- Government organization structure
 - Location of financial responsibilities and degree of control
 - Adequacy of basic service provision
 - Intergovernmental cooperation/conflict and extent of duplication
 - Overall city planning efforts
- 4.1.d Economic Analysis
- Geographic and location advantages
 - Population and demographic characteristics
 - Wealth indicators
 - Housing characteristics
 - Level of new construction
 - Types of employment, industry, and occupation
 - Evidences of industrial decline
 - Trend of the economy
- 4.2 The City may use the services of qualified internal staff and outside advisors to assist in the analysis, evaluation, and decision process, including bond counsel and financial advisors. Recognizing the importance and value to the City's creditworthiness and marketability of the City's bonds, this policy is intended to ensure that potential debt complies with all laws and regulations, as well as sound financial principles.
5. **Debt Planning**
- 5.1 General obligation bond borrowing should be planned and the details of the plan must be incorporated in the Ann Arbor Capital Improvement Plan.
- 5.2 General obligation bond issues should be included in at least one Capital Improvement Plans preceding the year of the bond sale. The first inclusion should contain a general description of the project, its timing, and financial limits; subsequent inclusions should become increasingly specific.
6. **Communication and Disclosure**
- 6.1 Significant financial reports affecting or commenting on the City will be forwarded to the rating agencies. Each bond prospectus will follow the disclosure guidelines of the Government Finance Officers Association of the U.S. & Canada.

Information Pages: Debt Policy

- 6.2 The City should attempt to develop coordinated communication processes concerning collective plans for future debt issues with all other jurisdictions with which it shares a common property tax base. Reciprocally, shared information on debt plans including amounts, purposes, timing, and types of debt would aid each jurisdiction in its debt planning decisions.

7. **General Obligation Bonds**

- 7.1 Every project proposed for financing through general obligation debt should be accompanied by a full analysis of the future operating and maintenance costs associated with the project.
- 7.2 Generally, bonds cannot be issued for a longer maturity schedule than a conservative estimate of the useful life of the asset to be financed. The City will attempt to keep the average maturity of general obligation bonds at or below 20 years. The City will limit the total of its general obligation debt to a level consistent with Michigan law.
- 7.3 Whenever possible, the City will finance capital projects by using self-supporting revenue bonds. Revenue bonds assure the greatest degree of equity because those who benefit from a project and those who pay for a project are most closely matched.

8. **Limited Tax General Obligation Debt**

- 8.1 Limited tax general obligation bonds should be considered when constraints preclude the practice of voter approved general obligation bonds. As a precondition to the issuance of limited tax general obligation bonds, all alternative methods of financing should have been investigated. Consideration should always be given to provide a pledge of facility revenue to accompany the basic pledge of limited tax revenues.
- 8.2 Limited tax general obligation bonds should be issued under certain conditions:
- 8.2.a A project to be financed will generate positive net revenues, i.e., additional revenues generated by the project will be greater than the debt service requirements. The net revenues should be positive over the life of the bonds, and be positive each year if possible. The City recognizes that net revenues may not be positive in the early years of certain projects, but should be positive within a reasonable time period of five to seven years. These calculations will be made on a conservative basis so that the potential for a long-term net decrease in general fund revenues is minimized.
- 8.2.b Matching fund monies are available which may be lost if not applied for in a timely manner.

Information Pages: Debt Policy

8.2.c Catastrophic conditions.

8.2.d A project may be financed when the analysis shows the impact to the organization is in the best interest of the City for the long-term.

9. Revenue Bonded Debt

9.1 It will be a long-term goal that each utility or enterprise will ensure future capital financing needs are met by using a combination of current operating revenues and revenue bond financing. Therefore a goal is established that 15% of total project costs should come from operating funds of the utility or enterprise.

9.2 It is City policy that each utility or enterprise should provide adequate debt service coverage. A specific factor is established by City Council that projected operating revenues in excess of operating expenses less capital expenditures, depreciation and amortization in the operating fund should be at least 1.25 times the annual debt service costs. An example of the debt coverage calculation is below.

Debt Coverage Example:

Operating Revenues	\$19,897,796
Operating Investment Income	<u>488,768</u>
Total Operating Revenue	\$20,386,564
Operating Expenses	\$15,043,747
Less: Depreciation and Amortization	<u>2,602,875</u>
Net Expenses	\$12,440,872
Net Revenue Available for Debt Service	\$ 7,945,692 (1*)
Principal	\$ 3,850,000
Interest	<u>1,890,994</u>
Total Debt Service	\$ 5,740,994 (2*)
Debt Coverage Ratio (1* divided by 2*)	1.38

10. Short Term Financing/Capital Lease Debt

10.1 Short-term financing or capital lease debt will be considered to finance certain equipment and rolling stock purchases when the aggregate cost of equipment to be purchased exceeds \$25,000. Adequate funds for the repayment of principal and interest must be included in the requesting service area's approved budget.

10.2 The term of short-term financing will be limited to the usual useful life period of the vehicle or equipment, but in no case will exceed fifteen years.

Information Pages: Debt Policy

10.3 Service areas requesting capital financing must have an approved budget appropriation. Service areas shall submit documentation for approved purchases to the Financial Services area each year within 60 days after the annual budget is adopted. The Financial Services area will consolidate all requests and may solicit competitive or negotiated proposals for capital financing to ensure the lowest possible interest costs.

11. Defeasance of Bonds (Refunding)

11.1 The City will solicit the advice of bond counsel and financial advisor in order to outline key legal and financial issues. Three key criteria will be evaluated when considering a refunding candidate:

- Financial and Policy Objectives
- Financial Savings / Results
- Bond Structure and Escrow Efficiency

11.2 Financial and Policy Objectives - The City will ensure that refunding bond issues comply with the Debt Management Policy objectives set forth herein, and otherwise comply with other City policies.

11.3 Financial Savings - The City shall ensure that refunding results in a positive Net Present Value savings of at least 3%, or \$100,000. In certain circumstances, lower savings thresholds may be justified. For example, when an advance refunding is being conducted primarily for policy reasons (other than economic savings), interest rates are at historically low levels or the time remaining to maturity is limited, and as such, future opportunities to achieve greater savings are not likely to occur. In this analysis, the following must be considered:

- issuance costs and the interest rate at which the bonds can be issued
- the maturity date of the refunded bonds
- call date of the refunded bonds
- call premium on the refunded bonds
- structure and yield of the refunding escrow
- any transferred proceeds penalty

11.4 Bond Structure and Escrow Efficiency - The City shall pay careful attention to the structure of bonds prior to issuance to address features that may affect flexibility in the future. Potential for refunding shall be anticipated.

Escrows for defeasance shall be structured to optimize efficiency and savings. All legally eligible securities shall be evaluated with regard to liquidity, risk and yield. Escrow securities shall be selected to mature and/or pay interest as closely as possible prior to debt service requirements of the refunded escrow, and also to minimize risk. The City shall seek the lowest cost escrow agent qualified to manage its escrows.

Information Pages: Debt Policy

12. Inter-fund Loans

- 12.1 The City will consider loans to individual funds from the pool of invested funds as an alternative to installment loans and/or bond issuance when conditions warrant. There are situations when such loans are both prudent and appropriate, and can result in cost savings for the City.
- 12.2 When evaluating inter-fund borrowing, the criteria outlined in **4. Decision Analysis**, above, shall be considered. In addition, it is important to note that the funding is backed by the General Fund. Thus, these loans should only be approved if the credit-worthiness of the fund is deemed high.
- 12.3 Inter-fund loans should only be approved when the interest rate charged to the borrowing fund exceeds the Annual Portfolio Yield Net of Fees for the previous year and is less than the market rate that could otherwise be realized.

Information Pages: Fund Balance Policy

The City of Ann Arbor believes that sound financial management principles require that sufficient funds be retained by the City to provide a stable financial base at all times. In order to do so, the City needs to maintain a fund balance sufficient to fund all cash flows of the City, to provide for financial reserves for unanticipated one-time expenditures, revenue shortfalls, and/or emergency needs.

Purpose The purpose of this policy is to specify the size and composition of the City's desired fund balance (net assets for enterprise funds) and to identify certain requirements for classifying fund balance in accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

Policy

1. **Classifications** The following individual components shall constitute the fund balance for all of the City's Governmental Funds:

Classification	Definition	Examples	
Nonspendable	"Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact." ¹	<ul style="list-style-type: none"> • Inventories, • Prepaid items, • Long-term receivables • Permanent Endowments 	
Restricted	"Fund balance should be reported as restricted when constraints placed on the use of resources are either: <ol style="list-style-type: none"> Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or Imposed by law through constitutional provisions or enabling legislation."² 	<ul style="list-style-type: none"> • Restricted by state statute, • Unspent bond proceeds, • Grants earned but not spent, • Debt covenants, • Taxes dedicated to a specific purpose, and • Revenues restricted by enabling legislation. 	
Unrestricted	Committed	"Used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority" ³	<ul style="list-style-type: none"> • Amounts City Council sets aside by resolution.
	Assigned	"Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed" ⁴	<ul style="list-style-type: none"> • City Council delegates the authority to assign fund balance to the Chief Financial Officer. • City Council has appropriated fund balance during the budget process- this is titled "subsequent year's expenditures"
	Unassigned	Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned. ⁵	

¹ GASB Statement No. 54, ¶ 6

² GASB Statement No. 54, ¶ 8

³ GASB Statement No. 54, ¶10

⁴ GASB Statement No. 54, ¶13

⁵ GASB Statement No. 54, ¶17

Information Pages: Fund Balance Policy

Committing Fund Balance In order to commit fund balance, the City Council, as the highest level of decision-making authority, must incorporate in a resolution the commitment of funds for specific purposes. These funds must be fully expended for their committed purpose or a separate action by Council for the funds to become uncommitted.

Assigning Fund Balance In order to assign fund balance, City Council designates the Chief Financial Officer, or his designee, as the authority to assign fund balance.

2. **Minimum Level of Fund Balance/Net Assets** The City will establish and maintain minimum levels of fund balance/net assets in each of the various fund types of the City as follows:

- a. **General Fund-** In the General Fund, there shall be a minimum balance (assigned and unassigned fund balance) of 8% to 12% of expenditures. For purposes of this calculation, the expenditures should be the budget as originally adopted in May of each year. Non-recurring revenues may be a source of accumulating fund balance and should not be relied upon for operational needs. The General Fund should seek to have recurring surpluses sufficient to fund the historic level of non-recurring expenditures. Fund balance may be higher than this minimum to save for large planned expenditures (i.e. capital projects, restructuring charges, etc), credit rating agency concerns, liquidity, and/or to address volatility in economic conditions.
- b. **Special Revenue Funds-** Special revenue funds are created to account for the proceeds from specific revenue sources that are legally restricted for specific purposes (i.e. grants, weight and gas tax, dedicated millages). No specific reservation of fund balance is created by this policy. Rather, each fund must adhere to any underlying guidelines attached to that revenue source. The largest funds are:
 - i. Open Space Millage – fund balance is for the purpose of acquiring property as it becomes available at an affordable price.
 - ii. Construction Code Fund – it is desirable to have a minimum of nine months of operating expenditures in unassigned fund balance. In order to capture the cyclical effect of construction, a five year average of revenue and expense performance will be considered.
 - iii. Local and Major Street Funds – a one year’s collection of the weight and gas tax revenues are held in fund balance. This allows us to leverage unanticipated/unbudgeted events such as harsh winters. In addition, it allows us a safety net for revenue collection from the State as well as the ability to provide matching dollars for state and federal aid projects.
 - iv. Street Repair Millage – a one year’s collection of the repair millage are held in fund balance since this is a short-term millage and

Information Pages: Fund Balance Policy

require frequent renewals from voters. This single year coverage would permit either an extended renewal or a smoother tail-off of funding from street repairs were renewal not approved at exactly the five year timeframe. In addition, the fund balance provides for the matching funds required to capture state and federal aid projects. The fiscal year end (June 30th) occurs during early construction season so at that point in the year, fund balance may appear artificially high since monies have been collected but not expended for projects within that construction season.

- c. **Debt Service Funds-** Debt service funds are very specific with the amount of fund balance required to be held. The reserve requirement for any outstanding bond issue will be consistent with the resolution or ordinance authorizing the bonds.
- d. **Capital Projects Funds-** Capital project funds are created to account for resources set aside to construct or acquire fixed assets or improvements. These projects may extend beyond one fiscal year. No specific reserve is required. However, the fund must ensure enough reserve exists to cover existing construction commitments for the oncoming year. Project funds will remain open until all claims on the project are settled.
- e. **Enterprise Funds-** Enterprise funds should strive for positive net operating income to provide for necessary operating (25% of operational expenditures) and capital reserves while maintaining sufficient debt service coverage ratios. A specific percentage or dollar amount will vary due to the following considerations:
 - i. Water – working capital, debt coverage, asset replacement, rate smoothing, and revenue volatility.
 - ii. Sewage Disposal – working capital, debt coverage, asset replacement, rate smoothing and revenue volatility.
 - iii. Stormwater Sewer – working capital, debt coverage, asset replacement, rate smoothing, and revenue volatility.
 - iv. Solid Waste – working capital, and asset replacement
 - v. Golf - working capital, and asset replacement
- f. **Internal Service Funds-** Internal Service funds, by nature, are designed to operate on a break-even basis for operations, while, if applicable, accruing additional funds to finance future capital costs or potential liabilities.
 - i. **Fleet Services, Central Stores (Radio) and Information Technology funds-** Funding is provided in an amount to fund the replacement of assets (i.e. vehicles, computers, software) at a level consistent with a depreciation-based methodology. Funding shall be designated to maintain the condition of assets at a desirable service level without shifting the costs disproportionately to future taxpayers.
 - ii. **Insurance Fund-** Funding is provided in an amount to fund the costs of employee benefits, worker's compensation, insurance

Information Pages: Fund Balance Policy

claims and premiums, and safety. This fund calculates a reserve for IBNR (incurred but not reported) claims as determined by an actuarial calculation.

3. **Replenishment of the General Fund Minimum Requirements** Should the minimum balance (assigned and unassigned fund balance as a percentage of total expenditures) fall below the 8% threshold for the General Fund, the City Council must approve and adopt a plan to restore this balance to the target level within a specific period of time. When developing a restoration plan, the following items should be considered in establishing the appropriate time horizon:
 - a. The budgetary reasons behind the fund balance targets
 - b. Recovery from an extreme event
 - c. Financial planning time horizon
 - d. Long-term forecasts and economic conditions
 - e. Milestones for gradual replenishment
 - f. External financing expectations

4. **Order of Resource Use** In general, restricted funds are used first when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. In addition, for unrestricted fund balance, the order of use of fund balance shall generally be: 1) committed; 2) assigned; and 3) unassigned.

Overview

The City of Ann Arbor, Michigan (“the City”) is a home rule municipality operating under its City Charter and City Code. The City functions under the direction of a City Administrator who is appointed by an eleven-member City Council. The purpose of this Investment Policy is to establish the investment scope, objectives, delegation of authority, standards of prudence, eligible investments and transactions, internal controls, reporting requirements, and safekeeping and custodial procedures necessary for the prudent investment of the funds of the City of Ann Arbor.

This Investment Policy has been adopted by resolution of the City Council of Ann Arbor, Michigan and replaces all previous investment policies or resolutions concerning the cash management or investment of City funds.

The City manages a flexible investment portfolio, which includes general operating funds, bond reserve funds, proceeds from bond sales that will be expended on capital projects as well as various other funds. Because these funds may be required at any time, it is essential that the City maintain strict maturity horizons for the purpose of liquidity control.

Policy

It is the policy of the City of Ann Arbor to invest public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to Michigan Public Act 20 of 1943.

Scope

This Investment Policy applies to all cash and securities of the City except assets of the Pension Fund, Housing Commission, Fifteenth District Court, Elizabeth Dean Fund, Downtown Development Authority and Contractor’s Retainage Fund. The financial assets of the Consolidated Investment Fund, Limited Investment Fund, Capital Projects Funds, Trust and Agency Funds, and any other funds not specifically excluded from the provisions of this Investment Policy are included herein.

In order to effectively make use of the City’s cash resources, all moneys, except cash in certain restricted and special accounts, shall be pooled into one investment account and accounted for separately. The investment income derived from this account shall be allocated to the various funds based upon each fund’s respective participation.

Investment Objectives

The City’s funds shall be invested in accordance with all applicable City policies, State statutes, and Federal regulations, and in a manner designed to accomplish the following objectives, which are listed in priority order:

Information Pages: Investment Policy

- Safety: Preservation of capital and protection of investment principal
- Liquidity: Maintenance of sufficient liquidity to meet anticipated disbursements and cash flows
- Yield: Attainment of a market rate of return equal to or higher than the performance measure recommended by the Treasurer and approved by the Chief Financial Officer.

Prudence and Indemnification

The standard of prudence to be used in managing the City's assets is the "prudent investor" rule which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment considering the probable safety of their capital as well as the probable income to be derived."

The City's overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The City shall recognize that no investment is without risk and that the investment activities of the City are a matter of public record. Accordingly, the City recognizes that occasional measured losses may be desirable in a diversified portfolio and shall be considered within the context of the overall portfolio's return, provided that adequate diversification has been implemented and that the sale of a security before maturity can be in the best long-term interest of the City.

Personnel acting in accordance with this Investment Policy and written procedures and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price change, or other loss in accordance with the City's Indemnification Policy in effect at the time.

Delegation of Authority

The ultimate responsibility and authority for the investment of all City funds resides with the Chief Financial Officer. Acting under the authority of the City Code Chapter 5, 1.103(2), the Chief Financial Officer may delegate the authority to conduct investment transactions and to manage the operation of the investment portfolio to other specifically authorized persons. The Chief Financial Officer, Treasurer, and Deputy Treasurer are authorized to transact investment business on behalf of the City.

Subject to required procurement procedures, the City may engage the support services of outside professionals in regard to its financial program, so long as it can be demonstrated that these services produce a net financial advantage or necessary financial protection of the City's resources. Such services may include engagement of financial advisors in conjunction with debt issuance, portfolio management, special legal representation, third party custodial services, and appraisals by independent rating services.

Information Pages: Investment Policy

Investment Procedures

The Chief Financial Officer shall establish written administrative procedures for the operation of the City's investment program as well as internal controls, which shall include explicit delegation of authority to personnel responsible for investment transactions. The procedures shall be designed to prevent losses of public funds arising from fraud, employee error, misrepresentation by third parties, or imprudent actions by employees and officers of the City.

Ethics and Conflicts of Interest

All City employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program or which could impair, or create the appearance of an impairment of, their ability to make impartial investment decisions. Employees shall disclose to the Chief Financial Officer any material equity interests in financial institutions that conduct business with the City and they shall subordinate their personal investment transactions to those of the City. Failure to report these relationships may be grounds for discipline, up to and including termination. Employees shall comply with all applicable laws, regulations, professional codes of responsibilities and City policies.

Selection of Banks

The Treasurer shall maintain a list of banks and savings banks authorized to provide depository and other banking services and from which the City may purchase Time Certificates of Deposit. To be authorized, a bank must be eligible to be a depository of funds belonging to the State of Michigan and maintain a principal office or branch office in Michigan. Banks that fail to meet this criteria, or in the judgment of the Treasurer no longer offer adequate safety to the City, will be removed from the list.

Selection of Broker/Dealers

The Treasurer shall maintain a list of broker/dealers authorized to conduct security transactions with the City. To be eligible, a firm must meet at least one of the following criteria:

1. Be recognized as a Primary Dealer by the Federal Reserve Bank of New York or have a primary dealer within their holding company structure; or
2. Report voluntarily to the Federal Reserve Bank of New York; or
3. Qualify under Securities and Exchange Commission (SEC) Rule 15c3-1 (Uniform Net Capital Rule).

Information Pages: Investment Policy

In addition, each broker/dealer must complete and annually update a City approved Broker/Dealer Information Request Form, and submit the firm's most recent financial statements.

Broker/dealers will be selected on the basis of their expertise in public cash management and their ability to provide services for the City's account. Approved broker/dealers and firms they represent must be licensed to do business in the State of Michigan and as such are subject to the provisions of Michigan Statutes relating to the investment of public funds.

Per Section 129.96 of Michigan's Act 20 of 1943, before an order to purchase or trade the funds of the City, a financial intermediary, broker, or dealer shall be provided with a copy of this investment policy and shall do both of the following:

- A. Acknowledge receipt of the investment policy.
- B. Agree to comply with the terms of the investment policy regarding the buying or selling of securities.

The City may purchase Commercial Paper from direct issuers even though they are not on the approved broker/dealer list as long as the Commercial Paper meets the criteria outlined in Item 6 of the Authorized Investments and Transactions section of this Investment Policy.

Authorized Investments and Transactions

All investments for the City shall be made in accordance with Michigan State statutes: Act 20 of 1943 as amended, M.C.L. 129.91-129.96, Investment of Surplus Funds of Political Subdivisions, and Act 40 of 1932 as amended, M.C.L. 129.12, Depositories for Public Moneys.

The City has further delineated the types of securities and transactions eligible for use by the City as follows:

1. U.S. Treasury Obligations: United States Treasury Bills, Treasury Notes, Treasury Bonds, and Treasury Strips with maturities not exceeding fifteen years from the date of trade settlement. There is no limit on the percentage of the portfolio that may be invested in these obligations.
2. Federal Agency Securities: Debentures and mortgage-backed securities with a stated final maturity not exceeding ten years from the date of trade settlement. Investments in Federal Agency Securities shall not exceed 10% of the City's investment portfolio.
3. Federal Instrumentality Securities: Debentures, discount notes, step-up and callable securities with a final maturity not exceeding ten years from the date of trade settlement. Investments in Federal Instrumentality Securities shall not exceed 65% of the City's investment portfolio, and no more than 30% of the City's investment portfolio may be invested in any one issuer of federal instrumentality securities.

Information Pages: Investment Policy

4. Time Certificates of Deposit with a maturity not exceeding five years, and issued by state or federally chartered banks or savings banks as defined in M.C.L. 129.16, "Depositories for Public Money", that are eligible to be a depository of funds for the State of Michigan, and Certificates of Deposit that are purchased in accordance with M.C.L. 129.91 guidelines. Time Certificates of Deposit may be purchased only from banks that have maintained an average Highline Banking Data Services Rating of 30 or better on a scale of zero to 99, with 99 being the highest quality, for the four most recent reporting quarters. Investments in certificates of deposit shall not exceed 20% of the City's investment portfolio and no more than 5% of the City's investment portfolio may be invested in any one issuer.
5. Obligations of the State of Michigan or any of its political subdivisions with a final maturity not exceeding ten years from the date of trade settlement, that are rated at least AA or the equivalent by at least one NRSRO, and not less by any. Investments in such obligations shall not exceed 10% of the City's investment portfolio and no more than 3% of the City's investment portfolio may be invested in any one issuer. Diversification and credit criteria described for obligations of the State of Michigan are not applicable to issues of the City of Ann Arbor.
6. Prime Commercial Paper with an original maturity of 270 days or less which is rated A-1 or the equivalent at the time of purchase by not less than two NRSROs. If the commercial paper issuer has senior debt outstanding, the senior debt must be rated A+ or the equivalent by not less than two of those rating services. Investments in commercial paper shall not exceed 25% of the City's investment portfolio and no more than 5% of the City's investment portfolio may be invested in any one issuer.
7. Repurchase Agreements with a termination date of 90 days or less collateralized by U.S. Treasury Obligations or Federal Instrumentality Securities listed in 1 and 3 above with maturities not exceeding ten years.

Collateralization: For the purpose of this section, the term "collateral" shall mean "purchased securities" under the terms of the City approved Master Repurchase Agreement. The collateral shall have an original minimum market value (including accrued interest) of 102% of the dollar value of the transaction and the collateral maintenance level shall be 101%. If collateralized value drops below 101 percent, it will immediately be restored to 102%. Collateral shall be held by the City's custodial bank as safekeeping agent, and the market value of the collateral securities shall be marked to the market daily based on that day's bid price. The right of collateral substitution is granted.

Master Repurchase Agreement: Repurchase Agreements shall be entered into only with primary dealers reporting to the Federal Reserve Bank of New York, or with firms that have a primary dealer within their holding company structure or with approved depository banks that have executed an approved Master Repurchase Agreement with the City. Primary dealers approved as Repurchase Agreement

Information Pages: Investment Policy

counterparties should have a short-term debt rating of at least A-1 or the equivalent and a long-term debt rating of at least A or the equivalent, if rated. The Treasurer shall maintain a copy of the City's approved Master Repurchase Agreement along with a list of the counterparties who have executed a Master Repurchase Agreement with the City.

There is no limit on the percentage of the portfolio that may be invested in repurchase agreements.

8. Money Market Mutual Funds registered under the Investment Company Act of 1940 that are "no-load" (i.e., no commission or fee shall be charged on purchases or sales of shares); have a constant daily net asset value per share of \$1.00; limit assets of the fund to securities authorized in M.C.L. 129.91 as legal investments for a public corporation; have a maximum stated maturity in accordance with Rule 2a-7 of the Investment Company Act of 1940; and are rated either AAAm or the equivalent. The Treasurer shall pre-approve each Money Market Fund before purchase. Investments in money market mutual funds shall not exceed 30% of the City's investment portfolio.
9. Investment Pools organized under Act 367 of 1982, MCL 129.111 to MCL 129.118, Surplus Funds Investment Pool Act, that are "no-load"; have a constant daily net asset value per share of \$1.00; limit assets of the fund to securities authorized in M.C.L. 129.91 as legal investments for a public corporation; and have a maximum stated maturity and weighted average maturity in accordance with Rule 2a-7 of the Investment Company Act of 1940. Investments in investment pools shall not exceed 10% of the City's investment portfolio.

It is the intent of the City that the foregoing list of authorized securities be strictly interpreted. Any deviation from this list must be pre-approved by the Chief Financial Officer in writing.

Securities that have been downgraded to a level that is below the minimum ratings described herein may be sold or held at the City's discretion. The portfolio will be brought back into compliance with Investment Policy guidelines as soon as is practical.

Collateralization of Deposits

The State of Michigan does not require collateralization of all public funds. See Authorized Investments and Transactions, above, for repurchase agreement collateralization requirements.

Safekeeping and Custody

The City Council shall designate one or more financial institutions to provide safekeeping and custodial services for the City. A City approved Safekeeping Agreement shall be executed with each custodian bank prior to utilizing that bank's safekeeping services. To be eligible for designation as the City's safekeeping and custodian bank, a financial

Information Pages: Investment Policy

institution shall meet the criteria described in the Selection of Banks section of this Investment Policy.

Custodian banks will be selected on the basis of their ability to provide services for the City's account and the competitive pricing of their safekeeping related services.

The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis. Ownership of all securities shall be perfected in the name of the City. Sufficient evidence to title shall be consistent with modern investment, banking and commercial practices.

All City owned securities, except Certificates of Deposit, Investment Pools, and Money Market Mutual Funds, will be delivered by either book entry or physical delivery and will be held in third-party safekeeping by a City approved custodian bank, its correspondent bank or the Depository Trust Company (DTC).

All Fed wireable book entry securities shall be held in the Federal Reserve system in a customer account for the custodian bank, which will name the City as "customer."

All DTC eligible securities shall be held in the custodian bank's DTC participant account and the custodian bank shall provide evidence that the securities are held for the City as "customer."

All non-book entry (physical delivery) securities shall be held by the custodian bank or its correspondent bank and the custodian bank shall provide evidence that the securities are held for the City as "customer."

Investment Diversification

It is the intent of the City to diversify the investments within its portfolio to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions or maturities. The asset allocation in the portfolio should, however, be flexible depending upon the outlook for the economy, the securities market, and the City's anticipated cash flow needs.

There is no limit on the percentage of the portfolio that may be invested in U.S. Treasury Obligations and Repurchase Agreements. However, no more than 30% of the total portfolio shall be invested in any one issuer of Federal Instrumentality Securities. No more than 5% of the total portfolio shall be invested in any one issuer of commercial paper, or obligations of the State of Michigan or any of its political subdivisions.

No more than 25% of the total portfolio shall be invested in securities with maturities exceeding seven years. No more than 12.5% of the total portfolio shall be invested in securities with maturities exceeding eleven years.

Other investments shall not exceed the following limits in each of the categories listed below as a percentage of the total portfolio.

Information Pages: Investment Policy

65% in Federal Instrumentality Securities
30% in Money Market Mutual Funds
25% in Prime Commercial Paper
20% in Time Certificates of Deposit
10% in Federal Agency Securities
10% in Obligations of the State of Michigan or any of its political subdivisions
10% in Investment Pools

Tax funds collected on behalf of taxing authorities and held pending disbursement are not subject to the diversification limits above.

Portfolio Maturities and Liquidity

To the extent possible, the City's investments shall be matched with anticipated cash flow requirements. Unless matched to a specific cash flow liability and approved by the Chief Financial Officer in writing the City will not invest in securities maturing more than fifteen years from the date of trade settlement, and the weighted average final maturity of the portfolio shall not exceed 6.5 years.

The City recognizes that bond proceeds may, from time to time, be subject to provisions of the Tax Reform Act of 1986, Federal Arbitrage Regulations, as amended. Due to the legal complexities of arbitrage law and the necessary immunization of yield levels to correspond to anticipated cash flow schedules, the reinvestment of such debt issuance may, upon the advice of Bond Counsel or financial advisors, deviate from the maturity limitation provisions of this Investment Policy with prior written approval of the Chief Financial Officer. In all cases, however, types of eligible investments will be in compliance with this Investment Policy. This paragraph is only applicable to City funds subject to arbitrage calculations.

Competitive Transactions

Each investment shall be competitively transacted with authorized broker/dealers. At least three broker/dealers shall be contacted for each transaction and their bid and offering prices shall be recorded.

If the City is offered a security for which there is no other readily available competitive offering, then the Treasurer will document quotations for comparable or alternative securities.

Internal Controls

An external auditor shall independently review the City's investment activities on an annual basis. This procedure will assure compliance with policies and procedures.

Information Pages: Investment Policy

Performance

The benchmark yield shall be equal to the average yield on the U.S. Treasury Security that most closely corresponds to the portfolio's actual weighted average maturity. When comparing the performance of the City's portfolio, the reported rate of return shall include both average weighted yield and rate of return net of fees.

Reporting

The Treasurer shall prepare a quarterly investment report summarizing the investments held by the City and the current market value of those investments. The report shall include a summary of investment earnings and performance results during the period, illustrate the portfolio's adherence to appropriate risk levels utilizing appropriate metrics like maturity or duration depending on the investment strategy of the portfolio, and compare the portfolio's total return versus established investment objectives and goals including performance relative to established benchmark yields. The quarterly investment report shall be submitted in a timely manner to the Chief Financial Officer and to the City Council or its designated financial oversight committee.

The City has established reporting and accounting standards for callable U.S. Instrumentality securities. Callable securities may be retired at the issuer's option prior to the stated maximum maturity. All securities holding reports for the City shall disclose the stated maturity as well as the first call date of each callable security held. For callable securities which are purchased priced to the first call date and have an overwhelming probability of being called on the first call date, weighted average maturity as well as yield shall be calculated using the first call date. Authorized investment personnel may, however, choose to use a further call date or maturity date for reporting purposes when conditions mandate.

Policy Revisions

The Treasurer and Chief Financial Officer shall review this Investment Policy annually, and amend it as conditions warrant, subject to approval by City Council or its designated financial oversight committee.

Information Pages: Investment Policy

Glossary

Bankers Acceptance (BA): A draft or bill or exchange accepted by a bank or trust company. The accepting institution guarantees payment of the bill, as well as the issuer.

Broker: A broker brings buyers and sellers together for a commission paid by the initiator of the transaction or by both sides.

Callable Bond: A bond issue in which all or part of its outstanding principal amount may be redeemed before maturity by the issuer under specified conditions.

Certificate of Deposit: A time deposit with a specific maturity evidenced by a certificate. Large denomination CDs are typically negotiable.

Collateral: Securities or property pledged by a borrower to secure payment.

Commercial Paper: An unsecured promissory note with a fixed maturity of no more than 270 days. Commercial paper is normally sold at a discount from face value.

Dealer: A dealer, as opposed to a broker, acts as a principal in all transactions, buying and selling for his/her own account.

Debenture: A bond secured only by the general credit of the issuer.

Delivery Versus Payment: There are two methods of delivery of securities: delivery versus payment and delivery versus receipt (also called free). Delivery versus payment is delivery of securities with an exchange of money for the securities. Delivery versus receipt is delivery of securities with an exchange of a signed receipt for the securities.

Discount Securities: Non-interest bearing money market instruments that are issued at a discount and redeemed at maturity for full face value.

Diversification: Dividing investment funds among a variety of securities offering independent returns.

Federal Deposit Insurance Corporation (FDIC): A federal agency that insures bank and savings bank deposits.

Federal Funds Rate: The rate of interest at which Fed funds are traded. The Federal Reserve currently pegs this rate through open-market operations.

Fed Wire: A computer system linking member banks and other financial institutions to the Fed, used for making inter-bank payments of Fed funds and for making deliveries of and payments for Treasury, agency and book-entry mortgage backed securities.

Investment Adviser's Act: Legislation passed by Congress in 1940 that requires all

Information Pages: Investment Policy

investment advisers to register with the Securities and Exchange Commission. The Act is designed to protect the public from fraud or misrepresentation by investment advisers.

Liquidity: A liquid asset is one that can be converted easily and rapidly into cash without a substantial loss of value.

Local Government Investment Pool: A pool of funds authorized under the laws of the State that receives deposits from one or more local units and pays returns based upon each local unit's share of investment in the pool.

Mark-to-market: The process whereby the book value or collateral value of a security is adjusted to reflect its current market value.

Market Value: Current market price of a security.

Master Repurchase Agreement: A written contract covering all future transactions between the parties to repurchase or reverse repurchase agreements that establish each party's rights in the transactions. A master agreement will often specify, among other things, the right of the buyer-lender to liquidate the underlying securities in the event of default by the seller-borrower.

Maturity: The date upon which the principal or stated value of an investment becomes due and payable.

Money Market Mutual Fund: A mutual fund that limits its investments to some or all types of money market instruments.

Net Asset Value: The market value of one share of an investment company, such as a mutual fund.

No Load Fund: A mutual fund that does not levy a sales charge on the purchase or sale of its shares.

NRSRO: Nationally Recognized Statistical Rating Organizations - organizations that issue credit ratings for securities.

Portfolio: Collection of securities held by an investor.

Primary Dealer: A group of government securities dealers who submit daily reports of market activity and positions and monthly financial statements to the Federal Reserve Bank of New York and are subject to its informal oversight. Primary dealers include Securities and Exchange Commission (SEC) registered securities broker/dealers, banks, and a few unregulated firms.

Prudent Person Rule: Standard of investing which states that investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence,

Information Pages: Investment Policy

discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

Rate of Return: The yield obtainable on a security based on its purchase price or its current market price. This may be the amortized yield to maturity on a bond or the current income return.

Ratings: An evaluation of an issuer of securities by Moody's, Standard & Poor's, Fitch, or other rating services of a security's credit worthiness.

Repurchase Agreements: A transaction whereby a holder of securities sells securities to an investor with an agreement to repurchase them at a fixed price on a fixed date. The security "buyer" in effect lends the "seller" money for the period of the agreement, and the terms of the agreement are structured to compensate the buyer. Dealers use repurchase agreements extensively to finance their positions.

Rule 2a-7 of the Investment Company Act of 1940: Applies to all money market mutual funds and mandates such funds to maintain certain standards, including a 13-month maturity limit a 90-day average maturity on investments and maintenance of a constant net asset value of one dollar (\$1.00).

Safekeeping: Holding of assets (e.g., securities) by a financial institution.

Treasury Bills: A non-interest bearing discount security issued by the U.S. Treasury to finance the national debt. Treasury Bills are issued with maturities ranging from a few days to 26 weeks.

Treasury Bonds: Long-term U.S. Treasury securities having initial maturities of more than ten years.

Treasury Notes: Intermediate term coupon bearing U.S. Treasury securities having initial maturities of from one to ten years.

Yield: The rate of annual income return on an investment, expressed as a percentage.

Information Pages: Pension Policy

The City of Ann Arbor Employees' Retirement Plan is a single-employer defined benefit plan administered by the City of Ann Arbor Employees' Retirement System (CAAERS). CAAERS provides retirement, disability and death benefits to plan members and beneficiaries. Cost of living adjustments are provided to members and beneficiaries per the Ann Arbor City Code Section 1:573 of Chapter 18. Chapter 17.1 of the Ann Arbor City Charter assigns the authority to establish and amend benefit provisions to City Council. The following pension policy should be used to provide the general framework for funding the City's defined benefit pension plan.

1. **General Pension Policy**

- 1.1 The City relies on the Trustees of the CAAERS to perform periodic actuarial valuations and provide the City with an appropriate Annual Required Contribution (ARC). The systematic and disciplined funding of the system is imperative to demonstrate to rating agencies, investment bankers, creditors, the State of Michigan and taxpayers that City officials are appropriately funding this financial obligation of the City.
- 1.2 The ARC is based on a set of assumptions set forth by the Employees' Retirement System Board. The key assumptions are as follows:
 - The actuarial cost method used (i.e. entry-age)
 - The rate of return on investments
 - The projected salary increases
 - The amortization period of the unfunded liability
 - The amortization method of the unfunded liability (i.e. open or closed)
- 1.3 The City of Ann Arbor will strive to achieve 100% funding of the City of Ann Arbor Employees' Retirement Plan. To the extent that 100% funding has been achieved, the City will continue to fund at a minimum the Normal Cost as defined by an outside actuary. To the extent that a fully funded plan has not been achieved, the City shall budget each fiscal year the higher of the ARC or the existing level of funding in the current budget year adjusted annually for the change in the General Fund budgeted revenues. In some years this may result in an excess contribution to the Pension Fund, which will serve to both pay down the unfunded actuarial accrued liability and reduce future city cost increases.
- 1.4 The City recognizes that it is of the utmost importance that elected and appointed City officials, and all others associated with the Employees' Retirement System, avoid conflict of interests as well as the appearance of conflicts. City officials and all others associated with the Employees' Retirement System must conduct themselves in a manner consistent with the best interests of the City and taxpayers. City officials and all others associated with the Employees' Retirement System must function within all applicable laws and regulations, Federal and State, both statutory and regulatory, as well as within the City's own policies and procedures. A City official and all others associated with the

Information Pages: Pension Policy

Employees' Retirement System must not use, appear to use or permit others to use the authority of their position in a manner that could erode the confidence of taxpayers. This includes avoiding business gifts, gratuities, and hospitality of more than nominal value. City officials and all others associated with the Employees' Retirement System are expected to disclose any interest or association that interferes, might interfere, or might be thought to interfere with independent exercise of judgment in the City's best interest.

- 1.5 The City of Ann Arbor will not issue debt to fund any liability associated with funding the ARC or the remaining unfunded liability. The City will not use short-term borrowing to finance this cost except in the case of an extreme financial emergency, which is beyond its control or reasonable ability to forecast.
- 1.6 The City may use the services of qualified City staff, consultants, outside legal counsel and/or outside actuaries (other than the actuary used by the CAAERS Board) to assist in the analysis, evaluation, and decision process of benefit changes to union contracts, personnel policies, retirement windows or other changes as needed.

2. **Process**

- 2.1 The City will apportion the ARC to each fund and agency (service unit) based on the number of employees they have budgeted for the upcoming fiscal year that are participating in the system as well as the cost.
- 2.2 Each service unit will be charged 1/12 of the budgeted cost each month regardless of the actual employees participating in the system. This is necessary to ensure the City meets its obligation for the ARC.
- 2.3 For the General Fund, the ARC is partially funded by the Employee Benefits millage. Funds are disbursed to the Pension Fund as collected throughout the tax collection process. For other funds, the funds are remitted monthly to the Pension Fund. For the Downtown Development Authority and Housing Commission, the City will bill each organization for their payroll on a monthly basis. The amounts they owe for Pension will be credited to Pension monthly.

Information Pages: Other Postemployment Benefits (OPEB) Funding Policy

The City of Ann Arbor Retiree Health Care Benefits Plan is a single-employer defined benefit healthcare plan administered by the City of Ann Arbor Employees' Retirement System (CAAERS). The plan provides certain health care and life insurance benefits, otherwise known as other postemployment benefits (OPEB), for eligible retired employees and their dependents in accordance with Ann Arbor City Code Chapter 21. Substantially all the City's employees hired before July 1, 2011 may become eligible for these benefits if they retire directly from City employment. The following OPEB policy should be used to provide the general framework for funding the City's OPEB plan.

1. General OPEB Policy

- 1.1 The City relies on the Trustees of the CAAERS to perform periodic actuarial valuations and provide the City with an appropriate Annual Required Contribution (ARC). The systematic and disciplined funding of the system is imperative that the City demonstrates to rating agencies, investment bankers, creditors, the State of Michigan and taxpayers that City officials are appropriately funding this financial obligation of the City.
- 1.2 The ARC is based on a set of assumptions set forth by the Employees' Retirement System Board. The assumptions are as follows:
 - The actuarial cost method used (i.e. entry-age)
 - The rate of return on investments
 - The projected health care cost increases
 - The amortization period of the unfunded liability
 - The amortization method of the unfunded liability (i.e. open or closed)
- 1.3 The City of Ann Arbor will strive to achieve 100% funding of the City of Ann Arbor Retiree Health Care Benefits Plan. To the extent that 100% funding has been achieved, the City will continue to fund, at a minimum, the Normal Cost as defined by the outside actuary. To the extent that a fully funded plan has not been achieved, the City shall budget each fiscal year the higher of the ARC or the existing level of funding in the current budget year adjusted annually for the change in the General Fund budgeted revenues. In some years this may result in an excess contribution to the Voluntary Employee Benefits Trust (VEBA) Fund, which will serve to both pay down the unfunded actuarial accrued liability and reduce future city cost increases. To the extent that the City incurs a liability related to the underfunding of the ARC in any fiscal year, the City Council will strive to set aside additional funding to pay off this liability within five years of the occurrence.
- 1.4 The City recognizes that it is of the utmost importance that elected and appointed City officials, and all others associated with the Employees' Retirement System, avoid conflict of interests as well as the appearance of conflicts. City officials and all others associated with the Employees' Retirement System must conduct themselves in a manner consistent with the best interests of the City and taxpayers. City officials and all others associated with the Employees' Retirement

Information Pages: Other Postemployment Benefits (OPEB) Funding Policy

System must function within all applicable laws and regulations, Federal and State, both statutory and regulatory, as well as within the City's own policies and procedures. A City official and all others associated with the Employees' Retirement System must not use, appear to use or permit others to use the authority of their position in a manner that could erode the confidence of taxpayers.. This includes avoiding business gifts, gratuities, or hospitality of more than nominal value. City officials and all others associated with the Employees' Retirement System are expected to disclose any interest or association that interferes, might interfere, or might be thought to interfere with independent exercise of judgment in the City's best interest.

- 1.5 The City of Ann Arbor will not issue debt to fund any liability associated with funding the ARC or the remaining unfunded liability. The City will not use short-term borrowing to finance this cost except in the case of an extreme financial emergency, which is beyond its control or reasonable ability to forecast.
- 1.6 The City may use the services of qualified City staff, consultants, outside legal counsel and/or outside actuaries (other than the actuary used by the CAAERS Board) to assist in the analysis, evaluation, and decision process of benefit changes to union contracts, personnel policies, retirement windows or other changes as needed.

2. **Process**

- 2.1 The City will apportion the ARC to each fund and agency (service unit) based on the number of employees they have budgeted for the upcoming fiscal year that are participating in the system as well as the cost .
- 2.2 Each service unit will be charged 1/12 of the budgeted cost each month regardless of the actual employees participating in the system. This is necessary to ensure the City meets its obligation for the ARC.
- 2.3 For all funds, the ARC collected each month will be credited to the Risk Fund, as the Risk Fund pays for the retiree health care premiums. At fiscal year end, the amount collected from service unit budgets less the retiree health care premiums paid will be remitted to the VEBA Fund. For the Downtown Development Authority and Housing Commission, the City will bill each organization for their payroll on a monthly basis. The amounts they owe for OPEB will be credited to VEBA Fund monthly.

Information Pages: Capital Improvement Program Policies

Explicit policies are necessary to guide capital programming because: 1) they provide a better understanding of the basis for a CIP; 2) they raise issues that should be discussed; and 3) they provide more specific guidance to the City Administrator as well as to the operating service areas that propose capital improvements. These policies are intended to be the basis for deliberation and debate. Both policies and priorities change over time as new components of the master plan are adopted.

- 1) The Capital Improvements Plan plays an increasingly significant role in the implementation of the master plan, providing the link between planning and budgeting for capital projects. Nearly all of the capital improvement project requests will evolve, over time, from a component of the master plan. All City service areas will be asked to take a more active role in the planning process so that master plan components more consistently contain objectives and policies for capital improvements.
- 2) The capital improvements program will continue to develop by adding features each year to gradually improve its quality and sophistication. Greater attention will be devoted to more detailed information about individual project requests, program planning, fiscal analysis, fiscal policies, and developing debt strategy.
- 3) Projects first will be evaluated in relation to each other before consideration is given to available financing. Projects will be prioritized as a matter of implementing the goals and objectives of adopted plans and policies, not as a matter of available funds.
- 4) Capital projects that encourage private economic investment in the City will be considered in components of the master plan.
- 5) Projects that maintain the existing infrastructure normally will take precedence over projects that create or expand facilities.
- 6) The City must develop sources of revenue to pay for capital expenditures that do not use, or compete for, resources from the General Fund.
- 7) A successful capital improvements program cannot be achieved without the understanding and support of the taxpayers and voters. A more comprehensive effort to involve the public in the process will evolve to ensure that their concerns, preferences, and priorities are considered.
- 8) The City may not automatically be able to provide infrastructure to serve private development, as it once did. There are pros and cons of shifting the costs of new infrastructure and public facilities from the public sector to developers and new home buyers. For instance, shifting the allocation of costs too much on the developer may raise the cost of new housing to a point at which it may have exclusionary effects. In approving development sites and plans the City needs to assess the economic impacts of developments more carefully.

Information Pages: Capital Improvement Program Policies

- 9) The City needs to take a more active role in inter-jurisdictional planning to formulate coherent infrastructure policies in the area. Many of the systems developed through capital investment (water, sewer, parks, etc.) have the potential to extend beyond the City limits. The City must make every effort to avoid service delivery fragmentation among the City, townships, special districts, and the private sector.
- 10) The capital improvements program must strive to provide for services equally among all residents of the City and to focus on those projects that provide the most benefit to the entire community. Likewise, careful evaluation must be made as to which projects should be paid for in greater measure by those who benefit from them, and which are better spread among all residents.
- 11) Projects that are necessary to protect against a clear and immediate risk to public health or public safety should be regarded as highest priority.
- 12) Unlimited-tax general obligation bond issues should be included in at least two Capital Improvement Plans preceding the year of the bond sale. The first inclusion should contain a general description of the project, its timing, and financial limits; subsequent inclusions should become increasingly specific.

Information Pages: Deciphering the Budget Format

The format used by this budget document is intended to provide clarity through consistency. Every service area will follow the same basic format, with minor variation for some service areas that require additional information.

Each service area budget consists of:

- 1) A Service Area page;
- 2) The Service Area's organizational structure and summary;
- 3) Summary of Revenues and Expenditures by Service Unit within Service Area;
- 4) An FTE count by Service Unit within Service Area;
- 5) A Service Unit summary page;
- 6) Summary of Revenues and Expenditures by Category by Service Unit;
- 7) Significant Notes and Adjustments;
- 8) Summary of Revenues and Expenditures by Activity by Service Unit (only certain Service Units display this level of detail);
- 9) Goals and Performance Measures for the Service Area by Service Unit;
- 10) A Position Summary.

Each page layout is discussed in depth below.

Service Area Page

The page shows the name of the service area.

Service Area Organizational Structure

This depicts a graphical layout of the service area's organization and a description of the service area. The organization chart depicts the service area and its various service units.

All service units are presumed to be on the same "line" organizationally, i.e., all service units are equal in status within the service area.

Summary of Revenues and Expenditures by Service Unit within Service Area

The summary page for the service unit outlines revenues and expenditures by category. Service units for each area follow the service area.

Information Pages: Deciphering the Budget Format

FTE Count

The FTE Count shows the number of permanent, authorized positions by Full Time Equivalents, or FTEs. The FTE figure represents the number of work years "funded" for a particular position. For example, a permanent half-time position would be shown as .50 FTE.

Additionally, one position may be charged against several service units or cost centers. Each service unit or cost center charged shows a fraction of the total position. For example, a full-time position charging 60% of its time to the Administration Service Unit and 40% of its time to the Maintenance Service Unit would be shown as:

	<u>FTE</u>
Administration	.60
Maintenance	<u>.40</u>
Total	1.00

Service Unit Summary Page

The summary page shows the name of the service unit and a description of the service unit.

Summary of Revenues and Expenditures by Category by Service Unit

Revenues

Service unit revenues are listed by category with a three-year history. Below the revenue by category, is the service unit's revenue by fund. Detailed revenue information by fund and descriptions of revenue categories can be found in the Revenue section of this document.

Expenditures

Service unit expenditures are listed by category with a three-year history. Below the expenditures by category, is the service unit's expenditures by fund. Detailed expenditure information by fund and descriptions of expenditure categories can be found in the Expenditure section of this document.

Significant Notes and Adjustments

Significant Notes and Adjustments are used to explain notable items in the Service unit's revenues and expenditures, which are significantly higher or lower than the prior fiscal year budget.

Information Pages: Deciphering the Budget Format

Summary of Revenues and Expenditures by Activity by Service Unit

Revenues

Service unit revenues are listed by activity with a three-year history.

Expenditures

Service unit expenditures are listed by activity with a three-year history.

Goals and Performance Measures by Service Unit within Service Area

The service unit's Goals and Performance Measures are listed following the Significant Notes and Adjustments. The City's goals are included in order to show how the unit's goals are aligned with the overall entity's goals.

Position Summary

This summary provides a list of all funded positions within the service unit, along with the positions' corresponding FTE status for the budget year.

Information Pages: The Basis of Accounting for the Budget

The City of Ann Arbor uses the modified-accrual basis of accounting for all governmental fund types, including the General Fund, Special Revenue Funds, Trust Funds, and General Debt Service Funds. For Enterprise and Internal Service Funds, the City uses the full accrual basis of accounting. The City adopts budgets for all funds according to the basis of accounting of their fund type.

The basis of accounting for the budget includes the following policies:

- a. Property taxes and other revenues that are both measurable and available for use are budgeted as revenue on the basis of when they are earned. Other revenues such as fines and forfeitures, admissions, contributions, etc. are recorded when received.

Properties are assessed as of December 31st of each year and the related property taxes are assessed and recorded as earned on the following July 1st. These taxes are due on July 31st, with those taxes that are still unpaid as of the following February 28th being placed on the county tax rolls, the county then advances the amounts due at that time.

- b. Revenues from special assessments are budgeted on the basis of when the assessments are due.
- c. Principal and interest payments on outstanding debt are budgeted on the basis of when they are due and payable. Principal is not budgeted for Enterprise and Internal Service Funds.
- d. Payments for the acquisition of materials and supplies inventories and fixed assets are budgeted on the basis of when the obligation is incurred.
- e. Depreciation is budgeted for Enterprise Funds.
- f. All other expenditures are budgeted on the basis of when the expenditure is incurred and payable.

Information Pages: Fund Descriptions

General Fund

To account for resources traditionally associated with governments, which are not required to be accounted for in another fund.

Internal Service Funds

To account for the costs of the various services below, which are billed to the various other funds on the basis of services used. The costs include, but are not limited to, administrative, operation, maintenance and financing costs.

Central Stores - to account for various inventories of road repair materials, repair parts, and other miscellaneous items, which are inventoried by the City.

Fleet Services - to account for the operation and maintenance of the City's motor vehicle fleet and other equipment.

Information Technology - to account for the operation and maintenance of the City's Information Technology equipment and software.

Project Management - to account for the centralized project management and engineering services provided for the City's various capital improvement projects.

Risk Fund - to account for the City's self-insurance program along with all other coverage necessary.

Wheeler Center - to account for internal operation and maintenance costs by the occupants of the Wheeler Center.

Enterprise Funds

Includes all revenue and expenses necessary to operate the funds including, but not limited to, administration, operations, maintenance, financing and related debt service, billing and collection.

Airport - to account for the operation of the City's airport including the rental of hangars and tie-down space.

Golf Enterprise - to account for two 18-hole golf courses.

Market - to account for the costs of operating the City's Farmers' Market.

Parking System - to account for the City's parking structures.

Sewage Disposal System - to account for the collection and treatment of the sewage of the

Information Pages: Fund Descriptions

City and some township residents.

Sewer Bond Pending Series - to account for the proceeds of bonds and construction of infrastructure related to the City's Sewage Disposal System.

Solid Waste - to account for the collection of solid waste and material recovery activities and processing of solid waste, recovered materials, and composting activities.

Stormwater Sewer System - to account for the collection and disposal of the City's stormwater.

Stormwater Bonds - to account for the proceeds of bonds and construction of infrastructure related to the City's Stormwater System.

Water Supply System - to account for the provision of treated water of the City and some township residents.

Water Bond Pending Series - to account for the proceeds of bonds and construction of infrastructure related to the City's Water Supply System.

Special Revenue Funds

To account for the proceeds of specific revenue sources (other than those from expendable trusts or for major capital projects), which are restricted legally to expenditure for specified purposes.

2007 Parks Maintenance and Capital Improvement Millage - to account for the proceeds of a special millage to provide for certain maintenance, repair costs and capital improvements of the Parks System.

2003 Parks Repair & Restoration - to account for the proceeds of a special millage to provide for certain maintenance and repair costs of the Parks System.

2000 Parks Rehabilitation & Development – to account for the proceeds of a special millage to rehabilitate and develop various parks.

2004 Open Space and Parkland Preservation - to account for the proceeds of a special millage to preserve and protect open space, natural habitats, parkland and the City's source water inside and outside the City limits.

Affordable Housing - to account for funding of selected affordable housing projects with the General Fund and federal funds.

Ann Arbor Assistance - to account for funds provided by a utility bill check-off and provides assistance to needy citizens.

Information Pages: Fund Descriptions

Alternative Transportation – to account for Act 51 monies segregated for the purpose of maintaining and extending non-motorized pathways.

Art in Public Places – to account for funds provided by capital improvement projects for public art equal to 1% of the construction costs, to a maximum of \$250,000 per project.

Bandemer Property - to account for rental income used to maintain and operate Bandemer Park.

Cemetery Perpetual Care - to account for the receipt and expenditures of fees paid for the perpetual care of gravesites at the City-owned Fairview Cemetery.

Community Television Network - to account for the costs of running the City's community access channels on the local cable television system. Revenues are derived primarily from franchise fees.

Community Development Block Grant - to account for funds received from the federal government for the City's Community Development Block Grant programs.

Construction Code Fund - to account for revenues and expenditures related to permits, inspections, appeals and plan reviews for construction projects.

Court Facilities - to account for a court fee to pay for facility improvements for the court.

Drug Enforcement - to account for confiscated property and money related to drug law enforcement activity and provide funds for future enforcement activity.

Energy Projects - to account for funds used to finance energy improvements and the related energy savings, which will be used for future projects.

Federal Equitable Sharing Forfeitures - to account for monies received as a result of joint operations with federal law enforcement.

Homeland Security Grant Fund - to account for federal Office of Homeland Security grant money.

HOME Program - to account for funds received from the federal government for the City's HOME grant program.

Local Forfeiture - to account for monies received as a result of police seizures from non-federal investigations. These monies are restricted for use in future law enforcement activities.

Local Law Enforcement Block Grant - to account for federal grant monies received for fingerprinting equipment and other law enforcement items.

Local Streets - to account for repairs, maintenance and construction on the City's local

Information Pages: Fund Descriptions

streets. The revenues consist primarily of State-Shared gasoline and weight tax collections.

Major Grant Programs - to account for various grant monies other than community development.

Major Streets - to account for repairs, maintenance and construction on the City's major streets. The revenues consist primarily of State-Shared gasoline and weight tax collections.

Metro Expansion – to account for the monies passed through from telecom companies for the purpose of maintaining roadway (above, below and adjacent to) right of ways.

Michigan Justice Training - to account for State funds used for law enforcement training.

Parks Memorials & Contributions - to account for the proceeds of various contributions to the Parks System to erect memorials or finance special parks improvement projects.

Police and Fire Relief - to account for the receipt of investment earnings on previously transferred General Fund monies. These earnings are used to subsidize the incomes of certain beneficiaries of deceased police officers and firefighters.

Senior Center Endowment – to account for funds donated to the Senior Center.

Sidewalk Improvement Fund – to account for the funds set aside for sidewalk repairs, and maintenance and installation, which is later billed to the property owner for re-payment over time.

Street Repair Millage - to account for the proceeds of a special millage to repair streets.

Tree Removal and Disposal Fund – to account for the funds set aside for removal of Emerald Ash Borer damaged trees.

Trust Funds

To account for the assets held by the City in a trustee capacity and the expenditures of such funds.

Elizabeth R. Dean - a permanent fund used to account for monies provided by a private bequest to finance tree planting and maintenance. The principal amount of the bequest is to remain intact and invested. Investment earnings are used for the above stated purposes.

Employees' Retirement System - a pension trust fund to account for the accumulation of resources to be used for retirement pension and annuity payments. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by an annual actuarial study.

Information Pages: Fund Descriptions

VEBA Trust - a pension trust fund, which provides funds for post retirement medical and life insurance for the retirees of the City.

Debt Service Funds

To account for the accumulation of resources for, and the payment of general long-term debt principal and interest.

General Debt Service - to accumulate operating transfers for payment of principal and interest on general obligation bonds sold to finance various capital projects.

Special Assessment General Debt - to accumulate operating transfers for payment of principal and interest on general obligation bonds sold to finance the City's share of special assessment projects.

Capital Projects Funds

To account for funds related to the purchase and construction of City assets.

General Capital Improvements - to account for capital project expenditures for various non-bonded improvements to certain City-owned facilities.

Component Units

Legally separate organizations for which the elected officials of the primary government are financially accountable.

Downtown Development Authority - to account for the tax increment revenue that is derived from new construction in the Downtown Development District, which is used to finance various parking structures and street improvements in the downtown area.

DDA Housing - to account for the funds that the Downtown Development Authority has set aside for housing in the downtown area.

DDA Parking Maintenance - to account for the maintenance of six parking structures and four parking lots by the Downtown Development Authority.

DDA Parking System - to account for the operation of six parking structures and four parking lots by the Downtown Development Authority.

SmartZone LDFA - to account for the monies which provide local financing for developing and sustaining local "Business Accelerators" and "Business Incubators" as the vehicles through which services to emerging technology driven businesses are delivered.

Information Pages: Community Profile

The City of Ann Arbor is located in the approximate center of Washtenaw County in the southeastern section of Michigan's lower peninsula. The City is approximately 28 square miles in area and serves as the county seat. The 2010 census places the population at 113,934, making it the sixth largest city in Michigan.

Ann Arbor offers a unique blend of business, education and recreational opportunities. Through the efforts of local builders, contractors, and retailers, the City has not only grown at its outer boundaries, but the central City remains a vibrant dining, service, and entertainment location. The area is serviced by prominent legal counsel, excellent account and brokerage houses, several advertising agencies, employment services, insurance companies, realtors, data processing centers, travel agencies, and testing facilities, as well as consultants and engineering firms for all needs. Additionally, the City has attracted high technology research industries in the computer, engineering, and energy fields, which are expected to aid in the future economic growth of the area.

There are a number of cultural and recreational attractions available to Ann Arbor residents including, the Professional Theater Program at the University of Michigan, Ann Arbor Civic Theater, Ann Arbor Symphony Orchestra, University Musical Society presentations, and a number of museums and galleries. There are several public and private golf courses, and the City park system encompasses 2,089 acres, which includes 157 park sites, 1200 acres of natural areas and 55 miles of pathways. The collegiate sports spectator can see first-class sporting events throughout the year at the University, including football, basketball, baseball, and hockey.

Employment

Residents of the City are well educated. According to the 2010 U.S. Census, 71% of its residents over 25 years of age had completed a bachelor's degree or higher. The University of Michigan shapes Ann Arbor's economy significantly. It employs about 30,000 workers, including about 12,000 in the medical center. Other employers are drawn to the area by the university's research and development, and by its graduates. High tech, health services and biotechnology are other major components of the city's economy; numerous medical offices, laboratories, and associated companies are located in the city.

Housing

A varied housing supply exists in Ann Arbor to meet the wide range of needs of local residents. The housing stock includes single-family homes, duplexes, condominiums, multiple family apartments, and rooms in houses and dormitories. The housing market generally follows the University of Michigan's schedule (more housing is available in the spring and less at the start of each semester). In addition to several newer subdivisions in and around the City, Ann Arbor's older housing is, for the most part, in excellent condition and in considerable demand. The City's west side and downtown have been designated historical districts, where the homes retain the charm, character and unique architecture of days past.

Information Pages: Community Profile

Rental housing, furnished and unfurnished, is available throughout the City in a wide range of styles, sizes, and prices. The following statistics further identify Ann Arbor's housing characteristics:

	1980 <u>U.S.</u> <u>Census</u>	1990 <u>U.S.</u> <u>Census</u>	2000 <u>U.S.</u> <u>Census</u>	2010 <u>U.S.</u> <u>Census</u>
Total year round housing units	40,139	44,010	47,218	49,871
Total occupied housing units	38,945	41,657	45,693	45,166
Median value owner occupied, single-family housing unit	\$69,600	\$116,400	\$181,400	\$240,400

Population Characteristics

The residents of the City have an above average education and enjoy a stable, fairly high income.

	1980 <u>U.S.</u> <u>Census</u>	1990 <u>U.S.</u> <u>Census</u>	2000 <u>U.S.</u> <u>Census</u>	2010 <u>U.S.</u> <u>Census</u>
Age Distribution				
Percent of persons 17 years & under	19.1%	17.3%	25.2%*	27.4%*
Percent of persons 18-64 years old	75.0	75.5	67.0**	64.2**
Percent of persons 65 years and over	5.9	7.2	7.9	8.6

* Persons 19 years and under

** Persons 20-64 years old

Education Levels

Percent of persons who completed four years of high school or more	90.6%	93.9%	95.7%	96.9%
Percent of persons who completed four years of college or more	56.2%	64.2%	69.3%	71.1%
Median Family Income	\$25,202	\$50,192	\$71,293	\$85,110

Higher Education

The University of Michigan has a reputation for academic excellence and is one of Ann Arbor's greatest assets. Rated among the top ten universities by the American Council of Education, the University enrolls over 42,000 students. The school is well equipped to provide instruction and research opportunities in a wide variety of fields.

Other colleges and universities in the area include Washtenaw Community College, Cleary University, Eastern Michigan University, Concordia University and Thomas M. Cooley Law School.

Information Pages: Community Profile

Medical Facilities

Students and residents of Ann Arbor are served by the nationally acclaimed University of Michigan Medical Center. The University of Michigan Health System (UMHS) includes University Hospital, C.S. Mott Children's Hospital and Women's Hospital in its core complex. UMHS also operates out-patient clinics and facilities throughout the city. The area's other major medical centers include a large facility operated by the Department of Veterans Affairs and Saint Joseph Mercy Hospital.

Transportation

A major expressway network surrounds Ann Arbor including Interstate 94, the major east-west artery across Michigan connecting Detroit and Chicago, and U. S. 23, which links Ann Arbor to northern Michigan and Ohio to the south. M-14 is a major eastbound connector to I-275 and I-96, which supplies access to the northern metropolitan areas of Wayne, Oakland and Macomb Counties.

The Ann Arbor Transportation Authority (AATA) operates public bus services throughout Ann Arbor and nearby Ypsilanti. Greyhound Bus Lines, Megabus, and Indian Trails Motor Coach provide bus service to and from Ann Arbor.

Passenger rail service is available to the east through Detroit and to the west through Chicago from the Amtrak Passenger Station in Ann Arbor. Rail freight service is provided by Conrail and Norfolk & Western Rail Road Companies.

Corporate and flight training service is provided by the Ann Arbor Municipal Airport, located on the south side of Ann Arbor. Willow Run Airport, 11 miles from Ann Arbor, is a cargo transportation center and airline service is available on major commercial carriers from Detroit Wayne County Metropolitan Airport, 25 miles east of the City.

Utilities

Water and sewage disposal is provided by the City of Ann Arbor Water Utilities Service Unit. Other utilities are provided by private entities. Electric power and natural gas are supplied by DTE Energy Company. AT&T is the primary wired telephone service provider for the area and cable TV service is primarily provided by Comcast.

Development

During FY12, the following annexations were approved:

- Andres (335 Pinewood St.)
- Ellis (3313 Dexter Road)
- French (3225 Dexter Road)
- Hofmann (1643 S. State St)
- Mill Creek (3050 Birch Hollow)
- Morris (427 Barber Road)

Information Pages: Community Profile

- Skelley (545 Alison Drive)
- Zummer (3249 Dexter Road)

During FY12, the following residential projects were approved:

- 3645 Waldenwood Accessory Apartment (special exception use)
- Ann Arbor City Apartments – 201 S. First St. (amended plan)
- Burton Commons Apartments – 2805 Burton Rd. (amended plan)
- The Varsity Apartments – 425 E. Washington (site plan)
- City Place Apartments – 415 S. Fifth Ave. (amended plan)
- Society of Les Voyageurs - 411 Longshore (planned unit development)

During FY12, the following non-residential projects were approved:

- Center of Light Christian Spiritual School – 200 Huron View (special exception use)
- City Pets Veterinary Clinic – 1723 Plymouth Rd. (special exception use)
- Phantom Fireworks – 1950 South Industrial (special exception use)
- University Bank – 2015 Washtenaw Ave (planned unit development)
- Community Day Care – 1611 Westminster (administrative amendment)
- Gallup One Stop Gas Station – 2955 Packard Rd (administrative amendment)
- Arbor Hills Crossing Retail Center – 3000 Washtenaw Ave. (site plan)
- Pittsfield Retail Center – 3590 Washtenaw Ave (site plan)
- McDonald's Restaurant – 2310 W. Stadium (administrative amendment)
- Verizon Temporary Wireless Facility – 400 E. Stadium (site plan)
- UM Credit Union – 340 E. Huron (administrative amendment)
- Traver Village Retail Center – 2601 Plymouth (site plan)
- Noodles Restaurant – 2161 W. Stadium (site plan)
- Bill's Beer Garden - 326 S. Ashley (administrative amendment)
- DTE Buckler Substation – 984 Broadway (site plan)
- Allen Creek Preschool – 2350 Miller Rd (site plan)
- Wintermeyer Office Parking – 2144 S. State St (site plan)
- Michcon Site Remediation – 841 Broadway (site plan)
- Glacier Hills Enrichment Center – 1200 Earhart (administrative amendment)
- Tim Horton's Restaurant – 3975 S. State St (site plan)

The following site plans were extended for two years:

- The Gallery mixed use
- North Sky residential
- Malletts View office
- Plymouth Road Plaza commercial

Information Pages: Community Profile

The following projects started construction:

- Hilton Garden Inn & Town Place Suites Hotels (1301 & 1401 Briarwood Circle)
- City Place Apartments (415 S. Fifth Ave)
- Lake Trust Credit Union (2180 W. Stadium)
- Zahn Medical Office (W. Huron St)
- Ann Arbor City Apartments (201 S. First)
- Gallup One Stop (2955 Packard)
- The Varsity Apartments (425 E. Washington)
- Sigma Phi Epsilon Fraternity (730 Tappan)
- McDonald's Restaurant (2310 W. Stadium)
- UM Credit Union (340 E. Huron)
- 1500 Pauline Townhomes (1500 Pauline)
- Summers-Knoll (2203 Platt)
- Bill's Beer Garden (326 S. Ashley)
- Traver Village (2601 Plymouth)

Budget Summaries

CITY GUIDING PRINCIPLES, GOALS & OBJECTIVES

The goals and objectives outlined in the City budget are used to track the progress of various programs and services, as well as a basis for future resource allocation. While drafting the FY 2013 Service Area goals and objectives, which are published in the Service Area sections of the budget, the following overall City Guiding Principles and Goals were used as a guide:

City Guiding Principles

- Open and honest communication
- Integrity
- Partnership with community
- Trust
- Community and employee engagement
- Accountability
- Employee growth and enjoyment
- Teamwork
- Employee development opportunity

City Goals

1. Ensure the long-term financial health and stability of the City.
2. Deliver exemplary customer service.
3. Deliver and maintain a safe and reliable City-wide infrastructure.
4. Promote and implement environmentally sustainable practices which demonstrate the City's commitment to preservation and conservation of natural resources.
5. Deliver Organizational development programs to ensure progressive, reliable and high quality services to our community.
6. Work collaboratively to deliver affordable housing opportunities and access to supportive services.

Citywide Budget Communications

During the FY 2013 financial planning process, each area developed a proposal to achieve the objective at the lowest cost. The proposals were presented to Council in February and March, 2012. Feedback was received as the City Administrator developed his final proposal presented to the Council on April 16, 2012.

Budget Summaries

OVERVIEW OF CITY BUDGET

The City offers many services and utilizes separate funds for large areas or specialized purposes. The funds fall into three broad categories: General Fund, Enterprise Funds, and other funds dedicated for various purposes. For fiscal year 2013, the City's total expenditure budget is \$382 million. The following chart illustrates how this budget is divided by fund type. A complete summary of funds is included in the "Revenues" and "Expenditures" tabs of the proposed budget.

FY 2013 BUDGETED EXPENDITURES BY FUND TYPE

Although General Fund money may be used to supplement the needs of other funds, the reverse is usually not true. For example, money collected for park acquisition and green space may not be used for recreation programs or to pave streets. Even when money is available in other funds, it typically cannot be used for General Fund services or programs.

Budget Summaries

GENERAL FUND OVERVIEW

The City has been concentrating their efforts on financial planning to resolve projected revenue shortfalls in the upcoming fiscal years. As the budget is reviewed, it is important to note that the shortfall the City has been addressing is in the City's General Fund.

The City's General Fund is the largest and most visible of the City's 52 budgeted funds established for the financial administration of the City. Monies going into the General Fund come from a variety of sources such as the City's share of the property tax, intergovernmental revenues (primarily revenues from the State of Michigan), charges for services, and various other sources as indicated in the chart below:

FY 2013 GENERAL FUND REVENUES

Budget Summaries

Expenditures from the General Fund go to services such as public safety (police, fire, and emergency management); recreation programs; development and planning; community development services; the City's legal and general government administration; housing and human services programs; Fifteenth District Court; and a variety of other services and programs provided by the four main Service Areas.

FY 2013 GENERAL FUND EXPENDITURES

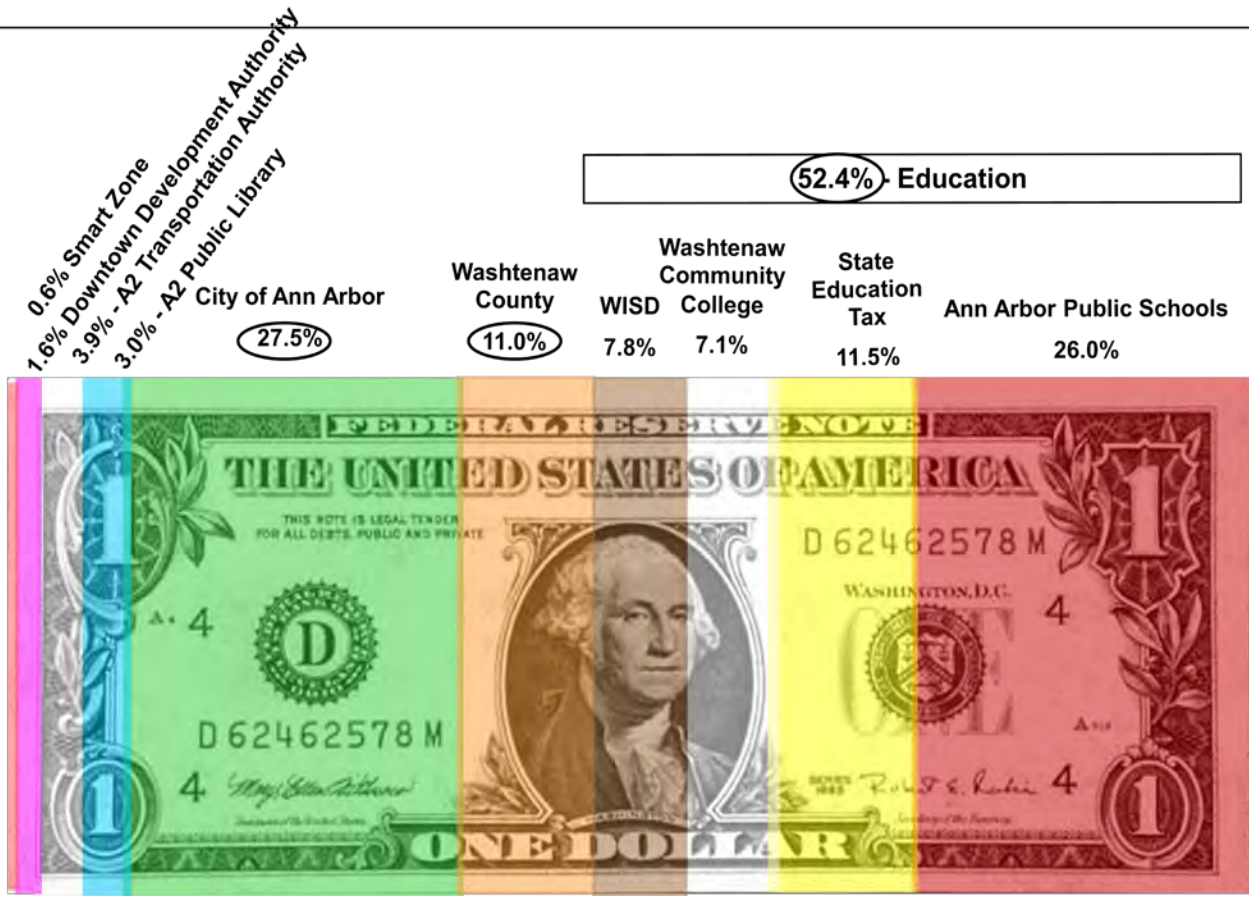

Budget Summaries

PROPERTY TAXES

The largest share of our General Fund revenues comes from the property taxes. Many Ann Arbor taxpayers are surprised to learn that only about \$ 0.28 of every dollar paid in property taxes goes to the City of Ann Arbor to fund vital services such as public safety. Most of the receipts from property taxes are distributed to various education agencies including the Ann Arbor Public Schools, Washtenaw Intermediate Schools, the State of Michigan, and Washtenaw Community College – about \$ 0.52 of every dollar paid. The following chart shows where the City’s property tax dollars go:

WHERE PROPERTY TAX DOLLARS GO

Budget Summaries

TAX REVENUES

Property taxes are a critical source of revenue for the City of Ann Arbor, as well as neighboring communities. Over the last 34 years, there have been two State of Michigan constitutional amendments – the Headlee Amendment of 1978 and Public Act 415 of 1994 (commonly known as Proposal A) – and other related statutory changes that have impacted property tax revenue for local governments. During the fiscal year 2006, the Headlee rollback started reducing the levy. The following charts and tables give a historical view of the General Levy, as well as City millage trends.

CITY MILLAGE HISTORY MAXIMUM MILLAGE ALLOWED - ACTUAL MILLAGE RATE

Budget Summaries

In addition to the General Operating millage, the City's General Fund collects money from the Employee Benefits and Ann Arbor Transportation Authority (AATA) millage. The remaining millages are assessed for dedicated purposes and are used to finance the activities of other funds. The chart below showing declining millages over the past seven years demonstrates the impact of Headlee/Proposal A on the City's property tax millages.

CITY MILLAGE TRENDS

Type	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013	Change from Previous Year

Budget Summaries

STATE SHARED REVENUE

Another major source of revenue for the City's General Fund is State-Shared revenue. This revenue sharing arrangement was created when the aforementioned Headlee Amendment removed the ability of municipalities to institute certain taxes on its residents (i.e. sales tax). To compensate communities for this loss in ability to tax, State-Shared revenue was established, which is generated from a State sales tax and apportioned to communities. The chart shows the City's recent experience with State-Shared revenue.

STATE-SHARED REVENUE HISTORY AND PROJECTIONS

Budget Summaries

EMPLOYEE SUMMARY

Since employees and related expenditures represent the majority of the General Fund's expenditures, the City began taking steps in fiscal year 2001 to reduce its full-time equivalent (FTE) employee staffing. Without significantly impacting the level of service provided, the City has been able to achieve the reductions; through a combination of not filling vacancies, strategically deploying existing personnel, early retirement programs offered in fiscal years 2001, 2002 and 2009, and lay-offs. As the graph below illustrates, the City staffing is down to its lowest level in 25 years.

Description of Revenue Categories

TAXES

Taxes represent Property Taxes that are levied upon real and personal property of the City. Also included in this category are payments in lieu of taxes and penalties and interest on delinquent taxes. Property taxes represent 20% of the City's revenues. Taxes are based on the taxable value of all taxable property as of January 1 of the calendar year times the applicable millage rate. Other amounts are forecasted on the basis of projected values of the underlying property and past history for penalties using trend analysis. In Michigan, property tax revenue growth is restricted by Proposal A and the Headlee Amendment.

LICENSES, PERMITS & REGISTRATIONS

The major sources of revenue in this category are derived from various permit fees issued for building and trades and represent 1% of the City's revenues. Also included are the various permits and licenses issued through the Clerk's office and fees associated with the services of the Planning and Development Unit. These revenues are projected for the Clerk's office on the basis of the history and any adjustments to fees. The planning fees take into account economic projections and interest expressed in future developments. Building permits are forecasted using information from Planning and Development on planned developments and economic forecasts on new construction.

INTERGOVERNMENTAL REVENUES

STATE-SHARED REVENUE

This category accounts for revenues received from other units of government. The major portion of this source is State-Shared sales and income taxes. Intergovernmental revenues contribute 5% of the City's revenue, of which approximately one-half represents State-Shared revenue. These revenues are forecasted on the basis of data supplied from the State of Michigan for State-Shared sales and income tax and historical trends for other revenues. Due to increasing budget pressures at the State level, local units of government are experiencing a decreasing revenue trend.

GRANTS

Most federal or state grants are accounted for in separate funds; however, occasionally it is appropriate to reflect grant revenues which are received as reimbursement for expenditures incurred by General Fund service units. Grants represent less than 1% of City revenues. These are based on grants that have been awarded or are expected to be awarded in the coming fiscal year.

Description of Revenue Categories

CHARGES FOR SERVICES

The major sources of revenue in this category represent 32% of City revenues and are described in more detail below.

POLICE & FIRE

These accounts include revenues for services performed by the City. The principal sources of revenues are for providing police services to the University of Michigan, or security services to local high schools. Another major revenue source in this category is payment from the State of Michigan for fire protection services. The police services are forecasted using the upcoming years football schedule and changes to the general level of service that the University and public schools have requested. The fire protection services are forecasted based on the current year's fire services expenditures and expected change in state owned property in the City, which are used in calculating the level of funding.

MUNICIPAL SERVICES

Enterprise funds and other agencies receive a variety of services from the General Fund. The services provided include revenue collection, accounting, payroll, purchasing and general supervision. These indirect costs are allocated to the user service areas through the municipal service charge. This number is set by an outside consultant engaged to perform a cost allocation study.

WORK PERFORMED

This category includes various municipal services provided to residents for such services as special inspecting and weed cutting.

RECREATION CHARGES

This category includes the accounts which record the various user fees associated with recreational facilities such as swimming pools, canoe liveries and ice-skating rinks. These fees are based on projected attendance for the period during which the facility is open times the user fees adjusted for any rate increases and closing of facilities for rehabilitation.

CEMETERY

This category includes revenue from the sale of lots and burial permits. These numbers have remained stable and are only adjusted for changes in rates.

Description of Revenue Categories

LANDFILL

This category includes special services provided for disposal of materials at the City landfill. These revenues are forecasted on the basis of expected levels of service adjusting for changes in fees and new services.

ENTERPRISE SALES

This category includes the sale and/or rental income associated with the various enterprise funds. The major source of income is the sale of water and sewer services. The revenues for the Water and Wastewater systems are based on expected water sales as adjusted for new customers being added through construction or annexations, significant changes in weather patterns and changes in rates. The Stormwater system rates are based on the existing land uses adjusted for expected changes, new annexations and changes in rates. The Recreation Facilities' revenues are forecasted in the same manner as the Recreation Charges. The Airport and Market revenues are only impacted when there is a change in rates or level of service to be provided.

SPECIAL ASSESSMENTS

Special Assessments are assessed against the property owner for public improvements made that benefits the property owner. These numbers are based on the actual assessments to be levied in the next fiscal year.

FINES & FORFEITS

Fines associated with the enforcement of parking regulations constitute nearly half of this revenue source. The rest of this revenue category is collected through various fines assessed by the Fifteenth District Court. Much of this revenue comes from moving traffic violations, delinquent parking tickets and other City ordinance violations. This represents about 1% of the City's revenues. The expected revenues are forecasted based on changes in fines and the volume of tickets anticipated.

INVESTMENT INCOME

Investment earnings are derived by the placing of excess funds in approved investments until needed and represents about 9% of the City's revenues. The investment earnings are forecasted on the basis of expected investable funds times an average of expected investment rates based on the economic outlook.

MISCELLANEOUS

This category accounts for revenues, which do not fit into other categories and includes rentals, sale of property and equipment and other miscellaneous revenues. These

Description of Revenue Categories

revenues are generally stable from year to year with adjustments being made in special circumstances. This category represents less than 1% of the City's revenues.

PRIOR YEAR SURPLUS

Prior Year Surplus represents the use of surplus funds from previous years' budgets and represents 3% of the City's revenues. This is used only during times in which revenue growth temporarily increases at a rate less than expenditures to avoid a reduction in services. At other times, fund balances are increased so that specific projects can be paid for in the future without having to borrow the funds.

OPERATING TRANSFERS

The majority of the transfers in this revenue category are reimbursements for fringe benefit costs. The exceptions to this are project and utility credits, which are reimbursements for engineering costs on construction projects. The project credit is based on expected construction activity on City projects. Operating transfers represent 4% of the City's revenues.

CONTRIBUTIONS

This represents donations that the City receives from the public for various purposes. The level of contributions remains constant from year to year with occasional windfalls that are hard to forecast. This category represents less than 1% of the City's revenues.

SALE OF BONDS

This represents revenues received from bond proceeds for capital projects and represents 21% of the City's revenues. Revenues are determined based on approved projects from the City's Capital Improvement Plan.

INTRA-GOVERNMENTAL SALES

Services provided to other funds, which are directly billed are recorded as revenues. These services include equipment maintenance, central duplicating and office supplies. These numbers are based on the level of service being rendered and the expected cost to provide the service, which determines the expected revenues for the year. This category represents 3% of City revenues.

* Totals include all fund activity with no inter-fund eliminations. The City uses several Internal Service Funds to account for expenditures such as Fleet, Information Technology and Insurance. Transactions involving Internal Service Funds would need to be eliminated to obtain consolidated totals.

Definition of Expenditure Categories

PERSONNEL SERVICES

These expenditures represent all budgeted salary costs for permanent and temporary staff.

PAYROLL FRINGES

This category represents all personnel-related insurances, such as unemployment and health care. It also includes pension and social security costs.

OTHER SERVICES

These expenditures represent a wide array of charges and contracts with outside agencies. Examples of this type of expenditure include fees incurred for consultation with bond counsel, payments for audit services, and travel.

MATERIALS AND SUPPLIES

This category includes consumable items costing less than \$5,000 with an estimated life of less than two years. Items include office supplies, chemicals, parts, sign materials, road salt, etc.

OTHER CHARGES

This category contains expenditures for miscellaneous items such as payments for utility bills, dues, licenses, etc.

PASS-THROUGHS

This category includes transfers to other funds and transfers to other agencies for taxes.

CAPITAL OUTLAY

This category includes all purchases in excess of \$5,000 of a capital nature. Vehicles and heavy equipment are excellent examples of normal expenditures in this category.

VEHICLE OPERATING COSTS

This category includes costs to maintain fleet vehicles such as gas, oil, and repairs.

COMMUNITY DEVELOPMENT RECIPIENTS

This category is for grants from the U.S. Department of Housing and Urban Development for Community Development Block Grants and HOME grants, as well as allocated General Fund monies.

	Total*	<u>\$ 252,530,764</u>	<u>\$ 263,972,638</u>	<u>\$ 402,184,379</u>	<u>\$ 319,022,506</u>	<u>\$ 382,172,603</u>	<u>\$ 382,373,695</u>

* Totals include all fund activity with no inter-fund eliminations. The City uses several Internal Service Funds to account for expenditures such as Fleet, Information Technology and Insurance. Transactions involving Internal Service Funds would need to be eliminated to obtain consolidated totals. In addition, retiree payments from the Pension Trust Fund are included in the Payroll Fringes total.

MAYOR AND CITY COUNCIL

EXPENSES

Personnel Services – The employee share of Social Security and Medicare for temporary employees, including City Council members, is now included in the Personnel Services classification, rather than Payroll Fringes.

Payroll Fringes - The employee share of Social Security and Medicare for temporary employees, including City Council members, is now included in the Personnel Services classification, rather than Payroll Fringes.

Other Services – This is an increase in Conferences, Training and Travel.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Mayor and City Council would be charged \$275,195 in FY 2013.

CITY ATTORNEY

EXPENSES

Payroll Fringes – The increase in costs is associated with an increase in pension funding and medical insurance.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the City Attorney would be charged \$142,157 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	City Attorney	Area Administrator:	Stephen Postema
Service Unit:	City Attorney	Manager:	Sara Higgins

Service Unit Goals	City Goals:
A. Complete trial run of new contract management software, OnBase, and help implement system City-wide if proven effective.	2
B. Continue to protect City from liability and risk through proactive attorney services, legal advice, and defense of lawsuits.	3
C. Continue efforts to electronically store documents and other information in CityLaw and to use CityLaw as a tool for recording assignment status.	5
D. Continue to work to reimburse legal and other costs incurred by the City in connection with new developments.	1
E. Assist in revisions of areas of the City Ordinance, specifically the zoning and pension ordinances.	2
F. Continue to cross-train in relevant areas to anticipate succession planning.	2

Service Unit Measures	Status
A - Has been set up but continuing to tweak before roll-out.	
B - Has been fully met—eliminated millions of dollars of alleged legal exposure. Significant victories in very high profile cases. Recognition by third party administrator of the high level of success in litigation by the office and the important role of the office in managing risk issues.	
C – Fully met.	
D – Successful recovery of attorney fees on 1 st and Washington a significant development that is being built.	
E – Continued efforts for cross-training in this area are ongoing. Transferred responsibilities in connection with staff turnover.	
F -

CITY ADMINISTRATOR

EXPENSES

Payroll Fringes – The decrease is a reduction in pension funding, due to the City Administrator not participating in the City's retirement system.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the City Administrator would be charged \$54,308 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	City Administrator	Area Administrator:	Steven D. Powers
Service Unit:	Admin. Office	Manager:	

Service Unit Goals	City Goals:
A. Successful implementation of high impact budget	1

**CITY ADMINISTRATOR SERVICES AREA
HUMAN RESOURCES SERVICES UNIT**

EXPENSES

Personnel Services- The increase is because the planned reduction of .5 FTE in FY 2012 did not occur.

Payroll Fringes - The increase in costs is associated with an increase in pension funding, VEBA and medical insurance, and the increase in FTE's.

Other Charges & Pass Throughs – The increase is due to increased insurance costs for both employee and retiree health care.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Human Resources Services Unit would be charged \$272,341 in FY 2013.

REVENUES

Intergovernmental Revenues – The increase reflects additional liquor license renewal fees passed through from the State of Michigan.

EXPENSES

Personnel Services- The increase in FY 2013 is due to the additional election expenses for the Presidential election.

Payroll Fringes - The increase in costs is associated with an increase in pension funding, VEBA and medical insurance.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, City Clerk Services Unit would be charged \$171,568 in FY 2013.

REVENUE

Licenses, permits & registrations - Reflects an increase of franchise fees and PEG revenue based on analysis of previous years' actual revenue received.

EXPENSES

Payroll Fringes - The increase in costs is associated with an increase in pension funding, VEBA and medical insurance.

Capital Outlay – The decrease is due to additional costs in FY 2012 to convert equipment to digital format.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Administration	Area Administrator:	Steve Powers
Service Unit:	Communication Office	Manager:	Lisa Wondrash

Service Unit Goals	City Goals:
A. Increase by 15 percent information distributed to internal and external audiences about Ann Arbor municipal news, innovative programs, awards and services from July 1, 2011 to June 30, 2012.	2
B. Develop and assist in the implementation of new technology resources to improve communications to citizens and employees and enhance understanding of city services and initiatives from July 1, 2011 to June 30, 2012.	2

Service Unit Measures	Status
A - Track the number of information pieces distributed monthly and highlight up to three hot topics via the Communication Office Matrix (information pieces include print/online newsletter, news releases, events, public information meetings, Gov Delivery notifications, CTN programs, social media tools, website page updates/development) by June 30, 2012.	Achieved
B - Track status of technology resource project implementations each month. New resources include A2 Central improvements, City website navigation enhancements, MOSS 2010 upgrade and enhancement of new media (such as Twitter feeds, scrolling pictures, monthly Podcasts), to promote City information and CTN services, also monitoring of applications to evaluate communication effectiveness (Google Analytics, GovDelivery subscribers and click throughs, A2C report, Survey Monkey, VOD views) by June 30, 2012.	Achieved
C - Increase the number of CTN training participants and clients with second trainer position, as well as increase acquired PEG programs and develop a baseline for future growth and outreach opportunities by June 30, 2012.	Achieved

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Administration	Area Administrator:	Steve Powers
Service Unit:	Communication Office	Manager:	Lisa Wondrash

Service Unit Goals	City Goals:
A. Increase by 15 percent information distributed to internal and external audiences about Ann Arbor municipal news, innovative programs, awards and services from July 1, 2012 to June 30, 2013.	2
B. Develop and assist in the implementation of new technology resources, such as social media usage, to improve communications to citizens and employees and enhance understanding of city services and initiatives from July 1, 2012 to June 30, 2013.	2

Service Unit Measures	Status
A - Track the number of information pieces distributed monthly as well as social media followers via the Communication Office Matrix (information pieces include print/online newsletter, news releases, events, public information meetings, Gov Delivery notifications, CTN programs, social media tools, website page updates/development) by June 30, 2013.	
B - Track status of technology resource project implementations each month. These new resources include A2 Central focus group improvements, integration of new media to promote City information and CTN services, applications to monitor effectiveness of communication messages/vehicles (Google Analytics, GovDelivery subscribers and click throughs, Survey Monkey, VOD views) by June 30, 2013.	
C - Track the number of training participants, clients, and PEG programs (detailed information to include specific training classes, participants, clients using media services in-house as well as checking out equipment, specific government clients served and topics covered in programs each month) via the CTN monthly report and develop a baseline for future growth and development analysis by June 30, 2013.

PLANNING AND DEVELOPMENT SERVICES**

EXPENSES

Payroll Fringes - The increases are from higher pension, VEBA and medical insurance costs.

Other Services – The FY 2013 increase is attributable to a planned expenditure for software in the Construction Code Fund.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Employee Allowances – This is the employee cell phone stipend, which was previously included as part of other services.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Planning and Development Services Unit would be charged \$878,876 in FY 2013.

COMMUNITY SERVICES AREA PLANNING SERVICES

REVENUES

Licenses, Permits, & Registration - This reflects an increase in development activities that require planning services.

EXPENSES

Payroll Fringes - The increases are from higher pension, VEBA and medical insurance costs.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Employee Allowances - This is the employee cell phone stipend, which was previously included as part of other services.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Community Services Area	Area Administrator:	Sumedh Bahl
Service Unit:	Planning	Manager:	Wendy Rampson

Service Unit Goals	City Goals:
A. Amend the master plan to incorporate land use, transportation, and design recommendations for the Washtenaw Avenue corridor.	1,2,4,6
B. Update the LandTrak database in TRAKiT to ensure CSA provided data – Zoning, Flood, Historic District, is up-to-date and that all multi-address sites have been linked, the 900 parcels, to their correct GIS Parcel in LandTrak.	1, 2

Service Unit Measures	Status
A1 - Complete study of existing conditions within the Washtenaw corridor.	100%
A2 - Engage citizens in visioning process for Washtenaw corridor.	25%
A3 - Create consistent land use and zoning approaches for the Washtenaw corridor with adjoining jurisdictions.	25%
A4 - Amend the Master Plan to incorporate Washtenaw corridor recommendations.	Not started.
B1 - Complete export of all Land Trak database listing into Excel.	100%
B2 - Complete linkage of Excel list to the TRAKiT database, to confirm linkages have been made.	100%
B3 - Complete update of the LandTrak records with the needed information - Zoning, Flood, and Historic District.	100%
B4 - Complete linkage of unlinked LandTrak records to parcel records.	100%

COMMUNITY DEVELOPMENT

The Office of Community Development is one of four service units in the Community Services Area. The office has been merged with its Washtenaw County counterpart, to provide streamlined service delivery within the City of Ann Arbor/Washtenaw County region. It provides housing and human services support for low-income residents. This unit also provides housing rehabilitation for low-income residents and serves as support for the Housing and Human Services Advisory Board.

REVENUES

Intergovernmental Revenues – This decrease is due to the Community Development Block Grant and HOME Program Funds flowing directly through Washtenaw County.

EXPENSES

Other Services – This decrease is a result of the Community Development Block Grant and HOME Program Funds flowing directly through Washtenaw County.

Other Charges – This decrease is a result of the Community Development Block Grant and HOME Program Funds flowing directly through Washtenaw County.

Community Development Recipients – This decrease is a result of the Community Development Block Grant and HOME Program Funds flowing directly through Washtenaw County.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Community Development Services Unit would be charged \$657,580 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Community Services	Area Administrator:	Sumedh Bahl
Service Unit:	Community Development	Manager:	Mary Jo Callan

Service Unit Goals	City Goals:
<p>A. Improve housing safety, energy efficiency, and overall affordability for low-income homeowners by consolidating the Single Family Rehabilitation Program and the Weatherization Program.</p> <p>Single Family Rehab and Weatherization both focus on providing area homeowners with funding and project management to make improvements to their homes. These improvements range from addressing serious health and safety concerns, code violations, and various energy improvements to increase the local stock of decent, affordable housing. Currently, Single Family Rehab and Weatherization are two separate programs, delivered by two separate departments within the City and Washtenaw County, resulting in a fragmented and less effective service to the community.</p>	2,4,6
<p>B. Implement a common set of outcomes for measuring the impact of basic needs human services in our community.</p> <p>In an effort to improve our understanding of the community impacts that result from City investments in human services, Community Development partnered with local nonprofit group to create shared service outcomes for: Housing/homelessness; Aging; School-aged Youth; Pre-school Children; and Safety Net Health. These outcomes will be incorporated into the human service funding process, and required for nonprofits receiving Coordinated Funding.</p>	2,6

Service Unit Measures	Status
A1 - Convene Single Family Rehab & Weatherization program staff in service consolidation process beginning July 1, 2011.	Complete
A2 - Examine regulatory requirements for use of funds associated with each program by August 1, 2011, to ensure appropriate utilization and accounting for these federal funds.	Complete
A3 - Create centralized intake portal and process, so that residents in need experience improved ease and access to services by August 1, 2011.	Complete
A4 - Build on centralized intake process, including adoption of shared management information system for Single Family and Weatherization projects by November 1, 2011.	In Process
A5 - Create and execute marketing plan for centralized intake and	In

consolidated service by December 1, 2011.	Process
A6 - Ensure that Single Family Rehab and Weatherization staff receives necessary cross-training and applicable certification by December 1, 2011.	Delayed
A7 - Eligible low-income homeowners begin to receive streamlined access by January 1, 2012 to the full range of improvements needed to make their homes safe, energy efficient, and affordable.	Complete
B1 - Incorporate shared outcomes into contract agreements with nonprofits funded through the Coordinated Funding process beginning July 1, 2011	Complete
B2 - Collect information on outcomes achieved from funded nonprofits at six and twelve months after funding commences – January 1, 2012 and June 1, 2012.	Complete
B3 - Analyze information on outcomes to measure community impact in five priority areas and prepare a report for City Council and other local policy-makers by June 30, 2012.	In Process

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Community Services	Area Administrator:	Sumedh Bahl
Service Unit:	Community Development	Manager:	Mary Jo Callan

Service Unit Goals	City Goals:
<p>A. Improve housing safety, energy efficiency, and overall affordability for low-income homeowners by consolidating the Single Family Rehabilitation Program and the Weatherization Program.</p> <p>This is a continuation goal from FY2012. Single Family Rehab and Weatherization both focus on providing area homeowners with funding and project management to make improvements to their homes. These improvements range from addressing serious health and safety concerns, code violations, and various energy improvements to increase the local stock of decent, affordable housing. Historically, Single Family Rehab and Weatherization were two separate programs, delivered by two separate departments within the City and Washtenaw County, resulting in a fragmented and less effective service to the community. Beginning in July 2011, staff commenced work to consolidate these programs to make access easier for residents in need. Regulatory barriers have made the full consolidation of these programs very difficult, and staff continues to work to overcome or eliminate these barriers, where possible.</p>	2,4,6

<p>B. Use outcomes data to measuring the impact of Coordinated Funding on basic human services needs in our community.</p> <p>In order to continue to improve our understanding of the community impacts that result from City investments in human services (specifically through the Public-Private <i>Coordinated Funding</i> process), analyze outcome data to measure impact from baseline in the following priority areas: Housing/homelessness; Aging; School-aged Youth; Pre-school Children; and Safety Net Health.</p>	<p>2,6</p>
---	-------------------

Service Unit Measures	Status
<p>A1 - Beginning July 1, 2012, based on examination of regulatory requirements for use of funds associated with each program, gain approval from State and Federal regulators to braid funding and/or advocate with policy-makers to allow full consolidation of these programs.</p>	
<p>A2 - Adopt shared management information system for Single Family and Weatherization projects by November 1, 2012.</p>	
<p>A3 - Ensure that Single Family Rehab and Weatherization staff receives necessary cross-training and applicable certification by December 1, 2012.</p>	
<p>A4 - Eligible low-income homeowners begin to receive streamlined access by January 1, 2013 to the full range of improvements needed to make their homes safe, energy efficient, and affordable.</p>	
<p>B1 - Prepare a baseline data report for City Council and other local policy-makers at the beginning of FY13.</p>	
<p>B2 - Continue to collect reporting data on outcomes from funded nonprofits at six and twelve months after 2nd year of funding commences – January 2013 & June 2013.</p>	
<p>B3 - Report out to City Council and other local policy-makers with an analysis of impact in six human service needs priority areas. This report will compare 2nd year of shared outcome data to baseline data established in FY12.</p>

PARKS & RECREATION

Parks and Recreation Services is one of four service units in the Community Services Area. It handles the functions of the parks administration and recreation facilities. Parks and Recreation administration is responsible for the policy development, park planning and improvements, parks and park shelter reservations and the Parks and Recreation Boards and Commissions. Recreation facilities include two golf courses, four pools, two ice rinks, two community centers, two canoe liveries, a senior center, a customer service office and rental facility, a public market, a science and nature education center and a historic farm site. The Leslie Science & Nature Center is operated by a 501(c)(3) organization.

COMMUNITY SERVICES AREA PARKS AND RECREATION SERVICES

REVENUES

Charges for Services – The increase is due to a combination of higher participation, new programs, and increases in revenue resulting from fee increases adopted in FY 2011. Increased revenue is projected for FY 2013 because of the Argo Millrace Reconstruction which will allow for new programs and greater accessibility, resulting in higher participation. Daily fees at the swimming pools are also proposed for an increase in FY 2013, resulting in increased revenue.

Contributions – The FY 2013 decrease is due to a lower forecast for developer contributions.

Intergovernmental Revenues – In FY 2011 Federal Farm and Ranch Land Protection funding was appropriated by City Council upon receipt of grant funds for specific properties in the Open Space and Parkland Preservation Program.

Operating Transfer In - In FY 2010 & 2011, transfers were made from the Open Space and Parkland Acquisition Bond fund to the Millage fund. The Bond has now been spent down so transfers are complete. Remaining transfers are primarily for the Golf Fund.

Prior Year Surplus – The amount is the use of the Parks Maintenance and Capital Improvements Millage fund balance for Capital Projects.

EXPENSES

Payroll Fringes - The increase is a result of higher expenses for medical insurance, pension and VEBA funding.

Other Services – The decrease is due to a reduction in contracted services related to capital projects.

Other Charges – The decrease is due to expenses for capital projects being budgeted here in FY 2012, rather than Capital Outlay as in FY 2013.

Capital Outlay – The decrease is attributable to a policy change whereas monies appropriated for land acquisitions are appropriated at the time of Council approval. As purchases of property and development rights are approved by Council funding will be appropriated as necessary. Also, there is a decrease in use of the Park Maintenance & Capital Improvement Millage Fund monies for capital projects.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to

more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Parks and Recreation Services Unit would be charged \$1,514,295 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Community Services	Area Administrator:	Sumedh Bahl
Service Unit:	Parks & Recreation	Manager:	Colin Smith

Service Unit Goals	City Goals:
A. Develop GIVE 365 Volunteer Program with the goal of 2,080 volunteer hours for FY12.	1, 2, 3
B. Evaluate all recreation facilities through surveys and utilize feedback to enhance programs and services.	1, 2, 3
C. Manage facility budgets so that the budgeted net effect to the General Fund is achieved or improved upon.	1, 2, 3
D. Increase online information by leveraging social media sites such as Facebook, Twitter, and FourSquare to promote our services at no cost.	1, 2
E. Develop a mobile phone application for Parks & Recreation Services together with IT to improve communication for increased participation. (Application may be Web based site initially)	1, 2

Service Unit Measures	Status
A - Track total volunteer hours donated on a monthly basis.	Completed. We have a total of 3,392 volunteer hours donated for FY12.
B - Track as a three step process: develop and perform survey, analyze data, implement enhancements based on data.	Not completed. Some facilities have conducted surveys but not all facilities have completed this goal.
C - Monthly tracking of net cost of each recreation facility.	Completed. Monthly tracking has been done and budget is currently on track to meet budgeted net.
D - Track friends/fans/followers using HootSuite and push messages that are only on social media sites to gauge responses from users.	Completed. Increased Twitter followers by 577 (35%), increased Facebook friends by 1,347 (34%) and increased Foursquare fans by 3,287 (990%)
E - Use Google analytics to track and measure usage.	Not completed. We were approached by the state's Department of Natural Resources to partner with them on creating a mobile phone application. We have provided the state with all of the requested information but are still waiting on the state to complete the project.

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Community Services	Area Administrator:	Sumedh Bahl
Service Unit:	Parks & Recreation	Manager:	Colin Smith

Service Unit Goals	City Goals:
A. Expand GIVE365 Volunteer Program with the goal of 3,120 volunteer hours for FY2013.	1, 2, 3
B. Manage recreation facility budgets so that the budgeted net effect to the General Fund is achieved.	1, 2, 3
C. Continue to leverage social media sites such as Facebook, Twitter, and FourSquare to promote our services at minimal cost.	1, 2
D. Manage and coordinate Parks Millage renewal process.	1, 2, 3, 4
E. Program new Argo Cascades to maximize community benefit.	1, 2, 3
F. Implement Capital Projects scheduled for FY13.	3

Service Unit Measures	Status
A. Track total volunteer hours donated on a monthly basis.	
B. Monthly tracking of net cost of each recreation facility and explanations for variances.	
C. Track friends/fans/followers using HootSuite.	
D. Monthly progress updates delivered to CSA Administrator and November ballot result.	
E. Produce monthly activity reports for different programs..	
F. Meet the established schedule of individual projects.

ACCOUNTING SERVICES

The Accounting Service Unit is responsible for maintaining the accounting ledgers of all financial transactions for the City. This function includes disbursing accounts payable, billing accounts receivable, and preparing financial reporting for management and the public. Another important function is the preparation of payroll disbursements for all City employees.

**FINANCIAL & ADMINISTRATIVE SERVICES
ACCOUNTING SERVICES UNIT**

EXPENSES

Personnel Costs – The decrease represents a reduction in Accounting staff FTE's.

Payroll Fringes - The increase is from higher pension, VEBA and medical insurance costs.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Accounting Unit would be charged \$297,746 in FY 2013.

**FY 2012
GOALS AND PERFORMANCE MEASURES**

Service Area:	Financial and Administrative Services	Area Administrator:	Tom Crawford
Service Unit:	Accounting & Payroll Service Unit	Manager:	Karen Lancaster

Service Unit Goals	City Goals:
A. Implement a new citizen portal where citizens can view the City's financial records via the web and the City can improve transparency and communication.	1, 2, 3
B. Complete the annual audit by November 1, 2010.	1
C. Prepare for upgrade to payroll system to .NET.	1, 2, 3
D. Prepare Request for Proposal for the City's audit.	1, 2, 3
E. Facilitate budget training for staff.	1, 2, 3
F. Continue implementing additional features and integration with the City's financial system.	1, 2, 3
G. Explore changing the current project accounting methodology.	1, 2, 3

Service Unit Measures	Status
A1 – Design Phase Completed by 7/1/2011	Completed
A2 - Final testing and communication completed by 07/31/2011	Completed in August of 2011
A3 - Go-live by 08/01/2011	Completed in September of 2011

**FINANCIAL & ADMINISTRATIVE SERVICES
FINANCIAL & BUDGET PLANNING SERVICES UNIT**

REVENUES

Charges for Services – A reduction in bonds issued causes a reduction in bond user fees.

Intergovernmental Revenues – The increase is attributable to projected increases in the Constitutional portion of State Shared Revenue.

EXPENSES

Payroll Fringes - The increases are from higher pension, VEBA and medical insurance costs.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Financial and Budget Planning Services Unit would be charged \$308,712 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Financial & Admin. Services	Area Administrator:	Tom Crawford
Service Unit:	Finance & Budget	Manager:	Tom Crawford

Service Unit Goals	City Goals:
A. Perform five internal control reviews by June 2012.	1
B. Forecast fiscal year results within 1% of year-end actuals for the General Fund based on April's monthly close.	1
C. Revise the 2 year (FY 2012 & 2013) fiscal plan for FY 2013 budget, which meets the GFOA standards of excellence by June 30, 2012.	1
D. Champion cross-organizational effort to update VEBA ordinance	1,3,4
E. Champion the redevelopment of the First & Washington site on behalf of City, with the objective to close on the sale of the property by fall 2011.	1
F. Collaborate with county to centralize public towing responsibility by June 2012.	1

Service Unit Measures	Status
A - Number of internal control reviews completed.	2
B - Variance of forecast versus actual result at year-end	tbd
C1 - 80% of timelines completed within 1 week of due date.	88%
C2 - Receive the GFOA award.	On track
D - Have adopted ordinance by Council by June 2012.	Delayed
E - Close on sale of property by October 2012.	Closed March 2012
F - Have Council approved collaboration agreement with county in place by June 2012.	In process but delayed to Dec. 2012

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Financial & Admin. Services	Area Administrator:	Tom Crawford
Service Unit:	Finance & Budget	Manager:	Tom Crawford

Service Unit Goals	City Goals:
A. Perform five internal control reviews by June 2013.	1
B. Forecast fiscal year results within 1% of year-end actuals for the General Fund based on April's monthly close.	1
C. Prepare new two-year budget (FY2014 & FY2015) which meets the GFOA standards of excellence by June 30, 2013.	1
D. Champion cross-organizational effort to update VEBA ordinance	1,3,4
E. Collaborate with county to centralize public towing administration responsibility by January 2013.	1

Service Unit Measures	Status
A - Number of internal control reviews completed.	
B - 80% of managers report full year forecasted variances at monthly meetings.	
C1 - 80% of timelines completed within 1 week of due date.	
C2 - Receive the GFOA award.	
D - Have adopted ordinance by Council by July 2012.	
E - Have Council approved collaboration agreement with county in place by January 2013.

EXPENSES

Personnel Services - The increase in costs is associated with replacing contracted workers with employees.

Payroll Fringes - The increase in costs is associated with an increase in pension funding, VEBA and medical insurance and an increase in FTE's.

Other Services – Contracted Services decreased due to replacing contracted workers with employees.

Materials & Supplies – Decreased budget for equipment purchases.

Other Charges – Decreased budget for system implementation projects.

Capital Outlay – Less money is included in the current budget request for capital replacements.

**FY 2012
GOALS AND PERFORMANCE MEASURES**

Service Area:	Financial & Administrative	Area Administrator:	Tom Crawford
Service Unit:	Information Technology	Manager:	Dan Rainey

Service Unit Goals	City Goals:
<p><u>Enterprise Storage Improvements</u> Complete the consolidation of the City's disparate storage platforms and implement the initial phase of the City/County Enterprise Disaster Recovery program.</p>	2,3
<p><u>Network Enhancements</u> Expand network connectivity to include wireless local area access for both the public and employees at the Municipal Center, Justice Center and Wheeler Service Center and provide public access at high use parks facilities.</p>	2,3
<p><u>Desktop Improvements</u> Replace the current service desk software suite and identify and implement best practices around service desk management and delivery in order to improve customer experience and overall management of the City's personal computer fleet.</p>	2,3
<p><u>Enterprise Content Management</u> Continue to expand the City's Enterprise Content Management platform by implementing one ECM integration project, five "backfile" scan and index projects and an upgrade to the City Intranet platform.</p>	2,3,4
<p><u>Enterprise GIS</u> Progress toward a common City-County GIS infrastructure by migrating the City and County to ESRI Version 10.</p>	2,3
<p><u>Enterprise Asset Management</u> Expand the use of the City's Enterprise Asset Platform by implementing 3 additional subject areas.</p>	2,3
<p><u>Think Green</u> Implement actions to promote energy conservation and minimize environmental impacts including attending the Mayor's Annual Green Fair.</p>	4

Service Unit Measures	Status
A1 – Enter into a Enterprise Storage Agreement with Washtenaw County for the City’s centralized data storage and migrate the City’s current Storage Area Network data to the new environment by September 30, 2011.	Complete
A2 – Enter into a Enterprise Data Backup Agreement with Washtenaw County for the backup of the City’s centralized data storage and migrate the City’s servers to the new environment by December 30, 2011.	Complete
A3 - Upgrade and reinstall the 80KVA Liebert UPS located at the Wheeler Service Center by October 31, 2011.	Complete
B1 – Install managed wireless LAN access in the JC by July 30, 2011, in the MC floors 1 and 6 by August 30, 2011 and in floors 2,3,4 and 5 by September 30, 2011.	Complete
B2 – Install managed public wireless LAN access in two City park locations by July 1, 2011.	Complete
C1 – Implement new service desk, software distribution and asset management solution by May 30, 2012.	On Going
C2 – Design and initiate service desk best practice processes by August 30, 2011.	Complete
D1 – Implement Legistar/OnBase integration by December 30, 2011.	On Going
D2 – Implement five OnBase “backfile” projects by June 30, 2012.	Complete
D3 – Upgrade SharePoint from 2007 to 2010 by November 30, 2011.	Not Started
E1 – Upgrade ESRI to version 10 by April 30, 2012.	Not Started
F1 - Implementation 3 additional subject areas within CityWorks by June 30, 2012.	On Going
G1 – Attend the 2011 Mayor’s Annual Green Fair and develop promotional materials describing what the City and County IT departments are doing to promote technology “greening”.	Complete

See Budget Summaries Section, Page 71, for list of City Goals

**FY 2013
GOALS AND PERFORMANCE MEASURES**

Service Area:	Financial & Administrative	Area Administrator:	Tom Crawford
Service Unit:	Information Technology	Manager:	Dan Rainey

Service Unit Goals	City Goals:
C. <u>Enterprise Storage Improvements</u> Implement the initial phase of the City/County Enterprise Disaster Recovery program.	2,3
D. <u>Enterprise Network Enhancements</u> Expand network connectivity to include new sites required by Water System Critical Infrastructure Upgrade and US DOT/UMTRI Pilot Safety Project.	2,3
E. <u>Enterprise Desktop Improvements</u> Implement Windows 7 desktop, Office 365, including hosted Exchange, and some form of virtual desktop technology.	2,3
F. <u>Enterprise Web and Enterprise Content Management</u> Continue to expand the City's Enterprise Content Management platform by implementing one ECM integration project, five "backfile" scan and index projects, an uplift to the City's website information architecture and look-and-feel, and an upgrade to SharePoint 2010.	2,3,4
G. <u>Enterprise GIS</u> Progress toward a common City-County GIS infrastructure by migrating the City and County to ESRI Version 10 and upgrading GeoCortex.	2,3
H. <u>Enterprise Asset Management</u> <u>Expand the use of the City's Enterprise Asset Platform by implementing 3 additional subject areas.</u>	2,3
I. <u>Think Green</u> Implement actions to promote energy conservation and minimize environmental impacts including attending the Mayor's Annual Green Fair.	4

Service Unit Measures	Status
A1 – Develop enterprise disaster recovery plan and architecture requirements by December 31, 2012.	
A2 – Replacement of EMC Centera by January 1, 2013.	
A3 - Acquire secondary storage for use at disaster recovery site by March 30, 2013.	
A4 - Execute tabletop disaster recovery exercise by June 30, 2013.	
B1 – Install and configure 21 managed network switch locations in support of DOT/UMTRI's Safety Pilot Project by July 15, 2012.	
B2 – Install and configure 12 new network switch locations in support of WTP Critical Infrastructure Upgrade project by July 15, 2012.	
B2 – Install and configure 53 new surveillance cameras and 7 new Network Digital Video Recorders in support of WTP Critical Infrastructure Upgrade project by August 30, 2012.	

C1 – Replace 65% of City computers by June 30, 2013.	
C2 – Implement Windows 7 desktop as new standard on 75% of City computers by June 30, 2013.	
C3 – Choose and implement a pilot for virtual desktop standard by September 30, 2012.	
C4 – Implement Microsoft Office upgrade, including Exchange 2010 by October 30, 2012.	
D1 – Implement Legistar/OnBase integration by December 30, 2012.	
D2 – Implement five OnBase “backfile” projects by June 30, 2013.	
D3 – Upgrade SharePoint from 2007 to 2010 by August 30, 2012.	
E1 – Upgrade ESRI to version 10 by June 30, 2013.	
F1 - Implementation 2 additional subject areas within CityWorks by June 30, 2013.	
G1 – Attend the 2012 Mayor’s Annual Green Fair and develop promotional materials describing what the City and County IT departments are doing to promote technology “greening”.

REVENUES

Intragovernmental Sales – The decrease in FY 2012 reflects the central postage charges being moved to non-departmental.

EXPENSES

Payroll Fringes - The increase in costs is associated with an increase in medical insurance, pension and VEBA contributions.

Other Services – The decrease in FY 2012 reflects the allocation of telecommunications to the service units that incur the cost.

Materials & Supplies – The decrease in FY 2012 reflects the central postage charges being moved to non-departmental.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Procurement Unit would be charged \$25,609 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Financial and Administrative Services	Area Administrator:	Tom Crawford
Service Unit:	Procurement Unit	Manager:	Linda Newton

Service Unit Goals	City Goals:
A. Implement web-based vendor self-service and online procurement as part of the new financial system including improved tracking of contracts, insurance requirements, Council resolutions and living wage/contract compliance approvals	1, 2, 3
B. Continue efforts to develop knowledge management databases utilizing technology such as Mirosoft SharePoint in order to document financial procedures and projects in a clear, concise manner.	1

Service Unit Measures	Status
A1- Implementation phase completed by 6/30/2012	complete
B1 –Completion of project by 6/30/2012	complete

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Financial and Administrative Services	Area Administrator:	Tom Crawford
Service Unit:	Procurement Unit	Manager:	Tom Crawford

Service Unit Goals	City Goals:
C. Implement online tool for vendors to directly download PO's to reduce city paper and postage expense.	1
D. Implement standard bid templates for Invitation To Bid (ITB) and Request for Proposal (RFP) as a procurement tools for city staff.	1, 2
E. Analyze and revise procurement policies and roll-out to city staff.	1, 2
F. Analyze citywide spending for combined spending opportunities to reduce costs.	1

Service Unit Measures	Status
A1- Implementation by 9/30/12.	
B1 –Complete by 12/31/12.	
C1 –Have draft revised polices by 9/30/12.	
C2 –Complete roll-out to staff by 12/31/12.	
D1 –Complete by 4/30/13.

REVENUES

Charges for Services – The increase represents the additional funding needed for projected increases in health insurance costs.

EXPENSES

Other Services – Reflects the increased cost of contractual services and claim services.

Other Charges – The FY 2013 increases reflect increases to insurance premiums and an increase to the municipal service charge.

Pass Throughs – The FY 2011 budget represents the final operating transfer for PD/Court facility funding.

TREASURY SERVICES UNIT**

REVENUES

Taxes – General Fund property taxes are projected to increase by 0.8% in FY 2013

EXPENSES

Payroll Fringes - The increase in costs is associated with an increase in medical insurance, pension and VEBA contributions.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Treasury Services Unit would be charged \$238,529 in FY 2013.

**FY 2012
GOALS AND PERFORMANCE MEASURES**

Service Area:	Financial & Administrative Services	Area Administrator:	Tom Crawford
Service Unit:	Treasury Services	Manager:	Matthew Horning

Service Unit Goals	City Goals:
A. Build real-time integration of New World point-of sale and operational software systems	2,4
B. Collect & disburse taxes with 100% accuracy and according to state law	1,2,3
C. Implement and manage comprehensive collections process for all City receivables	1
D. Support efforts of the Energy Office in establishing a Property Assessed Clean Energy program	2,4
E. Consolidate cash-out processes across relocated departments and facilitate cross-training efforts	2
F. Support organizational efforts for restructured revenue initiatives	1,3,4
G. Reduce parking citation appeal back-log	2
H. Revise investment policy to allow for extended maturity horizons on core portfolio assets	1
I. Implement on-line parking appeals management system	2,4
J. Install and set-up Claim Zone risk management solution. Align business processes to leverage software functionality.	1,2,4

Service Unit Measures	Status
A – Operational by 12/31/2011	A – Done.
B – Adherence to tax procedure calendar/checklist	B – Done. County settlement completed 6 weeks earlier than FY11. No material changes to reconcile.
C – Systemic monitoring and reporting of aging for delinquent personal property tax, accounts receivable	C – Delinquent PPT at all time low. We currently have fewer than 500 parcels totaling \$936k over 14 years including FY12 taxes. Down from \$2.5 million in FY10. All tax roll eligible obligations placed on tax rolls twice annually. Police elected to defer placement of their receivables until December 2012. Utilized liquor license renewal process to collect delinquent PPT and delinquent AR.
D – Establishment of clean energy assessment program	D – Ongoing support of activities given as needed.
E – Complete by 9/30/2011	E – Done.
F – TBD	F – Ongoing support of activities given as needed.
G - Maximum aging of 6 weeks	G - All appeals are handled as they are received,

by 12/31/2011	typical resolution is done within two days of receipt.
H - Investment policy adopted by Council by 8/31/2011	H - Done.
I - New system in place and operational by 7/31/2011	I - Due to limitations in the proposed system, this project has been postponed until software upgrades render the adoption of the technology as advantageous.
J - TBD	J - External forms have been created, tested, and put into production. Internal forms are in process. Notification and reporting are in process.

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Financial & Administrative Services	Area Administrator:	Tom Crawford
Service Unit:	Treasury Services	Manager:	Matthew Horning

Service Unit Goals	City Goals:
K. Collect & disburse taxes with 100% accuracy and according to state law.	1,2,3
L. Continue internal control audit function and report findings to managers and administrators.	1,3
M. Perform post-issuance compliance audit for all outstanding bond issues.	1
N. Support efforts of the Energy Office in administering a Property Assessed Clean Energy program.	2,4
O. Maintain parking appeal workload such that appeals are handled within one week of receipt.	2
P. Write, issue, and manage an RFP for parking citation management services.	1
Q. Establish and monitor risk metrics, and report quarterly.	1,3
R. Manage policy renewal/marketing processes to achieve highest level of coverage and minimum cost.	1,3
S. Write, issue, and manage an RFP for third party administrator services.	1,2
T. Optimize Claim Zone risk management solution. Align business processes to leverage software functionality.	1,2,4

Service Unit Measures	Status
A – Adherence to tax procedure calendar/checklist	
B – Perform and report one audit per month at minimum	
C – Perform and report annual audit by 9/30/2012	
D – Establishment and operation of clean energy assessment program	
E – Monitor compliance on a weekly basis	
F – RFP issued by 7/1/2012, Council approval by 10/15/2012	
G - Generation of quarterly report	
H - TBD	
I - RFP issued by 2/1/2013, Council approval by 5/20/2013	
J - TBD

PUBLIC SERVICES AREA

Public Services Area Organization Chart

- Administration
- Financial Management/Rate Studies
- Communications
- Strategic Planning
- Safety

The Public Services Area is comprised of eight Service Area Units: Administration, Customer Services, Fleet & Facilities, Project Management, Systems Planning, Field Operations, Water Treatment Services and Wastewater Treatment Services. These Service Units provide the organization with a broad array of services such as: Customer Service Center, City Fleet Vehicles, Solid Waste and Recycling, Material Recovery Facility, Water, Wastewater & Stormwater Services, Engineering, Project Inspection, Traffic Calming and Airport. *Note: Capital Projects is not a Service Unit. It represents the partial FTE allocations to support the design and management of capital projects.

REVENUES

Charges for Services – The FY 2012 Forecasted amount reflects an increase of Recycle Processing Revenue because of a favorable recycle market.

Investment Income – Decreases are due to lower projected market investment rates.

Prior Year Surplus – Reflects an increase in the use of the Street Millage accumulated fund balance associated with securing alternative funding for the E. Stadium Bridges project.

EXPENSES

Payroll Fringes - The increase is attributable to employee medical insurance, pension and VEBA funding.

Other Services – Reflects a decrease in contracted services and the removal of rental costs for Administrative space in FY 2012.

Other Charges – Reflects decreases on debt interest and the retiree medical insurance allocation.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Administration/Safety	Manager:	Craig Hupy

Service Unit Goals	City Goals:
A. Increase by 15 percent information distributed to internal and external audiences about Ann Arbor municipal news, innovative programs, awards and services from July 1, 2011 to June 30, 2012.	2
B. Develop and assist in the implementation of new technology resources to engage citizens and employees and enhance understanding of city services and initiatives from July 1, 2011 to June 30, 2012.	2
C. Assist with the development and implementation of strategies to support new and ongoing city and PSA initiatives from July 1, 2011 to June 30, 2012.	2
D. Work with all Public Service Units to continue writing Standard Operating Procedures for each operation (Task).	2, 3, & 5
E. Continue annual testing in Larcom Building for Radon, Air Quality, Mold and Mildew.	1,3, & 5
F. Implement new electronic incident reporting program	1, 3, & 5
G. Start development of city wide Safety Manual working in conjunction with City wide Safety Committee. (2/3 year process)	1, 2, 3, 4, &5
H. Develop a training matrix for required regulatory training for each Service area starting with Public Service.	1, 2, 3, 4, & 5

Service Unit Measures	Status
A - Write, edit and produce a variety of Public Services information pieces each month, including communications plans, quarterly WaterMatters newsletter, biannual WasteWatcher newsletter, millage renewal fact sheets, program collateral materials, press release, etc., by June 30, 2012.	Biannual, quarterly deadlines met; Millage materials created; other projects ongoing.
B - With the Communications Office, track status of technology resource project implementations each month. These new resources include integration of new media, such as Podcasts and live web streaming of city meetings to promote City information, applications to monitor effectiveness of communication messages/vehicles (Google Analytics, GovDelivery subscribers and click throughs, A2C report, Survey Monkey, VOD views) by June 30, 2012.	Provided monthly updates on communications efforts.
C – Track number of communication plans and implementation steps for	Communication

campaigns, including road and sidewalk millage public awareness, the transition to contracted compost center operations, collection route changes, PACE grants (with Communications Office), Recyclebank, etc., by June 30, 2012.	plans are tracked in monthly Communications Office report
D – Develop a minimum of 5 each month.	Completed
E – Have tests completed every six months by a qualified testing firm with results posted on the first floor.	Completed
F – Rough draft to be completed by 06/30/2012.	Completed
H – Public Service Matrix to be completed by 03/01/2012 and Community Services in draft form by 06/30/2012.	Completed

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Administration/Safety	Manager:	Craig Hupy

PUBLIC SERVICES AREA

CUSTOMER SERVICE

Customer Service has primary responsibility for collecting and processing all payments due to the City such as taxes, parking tickets, water and solid waste payments, and miscellaneous invoices. Customer Service is also responsible for all utility (water, sewer, and storm water), airport and solid waste billing services. Within the unit, a call center application routes a variety of City and Public Service related calls to trained agents on a priority basis, to assure a timely response to customer inquiries, complaints and requests for service. These calls are associated with Project Management, Solid Waste, Street Maintenance, Traffic Control, Airport services, tax bill payment processing and questions, and Water Utilities. Customer Service also provides Backflow Prevention Inspection and Reporting services, all types of general information for walk-in customers, and support for service requests that are generated from the web via the CRS (Citizen Request System).

REVENUES

Charges for Services – Reflects increase metered service revenues due to proposed rate increases.

EXPENSES

Payroll Fringes - The increase is associated with higher medical insurance, pension and VEBA funding.

Other Charges – The decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area: Public Services	Area Administrator: Craig Hupy
Service Unit: Customer Service	Manager: Wendy Welser

Service Unit Goals	City Goals:
A. Maintain average rate of “Abandoned phone calls” at 4% or lower overall, as well as 4% or lower for each individual queue. Maintain “service level” for all calls in all queues at 80% overall (80% of the calls are answered in 20 seconds or less), as well as 80% or better for each individual queue.	2
B. Maintain and update as needed, call center software application (IQ) and associated phone trees.	2 & 3
C. Implement phone system feature for emails to “Customer Service” to queue up like incoming phone calls to ensure priority handling.	2
D. Work with AMR vendor, Aclara, to develop MDM functionality (Meter Data Mgt) for water consumption data (currently only provided for gas and electric utilities) to enhance analysis and rate design capabilities.	1 & 2
E. Implement OnBase to reduce paper use and physical storage req.	1 & 4
F. Implement “monthly” billing option for customers who agree to ebilling and epayment arrangements once new billing template is tested	2 & 4
G. Assume responsibility for ROW Permit processing; document and look for opportunities to improve the current associated processes	1 & 2
H. Cross train agents and share responsibility with Planning and Development for answering the Building Services general phone queue to improve current call handling statistics and achieve or exceed the standards outlined in “A.” above.	1 & 2
I. Implement plan to standardize/fix the base period for summer sewer discount for all residential customers and edit billing periods to provide better equity for the discounted bills.	2 & 5
J. Cross train agents and share responsibility with Planning and Development for building permit application intake to improve quality of applications submitted and reduce processing/follow-up time	1 & 2
K. Review the backflow inspection process from “cradle to grave” for the purposes of identifying opportunities for improvement in efficiency, effectiveness and completeness including process steps, correspondence, work orders, inspections and violation tracking	2 & 5
L. Strategic phase-in of two-way technology for the existing automated meter reading (AMR) technology	1, 2 & 3

Service Unit Measures	Status
A – Review phone system reports both real-time and monthly	On Going; perf better than set goal

B – Use customer feedback and monitor programs for which we provide phone support; document and perform regular testing of phone trees	On Going; soft upgrade completed 4/2012
C – Create and manage project timeline by 06/30/2012	On-hold
D – Strategy meetings with Aclara; create project plan, monitor timeline if feasible	On-going analysis and troubleshooting of existing DCU2 upgrade; plan to install 2 nd DCU2 to test hypothesis late June 2012
E – Work with IT to create and manage project timeline to 06/30/2012.	On-hold w/ IT
F – Create and manage project timeline by 12/30/2011.	Project timeline created; pending software upgrade; on-hold for IT
G – Track number of permits processed, average time to complete, and establish a performance standard by 06/30/2012.	Completed
H – Review phone system reports both real-time and monthly	On hold; ROW and Lane Closure permits were migrated from P&D to Cust Serv
I – Follow existing project timeline; implement changes by 12/30/2011 and monitor	Completed
J – Create job aids; train; track average time to process permits	On hold
K – Review existing process front to back; identify improvement opportunities; create timeline for completion; implement changes by 06/30/2012.	On-going process improv; annual report was submitted to MDEQ 3/26/12

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Customer Service	Area Administrator:	Craig Hupy
Service Unit:	Public Services	Manager:	Wendy Welser

Service Unit Goals	City Goals:
A. Maintain average rate of “Abandoned phone calls” at 4% or lower overall, as well as 4% or lower for each individual queue. Maintain “service level” for all calls in all queues at 80% overall (80% of the calls are answered in 20 seconds or less), as well as 80% or better for each individual queue.	2
B. Maintain and update as needed, call center software application (IQ) and associated phone trees.	2 & 5
C. Continue project plan created in FY 2012 for Upgrading the Meter Reading Network (DCUs to DCU 2s); must be completed before 1/2014	5
D. Identifying potential cross-connections for existing businesses that are not currently in the database or being inspected.	2 & 3
E. Implement “out-of-office hours” quarterly staff meetings.	2
F. Assume responsibility for Sidewalk Occupancy Permits	2
G. Evaluate and update current web links used between Customer Service and Planning and Development.	2
H. Cross-train agents to support Planning and Development during peak periods or during staffing shortages	2
I. Continue to work with AMR vendor, Aclara, to develop MDM functionality (Meter Data Mgt) for water consumption data to enhance analysis, assist in rate design, and provide additional benefits to stakeholders.	1, 2 & 5
J. Develop strategic plan for phase-in/replacement of one-way transmitters with newer, two-way transmitters in the meter reading network.	1, 2 & 3
K. Upgrade current version of the Cogsdale utility billing software which is no longer supported via patches, updates or enhancements, to Version 29	1, 2 & 5
L. Upgrade billing platform for Cogsdale (Great Plains) to Version 11	1, 2 & 5
M. Move to the current Cogsdale billing template (from template #8 to #24)	2 & 5
N. Service Order Integration Adjustments between Cityworks & Cogsdale	2 & 5
O. Implement “final bill” enhancement to billing application to accelerate the dunning process on final bills so landlords can make informed decisions when returning security deposits to tenants responsible for water bills	2
P. Add capability for landlords to be able to look at water bills for all of their rental properties at a glance	2

Q. Call Center Phone System Software Upgrade (Prairie Fyre)	2 & 5
R. Add capability to send duplicate copies of bills to landlord/property owners	2
S. Review e-payment website for possible enhancements	2

Service Unit Measures	Status
A - Review phone system reports both real-time and monthly	
B - Use customer feedback and monitor programs for which we provide phone support; document and perform regular testing of phone trees	
C – Network upgrades completed by January 2014 (per Verizon all digital network upgrade schedule)	
D – Addition of missing backflow device information the database and inspect as documented by the Annual Report to the MDEQ due in March	
E – Improved communication, awareness and knowledge	
F – Processing of Sidewalk Occupancy Permits	
G – Less duplication and ease of use; customer feedback	
H – Decreased wait times at the counter and in the P & D phone queues	
I – Meetings, develop project plan, implementation of new capabilities	
J – Meetings, development of strategic plan and project timeline, installation of new MTUs to replace existing units	
K – Meetings, develop strategic plan and project timeline, agent training on new/revised features; software implementation	
L – Meetings, develop strategic plan and project timeline, install Great Plains 11; no noticeable impact to end users	
M – Complete coding in the system, install and put into use	
N – Meetings, project timeline, incremental progress until all changes are made	
O – Receive and test enhancement from Cogsdale, install; customer feedback	
P – Meetings, project timeline, test, install; customer feedback	
Q – Meetings, project timeline, review changes, train agents, upgrade software, monitor	
R – Meetings, project timeline, test, install, monitor	
S – Meetings, develop strategic plan and project timeline, installation of enhancements; customer feedback

PUBLIC SERVICES AREA

FIELD OPERATIONS

Field Operations is the field oriented maintenance and operational unit for the City. This unit provides a wide range of essential services that enhance the quality of living in the urban setting. Field Operations is the largest civilian unit surpassed only by the Police Unit. Areas of responsibilities include: park maintenance, forestry, and natural area preservation; street lighting, traffic signals, street signs, radio/fiber optic communications, street maintenance, pavement analysis, sidewalk inspections and repairs, and traffic studies; solid waste, material recovery activities, and compost; all water, wastewater, and storm water distribution and collection. Consolidating these operational activities provides for intra-unit cross-training and work task opportunities, improved efficiencies and providing services at the highest possible levels.

PUBLIC SERVICES AREA FIELD OPERATIONS

REVENUES

Miscellaneous Revenue – The FY2012 budget reflects a one-time revenue from the sale of Compost Center related equipment.

Prior Year Surplus – The budget reflects a decrease associated with the completion of multi-year projects.

EXPENSES

Personnel Services – The budget reflects a decrease in the number of FTE's in the service unit.

Payroll Fringes – The increases are from higher pension, VEBA and medical insurance costs.

Other Services – The budget reflects an increase in electricity costs for street lighting.

Vehicle Operating Costs – The budget reflects the removal of Compost Center equipment costs.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units; and a reduction in budgeted contingency.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Field Operations	Manager:	Matt Warba

Service Unit Goals	City Goals:
A. Establish an Adopt an Island Program.	5
B. Monthly Inspections of Playgrounds.	2
C. Rebuild and or renovate baseball/softball fields.	5
D. Increase the utilization of CityWorks for Street Maintenance.	2, 3
E. Sweep all city streets two times per year.	1, 2, 3, 4
F. Update curb ramps to current standards.	1, 2, 3
G. Perform spot pavement repairs to reduce frequency and expense of capital pavement replacement program.	1, 3
H. Perform roadside vegetation management on 3,000 linear feet of shoulder to improve or maintain road user safety	3, 4
I. Conduct pavement condition evaluations on 45 centerline miles of local roads and 35 centerline miles of major roads.	1
J. Protect, conserve, and restore park natural areas	3
K. Coordinate and host 50 neighborhood Adopt-A-Park and Adopt-A-Median Program events to increase public participation.	3
L. Implement a citizen pruner program to help young trees develop good structure.	2
M. Complete narrow banding the VHF radio system. This includes Fire, MOSCAD, and Civil Defense Sirens? This is an FCC requirement.	2
N. Convert the remaining City owned street lights to LED's	1, 2, 5
O. Set up the 800MHz radio system for non-public safety users to ensure that the system is setup in a way that the system stays up and running efficiently during normal operation and during catastrophic events.	2
P. Decrease the number of sanitary sewer overflows.	2
Q. Track all sanitary main line cleaning and televising electronically	5
R. Track all storm main line cleaning & maintenance electronically	5
S. Identify and repair potential storm problem areas before they become an emergency issue.	3
T. Identify and clear open ditch locations that need sediment removal to improve infrastructure	3
U. Repair and maintain the storm sewer system with high quality standards to ensure a safe and reliable infrastructure.	3
V. Decrease the number of customers that have services interrupted by 25%	3
W. Plant 1000 street trees per year	4
X. Plant 100 park trees during FY12	4

Service Unit Measures	Status
A – Adopted ten (10) islands	Adopted 11
B - Percent of playgrounds inspected monthly	8% fully inspected
C – Rebuild or renovate ten (10) baseball/softball fields	Scheduled for FY13
D - Inspect and prioritize or resolve 80% of maintenance requests within 48hrs of receipt.	Met goal
E - Number of times all city streets are swept	Swept 3 times
F - Update 100 curb ramps to current standards	151 to ytd
G - Sq ft replaced per year	24,800 sq ft
H - Total of lineal feet maintained.	2,300 ytd
I - Percentage of centerline miles inspected and evaluated in each category-Accuracy of evaluation confirmed @ 95%	Local- 146% Major- 94%
J - Percentage of acres of invasive species controlled; and actively restore native ecosystems on 425 acres of city parkland	75%
K - Number of neighborhood program events that are coordinated as a percentage of the goal (50).	94%
L - Train one group (5-10 volunteers) of citizen pruners per year that will be able to trim young trees.	21 trained ytd
M - Complete project by June 30, 2012	95% Complete
N - Complete conversion of remaining city owned streetlights to LED by December 1, 2011	89% Complete
O - Complete set-up by June 20, 2012	Complete
P - Continue our cross lot inspection/cleaning program decreasing overflows by 50%	Met goal
Q - Record 80% of all sanitary maintenance activities in paperless format	Met goal
R - Record 70% of all storm maintenance activities now in paper format	Met goal
S - Reduce backlog of sanitary and storm repair projects by 50% by January 1, 2012 and contracts utilized to 95-100% of value by same date	Reduced backlog by 75% ytd; Contracts utilized at 95% of value ytd
T - Remove sediment from 1,000 linear feet of ditch, improving efficiencies and minimize “standing water.”	Met goal
U - Reconstruct and or repair 450 catch basins or 5% increase over last year.	Met goal
V - Perform maintenance to replace broken water system valves	15% ytd
W - Number of street trees planted as a percentage of goal of 1,000 per year	1060 trees thru May; Met goal
X - Number of park trees planted as a percentage of goal of 100 trees	112 trees; Met goal

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Field Operations	Manager:	Matt Warba

Service Unit Goals	City Goals:
A. Rebuild Eisenhower and Packard traffic signal	2, 5
B. Rebuild Hubbard and Huron Pkwy Traffic signal	2, 5
C. Renovate and/or rebuild baseball/softball fields	2, 5
D. Increase the mowing frequency from 19 to 14 days	2, 5
E. Continue to provide additional mowing of active recreation park space	2, 5
F. Decrease the number of sanitary sewer over flows by 15%	2
G. Track all sanitary main line cleaning and televising electronically	2
H. Reduce backlog of sanitary repair projects	2, 5
I. Plant 1,000 street trees	4, 5
J. Promote establishment of new trees planted in 2011 and 2012 by providing water and mulch.	4, 5
K. Actively work to restore 400 acres of native ecosystems in City natural areas with combined staff and volunteer effort.	2, 3, 5
L. Empower volunteers to actively monitor wildlife populations in 30 parks.	3, 4
M. Expand Park Steward program to include 65 active, dedicated volunteers working in park natural areas.	2, 3, 4, 5
N. Increase citizen engagement in caring for parks by expanding Adopt-A-Park Program to include 44 sites	2, 3, 4, 5
O. Increase citizen engagement in caring for street medians by expanding Adopt-A-Median Program to include 15 medians	2, 3, 4, 5
P. Continue helping young trees develop good structure by expanding Citizen Pruner Program so 170 trees can be pruned by volunteers.	2, 3, 4, 5
Q. Video inspect storm sewer mains to reduce main line failures and reduce emergency situations	2, 5
R. Identify and implement a maintenance program for all city-owned ditches and contributing outfalls to reduce downstream sedimentation	2, 3, 5

Service Unit Measures	Status
A - Complete project by November 1, 2012	
B - Complete project by June 30, 2013	
C - Renovate or rebuild six (6) baseball/softball fields	
D – Number of days for the cycle	
E - Increase the number of inspections and maintenance by 25%	
F - Implement a sanitary sewer cross lot easement maintenance program that will decrease the sanitary sewer overflows by 15%	

G - Electronically track 90% of all sanitary maintenance activities in paperless format	
H - Reduce backlog of sanitary repair projects by 50% by June 30, 2013	
I – Number of street trees planted as a percentage of goal of 1,000 trees per year	
J - Inspect trees, and provide water and mulch five times during the growing season.	
K - Number of acres where native ecosystems are being actively restored by staff and volunteers.	
L - Number of parks where volunteers are actively monitoring wildlife	
M - Number of Park Stewards	
N - Number of Adopt-A-Park sites	
O - Number of Adopt-A-Median sites	
P - Number of trees pruned by volunteers in Citizen Pruner Program	
Q – Increase video inspections by 20% to identify storm mains that need lining	
R - Increase repairs to eroding locations by 10%	

See Budget Summaries Section, Page 71, for list of City Goals

PUBLIC SERVICES AREA

FLEET & FACILITY SERVICES

The Fleet and Facilities Service Unit is responsible for the maintenance and repair of City owned buildings and their grounds, as well as project oversight for these facilities. The unit is also responsible for maintenance and repair to 700 vehicles and pieces of equipment, including vehicle and fuel procurement. The operation of the Ann Arbor Airport is also handled by this Unit.

REVENUES

Prior Year Surplus – The decrease reflects the normal variation in the type and quantity of vehicles and equipment anticipated to be replaced yearly.

EXPENSES

Payroll Fringes – The increases are from higher pension, VEBA and medical insurance costs.

Capital Outlay - The decrease reflects the normal variation in the type and quantity of vehicles and equipment anticipated to be replaced yearly.

Vehicle Operating Costs – The increase in reflects an increase in the cost of all fuel types with usage remaining constant.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Fleet & Facilities	Manager:	Matt Kulhanek

Service Unit Goals	City Goals:
A. Complete construction/renovations of the Municipal Center project including site work.	3
B. Coordinate the installation of artwork at the Municipal Center.	3
C. Municipal Center project closeout.	3
D. Coordinate final planning and construction of the Airport runway safety extension project if approved.	2, 3
E. Initiate and oversee the bathroom renovation/construction project (first year phase) in the Larcom building.	2, 3
F. Review staff scheduling for all aspects of the Service Unit to determine if utilization is appropriate for operational needs.	1, 2
G. Work with Systems Planning to ensure compliance of public-private partnerships at the compost center, MRF and transfer station.	2, 3
H. Finalize the Wheeler Center Construction Project.	1, 3

Service Unit Measures	Status
A - Attend construction project meetings and keep abreast with all project issues and plans to ensure the construction project is completed timely and in a cost effective manner.	complete
B - Attend meetings and address project issues with Quinn Evans Architect and Clark Construction to complete installation of the Dreistl artwork at the Municipal Center.	ongoing
C1 – Ensure punchlist items are completed by the contractor.	ongoing
C2 – Coordinate the training obligations between City staff and contractor representatives for new building systems.	complete
C3 – Attend meetings and ensure that all closeout documentation, including LEED certification application, is provided and submitted.	ongoing
C4 – Work with City finance staff to closeout project budget upon completion of all obligations.	ongoing
D – Work with the State and FAA to secure project funding, complete final design work, bid and build project. Project timing depends on approvals and construction season/operational challenges.	n/a
E1 – Finalize construction priority and project scope of work, complete asbestos abatement work by 09/30/2011.	complete
E2 – Finalize plans, bid project and begin renovations by 01/31/2012.	ongoing
F – Work with staff and supervisors to look at current work schedules and see if they maximize the effectiveness of the Unit. If changes are necessary, work with staff and HR to implement any recommended	complete

changes.	
G1 – Complete regular inspections of these facilities to ensure that the public-private partners are complying with their contractual obligations.	complete
G2 – Complete regular inspections of City owned rolling stock utilized by public-private partners to ensure they are complying with accepted vehicle/equipment maintenance standards.	complete
H – Process a final closure of project by 06/30/2012.	ongoing

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Fleet & Facility	Manager:	Matt Kulhanek

Service Unit Goals	City Goals:
A. Complete closeout of the Municipal Center Project.	3
B. Work with the Art Administrator to coordinate the installation of artwork in the Justice Center lobby.	3
C. Evaluate the City's fuel management system.	3
D. Coordinate final planning and construction of the Airport runway safety extension project if approved.	2, 3
E. Initiate and oversee the bathroom renovation/construction project (second year phase) in the Larcom building.	2, 3
F. Initiate the final disposition of the contents at 721 N. Main.	3
G. Finalize the Wheeler Center Construction Project.	1, 3

Service Unit Measures	Status
A1 – Work with contractor to complete outstanding punch list items.	
A2 – Review final closeout documentation, including LEED certification application, and insure all training is provided.	
A3 - Work with City finance staff to closeout project budget upon completion of all obligations.	
B - Attend meetings and address project issues with the City's Public Art Administrator and the artist, Mr. Carpenter, to complete installation of "Radius" in the Justice Center lobby.	
C1 – Review existing fuel management technology for reliability, support and usefulness.	
C2 – Compare current fuel management technologies to determine if a change is warranted, and if so, prepare the appropriate business case to justify the change.	
D – Work with the State and FAA to secure project funding, complete final design work, bid and build project. Project timing depends on approvals and construction season/operational challenges.	
E1 – Complete bathroom renovation design by 9/30/12.	
E2 – Finalize plans, bid project and begin renovations by 01/31/2013.	
F1 – Work with service units to find permanent locations for items that they were storing at 721 and wish to keep.	
F2 – Separate items of value from damaged, destroyed or obsolete items which can be disposed (recycled).	
F3 – If enough items of value, then either auction them off or find a permanent storage location for them.	
G1 – Work with Field Operations to remove the farmhouse, barn and	

outbuildings along Ellsworth Road and construct any required berming/landscaping.	
G2 – Work with Field Operations and Pittsfield Township to determine any remaining PUD obligations and how they may be installed/funded.

PUBLIC SERVICES AREA

PROJECT MANAGEMENT

The Project Management Services Unit actively pursues State and Federal grants and partners with internal and external local agencies to complete major improvements to the City's infrastructure. The PMSU is responsible for the City's traffic engineering, review, and inspection of private development projects, engineering and management of the City's capital improvement projects, administering construction contracts and contracts for engineering services, and updating and maintaining the City's infrastructure records.

PUBLIC SERVICES AREA PROJECT MANAGEMENT

REVENUES

Charges for Services – The Project Management Fund is an Internal Service Fund. The Fund receives credits from capital projects for engineering and project management services, and charges the private developments for reviewing their construction plans for work in the Public ROW and construction inspection. The revenue is reflective of the normal fluctuations in demand for services.

Operating Transfers In – These are revenue received from the other funds which require the PMSU's services. The revenue is reflective of the normal fluctuations in demand for services.

EXPENSES

Payroll Fringes – The increases are from higher pension, VEBA and medical insurance costs.

Other Charges – Reflects a decrease in contingency for severances.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Project Management	Manager:	Homayoon Pirooz

Service Unit Goals	City Goals:
A. Secure State and Federal Grants to fund the City's infrastructure improvement projects.	1
B. Engage the public in the planning, design and construction of the capital improvement projects.	2
C. Prepare the Public for an informed decision in Fall 2011, for a new Street Reconstruction Millage	3
D. Rebuild the City's Infrastructure (Streets, Water Mains, Storm & Sanitary Sewer)	3
E. Encourage and implement environmentally sustainable engineering solutions	4
F. Encourage new developments by providing timely construction plan review and assisting the developers	5

Service Unit Measures/Scoreboards	Status
A. Utilize Federal and/or State grants for the City's capital improvement projects (7 projects)	86%
B - Engage the public in the project planning, design and construction of capital improvement projects (15 projects)	93%
C – Prepare Communication Plan, Resolution in August 2011 for the November 2011 Ballot, Present Information to Public	100%
D – Complete the design and/or construction of street reconstruction/resurfacing projects (4 projects)	75%
D – Complete the design and/or construction of water main replacement projects (5 projects)	75%
D - Complete the design and/or construction of sanitary sewer improvement projects (5 projects)	50%
D – Complete transportation improvement projects (6 projects)	50%
E – Implement environmentally sustainable engineering solutions (2 projects)	50%
F –Private Development Construction Plans reviewed within 4 weeks	63%
F – Right-of-Way Permits reviewed within 3 weeks	90%

See Budget Summaries Section, Page 71, for list of City Goals

PUBLIC SERVICES AREA

SYSTEMS PLANNING

Systems Planning staff bring together diverse background and experience in energy management, environmental planning and programming, solid waste and recycling, soil erosion, natural features, urban forestry, planning, public engagement, project management, transportation, geographic information systems (GIS), storm water and water resources, sanitary sewer and drinking water. The unit provides asset management for the Public Services Area including parks, solid waste, urban forest, transportation, non-motorized transportation, sanitary, storm water and drinking water facilities; sustainability planning; utility system modeling; development of programs and policies that optimize service levels, environmental benefit and public investment; capital planning and budgeting; and infrastructure standards and specifications for facilities and activities within the Public Services Area. The unit also provides support for the implementation of GIS-based work management systems throughout the service area.

REVENUES

Intergovernmental Revenues – The FY2012 Forecasted amount reflects US Department of Energy and Michigan Energy Office grants.

Operating Transfers In - The FY 2012 revenue is reflective of the normal fluctuations in demand for services.

EXPENSES

Personnel Services – The decrease is a reduction in temporary employees.

Payroll Fringes - The increases are from higher pension, VEBA and medical insurance costs.

Other Services – The decrease is a reduction of Contractual Services.

Other Charges – The decrease is a reduction of energy rebate transfers.

**FY 2012
GOALS AND PERFORMANCE MEASURES**

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Systems Planning	Manager:	Cresson Slotten

Service Unit Goals	City Goals:
A. Develop an Urban Forestry Management Plan	4
B. Update Solid Waste Management Plan	5
C. Establish Energy Efficiency Finance Program	4
D. Continue expansion of the commercial recycling program by utilizing increased education and marketing efforts as well as ground level recruitment	4
E. Establish policies and programs for the management of the City's natural and physical infrastructure assets	2
F. Continue development of the Alternative Transportation Network through private investments and integration in all city transportation projects, including maintenance and reconstruction	2
G. Complete Sustainability Framework Plan under Home Depot Foundation Grant	3
H. Initiate the completion of the comprehensive detailed stormwater system model	2

Service Unit Measures	Status
A - Complete draft Urban Forestry Management Plan by 03/30/2012	In progress- anticipated draft completion by 05/31/2012
B - Complete draft Solid Waste Management Plan Update by 12/31/2011	In progress- anticipated draft completion by 7/31/12
C1 - Hold public hearing on program by 11/1/2011	Completed in October, 2011
C2 - Have program established by 03/01/2012	Completed in October, 2011
D1 - Increase recycling by 20% from 07/01/10 levels by 06/30/2012	Increased 25% to date in FY 12
E1 - Complete 3 initial Asset Management Pilot Programs by 12/31/2011	On hold pending backfill of SPU Engineer
E2 – Complete draft Water Distribution Level of Service Master Plan, including pilot asset management plan by 06/30/2012	In progress – anticipated draft completion by 09/30/2012
F - Increase percent cycling as reported by US Census from 2% to 6% by 06/30/2012	3.5% in 2005-09 American Community Survey (ACS)
G1 – Complete draft Sustainability Framework Plan by 01/31/2012	In progress – anticipated draft completion by June, 2012
G2 – Complete Sustainability Action Plan by 07/31/2012	In progress – anticipated draft completion by June, 2012

H1 – Enter into PSA with consultant by 12/01/2011	In progress – anticipated PSA award by 6/18/12
H2 - Gather comprehensive monitoring data and calibrate model by 12/01/2012	Monitoring data anticipated completion by 6/30/2014; Model calibration completion anticipated by 6/30/15

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Systems Planning	Manager:	Cresson Slotten

Service Unit Goals	City Goals:
A. Develop an Urban & Community Forest Management Plan	4
B. Update Solid Waste Management Plan	5
C. Establish Green Community Housing Partnership (HUD Grant)	4
D. Integrate Sustainability Action Plan into existing City processes (e.g., CIP, budget, etc.)	4
E. Complete 3-year update of Impervious Surface GIS data to support Stormwater Utility	3
F. Advance Flood Mitigation Plan Implementation	3
G. Develop comprehensive, detailed stormwater system model	3
H. Continue development of the Alternative Transportation Network through public and private investments and integration in all city transportation projects, including maintenance and reconstruction	2

Service Unit Measures	Status
A1 - Urban & Community Forest Management Plan completed and adopted by City Council by 06/30/2013	
B1 - Complete draft Solid Waste Management Plan Update by 7/31/2011	
C1 - Develop GCHP work plan by 12/1/2012	
C2 - Submit implementation recommendations to GCHP by 6/1/2013	
D1 - Integrate Sustainability Action Plan into CIP process 9/1/2012	
D2 - Integrate Sustainability Action Plan into budget by 5/1/2013	
F1 - Remove structure at 219 West Kingsley by 8/1/2012	
F2 - Complete Allen Creek Railroad Berm Study by 12/1/2012	
F3 - Council adoption of Floodplain Management Ordinance by 1/1/2013	
G1 - Develop & implement comprehensive flow monitoring plan by 03/01/2013	
H1 - Increase percent cycling as reported by US Census from 3.5% to 6% by 07/31/2013	

See Budget Summaries Section, Page 71, for list of City Goals

PUBLIC SERVICES AREA

WASTEWATER TREATMENT

Wastewater Treatment Services is responsible for the effective collection, treatment and environmentally acceptable discharge of the wastewater generated by the Ann Arbor community. Wastewater Treatment Services is responsible for the operation and maintenance of the City's Wastewater Treatment Plant and eight sewage lift stations located around the City. In addition, Wastewater Treatment Services manages the Industrial Pretreatment Program to assure that wastewater discharged to the sanitary sewer system will not be harmful to the public, employees, environment or equipment.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Wastewater Treatment	Manager:	Earl J. Kenzie

Service Unit Goals	City Goals:
A. Complete construction of the Residuals Handling Improvements Project by 12/31/11 and close out project by 6/30/12.	1, 2, 3
B. Submit the application and supporting information to MDEQ for State Revolving Fund consideration of the Facilities Renovations Project Phase 2.	1, 2, 3
C. Obtain necessary permits from Ann Arbor Township, award contract, establish construction schedule and complete construction to level identified in schedule for Facilities Renovations Project – Phase 2, including improvements to the earthen embankment and floodwall along the plant site perimeter that meet FEMA’s flood protection requirements.	1, 2, 3
D. Treat wastewater to highest achievable water quality standards.	4
E. Maintain voluntary compliance with the Middle Huron Initiative’s phosphorus loading.	4
F. Inform and update the public of ongoing capital improvements at the WWTP.	2
G. Maximize the beneficial reuse of biosolids through the land application program within budgetary constraints.	1,4
H. Implement a stewarded work culture that aligns with the City’s and Public Services Area’s strategic direction.	5
I. Update the Sewer Use Ordinance to incorporate Industrial Pretreatment Program regulatory changes by 06/30/12.	3,4
J. Address failing condition of the Secondary Effluent Pumps.	1,3
K. Collaborate with Scio Township staff to develop the plan for replacement of Liberty Lift Station.	2,3

Service Unit Measures	Status
A - Indicate monthly level of construction completed based on project schedule and milestones – 100% by 12/31/2011.	Six months were added to the project schedule due to changes requested by the City. Project construction completed by 6/15/12.
B - Submit Project Plan to MDEQ by 7/5/11; conduct public meeting by 08/01/2011; publish project advertisement by 09/23/2011.	State Reveolving Fund loan of \$110,285,000 applied for and approved. All deadlines met per MDEQ requirements. Loan closed on 4/10/12.
C - Create project milestones with target dates for completion.	Permits were obtained, contract was awarded and project is on schedule.
D - Meet NPDES permit limits with no	100% complete

significant violations, fines or citations.	
E1 - Daily review of plant performance relating to phosphorus loading goals.	100% complete
E2 - Take actions to correct phosphorous removal process upsets within one week.	100% complete
F1 - Provide quarterly updates of capital project websites.	Completed as scheduled
F2 - Direct contact of neighboring stakeholders at least one week prior to major site activities.	Completed as needed
G - 100% of biosolids processed from May through November land applied, weather and budget permitting.	100% complete
H - Evaluate Leadership Team's alignment of work behaviors with the desired work culture and ensure five critical elements are implemented by 12/31/11; train all staff on at least one element by 06/30/2012.	Evaluation of Leadership Team's work behaviors is complete. Five critical elements of desired work culture were developed and are being refined for Leadership Team implementation and subsequent staff training.
I1 - Follow through with MDEQ on their review and approval of the local limits assessment submitted in September 2008.	Routinely contacted the MDEQ throughout the fiscal year with no response.
I2 - Draft changes to the Sewer Use Ordinance by 03/01/2012 and obtain Council approval by the meeting on 06/18/2012.	Changes to the Sewer Use Ordinance are contingent upon receiving a response from the MDEQ.
J1 - Review engineering recommendations and decide on the project scope by 09/30/2011.	Engineer's final report was delayed due to discrepancy between manufacturer's data and record data. Review was completed by 12/06/11.
J2 - Secure project funding, award contract and initiate work by 6/30/12.	Decision on funding source required investigation of State Revolving Fund eligibility under the Facilities Renovations Project and impacted the project scope. Scope was established by 6/30/12.
K1 - Determine the project cost sharing allocation between the City and Scio Township by 09/30/2011.	The project cost sharing allocation was established on schedule.
K2 - Initiate the engineering study to identify replacement options by 08/11/2011; identify recommended option for replacement by 03/01/2012.	Scio Township assumed the lead on the engineering study and the schedule for its completion.

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Wastewater Treatment	Manager:	Earl J. Kenzie

Service Unit Goals	City Goals:
A. Close out Residuals Handling Improvements Project by 12/31/12.	1, 2, 3
B. Satisfy requirements of the State Revolving Fund loan for the Facilities Renovations Project including timely submittal of disbursement requests and support documents.	1, 2, 3
C. Complete construction of the Facilities Renovations Project to the level identified in the construction schedule. Complete improvements to the earthen embankment and floodwall along the plant site perimeter that meet FEMA's flood protection requirements and secure a Letter of Map Revision by the date established in the project schedule.	1, 2, 3
D. Treat wastewater to highest achievable water quality standards.	4
E. Maintain voluntary compliance with the Middle Huron Initiative's phosphorus loading.	4
F. Inform and update the public of ongoing capital improvements at the WWTP.	2
G. Maximize the beneficial reuse of biosolids through the land application program within budgetary constraints.	1, 4
H. Implement a stewarded work culture that aligns with the City's and Public Services Area's strategic direction.	5
I. Update the Sewer Use Ordinance to incorporate Industrial Pretreatment Program regulatory changes by 12/31/2013.	3, 4
J. Replace failing Secondary Effluent Pumps and upgrade the control systems.	1, 2, 5
K. Develop and implement an electrical energy management plan for the Solids Handling Building equipment and systems.	1, 5
L. Replace the roadway at Lakewood Lift Station to achieve safer access and facility maintenance.	1, 2, 5

Service Unit Measures	Status
A - Create project milestones with target dates for completion.	
B - Receipt of monthly State Revolving Fund loan disbursements.	
C1 - Indicate monthly level of construction completed based on project schedule, invoicing and milestones.	
C2 - Obtain Letter of Map Revision without impacting the project or construction schedule.	
D - Meet NPDES permit limits with no significant violations, fines or citations.	
E1 - Daily review of plant performance relating to phosphorus loading goals.	

E2 - Take actions to correct phosphorous removal process upsets within one week.	
F1 - Provide quarterly updates of capital project websites.	
F2 - Direct contact of neighboring stakeholders at least one week prior to major site activities.	
G - 100% of biosolids processed from May through November land applied, weather and budget permitting.	
H - Refine the five critical elements of the Leadership Team's desired work culture by 10/01/12; train all staff on at least three of the elements by 06/30/13.	
I - Receive MDEQ response by 12/31/12 and draft changes to the Sewer Use Ordinance by 6/30/13. Obtain Council approval during FY 13.	
J1 - Initiate pump system replacement within 30 days of approval of construction contract documents.	
J2 - Replace a minimum of one pump and upgrade the associated control system by 06/30/13.	
K1 - Identify opportunities to reduce electrical energy consumption through management practices by 08/01/12.	
K2 - Achieve 10% reduction in electrical energy consumption in at least one identified area by 06/30/13.	
L1 - Complete engineering design and advertise for bids to construct driveway improvements by 07/01/12.	
L2 - Complete construction of driveway improvements by 10/31/12.

PUBLIC SERVICES AREA

WATER TREATMENT

Water Treatment Services is primarily responsible for the supply and treatment of safe drinking water to the citizens of Ann Arbor and portions of Ann Arbor and Scio Townships. Water Treatment Services operates and maintains the City's source water facilities, water treatment plant, six finished water storage facilities and four remote pumping stations. Water Treatment Services is also responsible for the operation and maintenance of four dams and two hydroelectric power generation facilities, and provides laboratory services for internal and external drinking water, wastewater and storm water customers.

REVENUES

Charges for Services - Reflects lower than anticipated revenues for FY 2011 because the Superior hydroelectric facility has been out of service longer than anticipated for its 10-year scheduled major maintenance.

EXPENSES

Payroll Fringes - The increases are from higher pension, VEBA and medical insurance costs.

Other Charges – The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Pass Throughs – The FY 2011 & 2012 transfers were for dam projects which are not planned to include additional funding in FY 2013.

Capital Outlay – The decrease is due to fewer capitalized equipment purchases and fewer major construction projects planned.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Service	Area Administrator:	Craig Hupy
Service Unit:	Water Treatment	Manager:	Molly Wade

Service Unit Goals	City Goals:
A. Provide a continuous supply of safe drinking water to the citizens of Ann Arbor and the city's two wholesale customer supplies	2
B. Complete due maintenance of equipment for improved reliability	3
C. Implement the WTSU priorities for FY12 in the City's CIP	3
D. Provide an annual estimate for unaccounted water	1
E. Provide Laboratory services to internal and external customers to help meet the City's stormwater program requirements and goals	2

Service Unit Measures	Status
A - 100% compliance with drinking water regulations	100% compliance
B - 85% completion of equipment due maintenance	92.5% of scheduled preventative maintenance completed
C - Meet the established schedule of individual priorities/projects	All drinking water projects were prioritized. Two lower priority projects were deferred until later fiscal years to balance workload.
D - Quantify the unaccounted water as a percentage or gallons of delivered water by 06/30/2012.	Calendar year 2011 unaccounted for water = 5%
E - Provide lab services for the Pioneer HS stormwater detention basin project, compost site stormwater management study and the Huron River Watershed Council's Middle Huron Initiative grant project	Lab services provided in a timely manner

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Public Services	Area Administrator:	Craig Hupy
Service Unit:	Water Treatment	Manager:	Molly Wade

Service Unit Goals	City Goals:
A. Provide a continuous supply of safe drinking water to the citizens of Ann Arbor and the city's two wholesale customer supplies	2
B. Complete due maintenance of equipment for improved reliability	3
C. Implement the WTSU priorities for FY13 in the City's CIP	3
D. Provide an annual estimate for unaccounted water	1
E. Provide exemplary laboratory services to internal and external customers	2

Service Unit Measures	Status
A - 100% compliance with drinking water regulations	
B - 85% completion of equipment due maintenance	
C - Meet the established schedule of individual priorities/projects	
D - Quantify the unaccounted water as a percentage or gallons of delivered water by 06/30/2013.	
E – Provide lab services for the water, wastewater stormwater systems and to external customers including the Huron River Watershed Council	

See Budget Summaries Section, Page 71, for list of City Goals

SAFETY SERVICES AREA FIRE SERVICES

REVENUES

Charges for Services –The increase is associated with an increase in the projected number of fire inspections to be completed each year.

EXPENSES

Personnel Services – The increase in costs is associated with a change in the work schedule of 24-hr personnel, which includes scheduled overtime, and a contractual pay increase.

Payroll Fringes - The increases are from higher pension and VEBA costs.

Employee Allowances – The decrease is a result of contractual changes to food allowances.

Other Charges – The decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Fire Services Unit would be charged \$627,205 in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Safety Services	Area Administrator:	Interim Chief Seto
Service Unit:	Fire Department	Manager:	Chief Hubbard

Service Unit Goals	City Goals:
J. Meet or exceed NFPA & ISO Standards	2
K. Develop a list and an annual schedule of required training courses.	2
L. Develop a target occupancy inspection list.	2

Service Unit Measures	Status
A1 First arrival for structure fires within 4 minutes of dispatch by station.	15%
A2 Provide appropriate personal protective equipment (PPE) for all firefighters.	90%
A3 Delivery of Basic Life Support services	100%
A4 Provide Safety Services Director monthly reports of department services to community	100%
A5 Complete real time tie-in of computer aided dispatch records to departmental records management system	Ongoing
A6 Complete deployment of upgraded hardened mobile vehicle computers and response management software	Ongoing
A7 Develop intergovernmental agreement and resolution to allow for adoption of the Michigan Box Alarm System allowing a more precise mutual aid response	100%
A8 Deploy grant purchased fire fighting nozzles to all companies providing modern uniform fire fighting equipment department wide	100%
B Continue to refine annual schedule of required training courses. Identify instructors and add to training calendar	85%
C Refine target occupancy inspection list, refine site inspections schedule to reflect changes in fire prevention division staffing	100%

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Safety Services	Area Administrator:	Interim Chief Seto
Service Unit:	Fire	Manager:	Chief Hubbard

Service Unit Goals	City Goals:
A. Meet or exceed NFPA, ISO and OSHA standards	2
B. Implement an improved training initiative	2
C. Implement a new direction for fire prevention division	2

Service Unit Measures	Status
A1 First arrival for structure fires within four minutes with four people and 13 people within eight minutes	
A2 Deliver of basic life support services	
A3 Develop intergovernmental agreements to allow for regional functional fire district response	
A4 Maintain and revise the box alarm system for better coverage	
B1 Build a new training facility to allow for a central location for training	
B2 Revise current testing procedures	
B3 Implement a physical fitness initiative	
C1 Maintain a consistent professional approach to the growth of the department and to achieve its goals	

See Budget Summaries Section, Page 71, for list of City Goals

SAFETY SERVICES AREA

POLICE SERVICES

The Police Services Unit is comprised of two divisions: Patrol and Support Services. The divisions provide the organization with a broad array of services such as: uniformed patrol, traffic enforcement, ordinance enforcement, professional standards, parking enforcement, general investigations, specialized investigations, training, recruiting, hiring, data processing, records management, and public safety dispatch. The Emergency Management Services Unit is responsible for the coordination of citywide emergency preparedness. The unit also manages overall emergency response and recovery, intergovernmental emergency cooperation, emergency public information, and administers state and federal grants.

REVENUES

Intergovernmental Revenues – The decrease is a result of transitioning dispatch services to Washtenaw County.

EXPENSES

Personnel Costs – The decrease in costs is associated with a reduction of 18.0 FTEs, as a result of transitioning dispatch services to Washtenaw County.

Payroll Fringes – The increase is attributable to higher pension and VEBA costs.

Other Services – The increase in contracted services is a result of transitioning dispatch services to Washtenaw County.

Other Charges – The decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Police Services Unit would be charged \$2,645,131 (includes \$661,124 for parking enforcement-patrol division) in FY 2013.

FY 2012 GOALS AND PERFORMANCE MEASURES

Service Area:	Safety Services	Area Administrator:	Interim Chief Seto
Service Unit:	Police Services	Manager:	Greg Bazick

Service Unit Goals	City Goals:
A. Meet or exceed the average percent of Part I crimes cleared by arrest or exceptional means for cities in the same population group as published annually by the FBI Crime in the United States (CIUS) publication. This goal is based on figures published in the final 2009 report.	2
B. Implement a functional on-line reporting system that will allow citizens to report some crimes that are: not in progress, where no one is injured, where no weapons are involved, and no information can be provided about who may have committed the offense.	2
C. Develop and implement customer surveys to begin gathering data regarding citizen's perspectives on police service delivery.	2, 5

Service Unit Measures	Status
A1 -Clearances for murder or negligent manslaughter category >= 44.5%	None Reported
A2 -Clearances for forcible rape category >=38.9%	9.3%
A3 -Clearances for robbery category >=28.2%	26.3%
A4 -Clearances for aggravated assault category >=54.4%	32.5%
A5 -Clearances for burglary category >=11.3%	7.0%
A6 -Clearances for larceny-theft category >=21.2%	10.0%
A7 -Clearances for motor vehicle theft category >=10.2%	8.5%
A8 -Clearances for arson category >=17.2%	18.8%
B -Go live by January 1, 2012 with an on-line reporting application for reports in categories of theft, lost property, malicious destruction of property, and "information only" reports that meet the criteria as stated above in goal "B".	Completed
C1 -Each month, beginning September 1, 2011, randomly survey 10% of calls for service where citizens have initiated the request for service.	Task abandoned for this FY
C2 -Beginning September 1, 2011, provide a self-serve survey form and drop-box or electronic kiosk on floor 2 of the police/courts building where citizens can provide feedback of their experience at the complaint desk, police records, police property, or gun registrations.	Completed in January 2012

See Budget Summaries Section, Page 71, for list of City Goals

FY 2013 GOALS AND PERFORMANCE MEASURES

Service Area:	Safety Services	Area Administrator:	Interim Chief Seto
Service Unit:	Police Services	Manager:	Greg Bazick

Service Unit Goals	City Goals:
A. Meet or exceed the average percent of Part I crimes cleared by arrest or exceptional means for cities in the same population group as published annually by the FBI Crime in the United States (CIUS) publication. This goal is based on figures published in the final 2010 report.	2
B. Implement a functional law enforcement information dashboard.	2
C. Improve community relations and outreach through Neighborhood Watch.	2

Service Unit Measures	Status
A1 -Clearances for murder or negligent manslaughter category $\geq 62.5\%$	
A2 -Clearances for forcible rape category $\geq 36.6\%$	
A3 -Clearances for robbery category $\geq 27.6\%$	
A4 -Clearances for aggravated assault category $\geq 54.0\%$	
A5 -Clearances for burglary category $\geq 11.0\%$	
A6 -Clearances for larceny-theft category $\geq 20.9\%$	
A7 -Clearances for motor vehicle theft category $\geq 10.0\%$	
A8 -Clearances for arson category $\geq 16.6\%$	
B1 -Implement a law enforcement information dashboard before the end of the fiscal year. The (LEID) is a project funded in part by a Justice Assistance Grant and in part by federal equitable forfeiture funds. The dashboard will graphically identify "hot-spot" areas of reported criminal activity based on various factors. This will in turn assist in determining optimal resource deployment to assist in the likelihood of achieving the clearances stated in goal "A".	
C1 -Hold 4 general meetings or workshops to improve communications with Neighborhood Watch groups.	

See Budget Summaries Section, Page 71, for list of City Goals

FIFTEENTH DISTRICT COURT

The Fifteenth District Court is responsible for adjudicating criminal misdemeanor cases filed for violation of local ordinances, the University of Michigan Regents' Ordinance and state laws. Judges conduct preliminary examinations in felony cases, hear general civil cases where the amount claimed as damages does not exceed \$25,000, preside over landlord tenant cases and certain matters filed in the Family Division of the County Trial Court, and hear appeals from small claims cases. The Court's magistrate conducts informal hearings in traffic civil infraction cases, hears small claims cases and presides over other matters as provided by state law.

Fifteenth District Court Organization Chart

- Administration
- Financial Management
- Communications
- Strategic Planning

- Civil Cases < \$25,000
- Landlord/Tenant Proceedings
- Small Claims Cases < \$3,000
- Criminal & Traffic Misdemeanors punishable by less than 1 year in jail
- Arrest Warrant and Search Warrant Issuance
- Ann Arbor City Ordinance Violations
- Traffic & State Civil Infractions
- University of Michigan Regents Violations
- Felony Preliminary Exams

The Fifteenth District Court hears cases that involve civil cases where the disputed amount is less than \$25,000, landlord/tenant proceedings, small claims cases where the disputed amount is less than \$3,000, criminal and traffic misdemeanors punishable by less than 1 year in jail, arrest warrant and search warrant issuance, City of Ann Arbor ordinance violations, traffic and state civil infractions, University of Michigan Regents violations and felony preliminary exams.

FIFTEENTH DISTRICT COURT

REVENUE

Intergovernmental Revenues – The decrease reflects a reduction in grants budgeted outside the General Fund.

EXPENSES

Personnel Services – The decrease is attributable to a reduction in FTEs.

Payroll Fringes - The increase in costs is associated with an increase in pension funding, VEBA and medical insurance.

Other Services - The decrease in costs is lower contracted services cost, and rent eliminated after FY 2011.

Materials & Supplies – The FY 2011 actual reflected additional costs of moving into a new facility.

Other Charges - The FY 2013 decrease is due to a methodology change in how funding for retiree medical insurance is allocated to City service units.

Municipal Service Charge (MSC) – A cost allocation study was performed in order to more effectively allocate the City's administrative and overhead costs to the service units who utilized the General Fund administrative services and facilities. Since 1993, the City has applied the MSC to non-General Funds to recover these costs. Adjustments have been made to the non-General Funds based on the updated cost allocation study. If the MSC were applied to the General Fund, the Fifteenth District Court would be charged \$241,124 in FY 2013.

DOWNTOWN DEVELOPMENT AUTHORITY

In 1982, the Downtown Development Authority was created by City Council as a vehicle for urban revitalization. Since its creation, the DDA has been a key agent in the rejuvenation of what is now a very active downtown. Some of the more important DDA projects include increasing and improving parking facilities, and installing pedestrian improvements to enhance the attractiveness and use of downtown.

DOWNTOWN DEVELOPMENT AUTHORITY

REVENUES

Charges for Services – The FY 2013 increase is for street meters and parking structures revenues.

Investment Income – The decrease is due to lower investable balances.

Prior Year Surplus – The FY 2013 amount represents the use of prior year fund balance for a portion of the capital costs related to the new parking structure.

EXPENSES

Payroll Fringes - The increase in costs is associated with an increase in pension funding and medical insurance.

Other Services – The reduction was due to higher Parking Contract costs.

Pass Throughs - The increase represents a higher operating transfer for the projected debt service payments.

EXPENSES

Other Services – The FY 2012 budget reflected the beginning of repayments of the LDFA Micro-Loan program, which was shown in the budget on a cash basis. However, the forecasted FY 2012 and FY 2013 budget do not reflect those repayments as those are repayments to the Smartzone LDFA's vendor, not the Smartzone LDFA itself.

NON-DEPARTMENTAL AND DEBT SERVICE

The Non-Departmental Service Area is used to record and track revenue and expenditure activities that are not associated with any specific Service Area. Specific activities include: operating transfers to other funds, contingency for compensation, AATA tax transfer, debt service, city wide dues and licenses, Michigan Tax Tribunal refunds, and other miscellaneous activities.

The debt service funds are used to record the debt service and debt service levy of the City. Debt service on voted general obligation debt issue is funded through the Debt Service property tax levy; for FY13, this levy is proposed to be 0.1200mills. State law does not allow the City to issue general obligation debt in excess of 10% of State Equalized Value (SEV); the debt limit as of June 30, 2011 was \$549.5 million. The debt subject to that limit as of June 30, 2011, was \$120.9 million or 2.2% of the total SEV. Other indebtedness is financed through dedicated millages such as parks millages, specific revenues like water and sewer revenues and direct charges to individual taxpayers as with special assessments. Indebtedness, which is repaid from dedicated financing sources, does not count against the 10% of SEV limit. The total City debt (general obligation and all others) as of June 30, 2011 was \$246.8 million.

NON-DEPARTMENTAL AND DEBT SERVICE

REVENUES

Taxes - AATA taxes are projected to increase 0.8% in FY 2013 due to increased property values. The Debt Service levy decreased due to lower debt payments on tax supported debt.

Prior Year Surplus – This line item is used to balance budgeted expenditures over projected revenues in the General Debt Service Fund and the Special Assessments Debt Service Fund.

Operating Transfers – Decreases are attributable to Debt service transfers.

EXPENSES

Personnel Services – The increase is attributable to budgeted severances.

Other Services – The budgeted decrease represents reductions of contracted services for special projects/initiatives previously budgeted under non-departmental.

Other Charges – The decrease represents reductions of interest payments in the General Debt Service Fund.

Pass Throughs – The increase represents a transfer from the General Fund for the Fuller Intermodal Transportation Project, which is partially offset by reductions of transfers to the General Debt Service Fund.

Below is a summary of general long-term debt (with various issue dates) and annual debt service requirements as of June 30, 2011:

Information Technology Annual Master Planning Process

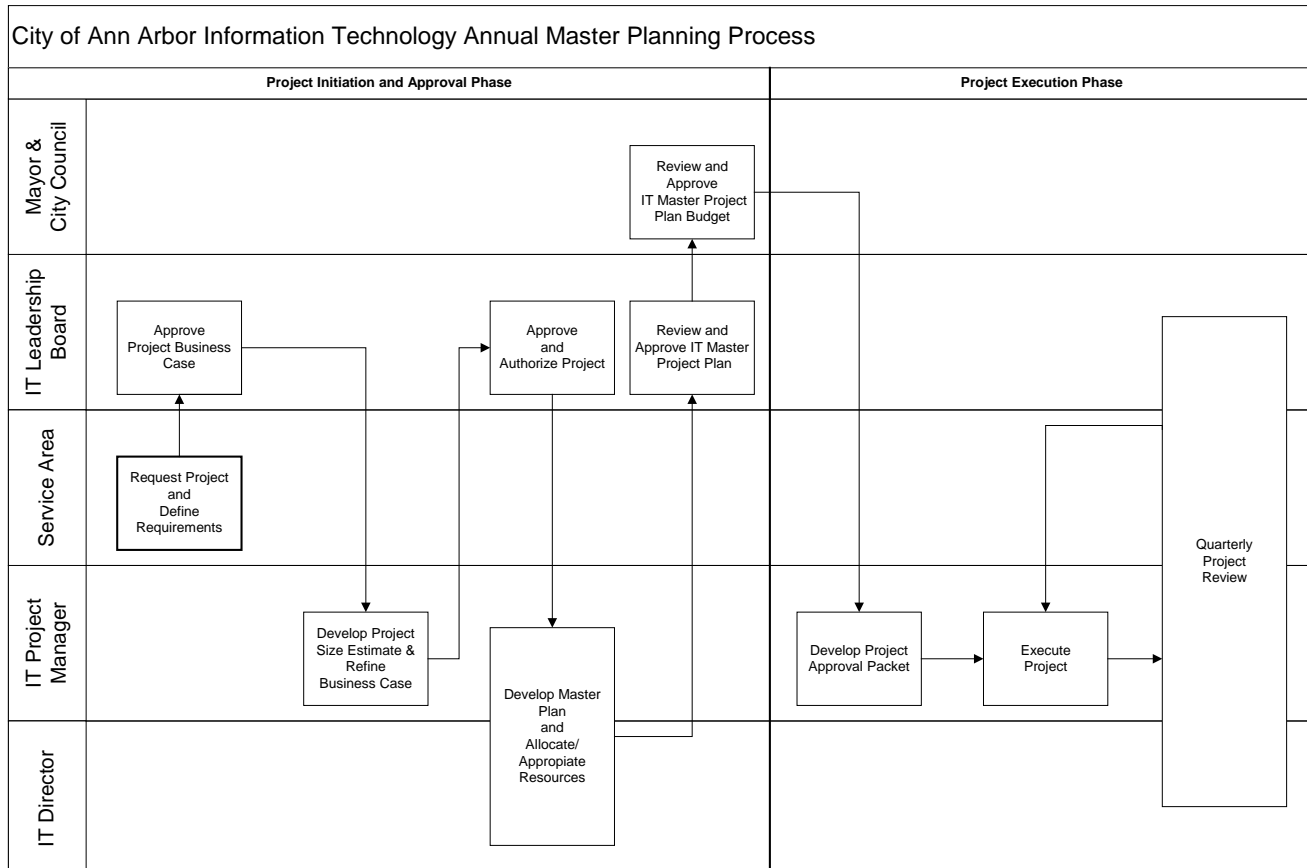

The Information Technology Service Unit (IT) plays an integral role in City operations and effective use of technology remains the primary feasible method of controlling and maintaining the vast amounts of information required to efficiently and effectively operate the City.

The City's IT staff delivers effective business solutions to meet the City's mission, goals, and objectives through the use of an IT Annual Master Plan. The IT Annual Master Planning Process was developed to present a clearer picture of the way the City's Information Technology resources can support the City's short and long-term information needs and to bring accountability to the process.

This annual planning process:

- Assists City Service Units in communicating the direction and priorities of projects.
- Aids the City in allocating appropriate scarce resources to support project requests.
- Provides a framework for IT Steering Committees, the IT Leadership Board and IT management to continually measure and re-evaluate information systems efforts.
- Assists IT in charting strategies and individual project plans to support the service units present and future information needs.

The City's IT Annual Master Planning process is illustrated below.

Information Technology Annual Master Planning Process

The IT Annual Master Planning Process consists of the following major activities:

Project Initiation and Approval:

On a regular basis IT meets with each Service Area to prioritize current activities, report on current project statuses and initiate new minor departmental projects. On an annual basis, IT meets with each Service Area to specifically plan the next year's project needs, including planning for multi-year projects.

Projects are initiated through the use of business cases that define high-level goals, objectives, funding sources, approaches and benefits, such as cost savings, cost avoidance and intangibles. Business cases also plan staffing, facilities, assumptions and initial timelines. Completed business cases for major projects are presented to and approved by the IT Leadership Board.

Once a business case is approved by the IT Leadership Board, a detailed project plan is developed by the Project Sponsor with IT and reviewed again by the IT Leadership Board.

As the business cases are developed for each project, IT management uses them to prepare an overall IT Annual Master Plan and Budget for the next year's projects.

The IT Annual Master Plan is then presented to the IT Leadership Board where the projects are prioritized and the IT Annual Master Plan is approved.

During the annual City Budget Approval Meeting, the IT Annual Master Plan Budget is presented to City Council for approval along with the Administrator's Recommended Budget.

Project Execution:

During this phase approved and budgeted projects are executed. Progress against the IT Annual Master Plan is reviewed quarterly with the IT Leadership Board and IT Management.

CITY OF ANN ARBOR
FY2013 – 2018 CAPITAL IMPROVEMENTS PLAN (CIP)
(Adjustments to FY2012 – 2017 CIP)

Background

The City of Ann Arbor Capital Improvements Plan (CIP) is used as a tool to implement the City Master Plan and assist in the City's financial planning. The CIP outlines a schedule of public expenditures for a six-year period. It does not address all of the capital expenditures for the City, but provides for large, physical improvements that are permanent in nature that are needed for the functioning of the community, including transportation, parks, utilities, and municipal facilities improvements.

The CIP provides a list of high value capital budget items or projects for inclusion in the proposed Capital Budget or the proposed Operations and Maintenance (O & M) Budget of the City's Annual Budget Document. The City utilizes a 2-year budget cycle process where every two years a detailed two-year budget for both operating and capital expenditures is prepared. By city charter, the City Council can approve a one-year budget. So for the second year of each 2-year budget cycle, the Council reviews and approves adjustments to the second budget year.

As the CIP is coordinated with, and forms the basis for the capital projects portion of the budget, the CIP is handled in a similar manner. Every two years a six-year plan is completed based on the needs of the city and the community, and the available resources to perform the projects necessary to address those needs. This was performed for the FY2012-2017 CIP, which was approved by the Ann Arbor City Planning Commission on January 4, 2011 and adopted by the Ann Arbor City Council as the basis for the capital budget on February 7, 2011, with the exception of the Airport Runway Safety Extension Project which was excluded from the FY2012 Capital Budget. This year, the CIP consists of an update to those projects in the plan that will affect the 2013 fiscal year (FY2013).

Projects

In reviewing the current FY2012-2017 CIP for projects that will affect FY2013, staff was charged with examining the projects in the first year of the plan (FY2012) which we are currently in and those in the second year (FY2013) which will begin on July 1, 2012, and to determine which projects:

1. ***Have a revised estimated project cost than that in the current plan.*** If the total project costs affecting a particular funding source is adjusted, with either an increased or decrease, it could impact that funding source requiring adjustments within the plan for FY2013. This could require some project schedules to be adjusted to other years, or some projects even being moved to an "unfunded" status.

2. **Have an adjusted schedule compared to that in the current plan.** Project schedules can require adjustment for several reasons, such as: delays encountered during earlier stages of the project; opportunities for outside or improved project funding if projects are advanced or delayed; reduced resources; or, modified priority of the particular project, or of other projects affecting other projects competing for these same project resources.
3. **Need to be added to, or deleted from the plan.** The conditions and needs of the city's various capital infrastructure systems are dynamic and change over time, even within the relatively short time of a year. As a result, there are some new needs that were identified between the approval of the FY2012-2017 CIP and the adjustments proposed in this FY2013-2018 CIP which necessitate projects requiring funding in FY2013, or perhaps even in FY2012. Conversely, there may be needs previously identified which may no longer be present, or some projects may have already been completed. Thus, some projects in either FY2012 or FY2013 may be deleted. Any new needs that can be deferred until at least FY2014 are not added to the CIP at this time, nor are any projects beyond FY2013 deleted. These items will be reviewed and considered during the next full CIP planning process in the fall of 2012.

There are 345 projects/needs contained in the FY2012-2017 CIP, with 131 of those needing funding in FY2012 and/or FY2013. In addition, there are 20 new projects being added and 17 projects being deleted from the plan for a net total of 134 projects needing funding in FY2010 and/or FY2011.

Adjustments

The total adjusted funding need for FY2013 is \$108,038,780, with \$92,110,480 or 85.3% of the total, representing funded projects. This total funding need amount is approximately \$16,637,000 over that included in the FY2012-2017 CIP for FY2013, an increase of 18.2%. Some of the key contributors to this increase in FY2013 funding need compared to the approved FY2012-2017 CIP include:

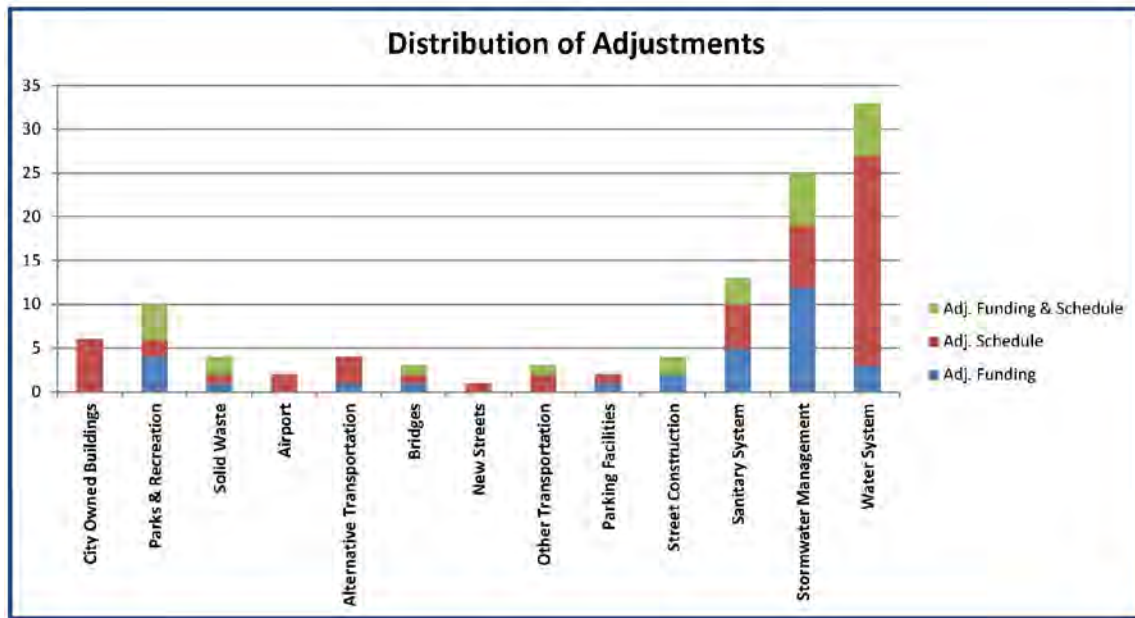

1. Adjusting project schedules in City Owned Buildings and Airport from FY12 to FY 13 (approximately \$2.3 million shifted from FY12 to FY13)
2. Washtenaw Avenue/US-23 Underpass Shared Use Path delayed by MDOT to FY13 (\$2.8 million)
3. Some New Streets projects related to private development were shifted from FY12 to FY 13 (\$1.5 million)
4. Adjusted schedule for the Ann Arbor-Saline Road (Eisenhower to City Limits) Resurfacing/Reconstruction (\$1.05 million) and a new project for the South State Street/Ellsworth Intersection Roundabout (\$1 million)

5. Adjusted funding schedule for the Facilities Renovation at the Wastewater Treatment Plant (approximately \$4 million)

Other summary data regarding the adjustments being made to both FY2010 and FY2011 include:

- 30 projects had funding adjustments
- 55 projects had schedule adjustments
- 25 projects had funding and schedule adjustments
- 20 projects are being added to the plan for FY2012 and/or FY2013
- 8 projects were eliminated as the need no longer exists
- 2 projects were eliminated, but incorporated into existing needs/projects
- 7 projects were eliminated, but incorporated into new needs/projects

The following pages contain graphs and charts displaying these and other summary aspects of the CIP adjustments.

					891,000	4,341,000	7,174,000	44,535,000	56,941,000
Grand total					\$ 61,617,728	\$ 32,563,745	\$ 103,797,909	\$ 152,422,080	\$ 350,401,462

Capital Improvement Program: Significant Non-recurring Projects

- There are 189 capital projects in the FY 2013 capital budget totaling \$350,401,462.
- There are 61 projects over \$1,000,000 (37% of the projects). The total for these projects is \$303,060,026 (86% of total projects). All projects in excess of \$1,000,000 are considered significant. The significant projects for which appropriations were requested in FY 2012 or FY 2013 are listed in this section by project category.
- Of the 61 projects over \$1 million, four are over \$10 million. The total for these projects is \$168,804,720 (48% of total projects).
- All but nine of the projects in excess of \$1,000,000 are non-recurring. The recurring projects over \$1,000,000 are:
 - Tennis & Basketball Court Renovations \$1.2 million;
 - Neighborhood Playgrounds (Playground Improvements) \$1.0 million;
 - Parks Roads & Parking Lots \$1.5 million;
 - Trails & Pathways \$1.5 million;
 - Softball/Baseball Field Renovations \$1.0 million;
 - ADA Ramp Replacements (Outside of DDA) \$3.7 million;
 - Annual Local Street Resurfacing Program \$9.4 million;
 - Annual Major Street Resurfacing Program \$35.7 million;
 - Sidewalk Replacement Program \$3.2 million.

The four largest project categories make up 93% of all capital project dollars:

- | | |
|--|---------------------------------|
| • Utilities – Sanitary Sewer | \$157,351,000 (45% of projects) |
| • Transportation – Street Construction | \$ 74,611,087 (21% of projects) |
| • Utilities – Water System | \$ 56,941,000 (16% of projects) |
| • Utilities – Storm Sewer | \$ 35,300,490 (10% of projects) |
| • All other projects | \$ 26,197,885 (7% of projects) |

The effect of capital expenditures on future operating budgets - Two of the 12 common criteria utilized in the Prioritization Model tool for all of the projects in the CIP are the effect of the project on Operations and Maintenance and energy. The individual project scores for these two criteria are part of the total calculated prioritization score for each project. The O&M and energy scores for each significant non-recurring project are included in this section. The 10 point scales for scoring the O&M and energy criteria are:

- 0** – Will cause increase in O&M/energy costs
- 2** – Has a neutral effect on O&M/energy costs
- 5 or 6** – Makes a modest contribution to O&M/energy cost reduction

Capital Improvement Program: Significant Non-recurring Projects

8 – Makes a modest contribution to O&M/energy cost reduction and creates opportunities to improve operational flexibility/use of technology, extends asset life, or use of renewable energy

10 – Makes significant contribution to O&M/energy cost reduction and creates opportunities to maximize operational flexibility/use of technology, extends asset life, utilizes materials or techniques that provide lowest overall life-cycle costs, or use of renewable energy

Municipal Facilities – Parks and Recreation

MF-PR-08-07 Tennis & Basketball Court Renovations (Annual) – Renovate two sports courts per project cycle year. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$150,000. Total Project Budget \$1,200,000. The renovations should result in a reduction in maintenance costs. The O&M criteria score is 2, and the Energy criteria score is 2.

MF-PR-08-19 Veteran's Pool Locker Rooms (Recreation Facility Updates) – Perform upgrades to facility infrastructure. Projects to be determined through needs assessment or as identified by staff. Project Budget in FY 2013 \$0. Total Project Budget \$1,050,000. This renovation should result in reduction in maintenance costs and lower energy costs. The O&M criteria score is 6, and the Energy criteria score is 8.

MF-PR-10-01 Neighborhood Playgrounds (Playground Improvements) (Annual) - Replaces project MF-PR-08-04 Neighborhood Parks Development. Play equipment and safety surfacing replacement/updates, accessibility upgrades, replace park furniture. Other revisions as identified by community input. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$215,958. Total Project Budget \$1,035,000. These renovations should result in a reduction in maintenance costs, along with providing safer infrastructure. The O&M criteria score is 2, and the Energy criteria score is 2.

MF-PR-10-02 Parks Roads & Parking Lots - Reconstruct and/or improve parks roads and parking lots. Locations to be determined by annual needs analysis of the entire park system. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$250,000. Total Project Budget \$1,500,000. These renovations should result in a reduction in maintenance costs. The O&M criteria score is 2, and the Energy criteria score is 2.

MF-PR-10-06 Trails & Pathways - Reconstruct and/or develop pathways, trails, boardwalks, and greenway corridors. Locations to be determined by annual needs analysis of the entire park system. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$200,000. Total Project Budget \$1,525,000. These renovations should result in a reduction in maintenance costs. The O&M criteria score is 2, and the Energy criteria score is 2.

Capital Improvement Program: Significant Non-recurring Projects

MF-PR-10-13 Softball/Baseball Field Renovations – Renovate softball/baseball fields. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$250,000. Total Project Budget \$1,000,000. These renovations should result in a reduction in maintenance costs. Additional revenue is likely to be captured as the renovations will result in better playing conditions, encouraging more teams to rent the fields. The O&M criteria score is 6, and the Energy criteria score is 2.

Transportation – Alternative Transportation

TR-AT-10-29 ADA Ramp Replacements (Outside of DDA) – Bring corner ramps on city streets into ADA compliance. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$560,000. Total Project Budget \$3,735,000. These renovations will not result in significant changes in operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

Transportation - Bridges

TR-BR-12-02 Stadium Bridges – Replacement of the deteriorating East Stadium bridges over the Ann Arbor Railroad and South State Street. Currently, it is believed that this project will improve the pedestrian facilities within the area, as well as incorporate on-street bike lanes. Project Budget in FY 2013 \$3,670,000. Total Project Budget \$5,298,000. This infrastructure replacement should result in significant future operating expenditure reductions. The O&M criteria score is 10, and the Energy criteria score is 0.

Transportation - Street Construction

TR-SC-06-02 Annual Local Street Resurfacing Program - Resurface/replace the existing pavement, curb & gutter repairs, sidewalk ramp repair and installation, and underground water utilities structures repairs. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$0. Total Project Budget \$9,400,000. These renovations will result in a reduction of annual operation and maintenance expenses. The O&M criteria score is 6, and the Energy criteria score is 0.

TR-SC-06-03 Annual Major Street Resurfacing Program - Resurface/replace the existing pavement, curb & gutter repairs, sidewalk ramp repair and installation, and underground water utilities structures repairs. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$0. Total Project Budget \$35,659,720. These renovations will result in a reduction of annual operation and maintenance expenses. The O&M criteria score is 6, and the Energy criteria score is 0.

Capital Improvement Program: Significant Non-recurring Projects

TR-SC-08-01 Fuller Rd/Maiden Ln/East Medical Center Dr. – Preliminary engineering and design of an intersection improvement. Proposed improvements that are currently being studied for consideration are a multi-lane modern roundabout and a traditional signalized intersection, Project Budget in FY 2013 \$400,000. Total Project Budget \$1,194,881. These infrastructure improvements should not result in significant additional future operating expenditures. The O&M criteria score is 6, and the Energy criteria score is 0.

TR-SC-10-05 Miller Avenue Improvements (Newport to Maple) – Improvements include reconstructing the roadway, improving bicycle lanes and pedestrian crossings, installation of new sidewalks, and storm water improvements (such as stormwater detention, bio-swales, rain gardens, etc.). Project Budget in FY 2013 \$800,000. Total Project Budget \$4,107,788. These infrastructure improvements should not result in significant additional future operating expenditures. The O&M criteria score is 8, and the Energy criteria score is 0.

TR-SC-12-21 Dexter Ave (Huron to Maple) – Reconstruction of existing roadway and replacement of existing Water Main. Project Budget in FY 2013 \$800,000. Total Project Budget \$1,800,000. Renovation will result in a reduction in operation and maintenance expenses. The O&M criteria score is 8, and the Energy criteria score is 0.

TR-SC-12-N/A Citywide Guardrails/Retaining Walls Installations – Installation of guardrails and retaining walls. Project Budget in FY 2013 \$150,000. Total Project Budget \$1,000,000. These infrastructure improvements should not result in significant additional future operating expenditures.

TR-SC-12-N/A Citywide Street Resurfacing – 2011 STPU – Resurfacing of roadway. Project Budget in FY 2013 \$7,343,451. Total Project Budget \$8,443,451. Renovations will result in a reduction of annual operation and maintenance expense.

TR-SC-13-N/A E. Stadium, Packard-Washtenaw Resurfacing – Resurfacing of roadway. Project Budget in FY 2013 \$1,500,000. Total Project Budget \$1,700,000. Renovation will result in a decrease in operation and maintenance expenses.

TR-SC-13-N/A Fuller Rd. Resurfacing – Resurfacing of roadway. Project Budget in FY 2013 \$200,000. Total Project Budget \$1,000,000. Renovation will result in a decrease in operation and maintenance expenses.

TR-SC-13-N/A Newport Street Resurfacing – Resurfacing of roadway. Project Budget in FY 2013 \$300,000. Total Project Budget \$1,400,000. Renovation will result in a reduction in operation and maintenance expenses.

TR-SC-13-N/A Packard/Hill Resurfacing – Resurfacing of roadway. Project Budget in FY 2013 \$850,000. Total Project Budget \$1,472,196. Renovation will result in a reduction in operation and maintenance expenses.

Capital Improvement Program: Significant Non-recurring Projects

TR-SC-13-N/A Sidewalk Replacement Program – Replacement of deteriorating existing sidewalks. This is a recurring project, but significant enough in size to warrant inclusion on this list. Project Budget in FY 2013 \$538,000. Total Project Budget \$3,228,000. This infrastructure replacement program will result in a reduction of annual operation and maintenance expenses.

Utilities - Sanitary Sewer

UT-SN-01-09 Facilities Renovation, Waste Water Treatment Plant - Develop and implement a plan to replace deteriorating infrastructure and equipment while optimizing plant efficiency and treatment. Project Budget through FY 2013 \$63,000,000. Total Project Budget \$100,800,000. Renovation will improve efficiencies and reduce operation and maintenance expenses. The O&M criteria score is 10, and the Energy criteria score is 10.

UT-SN-02-11 Footing Drain Disconnection Project (Long Term) - Disconnect footing drains and install 6-inch pipe within five study areas (250 homes per year). This will prevent backups of sewage into residents' basements. Project Budget in FY 2013 \$2,775,000. Total Project Budget \$22,945,000. These replacements will increase the peak capacity of the stormwater system, and should not result in significant additional future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

UT-SN-03-29 Southside Interceptor Rehabilitation - Investigate and install CIPP lining as required to improve life span of the existing pipe and prevent failures that could discharge to the Huron River. Approximately five miles total of various diameter pipes: 24", 36" and 42". Project Budget in FY 2013 \$1,600,000. Total Project Budget \$8,520,000. These renovations will result in a reduction in operation and maintenance expenses. The O&M criteria score is 10, and the Energy criteria score is 2.

UT-SN-08-05 Geddes Sanitary Sewer (2651 to 3053) – Construction of an 8" sanitary sewer to service properties on Geddes Avenue currently on septic systems. Project Budget through FY 2013 \$1,285,000. Total Project Budget \$1,405,000. This expansion will increase future operating expenditures. The O&M criteria score is 0, and the Energy criteria score is 2.

UT-SN-08-16 North Main Submain Relief Sanitary Sewer – AARR to M-14 – Relief of approximately 5,000 feet of 15" sanitary sewer. Project Budget in FY 2013 \$2,500,000. Total Project Budget \$2,750,000. These renovations should not result in significant additional future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

UT-SN-11-01 Model for Mobility (Ann Arbor-Detroit) FRS – Relocate sewer lines in conjunction with U of M's Fuller Road Station project. Project Budget in FY 2013

Capital Improvement Program: Significant Non-recurring Projects

\$85,000. Total Project Budget \$2,185,000. These renovations should not result in significant additional future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

UT-SN-13-01 Pontiac Trail Sewer Replacement – Replace sewer lines. Project Budget in FY 2013 \$2,500,000. Total Project Budget \$2,500,000. These renovations will result in a reduction in operation and maintenance expenses

Utilities - Storm Sewer

UT-ST-01-08 Storm Asset Identification, GIS Conversion and Model - Collect storm water records for GIS database and apply this data to building a complete, calibrated stormwater system hydraulic model. Project Budget in FY 2013 \$250,000. Total Project Budget \$2,349,990. Completion of this model should not result in significant additional future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

UT-ST-10-21 Stone School Road Storm Improvements – Improve surface drainage, provide detention. Project Budget in FY 2013 \$20,000. Total Project Budget \$1,120,000. These improvements will not result in a reduction of operation and maintenance expenditures. The O&M criteria score is 0, and the Energy criteria score is 2.

UT-ST-12-14 Miller Creek Streambank Stabilization (Phase 2) – Infrastructure improvements identified in Miller Creek Watershed Improvement Plan. Project Budget in FY 2013 \$300,000. Total Project Budget \$1,747,000. These improvements should not result in significant additional future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

UT-ST-12-19 Cistern Install/Tree Planting – Tree planting in public right-of-way in Swift Run Drain, Traver Creek, Malletts Cree and Allen Creek creeksheds. Project Budget in FY 2013 \$300,000. Total Project Budget \$1,105,000. These improvements may result in additional future operating expenditures, with reduction of capital needs to address demands of the stormwater system. The O&M criteria score is 0, and the Energy criteria score is 2.

UT-ST-12-26 Dexter Ave Stormwater Improvements – Stormwater improvements in Allens Creek watershed. Project Budget in FY 2013 \$0. Total Project Budget \$1,400,000. These improvements will not result in a reduction in operation and maintenance expenditures. The O&M criteria score is 0, and the Energy criteria score is 2.

UT-ST-13-03 Traver Creek Streambank Stabilization @ Leslie Golf Course – Halt the erosion of the banks and resulting sediment loading into the creek. Project Budget in FY 2013 \$1,000,000. Total Project Budget \$1,000,000. These improvements should

Capital Improvement Program: Significant Non-recurring Projects

not result in significant additional future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 2.

Utilities - Water System

UT-WS-92-37 West High Service Upgrade – Replace west high service pumps to meet increased demand from Scio Township. Project Budget through FY 2013 \$2,750,000. Total Project Budget \$5,500,000. These equipment replacements will result in a reduction in future operation and maintenance expenses. The O&M criteria score is 5, and the Energy criteria score is 2.

UT-WS-08-06 Replace Steere Farm Well Pump Engines – Replace engines with dual-drive engines capable of operating on electric as well as natural gas. Provide capability for remote start/stop. Project Budget in FY 2013 \$150,000. Total Project Budget \$1,700,000. These equipment replacements will result in savings in future operating expenditures. The O&M criteria score is 8, and the Energy criteria score is 8.

UT-WS-08-10 Barton Electrical Upgrades – Replace aging/outdated electrical equipment at Barton pump station. Project Budget in FY 2013 \$300,000. Total Project Budget \$4,800,000. These equipment replacements should result in savings in future operating expenditures. The O&M criteria score is 2, and the Energy criteria score is 5.

UT-WS-10-15 Russet, Russell & Redeemer Water Main Replacement – Fire protection and water quality/pressure improvements. Project Budget in FY 2013 \$100,000. Total Project Budget \$1,400,000. These improvements will result in a reduction in future operation and maintenance expenses. The O&M criteria score is 6, and the Energy criteria score is 2.

UT-WS-10-16 Miller Avenue Water Main Replacement – Replace water main from Maple to Newport that is past its useful life in coordination with road project. Project Budget in FY 2013 \$1,009,000. Total Project Budget \$1,169,000. This renovation will result in a reduction in future operation and maintenance expense. The O&M criteria score is 8, and the Energy criteria score is 2.

UT-WS-12-11 E. Stadium Blvd-Packard to Brockman – Replace 6” water mains on both sides of Stadium Blvd. Project Budget in FY 2013 \$2,100,000. Total Project Budget \$2,100,000. This renovation will result in a reduction in future operation and maintenance expenses. The O&M criteria score is 6, and the Energy criteria score is 2.

UT-WS-12-N/A Packard Water Main Replacement – Replace water main past useful life in coordination with road project. Project Budget in FY 2013 \$0. Total Project Budget \$1,000,000. This renovation will result in a reduction in future operation and maintenance expenses.

Information Pages: Glossary

A

AATA: Ann Arbor Transportation Authority provides local bus transportation in the Ann Arbor vicinity.

Accounting System: the total set of records that are used to record, classify, and report information on the financial status and operation of an entity.

Accrual Basis of Accounting: basis of accounting that records the financial effects of transactions and other events that have cash consequences in the periods in which those transactions or events occur rather than only in the periods in which cash is received or paid by the enterprise.

Adopted Budget: a budget that has been approved by the City Council.

Allocation: the distribution of available monies, personnel and equipment among various City functions.

Amortization: the reduction of an account through regular payments over a specific period of time.

Annual Budget: an estimate of expenditures for specific purposes during the fiscal year and the proposed means (estimated revenues) for financing those activities.

Appropriation: an authorization made by the legislative body of a government that permits officials to incur obligations and to make expenditures of governmental resources.

Assessed Value: a valuation set upon real

or personal property by the City Assessor as a basis for levying taxes.

Audit: a study of the City's accounting system to ensure financial records are accurate and in compliance with all legal requirements for handling of public funds, including state law and the City Charter.

B

Bond: a written promise to pay a specified sum of money (principal or face value) at a specified future date (maturity date) along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are used typically for long-term debt and sold to investors.

Bond Anticipation Notes: short term interest bearing notes issued in anticipation of bonds to be issued at a later date.

Budget (Operating): a plan of financial operation embodying an estimate of proposed expenditures for a given period of time and the proposed means of financing them.

Budget Calendar: the schedule of key dates or milestones that a government follows in the preparation and adoption of the budget.

Budget Message: a general discussion of the submitted budget and financial conditions of the City presented in writing by the City Administrator as part of the budget document.

C

Capital Budget: a plan of proposed capital

Information Pages: Glossary

expenditures and the means of financing them. The capital budget is enacted as part of the annual budget, which includes both capital operating and capital outlays. The capital budget is based on the Capital Improvement Program (CIP).

Capital Improvement Program (CIP): a plan for capital expenditures to be incurred each year over a fixed period of years setting forth each capital project, the duration of the project and the amount to be expended each year in financing those projects.

Capital Outlay: the purchase of items that cost over \$2,500 and have a useful life of more than two years.

Cash Basis of Accounting: records all revenues and expenditures when cash is either received or disbursed.

Cash Flow Budget: a projection of the cash receipts and disbursements anticipated during a given period.

CDBG Recipients: individuals or organizations that receive grants from Community Development funds.

Cost Center: an organizational and/or budgetary unit within a service area/unit.

CTN: Community Television Network provides access via the local cable network for local governments and public access.

D

DDA: Downtown Development Authority was established to provide and maintain off street parking and pedestrian

improvements in the downtown area.

Debt Service: the actual cost of interest and principal on bond maturities as well as the interest costs of bond anticipation notes.

Deficit: (1) the excess of an entity's liabilities over its assets; (2) the excess of expenditures over revenues during a single accounting period.

Direct Expenses: expenses specifically incurred as the result of providing a product of service (e.g., labor and material used).

Disbursements: funds actually expended.

E

Encumbrance: an obligation in the form of a purchase order, contract or salary commitment that is chargeable to an appropriation, and for which part of an appropriation is reserved. These obligations become disbursements upon payment.

Enterprise Funds: a fund established to account for operations that are financed and operated in a manner similar to private business enterprises. The intent is that the full costs of providing the goods or services be financed primarily through charges and fees thus removing the expenses from the tax rate.

Expenditures: the amount of money, cash or checks actually paid or obligated for payment from the treasury.

Information Pages: Glossary

F

Fiscal Year: a twelve-month period for which an organization plans the use of its funds. In Ann Arbor, the fiscal year is July 1 to June 30.

Fixed Charges: expenses that are generally recurring and constant.

Force Account: construction or maintenance activities performed by a municipality's own personnel, rather than by outside labor.

Full Time Equivalent (FTE): the amount of funding budgeted for a particular position; expressed in fractions of one year.

Fund: a set of interrelated accounts, which record assets and liabilities related to a specific purpose. Also, a sum of money available for specified purposes.

Fund Balance: the excess of an entity's assets over its liabilities.

G

General Fund: the major municipally owned fund which is created with city receipts and which is charged with expenditures from such revenues.

General Obligation Debt: the city issues two types of General Obligation Debt. The first is Unlimited GO Debt, which allows the City to raise taxes without limit to pay for the debt service and the second is Limited GO Debt, which relies on the existing revenue stream but becomes a first obligation against the General Operating Tax Levy.

Goals and Objectives: represent specific initiatives that a service unit will accomplish during the fiscal year. These may represent improvements to the operations or other objectives that are not normally done on an annual basis.

Grant: a contribution of assets by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grant monies are usually dedicated for specific purposes.

I

Interfund Transfers: payments from one administrative budget fund to another, which result in the recording of a receipt and an expenditure.

L

Liability: debt or other legal obligation arising out of transactions in the past which must be liquidated, renewed or refunded at some future date.

Longevity: monetary payments to permanent full time employees who have been in the employ of the City for a minimum of five years.

M

Materials & Supplies: includes chemicals, office supplies, postage, repair parts, and inventory purchases.

Modified Accrual: basis of accounting for all governmental funds and expendable trust and agency funds under which revenues are recorded when they

Information Pages: Glossary

become measurable and available. Expenditures are recorded when the liability is incurred, except for interest on general long-term obligations which is recorded when due.

Municipal Service Charge: an administrative fee charged to funds outside the General Fund for general overhead costs including costs associated with City Administrator, City Attorney, City Clerk, Finance, Administrative Services, Information Technology Services, etc.

N

Non-Personnel Expenses: an expenditure group that includes services, materials and supplies, charges, equipment and other miscellaneous expenses.

O

Object Code: a unique identification number and title for a class of expenditures; the most detailed level of budgeting and recording expenditures; also known as the "line item."

Operating Budget: authorized expenditures for on-going municipal services (e.g., police and fire protection, street maintenance, etc.)

Ordinance: a law set forth by a governmental authority; a municipal regulation.

Other Charges: includes debt service, operating transfers between funds, insurance, and transfers to other entities.

Other Services: includes consulting,

utilities, maintenance, rents, travel, etc.

P

Pass-Throughs: money that passes through the fund as a transfer to another fund or is collected and passed on to another entity such as Ann Arbor Transit Authority (ATA).

Payroll Fringes: the cost of employee benefits including insurances, retirement, uniforms, etc.

Per Capita Cost: cost expressed as an amount per city resident.

Performance Measures: these measures include statistics that indicate the performance of the division focusing on effectiveness and efficiencies related to customer service. These measures can be used to benchmark service with other communities.

Personnel Services: expenditures that represent the cost of salaries and wages.

Policy: a definite course of action adopted after a review of information and directed at the realization of goals.

Position: a position is present if an employee is permanent and the City Administrator or City Council has authorized their duties.

Priority: a value that ranks goals and objectives in order of importance relative to one another.

Procedure: a method used in carrying out a policy or plan of action.

Information Pages: Glossary

Program: collections of work-related activities initiated to accomplish a desired end.

Property, Plant and Equipment: non-consumable materials and supplies with a value of less than \$2,500.

Purchase Order: an authorization and incurrence of debt for the delivery of specific goods or services.

R

Recommended Budget: the proposed budget that has been prepared by the City Administrator and forwarded to the City Council for approval.

Reimbursements: fees received as payment for the provision of specific municipal services.

Reserves: an account used to indicate that portion of fund equity, which is legally restricted for a specific purpose or not available for appropriation and subsequent spending.

Revenue: additions to the City's financial assets (such as taxes and grants) which do not in themselves increase the City's liabilities or cancel out a previous expenditure.

Revenue Sharing: State distribution of monies raised through State Sales, Income and Single Business Taxes to local governments.

S

Service Area: an organizational and/or budgetary unit established by City Council

to carry out specified public services and implement policy directives.

Service Unit: an organizational and/or budgetary unit within a Service Area.

T

Target Based Budgeting: a system by which the City Administrator sets expenditure targets for General Fund service areas based on estimated availability of revenue.

Tax Increment Financing (TIF): a method of financing public improvements to a geographical area by capturing the taxes that are a result of private improvements and new construction in the area.

V

VEBA: Voluntary Employees Beneficiary Association- a trust used to fund the post retirement health and life insurance benefits.

Vehicle Operating Costs: a group of accounts that are used to accumulate the cost of maintaining the City's fleet of vehicles and related equipment.
